# Indiana University of Pennsylvania

2005-2006 Graduate Catalog

Indiana, Pennsylvania 15705-1048

IUP reserves the right to repeal, change, or amend the policies, regulations, and courses contained in this catalog at any time. Tuition and fees are also subject to change.

Press date: May, 2005

# **IUP's Civility Statement**

As a university of different peoples and perspectives, IUP aspires to promote the growth of all people in their academic, professional, social, and personal lives. Students, faculty, and staff ion together to create a community where people exchange ideas, listen to one another with consideration and respect, and are committed to fostering civility through university structures, policies, and procedures. We, as members of the university, strive to achieve the following individual commitments:

- To strengthen the university for academic success, I will act honestly, take responsibility for my behavior and continuous learning, and respect the freedom of others to express their yiews.
- To foster an environment for personal growth, I will honor and take care of my body, mind, and character. I will be helpful to others and respect their rights. I will discourage intolerance, hatred, and injustice and promote constructive resolution of conflict.
- To contribute to the future, I will strive for the betterment of the community myself, my university, the nation, and the world

### **IUP's Statement of Nondiscrimination**

Indiana University of Pennsylvania is committed to equal opportunity and affirmative action for its students, employees, and applicants. The university is committed to providing equal educational and employment rights to all persons without regard to race, color, sex, religion, national origin, age, disability, sexual orientation, or veteran's status. Each member of the university community has a right to study and work in an environment free from any form of racial, ethnic, and sexual discrimination. In accordance with federal and state laws, the university will not tolerate racial or ethnic discrimination or discrimination on the basis of disability.

This policy is placed in this document in accordance with state and federal laws including Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Educational Amendments of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the Civil Rights Act of 1991 as well as all applicable federal and state executive orders. This policy extends to disabled veterans and veterans of the Vietnam era

Please direct all general inquiries regarding equal opportunity and affirmative action to

# **IUP's Affirmative Action Policy**

Indiana University of Pennsylvania is committed to provide leadership in taking affirmative action to assure equal education and employment rights for all persons without regard to race, color, sex, religion, national origin, sexual orientation, age, disability, or veteran's status. We believe that respect for the individual in the academic community must not be abused Harassment or disregard of a person based on any of these characteristics is particularly intolerable on the university campus.

The university will take affirmative action to insure the implementation of this policy in employment and admissions. This policy and the obligation to provide equal opportunity include the following commitment.

- To recruit, hire, train, and promote persons for all job classifications and to admit and educate students without regard to race, color, sex, religion, national origin, age, disability, or veteran's status.
- To base decisions on selection, employment practices, employee utilization, job training, career mobility, promotion, program operation, and services provided in observance of the principles of equal employment opportunity and affirmative action.
- 3. To assure that all other personnel actions, such as compensation, benefits, transfers, furloughs, returns from furlough, agency-sponsored training, educational benefits, tuition assistance, and social and recreational programs, etc., are administered in keeping with the policy, strategies, objectives, goals, and timetables of the Equal Opportunity Act and the Affirmative Action Plan of the university.
- 4 Fo create and maintain a workplace and educational climate that is free from discrimination and harassment, including sexual harassment, of any employee or student

- To make every effort to increase employment and educational opportunities for qualified disabled applicants and employees with disabilities.
- To assure that in offering employment or promotion to persons with disabilities, no reduction in compensation would result because of disability income or other benefits.
- To assure that reasonable accommodations will be made for the physical disabilities of an applicant or student.

As an equal opportunity/affirmative action institution, the IUP Affirmative Action Plan is applicable to employees/enrollees of Indiana University of Pennsylvania under provisions of federal and state laws including Titles VI and VII of the Civil Rights Act of 1964. Title IX of the Educational Amendments of 1972, Sections 503 and 04 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1990, and the Civil Rights Act of 1991, as well as all federal and state executive orders. This policy extends to disabled veterans and veterans of the Vietnam era.

The IUP Affirmative Action Plan supersedes the Affirmative Action Plan of 1995-96, the 1983 IUP Plan, the August 8, 1975, Affirmative Action Plan adopted by the Board of Trustees, and the March 31, 1982, Affirmative Action Plan submitted to the U.S. Office for Civil Rights.

Responsibility for the implementation of the IUP Affirmative Action Plan has been assigned to the Associate Vice President for Human Resources.

Any employee having suggestions, problems, or complaints with regard to Equal Employment or Educational Opportunity or Affirmative Action is encouraged to contact the Assistant to the President for Social Equity by calling 724-357-2431.

Students with suggestions, problems, or complaints should contact the Office of the Vice President for Student Affairs, 211-216 Sutton Hall, or by calling 724-357-4040.

Employees having inquiries regarding accommodations for persons with disabilities should contact the Assistant to the President for Social Equity, G-4 John Sutton Hall, or by calling 724-357-2431.

Students with inquiries regarding accommodations should contact the 504 Coordinator/ADA Student Concerns, 216 Pratt Hall, or by calling 724-357-4067.

Specific inquiries regarding Title IX should be directed to the Office of the Vice President for Student Affairs, 211-216 Sutton Hall, or by calling 724-357-4040.

# University Policy on Sexual Harassment

Indiana University of Pennsylvania is committed to maintaining a learning and work environment that is free from sexual harassment. Acts of sexual harassment seriously undermine the atmosphere of trust and respect that is essential to a university community. Moreover, sexual harassment is legally prohibited and will not be tolerated. Sexual harassment is a form of sex discrimination that is prohibited under Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and the Pennsylvania Human Relations Act. It is imperative that all employees, students, and vendors comply with both the spirit and intent of federal, state, and local laws, government regulations, and court orders which relate to sexual harassment. It is the purpose of this policy to define prohibited conduct and provide guidance on the procedures for addressing complaints.

All students, managers, administrators, faculty, staff, and vendors have a responsibility to adhere to the contents of this policy. Members of the university community are encouraged to report complaints of sexual harassment promptly in accordance with the Sexual Harassment Complaint Procedures set forth below. Any persons found to be in violation of this policy will be subject to disciplinary action up to and including expulsion for students and termination for employees.

1UP prohibits retaliatory action against persons filing an informal or formal complaint of sexual harassment or any person cooperating in the investigation of such a charge, as a complainant, respondent, witness, or other participant. Nor will the university tolerate knowingly false charges of sexual harassment. Acts of retaliation or knowingly false charges shall constitute misconduct subject to disciplinary action up to and including expulsion for students and termination for employees.

To the extent possible, all complaints of sexual harassment shall be considered confidential, and only those persons who are necessary for the investigation and resolution of the complaints will be given information regarding the matter. As much as possible consistent with the university's legal obligations to protect the rights and security of its employees and students, the university will respect the confidentiality of both the complainant and the accused.

Questions about the Sexual Harassment Policy should be referred to the Assistant to the President for Social Equity, G-4 Sutton Hall, at 724-357-4874.

# The University

#### Location

IUP, the largest state-owned university in Pennsylvania's State System of Higher Education, is located in Indiana, Pennsylvania, a community of 30,000 about fifty-five miles northeast of Pittsburgh and thirty miles north of Johnstown. Situated in the Allegheny foothills, Indiana has a moderate climate conducive to study the year round and a wide variety of historical, cultural, and recreational facilities both immediately at hand and in neighboring population centers.

# A University Education

As an institution of higher learning, IUP is committed to the preservation, expansion, and transmission of knowledge in all its forms. As a university within the Pennsylvania State System of Higher Education, IUP has primary responsibilities of providing high-quality education at a reasonable cost and assessing and responding to the higher educational needs of the commonwealth; as a university, IUP has the responsibility of being concerned with the needs of the nation as a whole and those of the international community at large so far as resources allow.

At the graduate level, IUP is committed to encouraging intellectual excellence, research, and scholarship; to providing indepth study in each student's special field; and to stimulating continued cultural and intellectual growth for faculty and students.

The general mission of doctoral programs is to encourage the pursuit of knowledge through intellectual inquiry. Doctoral offerings will be primarily professional with emphasis on business, education, public policy studies, human services, social sciences, and applied science and technology, while allowing for distinctive, theoretical programs in the arts and sciences. Doctoral programs reflect the special role of IUP in the Pennsylvania State System of Higher Education by meeting, in particular, identified state, regional, national, and international needs. IUP is further committed to meeting these needs by offering cooperative programs with other State System institutions. Doctoral programs will be offered in areas of need and when institutional resources allow.

The mission of the master's and specialist/certificate levels is to sustain and to develop programs of a similar high quality while, in general, emphasizing more applicable professional skills. Master's and specialist/certificate programs should be based on institutional strengths and should, in addition to other goals, address state and regional needs.

IUP is committed to conducting and disseminating basic and applied research and expects and encourages such scholarly activity in all forms.

IUP provides continuing education for adults through conferences, workshops, short courses, training programs, and degree programs for part-time students. The university strives to meet the cultural and professional needs of the community through its outreach programs and public service activities.

# History of the University

IUP has witnessed a history rich in accomplishment. Since 1875, when it served only 225 students in a single building, it has experienced continuous growth, becoming Pennsylvania's fifth largest university. The current enrollment is over thirteen thousand, with students from thirty-six states and over fifty-five countries.

The first building, named John Sutton Hall in honor of the first president of the Board of Trustees, was opened for students on May  $17,\,1875$ 

In April, 1920, control and ownership of the school passed to the Commonwealth of Pennsylvania. In May, 1927, by authority of the General Assembly, the State Normal School became a college, with the right to grant degrees. The name was then changed to the State Teachers College at Indiana, Pennsylvania. In 1959, the legislature approved a change of name to Indiana State College; in the 1960s there followed a rapid growth in the liberal arts program.

IUP started awarding M.Ed. degrees in 1958 and had awarded 516 by 1965. In December, 1965, Indiana was redesignated Indiana University of Pennsylvania and given the authority to expand its curriculum and to grant additional degrees at the master's level. At this time the first doctoral program was initiated

#### Graduate Education at IUP

Graduate education was inaugurated at IUP in September, 1957. The university currently offers programs leading to the Master of Arts, Master of Business Administration, Master of Education, Master of Fine Arts, Master of Science, Doctor of Psychology, Doctor of Education, and Doctor of Philosophy degrees. Nondegree programs leading to certification in various teaching and school service fields are also available.

The university is classified as Doctoral Research Intensive by the Carnegie Foundation for the Advancement of Teaching. This classification places IUP in the company of institutions that provide a full range of baccalaureate programs and have a commitment to graduate education through the doctorate degree, awarding at least twenty doctoral degrees annually.

In all graduate programs the objectives are to (a) encourage excellence and scholarship, (b) provide depth in the student's special field; and (c) stimulate enthusiasm for continued cultural and professional growth on the part of the student.

The School of Graduate Studies and Research staff is assisted in its daily functioning by a) the University-Wide Graduate Committee, a standing committee of the University Senate concerned with graduate program curriculum and policy matters, b) the Graduate Student Assembly, an elected graduate student body representative of all campus academic departments offering graduate programs; and c) the chair persons and coordinators of departments offering graduate programs.

#### Accreditation

ICP is accredited by the Middle States Association of Colleges and Secondary Schools, the National Council for Accreditation of Teacher Education, the Pennsylvania Department of Education, the National Association of Schools of Music for its music curriculum, National Association of Schools of Theatre, American Psychological Association for its psychology curriculum, the National Association of School Psychologists for its school psychology curriculum, the Educational Standards Board of the American Speech-Language Hearing Association for its speech language curriculum, the Council for Exceptional Children in Education of Exceptional Persons, the Accreditation Board for Engineering and Technology for its safety sciences curriculum, the Commission on Collegiate Nursing Education for its nursing curriculum, the Commission on Accreditation for Dietetic Education of the American Dietetic Association for its internship program, and the Association to Advance Collegiate Schools of Business-International for its business curriculum. The university is a member of the Council of Graduate Schools in the United States and of the Northeast and the Pennsylvania Association of Graduate Schools.

# **Buildings and Grounds**

The Division of Administration and Finance at Indiana University of Pennsylvania provides internal and external constituents of the university with the highest-quality services in the most supportive and cost-effective manner. In contributing towards the fulfillment of IUP's mission of teaching, research, and public service, the division is responsible for the development, stewardship, enhancement, integrity, and stability of the university's fiscal, human, and physical resources.

Major responsibilities of the division are organized and operated from the following distinct areas: Engineering and Construction, Facilities Management, Fiscal Affairs, Human Resources, Purchasing Services and Central Stores, Printing/Bulk Mail Center, and University Police Public Safety. The physical campus consists of 341 acres and 75 major buildings on the main campus in Indiana along with branch campuses located in Punxsutawney and Kittanning.

In February, 1996, the IUP Council of Trustees approved the Long Range Campus Development Plan for the university. Since that time, the division has been developing, directing, and coordinating the necessary plans to ensure that the physical plant and facilities are maintained and expanded in total support of IUP's academic goals. With the full support of the university's senior administration, the Long-Range Campus Development Plan, including effective and orderly financial plans for implementing proposed changes in facilities, continues to guide the university's expansion.

# Inclement Weather Policy

Indiana University of Pennsylvania is committed to the safety and security of its students, faculty, staff, and visitors. Therefore, the decision as to whether the university should close or remain open during periods of adverse weather conditions is based on the overall concern for the university community. In general, however, IUP's practice will be to remain open and to conduct classes as usual during periods of inclement weather.

Closure of the university: Should adverse weather conditions arise or be anticipated that would make it inadvisable to operate the university on a given day, the president may, at his or her discretion, close the institution (i.e., cancel all classes and on campus activities at all campuses). In the event of either a full- or partial day closure, notification will be provided to the following radio and television stations WDAD Radio (Indiana), WCCS Radio (Indiana), WIAC/TV (Johnstown), KDKA-TV and KDKA Radio-1020 AM (Pittsburgh), and WTAF-TV and WTAF Radio-1250 AM (Pittsburgh). Information may also be obtained by calling 724-357-7538.

Cincellation of IUP-Sponsored Activities or Events in the Absence of University Closure: Should adverse weather conditions arise or be anticipated that would make it inadvisable to conduct an IUP-sponsored activity or event on a date when the university otherwise remains open, the sponsoring unit department has the option to cancel or postpone the function. The sponsoring unit department also assumes responsibility for notifying event participants of the cancellation postponement in an appropriate and timely manner.

Questions regarding the Inclement Weather Policy may be directed to the vice president for Administration and Finance, 235 Sutton Hall, IUP Policy implemented March 6, 1995

#### **IUP Libraries and Media Services**

The IUP Libraries consist of the Stapleton/Stabley central facility, Cogswell Music Library, and campus libraries in Kittanning and Punxsutawney. Collectively, the University Libraries contain extensive print and nonprint collections and a growing collection of full-text on-line resources. These on-line resources include full text journals, dissertations, and books. IUP is a designated Select Depository for federal and state publications with print and electronic resources. A wide range of resources and services is available to support teaching and research. Searching the on-line catalog PILOT through the home page at <a href="https://www.iup.edu/library">www.iup.edu/library</a> provides current information about the libraries' collections.

Librarians are available to help with becoming familiar with resources and to assist with research. The Reference Desk is open until 10:00 p.m. Sunday through Thursday and 5:00 p.m. on Friday and Saturday. Individual appointments may be made by calling the Reference Desk at 724-357-3006. The library also offers chat and e-mail reference services, accessed through the web page under "Library Services." For those teaching courses, librarians offer sessions about library resources and research to students as part of the courses.

If IUP does not own the books needed for your research, a variety of access points are available for obtaining this material at no cost to users. U-Borrow allows users to request books from any of the State System libraries (including the State Library in Harrisburg); books will be delivered to the library of choice. The books may be returned to any of the libraries. Access to U-Borrow is through PILOT, the on-line catalogue. Books can also be requested through PALC1 EZ-Borrow, which searches Pennsylvania, New Jersey, and West Virginia university libraries, accessed through the library web page under "Books and More." Books are delivered and returned to Stapleton Library. If these two options do not prove successful, users may request a search through ILLIAD; the form is on the library web page under "Books and More." Journal articles may be requested the same way. Books may also be borrowed from the University of Pittsburgh, but those same books may be requested through PALCI for a longer loan period.

The library provides a comfortable environment with space for individual and group study. Stapleton Library has a limited number of shared and individual locked carrels for faculty, doctoral, and master's students working on research. Users may apply for one of these locked study carrels during the first two weeks of each semester at the Circulation Desk. Successful applicants pay a \$20 refundable key deposit.

lava City Coffee Bar is on the first floor of Stapleton, adjacent to the collection of popular fiction and nonfiction books. The food and drinks policy states that all drinks need a protective cover and only Java City food may be eaten in the library.

Room 201 in Stapleton Library has been reserved for use by graduate students. It provides a quiet study environment and two computers. Keys for the room may be obtained by paying a \$20 refundable deposit.

A public computer lab with twenty-nine computers is located in Stapleton. The lab is available for public use at times when it is not reserved for library instruction. There are also more than one hundred and six computers throughout the library. Wireless laptops for in-library use can be checked out at the Circulation Desk. The wireless network allows users to connect laptops to the

university network. There are also three network ports available for patron laptop use.

Stapleton Library is open ninety-two hours per week when classes are in session. Hours are:

Monday-Thursday	.7:45 a.m11:45 p.m.
Friday	.7:45 a.m7:00 p.m.
Saturday	.11:00 a.m5:00 p.m.
Sunday	.1:00 p.m11:45 p.m.

There are extended hours during finals week.

A current library hours schedule may be obtained by calling 724-357-2197.

The Media Services Department (Stabley 103) produces and duplicates media material. You can also borrow a variety of electronic equipment for your projects—digital cameras, camcorders, digital projectors, etc. It is open 8:00 a.m. to 4:30 p.m., Monday through Friday. Media Resources (Stabley second floor) has an extensive collection of videocassettes, DVDs, and CDs. It closes at 10:00 p.m. Sunday through Thursday and at 7:00 p.m. on Friday. Saturday hours are noon to 5:00 p.m. Four multimedia pods with the latest software and powerful hardware are available for reserve use during Media Resources' hours.

Book loans are made for ninety days and can be renewed if a "hold" request has not been placed. You can renew your books on line through PILOT up to three times. If another person recalls a book, you have to bring it back within the specified period on the recall notice. Journals do not circulate outside the building.

Journals, newspapers, and microform serials are located on the ground floor of Stapleton.

#### **University Senate**

#### Purpose

The purpose of the University Senate is to provide a formal means through which the student body, faculty, and administration, working as a unified group, shall have a representative share in the governance of the university.

The University Senate approves all curricular matters before implementation and can study any issue of university governance and make recommendations to the president and Council of Trustees.

Nothing relating to the organization and administration of the University Senate shall be construed so as to limit the authority of the Council of Trustees or the president of the university with respect to the administration of the university as prescribed by law.

# Composition and Elective Procedures

The University Senate shall consist of a number of faculty double the number of departments of the university, an administrative segment one-third the size of the faculty segment, and a student segment one-half the size of the faculty segment. The Senate shall also include one Alumni Association representative and four representatives from staff. Faculty, staff, and administrative members must be employees in good standing at the time of election or appointment and during terms of service, and students must be enrolled and in good standing at the time of election or appointment and during terms of service. "Student" refers to both the undergraduate and graduate student bodies. The student segment shall consist of ten times as many undergraduate students as graduate students, each delegation to be elected by its

# University-Wide Graduate Committee

The University Wide Graduate Committee is a subcommittee of the University Senate that comprises faculty, the Vice Provost for Research and Dean of Graduate Studies, the Dean's Associate, and graduate students. The UWGC is responsible for matters involving degree requirements, general policies for admission, scholarships, assistantships, and other matters pertaining to graduate students and the School of Graduate Studies and Research. The committee's primary role is in all areas of graduate curricula, including the review and approval of new courses, programs, or methods of delivery.

# **Computing Services**

All students have access to an extensive set of web-based services, including class registration, schedule planning, and records management. Students are also provided with an e-mail account and a network account, which afford personal disk space for e-mail, projects, and web pages. Technical support is available via the Student Computing Help Desk at <a href="https://www.mp.edu-ats.ists">www.mp.edu-ats.ists</a>.

Academic computing support is provided by technical staff assigned to each college. The college staff provides computational support for undergraduate and graduate students and for faculty and student research.

Connectivity for student computers in the residence halls is provided through the Office of Housing and Residence Life. The administrative needs of the university are served by the Technology Services Center.

The university's computing infrastructure consists of Windowsbased clients and servers and Unix-based servers. Access to the network is provided from every campus building, including the residence halls, utilizing a fiberoptic backbone. Wireless network access is also provided from various locations across campus. Discounted dial-up access is available to students living off campus via an arrangement with a local Internet service provider. IUP is connected to the Internet and Internet2 via SSHEnet.

Student access to computing is provided, for the most part, through the public computing laboratories. The primary public labs are strategically placed around campus to maximize their availability and impact. Several departments maintain computing facilities that are of a focused nature and which are intended to support specific programs. These include several specialized networks to address particular needs.

Through implementation of its strategic computing plan, which is part of the university long range planning process, the university is committed to providing the level of computing and information technology necessary for a modern institution of higher education. Guidance in this area is provided by both the Academic Computing Policy Advisory Committee and the Administrative Computing Oversight Committee.

#### **Journal Publications**

Scholarly journals published at IUP include the following: Advances in Competitiveness Research; The Benjamin Mays Monograph Series; Competitiveness Review; Criminal Justice Policy Review; Hispanic Journal; International Journal of Commerce and Management; Journal of Global Competitiveness; Journal of Small Business Strategy; PAACE Journal of Lifelong Learning; Studies in the Himanities; The Talking Drum; and Works and Days: Essays in the Socio-Historical Dimensions of Literature and the Arts.

#### Foundation for IUP

The Foundation for IUP is a nonprofit corporation established in 1967 to work with the university to develop and maintain private support for IUP. It is governed by a twenty-four-member Board of Directors. Funds raised through contributions from alumni, friends, faculty and staff, corporations, and foundations are used to support scholarships, academic and athletic enrichment, departmental programs, and other priority needs of the university. The assets of the Foundation for IUP now exceed \$35 million. The offices of the Foundation for IUP are in John Sutton Hall.

8

### **IUP Centers and Institutes**

Centers and institutes serve a variety of functions. Each center and institute is unique in its focus and is created to meet a specifically identified need. Centers provide an opportunity for faculty members to utilize their expertise through consultation, technical assistance, and research-related activities. Centers and institutes provide excellent opportunities for students to learn, to demonstrate their knowledge and skills, and to become involved in meaningful projects in the community. Centers and institutes strengthen the research and public service missions of the university and, therefore, enhance the quality of education.

# 10 Student Programs and Services

# **University Testing Services**

IUP is formally recognized as an official testing site by several national testing agencies. These include American College Testing, Educational Testing Service, Psychological Corporation, Law School Admissions Council, and College Board. The Office of Career Services sponsors IUP's University Testing Services as part of its comprehensive mission to assist students in finding appropriate occupations and professional and graduate programs In addition to paper-and-pencil testing, IUP operates a computer based testing (CBT) facility located in 311 Pratt Hall. Tests available in the CBT format include the GRE General Examination, GMAT, CLEP, MAT, TOEFL, and Praxis I (PPST). Examinees may schedule appointments for tests by calling 724-357-4994. Pre-registration is required for all tests, and examinees are encouraged to register early to ensure that appointments are available. The following are of particular interest to potential students

The Graduate Record Examination (GRF) General Test is administered only in a computer-adaptive format. The subject examinations are offered in a paper-and-pencil format only in November, December, and April. Information and registration booklets are available from the School of Graduate Studies and Research or from the Office of Career Services. Registration forms for the subject tests must be sent directly to ETS in Princeton, New Jersey. On-line registration is also available.

The Miller Analogies Test (MAT) is administered on the computer by appointment. To obtain registration materials, contact the Office of Career Services at 724-357-2235. All School of Graduate Studies and Research applicants with a GPA below 2.6 must take the MAT.

The Graduate Management Admission Test (GMAT) is administered only in a computer-adaptive format. Registration booklets are available from the M.B.A. coordinator in the Eberly College of Business and Information Technology, from the Office of Career Services, or from the School of Graduate Studies and Research. On-line registration is available.

The Praxis Series is administered on six nationally established dates (September, November, January, March, April, and June). These tests are required for teacher certification in Pennsylvania.

and many other states. The PPST (Praxis I) is available in the CBT format or the paper-and-pencil format. Examinees who wish to test on the computer may call 724-357-4994 to schedule an appointment.

The Test of English as a Foreign Language (TOEFL) is exclusively computer based. Students whose native language is not English may be required to take this examination. Check with the School of Graduate Studies and Research for more information on this requirement.

Law School Admission Test (LSAT) information is available at Career Services or by contacting the director of the Pre-Law Program for the College of Humanities and Social Sciences Information on the Medical College Admission Test (MCAT) is available through the dean of the College of Natural Sciences and Mathematics

Arrangements can be made in advance for the administration of tests adapted to persons with visual, auditory, learning, or physical disabilities by contacting the individual testing program.

University Testing Services is a center for the administration of tests and neither makes testing requirements nor offers interpretations of testing results. Commercial "How to Prepare for..." materials are available in the Co-op Store and other local bookstores. Questions regarding test requirements and required scores should be addressed to the School of Graduate Studies and Research or to the graduate institution(s) to which the student is applying. Questions regarding specific registration matters and test agency information and registration materials may be directed to the Office of Career Services, 302 Pratt Hall, 724-357-2235, or to the CBT Center, 311 Pratt Hall, 724-357-4994

#### Career Services

The Office of Career Services, 302 Pratt Hall, is open to all IUP graduate students and alumn. Resources are available to assist students with their personal career plans, including resume-writing, interviewing skills, and joh-hunting techniques. Individual appointments with career counselors are recommended.

Services include on-campus interviews, job fairs, on-line job opportunities, an extensive Career Library, and programs that

assist students and alumni in networking. Visit the Career Services Web page at www.nup.edu/career.

#### **Publications**

The Penn, IUP's campus newspaper, is published three times a week during the fall and spring semesters and once a week during summer sessions by students wishing to gain practical newspaper experience. Interested students are advised to attend organizational meetings held at the beginning of each semester.

The Source (IUP student handbook) is distributed to all students, graduate and undergraduate, in an on-line version. It includes rules and regulations, extracurricular programs, and general information of interest to students.

Thesis/Dissertation Manual is available in the School of Graduate Studies and Research and on the web at <a href="https://www.iup.edu/graduate/assets/tdmanual.htm">www.iup.edu/graduate/assets/tdmanual.htm</a> to all graduate students and is free of charge. It includes guidelines, deadlines, and forms for students preparing theses or dissertations.

#### Services for Students with Disabilities

Disability Support Services (a unit of the Advising and Testing Center) is the primary agent for the provision of access for IUP students with documented physical, learning, or other disabilities. Faculty and staff within the office serve to ensure IUP's program access compliance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act. Students with disabilities are urged to register with the office. Services provided include, but are not limited to: early registration (when the university needs to provide a service such as a classroom move or assisting with recorded books); equipment loan; test proctoring and reading; note taking; recording of books; NCR paper; liaison with faculty, OVR, and BVS; brailling; and general advising and counseling. Further information may be obtained in 216 Pratt Hall, by calling 724-357-4067 (V/TD), by e-mailing Advising-Testing@up.edu, or on the website www.iup.edu/advisingtesting (use the Disability Support Services link).

#### Speech and Hearing Clinic

The Speech and Hearing Clinic, located in Davis Hall, offers diagnosis of speech and language problems, hearing evaluations, and a regular program of therapy. The clinic also administers the speech and hearing clearance for teacher education programs.

These services are made available without charge to students regularly enrolled at the university to give the necessary assistance to alleviate deficiencies which would interfere with successful performance and progress in the university and in future work. Students are encouraged to use the facilities provided for them and may of their own initiative come to the chinic for help, or they may be referred by any faculty member or university official.

# Housing for Graduate Students

IUP provides both residence hall and apartment housing suitable for single graduate students. One floor of Campus Towers is reserved for graduate-level students and consists of two-person, one-bedroom furnished apartments. Cable TV, all utilities, as well as local telephone hookup and monthly service fees are included in the apartment fee. IUP will assign roommates to students who do not self-select roommates.

Single-occupancy residence hall rooms are available in McCarthy Hall on a first-come basis. There is no housing on campus that meets the requirements for family housing. Information about privately owned apartment units suitable for families is available from the Office of Housing and Residence Life.

Information may be obtained Monday through Friday from 8:00 a.m. to 5:00 p.m. at 724-357-2696, by fax at 724-357-5762, or by e-mail at <a href="mailto:uup-olivl@iup.edu">uup-olivl@iup.edu</a>. Visit <a href="mailto:www.uup.edu/house">www.uup.edu/house</a> for more information about the housing program.

# Dining on Campus

- Foster Dining Hall is a traditional all-you-care-to-eat dining location with a variety of stations. A Munch Box in the lobby of Foster Dining Hall provides a boxed lunch or a quick snack to go. (accepts meal plans, cash, Flex dollars)
- HUB Rock II, located in the Hadley Union Building, features a
  wide variety of foods such as Bene Pizza, Grifle Works, Create
  Your Own Pasta, Grab 'n' Go, Kettle Classics, Bagel Works,
  and Chick-fil-A. (All accept meal exchange [except Chick-filA], cash, Flex dollars, smart chip, MAC/debit)
- Folger food court features Burger King, PanGeos Pasta
  Kitchen, Avalanche Ice Cream Bar, Freshens, Montague's Deli,
  and the Home Zone. (All accept meal exchange [except
  Burger King, Freshens, and convenience items] cash, Flex
  dollars, smart clup, MAC/debit.)
- Java City (Roasters of Fine Coffee). Kiosks are located in the Co-op Store, Library building, and the lobby of Foster Dining Hall. (accepts cash, Flex dollars)
- Eberly Kiosk is a mini food court in the lobby of the Eberly School of Business building. (accepts cash, Flex dollars)
- The Oak Room, open for lunch only, provides a luncheon buffet—hot specialties, soup, sandwiches, and desserts. (accepts cash, Flex dollars)

The 2005-06 Meal Plan choices (estimated pricing at the time of printing) for students living in residence halls:

•	AF—19 meals per week plus \$100 Flex dollars \$989
•	BF—any 14 meals per week plus \$150 Flex dollars\$988
•	B—any 14 meals per week
	CF—any 165 meals per semester plus \$150 Flex
	dollars

• DF—any 10 meals per week plus \$200 Flex dollars . . . . . \$1,002 Off-campus students, or those living in an on-campus apartment, can choose any of the meal plans listed above or the following:

KF—any 125 meals per semester plus \$200 Flex dollars .\$1,004

Flex dollars work on the same principle as a bank debit card. Each time a food purchase is made, the total cost of the meal is subtracted from the dollar balance in the account. Additional funds can be added to a Flex dollars account at any time.

Visit the IUP Dining web page at www.nup.edu/house/dining.

#### Automobiles

Students, faculty, and staff members who park vehicles in campus parking areas must register their vehicles with the University Police Office. Resident students will be issued parking permits for the following reasons medical necessity, student teaching, or other academic need for a vehicle. A written application must be submitted to and approved by the Parking Authority Review. Board, Parking will be available, for a tee, to resident students not meeting the aforementioned criteria to park in the Robertsbaw parking lot. Reserved parking spaces may be purchased in the parking garage. The University Police Office is located in the Administrative Annex, 910 Grant Street, and can be contacted for information on parking; copies of the current rules and regulations and other parking information can be found at www.nap.edu police.

# Spiritual Life

The IUP Interfaith Council (IFC) is an interdenominational body in which graduate and undergraduate students of all faiths are welcomed and included as equal partners. The IFC recognizes and affirms the spiritual part of every human being. The IFC is composed of campus ministers, advisors to recognized campus religious organizations, and representatives of Indiana churches who have chosen to affiliate. Contact melanie.wardrop@uip.edu or nulie.goebel@uip.edu for further information, including referral to a specific faith group.

# University Health Service (Pechan Health Center)

The mandatory student health fee is assessed each fall and spring semester based upon enrollment status at the university. Graduate students and part-time undergraduates are assessed Health Fee B. Full-time undergraduates are assessed Health Fee A. Clinical care at the health service is provided by board-certified physicians, certified registered nurse practitioners, and registered nurses.

Fee A provides access to the clinical services provided at Pechan Health Center as well as community health programs. (For those students who have paid "Fee A," there may be additional visit and product fees for clinical products and services )

Health Fee B, mandatory for full-time graduate students and parttime undergraduate students, covers the cost of community health programs. Students who have paid "Fee B" can use the self-care cold center, which provides access to low cost, over-the-counter cold remedies.

In the summer there is no mandatory health fee. Fees apply only it a student uses the health service.

Students enrolled in Health Lee B or who are not required to pay a health fee are welcome to upgrade their service to Lee A at any time by sending an e-mail to health-inquiry@uip.edu or by stopping by the Health Center on the corner of Maple and Pratt Students may also pay a per visit fee for clinical care. Spouses of LUP students may enroll in either Fee A or Fee B or may pay a pervisit fee.

Services provided outside of Pechan Health Center such as laboratory work, x-rays, and referrals to outside medical providers specialists are not included in the health fee. Additional information about fees and services can be found at the health center. Web site www.up.edu. healthcenter. For students needing health care at locations off campus, the Health Center has a van to

transport students to local medical facilities for scheduled appointments within three miles of campus.

For emergency care, the local emergency room is available (Indiana Regional Medical Center). Emergency Room services and all other services provided outside of Pechan Health Center are not included in the student health fee. IUP has a contract with a local ambulance service. IUP students who need an ambulance, and have paid Fee A, will not be required to pay out-of-pocket expenses for ambulance service.

The health fee is not an insurance plan. Students are encouraged to have a health insurance plan. All graduate students enrolled for one or more credits or undergraduates enrolled for six or more credits are eligible to purchase the insurance plan offered by Consolidated Health Plans, Inc. More information is available by contacting health-inquiry@uppedu or by calling Pechan Health Center at 724-357-6475.

International students at IUP on J or F visas are required to have health insurance. Refer to www.uip.edu healthcenter for specific insurance requirements and deadlines for submitting insurance fee waiver forms.

The health fee is mandatory. Waivers will be considered only for students living more than fifty miles from campus or for students who are on internships or student teaching assignments at a site more than twenty-five miles from campus. A form for requesting a waiver is available using URSA

# Center for Counseling and Psychological Services

The counseling services department is composed of faculty psychologists and advanced graduate trainees from the departments of Psychology and Counseling. These professionals facilitate the personal and emotional growth of students by offering prevention, confidential intervention, and consultation services on an individual and small-group basis. Beyond the Health Services fee, additional fees are not charged for counseling services.

#### **Guidelines for Student Conduct**

IUP is an academic community within the society at large. As a community, it has formulated a code of standards and expectations which the university considers to be consistent with its purpose as an educational institution. IUP reaffirms the principle of students' rights coupled with an acceptance of full responsibility for one's behavior and the resulting consequences. As a member of the academic community and of the larger society, a student retains the rights, protections, guarantees, and responsibilities which are held by all citizens.

The judicial system of IUP exists to review all alleged academic and behavioral violations as well as violations of federal, state, and local ordinances. The primary intent of this educational system is to promote a positive behavioral change in students while also protecting the rights and promoting the safety and security of the members of the university community. The system holds students accountable for their actions when regulations or statutes have been violated. A complete statement of regulations is available in the student handbook at <a href="https://www.up.edu-studentconduct">www.up.edu-studentconduct</a> source.

#### Student Cooperative Association

The Student Cooperative Association has played a broad role in the cocurricular life of the university for more than sixty years. All students, faculty, and staff who pay the Activity Fee are members of the association. Virtually all campuswide activities outside the instructional program are sponsored wholly or in part by the association.

The Activity Fee is the chief source of income for the association's programs. The student's I-Card will admit him/her free of charge or at a reduced fee to university social, cultural, and athletic events. Other income for the association comes from the profits of the Co-op Store and from events sponsored by the association.

The Student Cooperative Association owns and operates the Hadley Union Building (HUB) complex and the Co-op Recreational Park. The HUB, built by association members through the Activity Fee, offers many facilities and programs for use by the university community. Some of these include the Co-op Store, Fitness Center, Computer Lounges, Food Court, Meeting Rooms, and two large rooms that will accommodate several hundred people each. The Co-op Recreational Park comprises 280 acres of wooded hillsides and fields. Located at the site are a lodge building that will accommodate groups of up to two hundred people, a ski hut, an eighteen-station exercise course, cross-country skiing, hiking and biking trails, picnic shelter, archery range, golf practice range, two ball fields, and a batting cage.

# Cocurricular Learning Abounds at IUP

Learning is not just an academic experience centered on textbooks and classes. It is a lifetime process of interacting with others and participating in surrounding opportunities. Participating in the arts, becoming involved in civic activities, going to a lecture, or being active in an organization have a lot to do with academic success and future happiness and well-being.

Students are encouraged to experiment by attending programs that are both familiar and new to them. With the opportunity to choose from such a wide variety of events and student organizations, students can broaden their perspectives on life and develop new appreciation for various forms of art, entertainment, and leadership. While students cannot involve themselves in all that is available, a carefully planned level of participation can lead to a truly enriched university experience.

# **Graduate Student Assembly**

On a universitywide basis, the Graduate Student Assembly (GSA) is the graduate students' organization. The GSA is composed of two representatives (and frequently an alternate) elected by the full-time and part-time graduate students of the department. It serves graduate students through voting representation on the Senate Graduate Committee and the University Senate, by making recommendations about graduate student affairs to the Graduate Committee and/or the dean of the School of Graduate Studies and Research, and by working through other university committees and channels to improve the social, intellectual, and cultural life of graduate students. All graduate students are encouraged and welcome to participate in the GSA. GSA website: <a href="https://www.cop.uip.edu/gsa">www.cop.uip.edu/gsa</a>. The GSA office is located in Room 220 of the HUB. Office hours are MWF 9-11 a m. (subject to change), telephone 724-357-3180.

13

# 14 Admission

# Requirements

- An applicant must have a bachelor's degree from a regionally accredited college or university.
- 2. The applicant's cumulative undergraduate grade point average must he at least a 2.6 if the bachelor's degree was earned within the past five years. If the bachelor's degree is older than five years, the minimum cumulative grade point average required is 2.4. Applicants whose cumulative undergraduate grade point averages do not meet minimum standards will be required to submit a Miller Analogies Test (MAT) score. If the MAT was taken prior to October 1, 2004, the required score is 47 or if taken after October 1, 2004, the required score is 395. (This change reflects the new MAT)
- 3 Graduate Record Examination (GRE) scores or Graduate Management Admissions Test (GMAT) scores must be submitted prior to admission as required by individual departments. Please refer to the section on Examination Requirements for further details concerning test requirements.

#### **Procedures**

- 1 Each applicant must file a completed application form. All application forms are contained in the application packet received from the School of Graduate Studies and Research or may also be found on the website www.uqv.edu/graduate. (The admissions packets sent to Doctor of Psychology and M.B.A Executive Track applicants differ somewhat from the regular packet.)
- The application should be accompanied by official transcripts from each undergraduate and graduate institution attended, regardless of whether or not a degree was earned. These transcripts must be sealed by the registrar and remain sealed until their arrival at the School of Graduate Studies and Research. If the course(s) or the degree was completed at IUP, the applicant is not required to secure the transcript.
- 3 Two letters of recommendation are required of each applicant

- 4 The required goal statement, dated and signed, is an important component of the application process, as it reflects the applicant's career and academic goals.
- 5 A nonrefundable application fee in the amount of \$30 must accompany the application. The application cannot be processed without this fee. Please pay by check, and make the check payable to IUP.

#### Admission Classifications

Applicants for admission to the School of Graduate Studies and Research are notified of their admission status by the dean of the School of Graduate Studies and Research prior to the heginning of the term of planned study. Applications must be complete before an admissions decision can be determined. Admissions classifications are as follows:

- Precandidacy Status. Granted to an applicant who plans to work toward a graduate degree and whose application materials meet admission requirements as set forth by the School of Graduate Studies and Research and the academic department.
- Certification-Only Admission. Credits taken under the Certification category are not intended to lead to a degree program. This category is designed to assist teachers pursuing Certification credits only. This is a nondegree admission status.
- 3 Special Status. Awarded to an applicant who does not intend to pursue a graduate degree but only to enroll in graduate classes for which he or she is qualified. Students granted Special Status admissions who wish at a later time to pursue a graduate degree should apply to the degree program hefore the completion of twelve credits. Only under exceptional circumstances will courses taken under Special Status be applicable toward the degree.
- 4 One Course Only. It is possible to take a graduate course by registering and paying for it after filing a One Course Only application. Full application to the School of Graduate Studies and Research is not required. One Course Only forms are

- available from the School of Graduate Studies and Research office. Students who use this form to take their first course must apply and be admitted to the School of Graduate Studies and Research before taking additional courses.
- Certificate of Recognition (COR) Admission. This is a nondegree status. Applicants must submit a complete application and meet the admission requirements as set forth by the School of Graduate Studies and Research and the department offering the COR.
- 6. Off-Campus Program Admission. Admission standards and processes for off-campus programs are the same as for those offered on the IUP campus. The sole exception is that students admitted under the "One Course Only" category may take two courses in their initial semester if applying to an off-campus program which utilizes the cohort model.
- Admission Denied. Applicants denied admission to the School of Graduate Studies and Research will receive a letter from the dean of the School of Graduate Studies and Research informing them of the decision.
- 8. Inactive Standing. Because of the demand for the various programs, an admission offer is valid for one year. If a student has not enrolled for any courses during that period of time, he or she may contact the School of Graduate Studies and Research to discuss the possibility of deferring for the following year. However, if a student has not enrolled for any courses during the extension period, he or she will be classified as inactive and will need to reapply for admission. NOTE: Certain programs do not permit admission to be deferred to a semester different from the one stated on the application.

# **Application Deadlines**

The School of Graduate Studies and Research operates under a "rolling admissions" process. This means that applications are reviewed throughout the year and that admission decisions are made daily. Some programs have specific application deadlines, and these are enumerated below.

- Administration and Leadership Studies, Education Track (D.Ed.)
  - Summer Admission—Every two years (even years)
- Administration and Leadership Studies, Human Services Track (Ph.D.)
  - Fall Admission—Every two years (even years) Application deadline February 15
- Administration and Leadership Studies, Human Services Track (Ph.D.—Harrisburg)
   Fall Admission – Every two years (odd years)
   Application deadline February 15
- Art—M.A. and M.E.A.
  - Summer Admission—March 1
- Fall Admission—June 1
  Clinical Psychology (Psy.D.)
- Fall Admission only
- Application deadline lanuary 10
   Community Counseling (M.A.—Monroeville)
  - Fall Admission only
    Early admission deadline—April. Call the School of Graduate
    Studies and Research at 1-800-845-0131 for specific date.
    Regular admission deadline—June. Call the School of

- Graduate Studies and Research at 1-800-845-0131 for specific date
- Counseling Services (M.A.) and Counselor Education (M.Ed.)—Indiana Campus
   Fall Admission—April. Contact IUP's Department of Counseling by calling 724-357-2306 for specific date.
   Spring Admission—October. Contact IUP's Department of Counseling by calling 724-357-2306 for specific date.
- Curriculum and Instruction (D.Ed.)
   Fall Admission—March 15
- Education of Exceptional Persons (M.Ed.)
   Fall Admission—March 1
   Spring Admission—July 15
- Educational Psychology (M.Ed.)
   Fall Admission—February 15
- Post-Master's Certification
   Fall Admission—February 15
- Principal Certification
   Summer Admission—April 1
   Fall Admission—July 1
   Spring Admission—November 1
- School Psychology (D.Ed.) Fall Admission—March 1
- Speech-Language Pathology (M.S.)
   Fall Admission—March 1
- Student Affairs in Higher Education (M.A.)
   Fall Admission—March 1

15

In addition to fulfilling the general application procedure, international applicants must present evidence of fluency in English. Applicants whose native language is not English are required to take the Test of English as a Foreign Language (TOFFL). The School of Graduate Studies and Research will not process applications from international applicants until TOFFL scores are on file in the School of Graduate Studies and Research While the School of Graduate Studies and Research sets a minimum (paper-based) score standard of 500, which converts to a computer-based score of 173, some departments have higher requirements. Please consult the department for details. (Students requesting information about the TOEH, should write to TOEFL. Educational Testing Service, Princeton, Nf 08540, U.S.A. or access the website www.tocfl.org)

International applicants must also complete a Foreign Student Financial Statement, included in the application packet. The 16 applicant must demonstrate sufficient financial resources to meet the cost of living in the United States, the cost of travel to and from the student's native country, and the cost of graduate education at IUP (if living outside the U.S., \$18,000 is needed). Applications will not be processed without an acceptable financial statement and application fee

International students must submit official English translations of their transcripts. These documents must bear the official seal of the issuing college or university

If the international applicant is admitted to the university, the School of Graduate Studies and Research will notify the Office of International Affairs at IUP. The Office of International Affairs will mail official acceptance letters, immigration documents, information on housing, arrival dates, and other general information about the university. Questions concerning immigration documents and other legal matters should be addressed directly to Office of International Affairs, Indiana University of Pennsylvania, Wallace Hall Annex, 875 Grant Street, Indiana, PA 15705-2295, U.S.A. or sent via e-mail to ıntl-affairs@up.edu

# Applicants for Specialist, Administrative Certification, and Letter of Eligibility Programs from the Pennsylvania State Department of Education

The IUP College of Education and Educational Technology offers state approved programs leading to specialist and administrative certificate programs in Hementary School Counseling, Secondary School Counseling (Counseling Department), School Psychology (f.ducational and School Psychology Department), Reading Specialist (Professional Studies in Education Department), and Elementary or Secondary School Principal (Professional Studies in Education). The program for preparation for school superintendency is an integral part of the doctoral program in Administration and Leadership (in the Department of Professional Studies in Education). This doctoral program includes the requirements for a Pennsylvania letter of eligibility to become a school superintendent

Applicants for these programs should follow the same procedures for admission, programming, and registration as described in this catalog. Interested applicants should check with the department

chair or graduate coordinator responsible for the specialized program for information before beginning the admissions process.

# Principal Certification

IUP offers a performance based school principal certification. program in elementary and secondary education. Those who wish to pursue this program must first be granted admission to the School of Graduate Studies and Research. Applicants must have tive years of experience in their original area of certification and hold a master's degree. Before applying, however, interested applicants should consult with the director of the principal certification program (Dr. Cathy Kaufman, Professional Studies in Education Department, 305 Davis Half; 724-357-2400).

# **Examination Requirements**

#### Graduate Record Examination (GRE)

The following departments require the submission of official GRE scores (general test) prior to admission:

- Administration and Leadership Studies, Human Services (Ph.D.)
- Criminology (Ph.D.)
- Educational Psychology (M.Ed.)
- Food and Nutrition
- Geography
- History
- Political Science
- Psychology (Psy D)
- School Psychology (D.Ed.)
- Sociology

In addition to the general test, the Chinical Psychology and School Psychology programs require the Psychology subject test.

#### Graduate Management Admission Test (GMAT)

Applicants to the M.B.A. program are required to submit GMAT scores of not less than 450 prior to admission as part of their application process.

Applicants to the M.B.A. Executive Track program are required only to take and report their GMAT score.

#### Miller Analogies Test (MAT)

Applicants with a cumulative undergraduate GPA below the minimum requirement of 26 (it bachelor's degree was earned within the last five years) or 2.4 (if bachelor's degree was earned more than five years ago) will be required to take the MAT. If the MAT was taken prior to October 1, 2004, the required score is 47; If taken after October 1, 2004, the required score is 395.

Specific information regarding test registration and availability can be obtained from the Office of Career Services, 302 Pratt Hall, 724-357-2235. Applicants should request that their scores be sent to the School of Graduate Studies and Research at IUP

# **Finances**

# **Tuition and Fees**

Fees for the 2004-05 academic year include the following charges, which are subject to change at any time. A full-time graduate student is one who is carrying at least nine graduate credits per semester, while a part-time graduate student carries eight credit hours per semester or less. Students must be enrolled in a degree program for at least 4.5 hours per semester to be considered for financial aid.

Questions about the residency classification should be directed to the Residency Classification office, Clark Hall, 724-357-2217.

#### Tuition—Fall 2004 and Spring 2005

•	Pa. resident full-time	\$2,886 per semester
•	Pa. resident part-time	\$321 per credit
	Non-Pa. resident full-time	\$4,618 per semester
	Non-Pa. resident part-time	.\$513 per credit hour

#### Tuition—Summer 2005

•	Pa. resident .	.\$307 per credit hour
	Non-Pa. resident	 \$491 per credit hour

#### Health Service Fees Health Fee A (fall and spring only)

\$12/semester (offers access to clinical care)

Mandatory for full-time undergraduates (optional for all other students)

Fees subject to change pending Council of Trustee approval.

# Health Fee B (fall and spring only)

\$12 (health and wellness programs and services)
Mandatory for full-time graduate students and part-time undergraduate students

Fees subject to change pending Council of Trustee approval.

There are no mandatory health fees in the summer. Summer fees are based on services that are provided.

The Health Fee can be waived for students commuting from a distance outside of a fifty-mile radius of Indiana or for students having an internship which is more than twenty-five miles from Indiana. Waivers are considered by submitting an electronic request using the form located in the University Records and Systems Assistant (URSA).

# **Student Cooperative Activity Fee**

•	Full-time student		\$112.50 per semester
•	Part-time student	1)1	

Summer ..... \$12.50 per credit (\$150.00 maximum total fee)

Exceptions to Activity Fees: Information regarding exceptions to this fee structure may be found by accessing the Student Cooperative website at www.iup.edu/coop (select Activity Fee Policy) or by contacting the Student Cooperative Association at 724-357-2590. In general, students are eligible to have the activity fee waived if they are doing dissertation work only, commuting at least sixty miles one way to campus, or participating in summer workshops that last one week or less. Also, students who reside and hold internships or student teaching assignments twenty-five miles or more from campus are eligible for a 75 percent fee reduction (100 percent reduction if sixty or more miles away). Any request for a waiver or reduction of the fee must be initiated by the student. Forms may be processed on line by going to www.iup.edu/coop and selecting Activity Fee Policy, or may be obtained at the Student Cooperative Front Desk, located in the Hadley Union Building.

#### Instructional Fee (Mandatory)

	Full-time student	\$289
	Part-time student	
٠	Summer	\$32.10 per credit

# Registration Fee

Full-time, part-time		0
Summer	, ,	0

### Audit Fee (Same as Tuition)

#### Special Fees

#### Damage Fee

Students are responsible for damage, breakage, loss, or delayed return of university property.

# Transcript Fees

Students can request official transcripts in several ways. It on campus during business hours, the student can go to the Registrar's Office in Clark Hall and complete a transcript request form. It only takes a minute to complete, and the student is assured that the request is expeditiously received. There is no charge to students for ordering official transcripts which require routine processing. However, there will be a maximum daily limit of SEVEN (7) official transcripts that can be requested. Any special handling requests can also be made at that time, and special handling requests will have fees assessed. When in the Registrar's Office in person, the student can pay for any special handling requests with cash, check, or a credit card. The Registrar's Office is open Monday through Friday, 8:00 a.m. to 5:00 p.m.

If the student is away from the IUP campus, the student can download a Transcript Request form from the website www.nup.edu registrar, complete it, and either mail or fax it to the Registrar's Office. If he or she does not have access to a computer or to a printer, the student can mail or fax a written request to the Registrar's Office. The request must contain the following information.

- Student's name (include any previous names from time student began course work at IUP)
- · Student Banner number and or Social Security number
- Date of birth
- Dates of attendance at IUP
- Student's address and a daytime phone number where student can be reached
- Number of transcripts requested
- Name, title, and address of person to whom each transcript is to be sent.
- Indicate whether any special handling is to be done in the transcript processing
- Students having multiple transcripts mailed to themselves should indicate it they should be placed in separate, sealed envelopes
- The student's handwritten signature and date MUST appear on the request.
- For mailed requests, enclose a check, payable to "IUP" or credit card information (see below) to cover the cost of any special handling fee
- Faxed requests MUST contain credit card information if special handling is requested. The following information must be included, amount to be charged, the type of service(s) requested (fax and or rush), the cardholder's name, card number, expiration date, and type of card (Visa, MasterCard, and Discover are accepted). If the address on the credit card is different from the return address, this credit card address (including zip code) must be included.

# Special handling fees:

- RUSH Service Fee (RUSH transcripts are mailed the next business day from receipt of the request)—\$4.00 per complete order of transcripts placed at any one time.
- Fax Service Fee Fax transcripts are unofficial and will be handled as a rush request. The Registrar's Office follows up by mailing an official transcript to the designated recipient. Each faxed transcript is \$4. A \$4 rush fee is charged per total order. For example, it a student requests 2 faxed transcripts, the total

- fee would be \$12 (\$4 for each faxed transcript [\$4 x 2] plus \$4 for the total rush order). A fax number must be included in the request or it cannot be processed.
- RUSH requests must be received in the Registrar's Office by 3 00 p.m. in order to be mailed the next business day
- RUSH tees are applied only once per request.
- · All fax transcripts are handled as RUSH requests.

Because of the Family Education Rights and Privacy Act (FERPA), a tederal law, the Registrar's Office is not permitted to process requests made over the telephone, by e-mail, or by anyone other than the student whose transcript is being requested.

The address for the Registrar's Office is Clark Hall, 1090 South Drive, IUP, Indiana, PA 15705. The office fax number is 724-357-4858. For questions, the office telephone number is 724-357-2217.

#### All fees are subject to change without notice.

Grades and transcripts will be withheld by IUP it a student is delinquent in paying any bill owed to the university. Payment of the bill or establishment of a payment plan satisfactory to the university will be required for release of grades and or transcripts

# **University Refund Policy**

The university employs faculty, assigns residence hall space, and arranges for dining services in advance of each term based on the number of students who plan to enroll. A student who withdraws from the university creates vacancies that may not be filled and incurs obligations for compensation and services that must be honored.

The refund policy at Indiana University of Pennsylvania applies to all students, both full- and part-time, enrolled in programs for credit at the university, its branches, the Regional Police Academy, and the Academy of Culinary Arts.

The current refund policy and or sample calculations may be obtained from the Office of the Bursar. The refund policy may also be obtained from the web page www.up.edu bursar.

#### Other Provisions

Formal withdrawal procedures must be initiated through the School of Graduate Studies and Research at the point of withdrawal. A written and dated notice is required by the student or the student's family in special circumstances, such as sickness, within thirty days of the student's withdrawal. In order to receive a reduction in fees for individual course withdrawal, documentation must be submitted to the Office of the Bursar prior to the close of the semester session in which the course was offered.

Students who are suspended from classes, residence halls, and/or dining service will receive a reduction of fees in accordance with the refund policy.

Student military reservists or members of the National Guard who are ordered to active military service by the President of the United States will receive a full reduction in tuition. Other fees will be prorated

Examples of refund calculations are available upon request from the Office of the Bursar, Clark Hall, which is responsible for implementing the refund policy. Students may appeal the decision rendered by the Student Accounts Receivable Office to the Bursar

#### Discrete Course Withdrawal

During the fall and spring semesters, graduate students may withdraw from a graduate course during the first two-thirds of the semester without prejudice and with the grade of "W" by using URSA. Following the close of the established withdrawal period, the student will need to petition the dean of the School of Graduate Studies and Research as determined by the published university calendar. The request must first be endorsed by the course instructor and the student's department chair or graduate studies coordinator, in that order.

#### Financial Aid

The Financial Aid Office, located at Clark Hall, offers financial information and counseling to all students attending IUP. The types of financial assistance offered for graduate students by the Financial Aid Office include student employment and educational loans.

The Free Application for Federal Student Aid (FAFSA) is used to determine eligibility for federal loans and federal work-study. The filing deadline is April 15 of each year.

Graduate students attending IUP on at least a half-time basis (4.5 credit hours or more) will be awarded assistance based on demonstrated eligibility. To be eligible for continued funding, applicants must remain in satisfactory academic standing at the university and show continued academic progress.

An academic year at IUP is composed of a minimum of thirty weeks of instruction in which a full-time graduate student enrolls for at least 18 credit hours. All course work must be taken at IUP with the exception of approved study abroad programs. These standards are used in determining eligibility for federal student aid.

The cost of attending IUP and the university's refund policy are listed in this catalog.

#### Assistantships

A limited number of both 20-hour assistantships (20 hours per week of assistantship service) and 10-hour assistantships (10 hours per week of assistantship service) are awarded yearly to full-time degree-seeking graduate students. Full 20-hour assistantships currently pay a stipend of \$4,740 to \$6,330 for two semesters plus a waiver of tuition for graduate course work (see details below). Duties will vary somewhat from assistant to assistant and may include supervised teaching, research or assistance with research, and university service activities. Duties are under the supervision of a faculty member or administrator. Assistantships are looked upon as an encouragement or reward for academic excellence rather than as a means to relieve financial need

Full 20-hour assistantships carry a full tuition waiver for the semester of the assistantship and eligibility for up to a twelve-credit waiver the following summer. With some exceptions, full 10-hour assistantships carry one-half tuition waiver for the semester of the assistantship and a prorated waiver for the following summer.

Since stipends for assistantships may change from year to year, potential applicants should check with the School of Graduate Studies and Research for current stipend levels.

The deadline for applying for a fall assistantship is March 15 of the same calendar year. Applications and further information are

available at the office of the assistant dean for administration of the School of Graduate Studies and Research.

# **Teaching Associates**

Each year, the School of Graduate Studies and Research offers a limited number of teaching associate positions to qualified doctoral students. Usually, an associate teaches six credit hours of undergraduate courses, but other teaching-related service is sometimes assigned in lieu of teaching. These positions carry a stipend and require the associate to be enrolled for graduate credit during each semester of the appointment. During the summer following the appointment, a tuition waiver of up to nine hours of graduate credit is awarded. Activity and health tees, as well as tuition during the fall and spring semesters, must be paid by the associate.

Minimum requirements: Associates must hold a master's degree or have completed 36 graduate semester hours prior to the appointment and must be enrolled in an IUP doctoral program and remain in good standing during the term of the appointment. Departments may have additional requirements.

For further information, contact the director of Doctoral Studies in the department offering your doctoral program

# Fellowship and Scholarship Information

Julius Filcik Doctoral Fellowship—This fellowship was made possible by an endowment established by Shirley U. Filcik and her family in memory of her husband, Julius, a member of the Class of 1953. The fellowship provides students with a financial award of \$5.000

**IUP Foundation Fellowships**—Foundation Fellowships are awarded to students who have demonstrated merit and the potential for academic excellence in their doctoral studies. These fellowships provide the student with a financial award of \$5,000 and must be combined with either a half-time graduate assistantship or a teaching associate position

To be considered for either fellowship, the student must be nominated by his or her academic department. In addition to a completed admissions application, the nominee must provide the School of Graduate Studies and Research with a one-page prospectus of the research or clinical interests he or she intends to pursue in a doctoral program and a one-page statement of his or her qualifications for the award. All IUP fellowship nominees must be admitted to a doctoral program and must have received either a full-time graduate assistantship or teaching associate position. Awards will be announced by June 1. For further information, please contact the Assistant Dean for administration, the School of Graduate Studies and Research, 124 Stright Hall, 210 South Tenth Street, IUP, Indiana, PA 15705.

Margaret Flegal Harte Scholarships—two \$450 scholarships are awarded yearly to new full-time graduate students. All new School of Graduate Studies and Research applicants except for those who receive other IUP scholarships are considered for the Margaret Flegal Harte Scholarships based on academic records and financial need. No application forms for the scholarships are required; the Free Application for Federal Student Aid (FAFSA) serves as the document for needs assessment. A FAFSA may be obtained from the Financial Aid Office. Interested students may contact the assistant dean for administration, School of Graduate Studies and

Research, 124 Stright Hall, 210 South Tenth Street, IUP, Indiana, PA 15705

Graduate Merit Scholarships—Funding for this scholarship is made possible by the President's Fund for Excellence. The scholarship offers \$500 awards to a small number of students who are entering a graduate program (master's or doctoral) for the first time. Merit scholars must have a strong academic background and must have been granted an assistantship. To be considered for this scholarship, eligible students must be nominated by their academic department. For further information, please contact the assistant dean for administration, the School of Graduate Studies and Research, 124 Stright Hall, 210 South Tenth Street, IUP, Indiana, PA 15705.

Additional Scholarships—Graduate students are encouraged to seek outside scholarship opportunities to help finance their education. A number of scholarship search websites can be accessed through www.finaul.org

# **Employment Programs**

Federal Work Study Program (FWSP)—The Federal Work Study Program provides an opportunity for graduate students enrolled in a degree-granting program of study to earn money to help finance educational expenses. Students may be employed on campus for up to 25 hours per week when classes are in session and 40 hours per week during vacation periods. Federal Work Study jobs not only help to defray the cost of education but can add valuable practical experience accompanying the student's graduate education. Eligibility is based on financial need as determined by the Free Application for Federal Student Aid (FAFSA). The FAFSA is available in the Financial Aid Office along with the institutional application for Federal Work Study. Students are responsible for securing their own positions on campus, but placement assistance is available through the Student Employment Center at 724-357-2235.

Serve-Study Federal Work Study Program—For students who would like to be of service to the community through participation in the activities of selected nonprofit agencies, a number of employment opportunities are available through the Serve-Study FWS program. Contact the Student Employment Center located in 302 Pratt Hall at 724-357-2235 for additional information.

University Employment (UE)—The University Employment Program provides an opportunity for graduate students to work as an accompaniment to their studies program. Maximum UE hours are 25 hours per week when classes are in session and 40 hours per week during vacation periods. This employment program is not based on financial need and submission of the FAFSA is not required. Employment provisions are similar to the Federal Work Study Program.

Special Funded Grant Employment —Grant employment opportunities are also available to graduate students from time to time. Interested students should check with the assistant dean, the School of Graduate Studies and Research, 124 Stright Hall, 210 South Tenth Street, IUP. Indiana, PA 15705.

#### Student Loan Programs

**Federal Stafford Loan**—The Federal Stafford Loan provides the potential for graduate students to borrow up to \$18,500 per academic year. Of this amount, up to \$8,500 may be subsidized,

which means the principal and interest are deferred while the student is enrolled on at least a half-time basis and during a sixmonth grace period. Eligibility for the subsidized loan is based upon financial need as determined by the FAFSA. For any insubsidized loans awarded, interest must be paid by the student on a quarterly basis or capitalized during the in-school and grace periods. Interest is at a variable rate, not to exceed 8.25 percent.

All annual Federal Statford Loans are disbursed in two equal installments, and students are required to complete Federal Stafford Loan Entrance Counseling before receiving funds for the first time at IUP.

Repayment of principal and interest on a subsidized loan begins six months after the student ceases half-time enrollment. The student must pay the interest or have it capitalized during the inschool and grace periods on an unsubsidized loan according to a schedule set by the lender. Principal payments begin six months after half-time enrollment ceases. There are some deferment options available after you leave school.

### Private Alternative Loans

There are a number of privately funded educational loan programs which provide funds to creditworthy students. Although the interest rates and terms are not as generous as the Federal Stafford Loan, some students may be interested in this type of borrowing opportunity. Additional information is available in the Financial Aid Office or at the website www.up.edu.financialaid.

#### Veterans Educational Loans

IUP is approved to offer training under the various G.1 Bills. Students who are entitled to training under one of these bills should contact the veterans' counselor immediately after being accepted for admission to IUP in order to secure additional instructions. This procedure is necessary so veterans may be included on the monthly payrolls. The Office of the Veterans Counselor is in Clark Hall; the telephone number is 724-357-3009.

#### Scholarships and Fellowships

A number of professional organizations, government agencies, and private foundations offer scholarship assistance to graduate students. Many of these opportunities may be found by using web searches to match academic program and interests with appropriate funding sources. The Financial Aid Office website offers the information to begin the search process.

#### **Further Information**

For further information on financial aid, please contact:

#### Financial Aid Office

Indiana University of Pennsylvania

Clark Hall, 1090 South Drive, Indiana, PA 15705-1093

Voice: 724-357-2218 Fax: 724-357-2094

E-mail: financial-aid@iup.edu Web: www.iup.edu/financialaid

# Registration

#### Advisement

Immediately after a student has been admitted to the School of Graduate Studies and Research, he/she should consult the department chairperson or graduate coordinator of his/her intended field of study regarding a program of courses. If the student is a special status admittee, consultation should be with the assistant dean of the School of Graduate Studies and Research. Many departments believe strongly that their students should be advised well before registration for each semester or summer term. Students are responsible for knowing their department's scheduling advisement rules.

# University Registration and Scheduling Assistant (URSA)

Students enrolled at IUP can register for classes only on the web by going to www.iup.edu/wsa. This is the IUP student's tool for class registration and schedule planning.

# Billing

After students have registered, they will receive from the Student Accounts Receivable Office a bill for tuition and fees.

# Schedule Adjustment and Drop/Add Policy

Students have the opportunity to make adjustments to their schedules any time after the original registration date. Please consult course schedules for appropriate dates and times.

At the beginning of each semester, a few days are set aside for dropping and adding courses. The Drop/Add period was established to permit enrolled students to make schedule adjustments, not to allow unregistered students to build schedules. Students using the Drop/Add period for anything other than schedule adjustments will be charged a late registration fee. Drop/Add dates are set at the beginning of each semester, and students should check with their departments to learn the dates, times, and procedures for dropping and adding courses.

# 22 Master's Degree Programs

The School of Graduate Studies and Research offers Master of Arts and Master of Science degrees in most academic fields plus the professional degrees Master of Business Administration, Master of Education, and Master of Fine Arts. (See below for specific degree fields.) All students working toward a master's degree must satisfy the School of Graduate Studies and Research policies set forth in this catalog and any additional special requirements imposed by the program and or its department

Under certain circumstances, a specific School of Graduate Studies and Research requirement for the master's degree may be satisfied by means of substitution. In no case are requirements waived. Requests for substitutions must be made by petition to the dean of the School of Graduate Studies and Research after approval by the student's department

# Master of Arts degrees are offered in the following:

- Adult/Community Education
- Adult Education and Communications Technology Track
- Chemistry
- Community Counseling
- Criminology
- English: Generalist

Literature

Teaching English

- Geography
- History
- Industrial and Labor Relations
- Music
- Physics
- Professional Growth
- Public Affairs Sociology
- Student Affairs in Higher Education

# Master of Science degrees are offered in the following:

- Applied Mathematics
- Biology
- Chemistry
- Food and Nutrition
- Geography
- Nursing
- Physics
- Professional Growth
- Safety Sciences
- Speech-Language Pathology
- Sport Science

#### Master of Education degrees are offered in the following:

- Business/Workforce Development
- Early Childhood Education
- **Education of Exceptional Persons**
- Educational Psychology
- Elementary or Secondary School Counseling
- Elementary and Middle School Mathematics Education
- Mathematics
- Master's in Education
- Literacy
- Professional Growth

#### Master of Business Administration degree (M.B.A.)

#### Master of Fine Arts degree (M.F.A.) offered in the following:

Studio Art

# **Transfer Credits**

Up to six credits of graduate work taken as a graduate student and up to twelve graduate credits through approved inter-institutional agreements may, with written approval, be incorporated as part of the graduate student's program at IUP. These courses must have been completed at a regionally accredited institution, within the past five years, and the grade earned must be a "B" or its equivalent or better. The time limitation rule and residency requirements (cited later in this catalog) pertain without modification to transfer credits.

To request the transfer of credits, the student provides the School of Graduate Studies and Research with a written request indicating the course to be considered for review. A catalog course description or course syllabus must accompany the request. An official graduate transcript showing the earned credits must be provided by the school at which the credits were taken. To be considered official, the transcript must arrive in a sealed envelope bearing the official seal of the issuing institution. The request is reviewed in the School of Graduate Studies and Research and the academic department. After a decision is rendered by the School of Graduate Studies and Research, the Registrar's Office, the student's department, and the student are notified of the transfer decision.

It is strongly recommended that students wishing to transfer credits from another institution while enrolled at IUP receive advance written authorization for credit acceptance from the School of Graduate Studies and Research and the academic department prior to enrolling in that course. The review process is as described in the preceding paragraph. Note: Credits earned at IUP, prior to a student's admission to the current degree program, fall under all terms specified in the preceding paragraph.

If transfer credits are approved, only the credit, not the grade or accompanying quality points, will appear on the student's IUP transcript.

Transfer credits are not posted to the student's IUP graduate record until the student has been admitted to degree candidacy

# Degree Candidacy

Students are reviewed for degree candidacy the semester following the completion of 12 hours of graduate credits. (Some departments require more than twelve credits for candidacy.) Students must be enrolled in course work to be considered for candidacy status. To be admitted to candidacy, students must have achieved a cumulative grade point average of 3.0 or higher in all graduate course work and must have met all program requirements to the satisfaction of the department.

Students who are not granted candidacy after completing twelve graduate credits must satisfy all candidacy requirements during the next semester. At the end of this additional term, students will be granted candidacy or may be asked to leave the master's degree program.

Students with especially strong credentials may be granted candidacy upon admission to the School of Graduate Studies and Research if recommended by the academic department and if their files are complete in every respect.

#### Residency

Master's degree candidates have no formal residency requirements, but all credits applied toward the degree (except a possible transfer of six credits) must be taken through IUP. In addition, all candidates must complete their program's final six credits of graduate work in courses offered by IUP. (The equivalent of two academic years of full-time study is required to meet requirements for graduation from the Student Alfairs in Higher Education [SAHE] program.)

#### Graduation

Early in their final semester or summer session, students must file an application for graduation. Graduation application instructions for applying online are available at www.nup.edu/graduate.

Applications must be filed by the following deadlines: March 1 for May graduation, June 1 for August graduation, and October 1 for December graduation. If all requirements have been met, the degree will be awarded at the next established diploma-award date.

# 24 Doctoral Degree Programs

The School of Graduate Studies and Research offers work leading to the doctorate through the following departments: Criminology, Educational and School Psychology (School Psychology).

Professional Studies in Education (Curriculum and Instruction; Administration and Leadership Studies, Education Track), English (Literature and Criticism, Composition and TESOL), Psychology (Clinical Psychology), and Sociology (Administration and Leadership Studies, Human Services Track).

Applicants should keep in mind that the doctorate is conferred for distinguished achievement in a particular field of scholarship and for demonstrated ability to perform independent research and/or professional practice in an area of that field. No specific number of course credits entitles a student to the degree.

Those persons interested in any of the doctoral programs should read the descriptions provided by sponsoring departments later in this catalog. Deadlines for submitting applications and supporting documents vary from program to program, as do degree requirements. Therefore, it is important for students to check with the sponsoring department at the very start of the application process.

#### The following doctorates are offered:

- ► Doctor of Education in Administration and Leadership
- Doctor of Philosophy in Administration and Leadership Studies
- Doctor of Psychology in Clinical Psychology
- ► Doctor of Philosophy in Criminology
- ▶ Doctor of Education in Curriculum and Instruction
- ► Doctor of Philosophy in English
- Doctor of Education in School Psychology

The doctoral programs in curriculum and instruction and administration and leadership studies maintain cooperative arrangements with other universities in the Pennsylvania State System of Higher Education, whereby some part of the requirements may be fulfilled at these schools.

# Requirements for the Doctoral Degree

Students seeking a doctoral degree must satisfy the minimum School of Graduate Studies and Research requirements described below Sponsoring departments have additional requirements which are equally binding.

Under certain circumstances, School of Graduate Studies and Research requirements for the doctoral degree may be satisfied by means of substitution. Requests for the acceptance of substitutions should be made in the form of a petition to the dean of the School of Graduate Studies and Research, after first obtaining the written approval of the student's department.

# Credit Requirement

A minimum of sixty graduate semester credits, exclusive of dissertation credits, must be earned beyond the bachelor's degree for any of the doctorates offered at IUP.

# **Residency Requirements**

Doctoral candidates will find that residency requirements vary from doctoral program to doctoral program. Doctoral students should check with their departments to learn which of the following residency options apply to their specific doctoral program: completion of a minimum of nine graduate credits at IUP in each of at least two consecutive semesters; completion of a minimum of nine graduate credits at IUP for at least one semester immediately preceding or following a summer of nine-hour study; completion at IUP of at least nine graduate credits in each of two consecutive summers plus six graduate credits during the intervening academic year; or completion of twelve graduate credits at IUP in each of two consecutive summers.

# Transfer Credit

Up to six credits of graduate work taken as a graduate student and up to twelve graduate credits through approved interinstitutional agreements may, with written approval, be incorporated as part of the graduate student's program at IUP. These courses must have been completed at a regionally accredited institution, within the past five years, and the grade earned must be a "B" or its

equivalent or better. The time limitation rule and residency requirements (cited later in this catalog) pertain without modification to transfer credits.

To request the transfer of credits, the student provides the School of Graduate Studies and Research with a written request indicating the course to be considered for review. A catalog course description or course syllabus must accompany the request. An official graduate transcript showing the earned credits must be provided by the school at which the credits were taken. To be considered official, the transcript must arrive in a sealed envelope bearing the official seal of the issuing institution. The request is reviewed in the School of Graduate Studies and Research and the academic department. After a decision is rendered by the School of Graduate Studies and Research, the student's department and the student are notified of the transfer decision.

It is strongly recommended that students wishing to transfer credits from another institution while enrolled at IUP receive advance written authorization for credit acceptance from the School of Graduate Studies and Research and the academic department prior to enrolling in that course. Note: Credits earned at IUP, prior to a student's admission to the current degree program, fall under all terms specified in the preceding paragraph.

If transfer credits are approved, only the credit, not the grade or accompanying quality points, will appear on the student's IUP transcript.

Transfer credits are not posted to the student's IUP graduate record until the student has been admitted to degree candidacy.

# Degree Candidacy

Each student admitted to a doctoral program must receive doctoral degree candidacy after completing at IUP no less than nine nor more than fifteen graduate credits beyond the master's degree (some departments have additional requirements for candidacy; consult the program's coordinator). The student's minimum grade point average for degree candidacy may be set higher than the foregoing School of Graduate Studies and Research requirement by the program's sponsoring department, but in no case may it be lower.

# **Candidacy Examination**

In departments which require it, the candidacy examination is administered by the department in the student's field of specialization. The examination may be written, oral, or both, as determined by the sponsoring department, and may also serve as the final examination for the master's degree if a department so prescribes. The examination may not be taken until the student has completed at least one year of study beyond the bachelor's degree.

#### Comprehensive Examination

This examination is given, usually upon the candidate's completion of course work, to determine the student's progress in the degree field and fields related to it and the student's likelihood of success in his or her research-dissertation phase. The examination may be written, oral, or both and is not necessarily limited to areas in which the candidate has taken course work.

#### Reexamination

A student who fails the candidacy examination, or any part of the comprehensive examination, qualifying examination, or any of the examinations in foreign languages and/or computer language, may request reexamination not earlier than one semester following the time of failure, nor later than one year after that date. No student is permitted a third examination without a recommendation to that effect from the degree program's sponsoring department and the approval of the University-Wide Graduate Committee. Exceptions to this policy for programs can be made only with the approval of the University-Wide Graduate Committee.

# Foreign Language/Research Tool Options

Foreign language and/or research tool requirements for doctoral degrees vary from program to program. In most cases, programs offer options for meeting these requirements. Students should consult with the department sponsoring the degree for specific information and guidance on meeting these requirements.

#### Dissertation

A dissertation is required of all doctoral candidates and must demonstrate the candidate's mastery of his/her research and reflect the results of an original investigation in the principal field of study. The goal should be to make a definite original contribution to knowledge in the field.

#### **Dissertation Committee**

The dissertation committee may supervise several aspects of the student's degree program from the point at which he/she is admitted to doctoral degree candidacy through defense of the dissertation. Students must consult with the sponsoring department to determine which supervisory roles apply. The committee may approve the student's plan of study; arrange for the candidacy examination; arrange for the comprehensive examination; and oversee the candidate's general supervision related to research, the dissertation, and the general meeting of degree requirements.

# Research Proposal

After the candidate has passed the comprehensive examination and has done extensive preliminary proposal research, he/she must present and defend a research proposal before the dissertation committee and the academic community. A copy of the proposal must be placed in the hands of all committee members at least two weeks in advance of the scheduled meeting. The proposal must be found satisfactory by all members of the committee, and a Research Topic Approval Form must be fully signed and approved the department, by the college, and by the School of Graduate Studies and Research, before the candidate may proceed with the dissertation. The *Thesis/Dissertation Manual* outlines this procedure and is available from the School of Graduate Studies and Research.

### **Dissertation Process**

Upon acceptance of the dissertation by the candidate's advisor, the candidate must tollow procedures acceptable to his/her department and dean in providing copies for review by the dissertation committee. The candidate shall then request a formal meeting of the dissertation committee, at a time convenient to all members, to secure dissertation approval. The dissertation must be approved in writing by each member of the committee, as well as the assistant dean for research, the School of Graduate Studies and Research.

### Publication of the Dissertation

Following approval of the dissertation by the committee, a minimum of three copies of the dissertation must be submitted to the School of Graduate Studies and Research's assistant dean for research. The dissertation must be microfilmed according to the plan provided by ProQuest Information and Learning. Guidelines are provided in the Thesis/Dissertation Manual, which is available from the School of Graduate Studies and Research and on line at www.up.edu graduate 'assets, tdmanual.htm.

# Application for Graduation

Applications for graduation must be submitted by the following deadline dates: March 1 for May graduation, lune 1 for August graduation, and October 1 for December graduation. Deadline dates are also available in the *Thesis Dissertation Manual*, as well as in each semester's schedule of classes. Graduation application instructions for applying online are available at <a href="https://www.up.edu/graduate">www.up.edu/graduate</a>.

# Continuous Dissertation

Beginning with the Fall, 2004, term, this policy is binding for all doctoral students. Following completion of all course, language, and skill requirements and of the comprehensive examination requirement, doctoral students must enroll for at least one credit of dissertation or one credit of continuous dissertation each semester (Fall and Spring) annually through the graduation of the student, or until the time limit is exceeded (See "Time Limitation for Doctoral Students" policy). For this period, the student will be considered a full-time doctoral student. Until the dissertation is successfully defended, a grade of "R" will be assigned to each registered credit. Upon successful completion of the dissertation, the grade assigned by the dissertation director will apply to all registered dissertation credits. Students must pay tuition and mandatory university fees (equal to the part-time mandatory fees), and may choose to pay Student Health and Activity Fees if the associated services will be used

76

# General Policies and Procedures

#### General Policies and Procedures

Graduate students are expected to assume full responsibility for knowing graduate program procedures and regulations. General School of Graduate Studies and Research requirements are set forth in this catalog; a description of special departmental degree requirements is available in each department sponsoring the specific degree or certification program. Requests for exceptions to policy are given consideration when unique circumstances exist; questions concerning the proper routing of such requests should be addressed to the dean of the School of Graduate Studies and Research

#### Academic Credits and Student Status

Although many graduate students work part-time or full-time, such work must not interfere with academic achievement. Graduate education at IUP is offered only to students in a position to benefit from it, and students are expected to maintain a sensible balance between graduate program commitments and outside commitments.

Students may schedule full-time academic loads in most graduate programs. Full-time graduate student status is defined as 9 to 15 semester hours of graduate credits per semester, while part-time status is defined as 8 or fewer semester hours per semester. Graduate assistants may not register for more than 12 total hours in any semester and must maintain full-time status throughout the time of their assistantship award.

#### Academic Good Standing

IUP master's students must maintain a minimum of 3.0 ("B") cumulative graduate quality point average to be in good standing academically. Students who fall below good standing are placed on probation for their next active semester or summer term, during which the cumulative average must be raised to 3.0. Students who fail to raise their cumulative averages to at least 3.0 during their probation period will be dropped from their degree program as well as from the School of Graduate Studies and Research and will not be permitted to register for further courses. A student must be in good standing to be admitted to degree candidacy and to graduate. This policy remains the same for

students pursuing a graduate degree at the doctoral level, except the required minimum grade point average is between 3.0 and 3.5, depending upon the program.

# Course Auditing

Auditing is not permitted in a graduate course unless the student has been admitted to the School of Graduate Studies and Research, has received permission to audit from the course's instructor, and has been approved for course enrollment by the dean of the School of Graduate Studies and Research. Auditors must pay normal tuition and related fees. An auditor will, with permission from the instructor, participate in class discussion, do practicum work, take examinations, and share generally in the privileges of a class member. If the student completes all course requirements, an "audit" notation is posted to the student's academic record. No student who is required to carry a certain number of credits may count among those credits the credit for an audited course.

#### Class Cancellation

(see Inclement Weather Policy)

#### Course Numbering

All dual-level courses, open to enrollment by both graduate and qualified undergraduate students, carry 500-599 course numbers; all courses open only to graduate students carry 600-series and above numbers.

# Dual-Level Courses

The number of 500-599 course credits applicable to a degree program shall be a maximum of 50 percent of the credits required for that degree. Some programs may call for less than 50 percent. Students should check this requirement with their advisors.

Graduate students who enroll in dual-level courses should be aware that dual-level courses commonly impose greater obligations on graduate students than on undergraduate students taking the same courses.

# Course Overlaps in Degree Programs

Within set limits, a student may use the same course to count in two different master's degree programs, if the course is acceptable in both programs. However, the number of overlap credits counted toward a second master's degree will be limited to 20 percent of the credits in the second master's degree program. (Should credits be requested for use in a second degree program, they will be treated as transfer credits and therefore count toward the six-credit maximum permitted by the Transfer Credit Policy.)

# Course Repeat Policy

No graduate credit is given for "F" grades, and graduate grading policy does not permit "D" grades. Students may repeat "C" or "F" grades according to the following policy.

- Only one course can be repeated for each graduate degree program the student attempts or completes
- This one course can be repeated up to two times, for a total of three attempts (the original registration for the course plus two repeat attempts).

Semester hours for repeated courses will be counted only once for all attempts made, and the hours and grade earned when the course was last taken will be used to compute the grade point average. However, all attempts and the original grade(s) will continue to appear on the graduate transcript.

# **Graduate Course Scheduling by Undergraduates**

IUP undergraduate students with an academic grade point average of at least 2.6 who are within 32 semester hours of graduation are permitted, after receiving appropriate approvals, to take up to 6 semester hours of graduate work whether or not they have applied for acceptance into an IUP graduate program. Graduate hours so earned have no necessary bearing upon the meeting of undergraduate degree requirements, and no assurance is given or implied as to their later applicability toward graduate degrees should the students be admitted to IUP graduate programs. Should these credits later be approved toward a graduate degree program, they will be treated as transfer credits. Note: Graduate credits taken by an undergraduate student may not be reviewed for transfer if they were counted toward the undergraduate degree.

#### Final Credits Policy

All degree candidates must complete their program's final six credits of graduate work in courses offered by IUP. Under unique circumstances, appropriate substitutions may be authorized by petitioning the dean of the School of Graduate Studies and Research after obtaining departmental approval.

# **Grading System**

The following grades are used in reporting the standing of students at the end of each semester or summer term:

A—Excellent L—Late Grade, Continuing Course
B—Good Q—Total Semester Withdrawal
C—Fair R—Research in Progress

F-Failure W-Withdrawal

I-Incomplete

No "D" grade is recognized in IUP graduate work but may be earned by a graduate student enrolled in an undergraduate course.

Quality points are assigned as follows: A - 4; B - 3, C - 2. No quality points are carried by the notations F, L, Q, R, and W.

The grade of "l" is used to record work which, so far as covered, is of passing grade but is incomplete because of personal illness or other unavoidable reason. "I" grades must be converted no later than the final day of classes in the next regular (fall/spring) semester after the "I" grade was assigned. The dean of the college in which the course is offered may approve an extension, provided the faculty member concurs. A faculty member assigning an "I" grade must complete a form indicating the work to be completed, deadlines for completion (it is not necessary to allow the maximum allowable time), and guidelines to establish the final grade. Copies of the completed form will be sent to the department chairperson, to the dean of the college in which the course is taught, and to the student receiving the "I" grade. The "R" notation pertains only to thesis and dissertation research credits when such research is in progress as a semester or summer session ends. All "R" grades are replaced by the grade eventually assigned when the research is completed. The "W" notation applies to certain withdrawals from courses. Withdrawals from the university and discrete course withdrawals are discussed in other sections of this catalog. Note that an "F" is entered in the student's permanent academic record if a withdrawal of either type has not been processed in accordance with established

The grade of "L" is appropriate for cases in which the student's work is expected to extend beyond a given semester/session. "L" grades may be used for internships, practicums, field experience courses, workshops, and independent studies that, by design, extend beyond the normal end of the grading period. Unless an exemption is obtained from the dean of the college in which the grade was given, an "L" grade unresolved at the end of one year will be converted to an "F" If a student withdraws from the university before the year has elapsed, outstanding "L" grades will be converted to "W" grades—If, for a graduate student, the maximum number of years allotted to complete the graduate degree runs out before the year has elapsed, outstanding "L" grades will be converted to "W" grades.

#### **Graduate Study Beyond the Master's Degree**

It is not unusual to find graduate students enrolling in more courses than they need to meet the requirements of a master's degree. Such action can be beneficial beyond the personal satisfactions which accrue, because the added studies may be well received by employers whether in business, government, or the school system in such matters as certification. However, students should understand that most graduate schools have residency requirements at the doctoral as well as master's level and

79

frequently will accept no more than 30 graduate semester hours earned elsewhere as applicable to a doctorate.

# Independent Study

(see Special Credits)

# Internship Policy

To qualify for a graduate internship appointment, the graduate student must have a minimum of twelve IUP graduate credits earned and a minimum 3.0 grade point average; must have been in full-time enrollment (nine graduate credits or more) during the semester or summer sessions (the latter taken as a whole) immediately preceding the academic period for which internship is requested;\* and must meet departmental internship criteria. No more than six internship credits may apply to a graduate degree unless written approval of the student's department chair or graduate coordinator and the dean of the School of Graduate Studies and Research (in that order) is obtained. Continuation in an internship experience by a given graduate student is contingent upon the student's maintenance of satisfactory performance in all aspects of his/her degree program. Programmatic exceptions to the foregoing policy can be made only with the approval of the Graduate Committee

\* For graduate students active during summers only, or during fallspring semesters only, the phrase "immediately preceding the academic period," etc., refers to the student's last preceding active semester or summer session.

# **Computer Software Policy**

It is the policy of IUP that contractually protected and/or copyrighted computer software shall not be improperly copied, distributed, or used by its employees, students, or affiliated organizations. It is the responsibility of members of the university community to adhere to this policy and to enforce it with regard to those they supervise. If members of the community has questions regarding the propriety of using software, they are responsible for contacting their supervisor for direction. The supervisor may in turn refer the questions to the director of Academic Technology Services for a decision on what constitutes proper use. The full text of the policy adopted by University Senate and Council of Trustees in May, 1988, is available in the computer laboratories and from the director of Academic Technology Services.

#### Program Changes

To insure their quality and relevance, graduate programs at IUP are subject to review and change by duly appointed and responsible university groups. Because of this, the university recognizes that provisions must be made to prevent hardship to students already enrolled in programs if changes later occur in specific or general program requirements. Students affected by changes in programs, policies, and regulations are therefore given the option of following those requirements in effect when the student was first enrolled in the program or those in effect at the time of expected graduation. The student cannot, of course, combine chosen elements of the two. Should a question of rule interpretation arise with respect to changes, the student, the student's advisor, or both should petition the dean of the School of Graduate Studies and Research for a decision about which requirements apply.

# Student Rights and Responsibilities

Upon admission to the School of Graduate Studies and Research. students assume responsibility for knowing program requirements and following departmental advising requirements when selecting and registering for courses. Students are also responsible for knowing the procedures for paying fees, processing class dropadds and withdrawals, and applying for and meeting all requirements for graduation. Conversely, students have the right to expect that program requirements will be made clear, that course requirements—including grading criteria and procedures will be made known early in a course, and that course grades will represent the instructor's professional and objective evaluation of performance. Students have the right to instruction that encourages the free and open discussion of ideas and that respects reasonable student needs and aspirations. Students share with instructors the responsibility for creating a classroom atmosphere that encourages maximum learning and exhibits a more intense scholarly zeal than that expected in undergraduate studies.

# **Teacher Certification**

Ordinarily, students with a previously earned haccalaureate degree will enroll as second degree undergraduate students in the program for which they wish to earn Pennsylvania teacher certification. Admission is through the dean of the School of Continuing Education. Program details are found in the IUP Undergraduate Catalog. There are a few programs in which special adaptations permit candidates for initial certification to be candidates for graduate degrees. The current list of these programs is available in the office of the Associate Dean for Teacher Education. Call 724-357-2485.

Candidates for second certification are admitted through the School of Continuing Education. Applicants who already hold one Pennsylvania teaching certificate and desire to add another instructional certificate must consult both the Associate Dean for Teacher Education and the program coordinator in the subject area department for assistance in developing an individually planned program of study. Typically, second or additional certifications involve study only at the undergraduate level. Occasionally, work toward a second certification can be combined with work towards a graduate degree.

#### Time Limitations

Program credits earned at IUP or accepted by transfer are applicable to IUP master's degrees over a period not to exceed five years from the date of their earning unless the period is extended through student petition approved by the student's department and the dean of the School of Graduate Studies and Research. Doctoral candidates must complete degree requirements no later than seven years after beginning IUP doctoral program course work. No time extensions are considered for doctoral students unless all degree requirements other than the dissertation have been completed by the expiration of the seven-year time limit.

# **Special Credits Policy**

A graduate program offered by a department constitutes a rationally structured and well-defined body of information and techniques deemed appropriate to the discipline. Consequently, the number of special credits that each master's and doctoral candidate may count toward a degree is restricted.

Special credits are defined as those earned through Independent Study, Individualized Instruction, Special Topics courses, workshops, or any combination therein.

A master's degree candidate may submit for credit toward the degree no more than six (6) semester hours of special credits approved by the department offering the degree.

Doctoral candidates may submit (a further) 6 semester hours of special credits beyond the master's or its equivalent if approved by the department offering the degree.

Note: Should a special credit offering later become a cataloglisted course that is part of the degree program, while the student is still working towards the degree, the student may request from the department a retroactive reclassification of credits so earned. In such cases, the student may again submit up to 6 semester hours of special credits

# **Student Grade Appeal Policy**

#### **Grade Review Policy**

If a student disagrees with the evaluation of his/her work by the instructor but has no basis for a charge of "discrimination" or "capricious evaluation" or "error," the student should discuss the matter directly with the instructor, and if unsatisfied, with the department chairperson, and if still unsatisfied, with the dean of the college in which the course was offered. In such cases, the decision of the instructor shall be final.

If a student believes that an improper grade has been assigned, an appeal may be filed on the following grounds:

- Discrimination: On the basis of race, religion, national origin, sex, age, ancestry, handicapped status, affectional or lifestyle preference, or political affiliation.
- 2. Capricious Evaluation: Significant and unwarranted deviation from grading procedures and course outlines set at the beginning of the course (ordinarily in a written statement during the first week of the course) or grade assigned arbitrarily on the basis of whim or impulse. The student may not claim capriciousness if he or she disagrees with the subjective professional evaluation of the instructor.
- 3 Error: Demonstrable, objective determination that a mathematical or clerical error resulted in the entry of an incorrect grade.

### **Procedures of Appeal**

# Level I: Informal Resolution

Every effort should be made to resolve the disagreement at Level I. The student must first seek a resolution to the disagreement with the instructor either in person or in writing. If the student is not satisfied with the results, the student must then speak with the chairperson of the department that offers the course. If still unsatisfied, the student must discuss the matter with the dean of the college in which the course is offered. A member of the Graduate Student Assembly may accompany and advise the student during the Level I procedures. Only after all attempts for resolution at Level I have been exhausted may the student initiate Level II.

#### Level II: Appeal Screening

- A. Composition: Each year there shall be appointed a Grade Appeals Committee to determine the existence of the substantive basis for appeal. The committee will be composed of seven voting members: three faculty members appointed by APSCUE, two members elected by and from the Senate University-Wide Graduate Committee (one faculty member, and one student), the vice provost and dean of the School of Graduate Studies and Research or his or her designee, and one student appointed by the Graduate Student Assembly. A quorum consists of a majority of the committee. To take action, a majority of those present must be faculty members If a quorum of the Level II committee is not available to meet within the designated time limits, the Provost's Office will seek additional members from the appointing bodies. If these bodies are unable to respond in a timely manner, the Provost's Office may select additional members from the appropriate groups.
- B. Procedure to Initiate Appeal: To initiate Level II of the appeal, the student must file an appeal form with the Provost's Office. This form must be filed within sixty (60) calendar days of the beginning of the semester immediately following the semester in which the grade was received. The Provost's Office may extend the sixty-day limit only in unusual circumstances when equity demands it and when the student's own procrastination or misunderstanding did not substantially contribute to the delay. (Note: Grade appeals will not generally be processed during the summer. Therefore, the appeal of any grade received in the spring or summer sessions normally will be processed in the fall. A review will be scheduled in the summer only when the student's academic eligibility is jeopardized by the grade in question or when the student is preparing to graduate.) The Provost's Office will notity the appropriate dean, department chairperson, faculty member, and the president of the Graduate Student Assembly of the student's initiation of the Level II process.
- C. Procedure to Process Appeal: The student will be expected to submit written documentation of his/her complaint, and the faculty member will be expected to submit in writing the course grading procedure and any other pertinent information. Appeals based on discrimination will be reviewed according to current standards of nondiscriminatory action. Appeals based on capriciousness will be reviewed in light of the faculty member's announced evaluation and grading system. The committee will review the materials to deny or confirm appeal continuance. Denial of appeal continuance must be by a negative vote of four members of the committee. This committee will inform the Provost's Office of its findings. Within five (5) class days of the receipt of the committee's report, the provost or designee will notify the student and the faculty member of the findings. If the basis for appeal is determined to be substantive, the provost or designee will schedule a Grade Review Panel within fifteen (15) class days to be convened prior to the conclusion of the semester

# 3 I

#### Level III: Appeal Review

- A. Composition: The Grade Review Panel will consist of five voting members: the vice provost's designee (from the School of Graduate Studies and Research) and four faculty members. The Graduate Student Assembly Executive Committee designee may advise as requested by the student. The affirmative action officer will advise in appeals based on discrimination. The panel will be constituted from the Grade Review Pool by random selection. The panel chairperson will be elected by and from the panel before each review.
- Membership: The Grade Review Pool will be established in the spring term to serve for the following academic year. Using random selection methods, the pool and rotational order within the pool will be established by the Provost's Office. A pool of three deans or associate deans and twelve full-time faculty members will be maintained. In establishing the membership for each review panel, prior to each review the names of those designated as primary members of the specific panel and available as alternates will be supplied to all parties involved. A panel member may request (to the provost or designee) disqualification due to a conflict of interest. The student and the faculty member may eliminate names in proportion to the composition of the panel. Each may eliminate only one dean/associate dean and four faculty members. The instructor and the student will be supplied a list of all primary and secondary pool members. The opportunity to disqualify panel members will take place only once. Resulting vacancies will be filled from the appropriate pool of alternates so that the panel will be composed of one dean/associate dean and four faculty members. If through self-disqualification and challenges a panel cannot be constituted from the pool, then the Office of the Provost will supplement the pool using appropriate random selection methods.

#### C. Procedure:

- Both the student and the instructor will have the right to appear before the panel, present witnesses, and offer evidence. In addition to those specified in Level III, Section A, each may also bring one observer, with whom he or she may consult but who may not participate in the review.
- 2. The panel shall determine its rules of order for internal operation. After hearing the evidence brought forth, the panel will privately deliberate and render a decision. If the grade appeal is upheld, the panel will constitute a committee of three appropriate faculty members (knowledgeable in the discipline but excluding the faculty member against whom the complaint was lodged), who will review the student's work and recommend the appropriate grade or suitable remedy. The panel will incorporate this information in its determination, which it then forwards to the Provost's Office for implementation, ordinarily within thirty days. The Provost's Office will initiate the processing of grade changes resulting from Level III decisions.

3 The written report sent to the Provost's Office will state whether the student's appeal is upheld or denied; if upheld, the committee's evaluation and remedy will be included. Both the student and the faculty member have the right to review all documents related to the appeal. All documents supporting the report will be sealed and kept only as long as necessary (normally one year) to ensure the appropriate action is taken before they are destroyed or returned to the individual presenting the evidence.

# **Ancillary Provisions**

- A. Continuing Rights: This appeal does not supplant any legal rights afforded by the Commonwealth of Pennsylvania and/or the government of the United States. Nothing in this policy abrogates or modifies any provisions of or rights under the Collective Bargaining Agreement.
- B. Discrimination in this policy generally means unlawful discrimination: To the extent that any form of discrimination identified in this definition is not unlawful discrimination, this definition shall not be taken to create a cause of appeal against the university. In such cases, the final appeal procedures stated in this policy will be final and binding on the student.
- C. Tenure and Promotion Committee Membership on Grade Appeals Committees: Members of the universitywide tenure and promotion committees may not serve concurrently on grade appeals committees.
- D. Support Mechanism: The Provost's Office, after consultation with the Senate University-Wide Graduate Committee and APSCUF, will be responsible for identifying a pool of at least ten faculty members well versed in the preparation of grade appeals who will be available upon request to help students or faculty prepare documentation for the grade appeals process.
- E. Training/Support: The Provost's Office will offer yearly information sessions/workshops to assist deans, chairs, grade appeals panel/committee members, and members of the Graduate Student Assembly/University-Wide Graduate Curriculum Committee in identifying issues and to provide guidance for the resolution of grade appeals.
- E. Dissemination of Grade Appeal Information: The Provost's Office will annually report to the university community a statistical summary of grade appeal data that does not compromise confidentiality including 1) the number of appeals filed, 2) the resolutions at levels II and III, and 3) the final implementation of Level III decisions.
- G. Appeals on Procedural Grounds: Decisions may not be challenged merely because the Provost's Office fails to comply with Ancillary Provisions D, E, or F above.
- H. Intentional Misrepresentation: Intentional misrepresentation in the filing of grade appeals by students will be referred to the university judicial system for students. Intentional misrepresentation by faculty in the grade appeals process will be referred to the Provost's Office.
- 1 Confidentiality: Students, faculty, administrators, and staff involved in processing and hearing grade appeals must respect the confidentiality of all aspects of these proceedings. Those breaching confidentiality subject themselves to possible disciplinary action. This shall not abridge the First Amendment rights of the student appellant nor the instructor against whom the appeal has been filed.

- Intended Purpose: The grade appeal procedures are designed simply as a means to resolve differences between students and faculty related to grading. Unless there is intentional misrepresentation, the results of a grade appeal may not be used for disciplinary action of personnel.
- K. Faculty Compensation: It a Review Panel (hearing) is scheduled at a time in the summer when any faculty member involved is not under contract, the faculty member will be compensated under terms mutually agreed upon at Meet-and-Discuss.
- L. Review of Policy: Every five years the Senate University-Wide Graduate Committee will review, in consultation with the campus community, the operation of the Grade Appeals Policy and recommend changes deemed appropriate
- M. \* Amendment: Amendments may be implemented upon concurrence by University Senate, APSCUF Representative Council, and Meet-and-Discuss

\*NOTE: In the amendment process above, specification of University Senate implies the Council of Trustees' role in approving Senate actions and recognizes the Council of Trustees' final action to change policy.

# **Academic Integrity Policy and Procedures**

IUP is an academic community within the society at large. All members within this community are expected to accept the responsibility for academic integrity and honesty. Academic dishonesty seriously erodes the quality of educational pursuits and is unacceptable at IUP. The following policies and procedures have been established to preserve the academic integrity of the university community, while also providing a process that protects the rights of students who allegedly violate these policies.

#### Policy

32

- A **Types of Violations**. Violations of academic integrity include, but are not limited to, the following:
  - Providing or receiving unauthorized assistance in course work, with lab work, theses, dissertations, or during examinations (including qualifying and comprehensive exams) or quizzes.
  - Using unauthorized materials or devices, such as cribnotes, during examinations or quizzes.
  - 3 Plagiarizing papers, theses, dissertations, essays, reports, speeches and oral presentations, take-home examinations, computer projects, or other academic exercises by misrepresenting or passing off the ideas, words, formulas, or data of another as one's own. Plagiarism is dishonest and illegal. Writers are indebted to authors from whom they horrow exact words, ideas, theories, opinions, statistics, illustrative material, or facts (beyond common knowledge). Writers are also indebted if they summarize or paraphrase in their own words material from sources All quoted material requires the acknowledgement of the source by the use of quotation marks or indentation (if exact wording is incorporated). In addition, both directly quoted and summarized material must be acknowledged by use of a note or parenthetical citation that indicates the author and, or date of publication and page number or numbers. If the writer indents a quotation, it must be

- clearly set off from the body of the text and must be documented in the aforesaid manner. To verify the various documentation procedures, writers should consult the style sheet in the particular discipline for which they are preparing the assignment (MLA, APA, Chicago, BC, etc.).
- 4 Using the same paper or work more than once without authorization of the faculty member(s) to whom the work is being submitted.
- 5 Possessing course examination materials before the administration of the exam, without the prior knowledge or consent of the instructor.
- Intentionally evading IUP academic policies and procedures, for example, improperly processing course withdrawals, grade changes, or other academic procedures.
- 7. Falsitying information, including falsification tabrication of research data and/or statistical analyses, forging signatures on various forms and documents, or altering or adding answers on academic exercises or exams after work has been graded.
- 8. Computer dishonesty, including: tampering with or making unauthorized change to another person's or the university's computer system, illegally copying computer software, personal use of another individual's computer account, unauthorized activity involving another individual's personal computer system or any system belonging to the university, and other unauthorized use or violations involving computer use.
- Noncompliance: failure to follow through with sanction(s) imposed as a result of an academic violation.

The university reserves the right to discipline any student for any action that an ordinary, reasonable, intelligent college student knows or should know might lead to the issuance of discipline. This means the university maintains the right to issue discipline for reasonable cause.

Charges of academic integrity violations may be brought by faculty members or administrators. Students who observe or become aware of a violation of academic integrity by another student are strongly encouraged to report it to a university official. A faculty member/administrator who believes that a student has violated an academic policy may elect to resolve the matter by Informal Resolution, by Documented Agreement, or by Formal Adjudication. Sanction(s) may not be imposed upon a student believed to have violated an academic policy without following one of these three procedures.

If charges are brought, the accused student(s) shall have a fair and reasonable opportunity to answer, explain, and defend against the charges. The university shall have the burden of proof in all cases. Hearsay should not be used as the sole evidence to establish any fact necessary to establish guilt or innocence.

#### Procedures

- A Faculty/administrators must use one of the following options to resolve alleged violations of academic integrity.
  - Option I: Informal Resolution. The faculty member/administrator and student may meet informally, normally within seven class days of the observation or discovery of the incident, and agree to resolve the issue without submitting any formal documentation. If the

violation pertains to work being judged by a committee (examples might include dissertations and comprehensive examinations, both oral and written), the meeting must involve a majority of the committee and the resolution must be agreed to by a majority of the committee. It is in the interest of both the faculty member/administrator and student to complete a statement that summarizes the incident, conference, and agreed-upon resolution. This factual statement should be signed by both parties and copies provided to the student and the faculty member/administrator. If agreement cannot be reached, or at the discretion of the faculty member/administrator, a more formal process as outlined in this policy may be initiated.

#### 2. Option II: Resolution by Documented Agreement

- a. The faculty member/administrator may schedule a conference with the student in an attempt to agree on the facts of the case and to reach a mutually agreeable resolution. This meeting must normally be scheduled/requested within seven class days of the observation or discovery of the alleged violation or of the failure of resolution by Option I. If an agreement is reached, the faculty member/administrator must complete a Documented Agreement Form outlining the agreement and have it signed by both parties: faculty member/administrator and student. If the violation pertains to work such as a thesis or comprehensive examination being judged by a committee, the meeting must involve a majority of the committee and the Documented Agreement Form must be agreed to and signed by a majority of the committee. Copies are distributed to the student, the faculty member(s)/administrator filing the agreement, and the department chair, who must also electronically record the information for subsequent entry into the computer database. The form must normally be filed within seven class days of the conference.
- b. If an agreement is reached and the form is filed, the matter is closed unless the student has a prior academic violation(s) on record. By signing off on the agreement, the student waives the right to appeal the sanctions agreed upon in the conference. If the student fails to fulfill the written agreement, the faculty member/administrator may file an academic integrity referral against the student for noncompliance.
- c. If a prior academic integrity violation(s) for the student is on record, the matter will be referred to an Academic Integrity Board (AIB). The AIB will review the case to determine if more severe sanctions are warranted (see Section D, Multiple Violations).
- d. If a documented agreement is not reached, the faculty member/administrator should initiate the formal adjudication process by filing an academic integrity referral form with the department chair, normally within seven class days of the conference with the student.

- Option III: Resolution by Formal Adjudication. A faculty member/administrator should pursue formal adjudication if:
  - he/she cannot reach or chooses not to attempt a mutually agreeable resolution with the student regarding the facts of the case or sanctions to be imposed,
  - he/she believes that the violation is so severe that it
    warrants a sanction of expulsion, suspension,
    involuntary withdrawal from part of IUP's academic
    or other programs, or awarding a failing grade on a
    project or examination (such as a graduate qualifying
    or comprehensive examination or dissertation) when
    resubmitting the project or retaking the examination
    is not possible.
  - a. The faculty member/administrator should file an academic integrity referral form with the department chair, normally within seven class days of the observation or discovery of the violation or within seven class days of the failure to reach a resolution through Option I or Option II. If the violation pertains to work being judged by a committee, the form must be signed by a majority of the committee. The form will contain a description of the alleged violation, including the time, date, and place of occurrence, and the recommended sanction(s) if the student is found to have violated this policy.
  - b. The department chair will forward a copy of the academic integrity referral to the student, normally within seven class days of receiving notification of the allegation, and contact the student to schedule a hearing to review the facts surrounding the allegation and recommended sanctions if the student is determined to have committed a violation.
  - c. The hearing should be scheduled so as to allow the student a reasonable time to prepare a defense (normally within seven class days of being notified of the allegation by the department chair).
  - d. This hearing will involve the student, the department chair, and the faculty member/administrator(s); the department chair may invite others with pertinent information. All parties must be given the opportunity to submit written, physical, and testimonial evidence, and for reasonable questioning of witnesses.
  - e. The accused student may identify an advisor, who may be an attorney, to be present at the hearing. The advisor may only consult privately with the student unless otherwise determined by the university regarding a particular case.
  - f. The student may waive his/her right to a hearing in writing. If so, the sanction recommended by the person filing the referral will be imposed. If the student fails to appear when a hearing has been scheduled, the hearing will be held in the student's absence and the department chair will render a decision based upon factual information presented by the faculty member/administrator.

- g. Following the hearing, the department chair will render a determination based on the information presented at the hearing. Normally within seven class days of the hearing, the department chair will forward a written report summarizing the hearing that includes the outcome, the factual basis for the determinations reached, the sanction(s) to be issued, and appeal procedures. Copies of this report will be sent to the student, the faculty member/administrator, and the provost designee. The department chair will retain a copy for departmental files and electronically record the information for subsequent entry into the computer database.
- h In the event that a department chair cannot or will not fulfill the above role, or in the event that the person filing the reterral is an administrator or department chair, the provost or designee will determine the appropriate individual to fulfill the department chair's role and inform the student and the faculty member administrator filing charges
- If a prior academic violation(s) for the student is on record, the case must be referred to the Academic Integrity Board which will consider more severe sanctions (see Section D. Multiple Violations).
   Otherwise, if there is no appeal, the recommended sanction will be imposed
- B Academic Integrity Board (AIB). The AIB will hear all cases in which appeals to the chair's decision are accepted by the provost designee (see Appeals section C.1, and C.2.). The AIB will also review sanctions in cases of multiple violations (see Section D.).
  - 1 The AIB will be made up of four faculty members, one of whom will chair the board, and two students. A quorum requires the presence of four persons, at least one of whom must be a student. All members, including the chair, are voting members.
  - 2. When an AIB hearing is called for, the AIB will be convened by the provost designee (currently the assistant to the vice president for Student Affairs). The accused student shall be notified of the time, date, and place of the hearing and the names of those AIB members scheduled to review his her case. If the hearing is an appeal, this notification will also include details of the charges, including the time, date, and place of the alleged offense(s) and the recommended sanction(s). If the hearing is a review of sanctions in a multiple violation case (see Section D), the notification should also indicate that more severe sanctions might be imposed. The hearing should he scheduled so as to allow the student reasonable time to prepare a defense.
  - 3 Prior to the hearing a student appearing before an AIB may, with good cause, challenge any member on the board sitting in judgment of his their particular case. When such a challenge is made, an alternate member will be appointed to the AIB.
  - 4 The AIB will review all material and hear all evidence pertinent to the case from the accused and all witnesses. Members of the AIB shall be tree to ask relevant questions to clarify information or resulting issues.

- 5 The student shall have a fair and reasonable opportunity to answer, explain, and detend against information and witnesses presented at the hearing, to submit written, physical, and testimonial evidence, and to call relevant witnesses on his her behalf.
- The accused student may identify an advisor, who may be an attorney, to be present at the hearing. The advisor may only consult privately with the student unless otherwise determined by the university regarding a particular case.
- 7. After hearing all evidence, the AIB will privately make its decision based reasonably upon the evidence presented. A majority vote of the AIB shall be required for any decision. If the AIB finds the student to have committed the misconduct or infraction, and the student has no prior academic violation(s) on record, it may accept, reduce (but not increase), or modify the recommended sanction. If the student does have a prior academic violation(s) on record, the AIB may increase the recommended sanction (see Section D, Multiple Violations).
- 8 If the student waives his/her right to a hearing in writing, or chooses not to appear at the AIB hearing, the case will be adjudicated based upon the evidence presented at the scheduled hearing.
- 9 All hearings are closed unless the student requests an open hearing in writing. The AIB chair has the authority to make the final decision regarding access of spectators at the hearing.
- 10 The AIB must submit a written report of the decision, normally within seven class days of its decision, to the student, faculty member/administrator, department chair, and provost 'designee, who will electronically record the information for subsequent entry into the computer database.
- C. Appeals, These appeal procedures apply to cases resolved through formal adjudication. Cases of academic integrity that are resolved through informal resolution or documented agreement cannot be appealed, as the facts of the case, the decision, and sanction(s) have been agreed to by the student and the individual making the charge.
  - If, after receiving the department chair's report on the outcome of the hearing, the faculty/administrator or the student disagrees with either the decision, the sanction, or both, he/she may appeal to the provost designee, normally within seven class days of receiving the report. This appeal must be in writing and must describe in detail the grounds for the appeal. These reasons may include the following.
    - Denial of a fair and reasonable hearing
    - New evidence (applies when there is an acceptable reason why the information was not presented at the original hearing)
    - Excessively harsh sanctions. Students cannot appeal on the basis of excessively harsh sanctions if the sanctions are specified on the course syllabus, have the prior approval of the department, and apply only to the specific course in which the alleged violation occurred.

- The provost/designee may deny the appeal or direct the appeal to be heard by an AIB within seven class days. All appeals involving sanctions of involuntary withdrawal from part of IUP's academic or other programs, suspension, or expulsion will be heard by an AIB.
- Unless the recommended sanction is suspension or expulsion, the decision of the AIB is final and will be implemented by the provost/designee, who will electronically record the information for subsequent entry into the computer database.
- 4. Suspension or expulsion may be recommended by the AIB but can only be implemented by the vice president for Student Affairs (the president's designee for suspension and expulsion), who is responsible for verifying that due process was followed.

#### D. Multiple Violations

- Students with multiple academic violations of record will be subject to additional sanctions, including possible suspension or expulsion from the university.
- Information about prior violations is not relevant to determining whether a student has violated this policy. However, such information is pertinent in determining the appropriate sanction
- If a student found in violation of this policy through either Resolution by Documented Agreement or Resolution by Formal Adjudication has a prior academic integrity violation of record, the case will be referred to an AIB.
- 4. For cases previously resolved by Documented Agreement or through Formal Adjudication at the department chair's level, the AIB will schedule a new hearing. This hearing will review all information pertinent to the determination of an appropriate sanction but will not reconsider the issue of whether the policy violation occurred. After considering the severity of the current and prior violations, the AIB may determine that a more severe sanction is appropriate.
- For cases being heard by an AIB, the AIB should request information on prior violations only after determining that a violation has occurred. Information on prior violations should be used in determining the appropriate sanction.
- The AIB must submit a written report of the decision, normally within seven class days of its decision, to the student, faculty/administrator, department chair, and provost/designee who will electronically record the information for subsequent entry into the computer database.
- 7. The student may appeal any new sanction(s) to the provost/designee. The provost/designee may deny the appeal or, on the basis of denial of a fair and reasonable hearing, new evidence, or excessively harsh sanctions, direct the appeal to be heard by the second AIB. The provost/designee will electronically record the information for subsequent entry into the computer database.

#### E. Sanctions

- The following sanctions may be agreed upon by the student and faculty member/administrator through informal resolution or documented agreement. All grade reductions require the approval of the instructor of record. If the work is graded by a committee, a grade reduction requires the approval of the majority of the committee.
  - a. Single Grade Reduction: Reduction of grade or failure on project, examination, quiz, or other academic exercise on which the student is alleged to have cheated.
  - Course Grade Reduction: Reduction of course grade or failure in the course. If the violation involves a project spanning multiple courses (such as a dissertation or multiple semester internship), the grade reduction may apply to all courses involved.
  - Constructive or Educational Task: A task which requires the student to examine his/her dishonest behavior and which may benefit the student, campus, or community.
  - d. Other: Sanctions deemed appropriate and tailored to a specific violation as determined by the faculty member/administrator. Any reasonable sanction or combination of sanctions for a given violation may be agreed upon by the student and faculty member/ administrator.
- In addition to the above, the following sanctions might be imposed through formal adjudication.
  - a. Letter of Warning: A warning letter may be issued indicating that the student has been found in violation of an academic policy and that failure to comply with policies in the future may result in further disciplinary action to be handled as a second offense. The letter of warning will remain in effect for a period of time as specified by the individual or board hearing the case.
  - b. Disciplinary Probation: Disciplinary probation, which is for a period of time specified by the individual or board hearing the case, is an indication that a student's status at the university is seriously jeopardized. If the student is found in violation of another IUP policy during the probationary period, a more serious sanction will be levied, including possible involuntary withdrawal from part of IUP's academic or other programs, suspension, or expulsion from the university.
  - c. Involuntary withdrawal from part of IUP's academic or other programs: A student may be denied the right to participate in some segment of IUP's programs. Such involuntary withdrawal might be imposed on either a temporary or permanent basis.
  - d. **Suspension:** A student may be suspended from the university for a specified period of time, not to be less than the remainder of the current semester. Suspension requires that a student remove him/herself from university premises, not attend classes or social activities, and not be present on university or Student Cooperative Association property during the period of suspension.

Suspension and expulsion can be recommended by a faculty member/administrator, department chair, and AIB but can be imposed only by the president's designee for suspension and expulsion (currently the vice president for Student Affairs), who is responsible for verifying that due process was followed.

#### F. Records and Recordkeeping

36

- Records of Informal Resolution. Although no official
  forms are filed at this level of resolution, it is strongly
  recommended that a faculty member/administrator and
  student who reach an informal agreement put the
  agreement in writing with a copy to each participant. This
  protects each party in the event of any future attempt at
  renegotiation.
- 2. Records of Resolution by Documented Agreement. Documented agreement resolutions are recorded on the computer database of disciplinary files maintained by the assistant to the vice president for Student Affairs. They are not considered formal disciplinary records until and unless the student is found in violation of this policy a second time. They are internal university records used for monitoring students for multiple violations only. If a second documented agreement form is filed or a student is found in violation of the policy through formal adjudication, the student will then have a formal disciplinary record which includes records of both violations. This formal record is maintained according to the IUP judicial system recordkeeping policies.
- 3. Records of Formal Adjudication. Records of academic integrity cases resolved through formal adjudication are recorded on the computer database of disciplinary files maintained by the Office of the Assistant to the Vice President of Student Affairs. They are maintained as formal disciplinary records in accordance with IUP judicial system recordkeeping policies. Records of cases involving suspension or expulsion must be maintained for a minimum of two years.

#### G. Operational Notes

- In cases where a violation is alleged at or near the end of the semester and resolution by informal resolution, documented agreement, or formal adjudication cannot be completed before grades are submitted, the faculty member should submit a designation of "Incomplete" (I) for the student. The "I" designation will remain on the student's record until the case has been resolved. Once the case has been resolved, the "I" designation will be replaced with the appropriate grade.
- If the violation is alleged during the semester when classes are in session, the accused student should continue attending all classes and continue to complete course requirements during the resolution of the academic integrity case.
- 3 The provost/designee may extend any deadline which cannot be met for what he/she deems legitimate reason.
- Requests to constitute the AIB for hearings will be directed to the provost/designee (currently the assistant to the vice president for Student Affairs).
- 5 The university may withhold transcripts, grades, diplomas, or other official records pending the disposition of cases, if such action is reasonably necessary to preserve its ability to enforce its rules.
- 6. The provost/designee may modify the procedural provisions of these rules by the issuance of written orders to deal with particular unusual procedural situations, so long as no order shall contradict the rules of the Board of Governors of the State System of Higher Education governing due process for students, and no such rule shall deny fundamental fairness to students by, for example, effectively constituting a denial of notice or opportunity to be heard.
- This policy will be reviewed by the Senate Academic Committee after five years.

The various forms described in this policy are available from the assistant vice president for Student Affairs, 215A Sutton Hall, deans' offices, or department chairs. Questions concerning the Academic Integrity Policy and Procedures can be directed to the assistant vice president for Student Affairs, 215A Sutton Hall.

Approved by Council of Trustees-May 15, 1998

# 38 Eberly College of Business and Information Technology

The Eberly College of Business and Information Technology offer two graduate programs: the Master of Business Administration (M.B.A.) with full-time, part-time evening, and executive tracks (Pittsburgh area and Johnstown locations) and the Master of Education in Business-Workforce Development (M.Ed.).

#### Master of Business Administration (M.B.A.)

The Master of Business Administration degree program is designed to serve the needs of junior and intermediate-level business executives who are seeking additional knowledge and skills to do a more efficient job of problem solving and decision-making. Also, the program is structured to give recent college graduates advanced training in business management prior to entry into a business career. The M.B.A. may be taken on either a part-time or full-time basis. Courses are scheduled for both day and night sessions, including a full schedule of course offerings in the summer.

Core I of the program consists of four undergraduate-level prerequisite courses that are designed to provide a foundation in the basic concepts and techniques used in the various functional areas of business and to prepare the student for the graduate courses in business administration. Core I requirements can be met by completing the prerequisite courses at IUP, by completing equivalent courses at other accredited universities/institutions, or through successful completion of College Level Examination Program (CLEP) tests in these subjects (with a grade of "C" or better). At the time of admission, the M.B.A. program coordinator will evaluate the academic transcripts of the student for Core I course waivers and give the student a plan for completion of courses needed for this stage. Course descriptions may be required to establish equivalency of courses completed elsewhere.

Core II of the program consists of 33 semester hours in courses that provide advanced knowledge in the functional and applied areas of business. Students may elect to graduate with a general M.B.A. or complete nine credits of additional prescribed coursework and receive a concentration.

Normally, a student with a recent bachelor's degree in Business Administration from an accredited university will have completed all of the Core I courses. This will enable the student to complete a general M.B.A. program in one year of full-time study, whereas a

non-business major will require 1.5 years—one semester for the Core I or undergraduate courses and one year for the Core II or graduate course requirements. An additional semester of work will be required for students seeking a concentration. Part-time students typically require about three years to complete the program.

#### Admissions Criteria

In addition to meeting admission requirements of the School of Graduate Studies and Research, students seeking enrollment in the M.B.A. program must achieve a satisfactory score on the Graduate Management Admission Test (GMAT) before admission to the degree program (450 in GMAT or a combination of 1,000 points from GMAT score plus 200 times GPA on a 40 scale). Admission decisions are based on academic track record of the applicant, GMAT scores, prior work experience, strength of recommendation letters, and clarity of goal statement presented by the candidate. International applicants are required to submit Test of English as Foreign Language (TOEFL) score report as part of the M.B.A. application

#### **Program Requirements**

#### Core I

Complete the following prerequisite courses or equivalent with a grade of "C" or better

ACCT 201	Accounting Principles I
FCON 122	Principles of Economics II
FIN 310	Finance 1
QBUS 215	Business Statistics (Prerequisites: Basic
	Calculus plus Basic Statistics)

#### Core II

Complete 33cr in the following graduate M.B.A. courses

A. Required:		
QBUS 601	Data Analysis and Decision Making	3 cr
ECON 633	Managerial Microeconomic	
	Applications	15 cr
MGMT MkTG 650	International Business	1.5 cr
ACCT 607	Management Accounting	3 cr
IFMG 640	Management Information Systems	3 cr.
MGMT 6B	Organizational Analysis	3 cr
FIN 630	Financial Management	3 cr.
MKTG 603	Marketing Management	3 cr
MGMT 695	Business Policy	3 cr

MGMT 637	Operations Management	3 ст
BTST 670	Administrative Communications	3 cı
BLAW 633	Case Problems in Business Law	3 cr.

Students seeking to specialize can take nine additional credits of prescribed coursework and receive a concentration in the following areas:

Professional Accountancy
Marketing
Information Technology
Human Resources Management
Supply Chain Management
International Management
Entrepreneurship
Leadership

## Finance Other:

Students may take a maximum of 6 credits of electives in their concentration area from 581,681 Special Topics courses offered with the following prefixes. ACCT, BLAW, BTST, FIN, IFMG, MGMT, MKTG, and QBUS

#### Master of Business Administration— Executive Track (M.B.A.)

The Master of Business Administration-Executive Track Program is designed to serve the needs of experienced managers from industrial, financial, nonprofit, and small business as well as the public sector and allows them to earn an M.B.A. degree while continuing their working career. A Saturday only class format allows participants to complete a general M.B.A. in four trimesters (1.5 years) or a specialized M.B.A. in five trimesters (two years) at a convenient time and location. A lock-step format, in which members of each class begin the program at the same time, take all the required courses together, and typically complete the program as a group, facilitates the formation of long-term study groups, extends a peer group or cohort experience to the participants, and creates a long-lasting network which develops both business and social contacts. Limited class size with careful selection of participants insures a wide variety of professional backgrounds. Such a learning forum provides exposure to peers from all organizational settings in a cohesive, networking environment.

The M.B.A.-Executive Track program offered by IUP constitutes a demanding experience for participants. The program prepares each individual to accept increased responsibilities in general management. The curriculum offers broad training in foundations of management and basic analytical techniques while exposing students to contemporary management tools and technologies. The prevailing theme of the program is the emphasis on strategic decision-making in a changing global environment.

#### Admissions Criteria

In addition to meeting admission requirements of the School of Graduate Studies and Research, students seeking enrollment in the EMBA program must achieve an undergraduate degree (no specific major—minimum GPA of 2.6 on a 4.0 scale), official GMAT scores (450+ or a combination of 1,000 points from GMAT score plus 200 times GPA on a 4.0 scale), three or more years' supervisory/managerial/professional experience, and nomination and full sponsorship by an organization (preferred) Participants who have not had recent academic training are expected to update their mathematical and calculus skills

concurrent with, or before beginning, the  $\mathrm{M.B.A.\text{-}Executive}$  Track Program.

#### Program Requirements

The program will include a one-day, mandatory, on-campus orientation period for all students. Students will be introduced to graduate faculty and will be exposed to campus-based facilities and resources. Students will have an opportunity in a social setting to discuss program objectives/characteristics with graduate faculty and the administration of the college. Thirty-three semester hours of M.B.A. course work are required for the general M.B.A. degree. Up to nine semester hours of M.B.A.-Executive Track prerequisites are to be completed before starting graduate-level course work for students who do not have business background.

#### A. Prerequisites

QBUS 500	Foundations of Business Statistics	3 cr
ECON 501	Fundamentals of Modern Economics	3 cr.
FIN 500	Foundations of Finance	1.5 cr.
ACCT 500	Fundamentals of Financial	
	Accounting	15 cm

At the time of admission, the MBA program coordinator will evaluate the academic transcripts, experience and other credentials of the student for course waivers of one or more of the above four prerequisite courses. Students can complete the above courses offered at IUP before each cohort group starts if the courses are not waived

#### B. Required Courses

QBUS 601	Data Analysis and Decision Making	3 cr.
ECON 633	Managerial Microeconomic	
	Applications	15 cr.
MGMT/MkTG 650	International Business	1.5 cr.
BTST 670	Administrative Communications	3 ct
ACCT 607	Management Accounting	- 3 cr
MGMT 613	Organizational Analysis	3 cr
FIN 630	Financial Management	3 cr
MKTG 603	Marketing Management	3 cr.
MGMT 637	Operations Management	3 cr
IFMG 640	Management Information Systems	3 cr
BLAW' 633	Case Problems in Business Law	3 cr
MGMT 695	Business Policy	3 cr.

# Department of Technology Support and Training

## Master of Education in Business/Workforce Development (M.Ed.)

The Master of Education in Business/Workforce Development offered by the Department of Technology Support and Training, is designed to meet the needs of a wide variety of individuals. This program includes a common core of 18 credits plus 12 credits in one of three areas of specialization—Business, Workforce, and Administrative. Within each area of specialization, students are encouraged to enroll in courses that meet their professional areas of interest.

The Business Specialization is of interest to individuals desiring to enhance their knowledge of pedagogy, study current business issues and trends, and expand the use of technology in the learning environment. In addition, an opportunity is available for an individual to complete the requirements for initial Pennsylvania K-12 teaching certification in Business, Computer, and

39

Information Technology (husiness education)—this opportunity requires the completion of additional coursework beyond the 30 credits required for the M Ed

The Workforce Specialization is of interest to individuals desiring to broaden their understanding of business, to enhance their knowledge of industry training, and to update their understanding of new technologies used in the workforce.

The Administrative Specialization provides an option for candidates interested in curriculum development and supervision of vocational programs. An enhancement of this specialization is the opportunity to complete the requirements for Pennsylvania Department of Education certification as a supervisor of vocational education. This opportunity requires the completion of additional course work beyond the 30 credits required for the MEd.

Courses can be taken on either a full- or part-time basis, with classes offered during the evening, a full schedule of course offerings is available in the summer. Needs of each student are addressed through individual attention, flexible scheduling, and opportunities for original research.

Upon admission to the School of Graduate Studies and Research, the student is assigned an advisor to assist in tailoring the program to meet individual goals. This flexibility is a key feature of the program.

# College of Education and Educational Technology

The College of Education and Educational Technology offers a variety of master's programs and doctorates in School Psychology, Curriculum and Instruction, and Administration and Leadership Studies. Certification programs approved by the Pennsylvania Department of Education are offered for Elementary and Secondary Guidance and Counseling, Reading Specialist, Speech-Language Pathologist, Elementary and Secondary School Principal, School Psychologist, Instructional Technology Specialist, Supervisor-Pupil Personnel Services K-12, and the letter of eligibility for School Superintendency. Other certification programs are offered at the undergraduate level.

#### A Performance-Based Principal Certification Program

Each year, approximately forty students are admitted into this innovative principal certification program. All candidates must schedule an interview with the program director before being recommended for admission into the School of Graduate Studies and Research. Once admitted, all candidates attend one class, typically during the summer session, here at IUP. The remaining program requirements are completed at the candidate's school throughout the academic year.

# Department of Adult and Community Education

#### Master of Arts in Adult and Community Education

The Master of Arts in Adult and Community Education (ACE) is designed to develop leaders in the fields of adult and community education. Graduates from the program work in business and industry, hospitals and health-related institutions, community agencies, governmental offices and agencies, the military, religious organizations, volunteer associations, and many other human services organizations. The program assists professionals in acquiring skills to develop and implement educational and other programs designed for adults in a wide variety of settings.

The ACE program addresses the needs of each student through individualized programming and flexible scheduling. Students are encouraged to relate theory and course content to their specific areas of interest. The program offers a balance of academic preparation, practical field experience, and individual research and emphasizes the application of theory to practice and the development of theory from practice.

Professional preparation for students in adult and community education is realized through helping them develop:

- A specialized knowledge of the literature, research, and theories in adult and community education
- A broad knowledge of the literature, research, and theories in supporting disciplines
- Specific skills to enhance performance as an adult and community educator
- The ability to reflect critically on and learn from one's professional and personal practices as an adult and community educator
- The ability to guide practice based on theory and to modify theories based on practical experience
- The ability to communicate effectively both in writing and verbally
- The ability to understand, conceptualize, and conduct research in adult and community education
- A commitment to support the growth of adult and community education as fields of inquiry and practice
- A commitment to continued professional development in adult and community education
- A commitment to use the knowledge and skills learned in the program to improve the quality of life at work, in the community, and in society

In addition to the regular School of Graduate Studies and Research requirements, applicants for the M.A. in Adult and Community Education are required to submit a resume and writing sample as well as to participate in an in-depth interview with program faculty members. The program can be completed at the IUP Monroeville Graduate and Professional Center as well as at the IUP main campus in Indiana

#### Master of Arts in Adult Education and Communications Technology Track

42

Adult education is a fast-growing field which encompasses the development, delivery, and evaluation of education programs in a broad variety of settings, including business and industry, community colleges, health care, community and social agencies, higher education, corrections, and vocational education Communications Media is the application of current and emerging technologies to enhance and supplement the delivery of educational and informational programs. The combination of the theory and research from Adult Education and the knowledge and skills in the use of technology from Communications Media will place graduates of the program in an advantageous position in the labor market

Graduates should be competitive for such employment opportunities as human resources developers in business and industry; production positions in education, business, and government; public relations positions in the public, private, and nonprofit sectors; entrepreneurs in the rapidly developing market of external program delivery to government, business, and education, and a variety of other jobs which involve the delivery of education and training and the use of technology

The purpose of the program is to help students acquire knowledge and skills in theory and research in adult education and in the applications of current and emerging production technologies. Upon completion of the program, students will be able to:

- I Understand and apply adult development and learning theory to the design and implementation of educational programs and media selection and use
- Plan educational programs which incorporate the use of educational technology, needs assessment, and program evaluation
- 3 Understand the importance of leadership and management skills in an organizational context

- Demonstrate skills for teaching adults in face-to-face settings.
- 5 Demonstrate knowledge and skills in use of research methods.
- Demonstrate knowledge and skills in use of multimedia production.
- 7 Select, design, produce, and evaluate technology and media for education and training of adults.
- 8. Conduct audience/learner analysis
- 9 Understand an apply principles of ethics as they relate to the use of media and technology
- 10 Employ instructional systems design processes, including developing goals and objectives, developing learning activities, and conducting learner assessment
- 11. Integrate technology with the teaching and training of adults.
- 12 Obtain practical experience in the design, development, utilization, and evaluation of technology and adult learning.

#### Instructional Technology Specialist Certification

The Instructional Technology Specialist (ITS) Certification is an advanced certification issued by the Pennsylvania Department of Education. ITS personnel serve as instructional technology specialists in schools, school districts, and intermediate units to assist school faculty and administrators to learn to use technology and incorporate technology into their teaching. The ITS certification is not a teaching certification; a separate certification is required to teach K-12 students in Pennsylvania public schools. Students wishing to acquire the ITS certification must meet the tollowing requirements.

- Complete the entire Master of Arts program including all required classes.
- 2. Obtain Act 34 and 151 clearances.
- Complete an approved internship in a school or intermediate unit.
- Submit all forms and fees required by the Pennsylvania Department of Education.
- Take and pass the PPST Praxis I test for reading, writing, and mathematics.

### Department of Counseling

#### Master of Arts in Community Counseling

The Master of Arts degree program in Community Counseling is designed to prepare students to work in a variety of settings, including mental health centers, drug and alcohol treatment programs, specialized community agencies, vocational or rehabilitation programs, correctional institutions, health care settings, social services, and business and industry. The counseling curriculum is based on the educational standards as set forth by the National Board for Certified Counselors. Students who successfully complete their course work will be eligible to take the National Counselor Examination for Licensure and Certification. Upon passing the exam, students will be board eligible counselors.

Students enrolled in the Master of Arts degree program will complete 45 (plus thesis) or 48 hours of credit for the degree. The program requires the following courses or their equivalents:

Master of A	rts in Community Counseling			
1. Core Courses				
COUN 610	Introduction to Community			
	Counseling	3 cr		
COUN 615	Counseling Across the Life Span	3 cr.

Students plan	ining to work primarily with children tak	e the foll	owing:
COUN 627	Child Counseling Theory	3 cr	
COUN 629	Group Procedures (child)	3 cr.	
COUN 667	Individual Counseling Practicum (chile	d) 3 cr	
COUN 669	Group Counseling Practicum (child)	3 cr.	
Total			48 ст.

M.A. students will not receive credit for COUN 624 Educational Appraisal or COUN 720 Ethical and Legal Issues in School Counseling.

Prospective students for the Master of Arts in Community Counseling must meet departmental admissions requirements and procedures in addition to those of the School of Graduate Studies and Research. Prospective students should contact the department to determine these requirements. Applicants are required to attend an admission workshop as the final step in the admissions process. Workshops are held three times a year, and applicants should contact the department to obtain the dates of workshops and deadlines for **completed applications** to be received by the School of Graduate Studies and Research.

## Master of Education in School Counseling Certification

Elementary and Secondary School Counselors—To qualify for institutional endorsement and commonwealth certification, students must complete a 48-credit-hour competency-based program to include a series of counseling skills courses, including individual and group counseling, and complete a field experience under the supervision of a certified school counselor.

While teaching experience is not a prerequisite for admission and school counselor certification in Pennsylvania, students are expected to possess an understanding of educational philosophy and child or adolescent growth and development. They should also understand the basic principles of psychology, sociology, and learning theory. Students lacking prerequisite understandings will be expected to meet these deficiencies during their course of study.

Students seeking commonwealth School Counseling certification will take the following:

Master of E	ducation in School Counseling Certi	ification

B. Students planning to work in the elementary school setting and who are seeking elementary school counseling certification will take the following:

COUN 627	Child Counseling Theory	3 (1
COUN 629	Group procedures (child)	3 ст
COUN 667	Individual Counseling Practicum (child)	3 ст.
COUN 669	Group Counseling Practicum (child)	3 ст

Total 48 cr.

M.Ed students will not receive credit for COUN 634 Mental Health Appraisal or COUN 730 Ethical and Legal Issues in Community Counseling.

Prospective students for the Master of Education and school certification programs must meet departmental admissions requirements and procedures in addition to those of the School of Graduate Studies and Research. Prospective students should contact the department to determine these requirements. Applicants are required to attend an admission workshop as the final step in the admissions process. Workshops are held three times a year, and applicants should contact the department to obtain the dates of workshops and deadlines for **completed applications** to be received by the School of Graduate Studies and Research.

#### **School Counseling Certification Only**

Those students already possessing a master's degree and desiring School Counseling certification (elementary or secondary) may apply to the counseling program for "Certification Only" status. Applicants should contact the department to have their graduate transcript(s) evaluated to determine necessary course work to complete commonwealth graduate certification requirements. Applicants for "Certification Only" must meet similar admission requirements as degree-seeking applicants, these requirements include a minimum 3.5 graduate grade point average.

#### License Only Option

The License Only Option for admission is designed for individuals who need additional credits to meet state standards for licensure. In order to be eligible for the License Only Option, individuals need to have completed a minimum of a 36 credit-hour master's degree and meet grandparenting criteria as outlined by the licensure board **OR** individuals need to have completed a minimum of a 48 credit master's degree. Applicants should contact the department to have their transcript(s) evaluated in order to determine in which courses they could enroll. The final determination of course acceptability for licensure is made by the

state licensing board. If a student has a question about a course being accepted for licensure or about meeting grandparenting criteria, he or she should contact the licensure board directly. Applicants for the "License Only" status must meet the same admissions requirements as degree-seeking applicants; these requirements include a minimum 3.5 graduate grade point average.

# Department of Educational and School Psychology

#### **Program Description**

The Master of Education degree in the Educational Psychology Program (33 to 36 credits, depending upon choice of thesis or non-thesis option) has been designed to give the interested student a broad theoretical and practical background in the areas of education and psychology. The program will be of interest to those planning to pursue certification in school psychology after the master's degree, to those wishing to broaden their understanding of human development and learning, or to those wishing to learn more about educational evaluation and research

The School Psychology Program at Indiana University of Pennsylvania is a multiple-entry-level graduate program culminating with a specialist certificate as a school psychologist in the Commonwealth of Pennsylvania and or a Doctorate of Education in School Psychology, An individual with a bachelor's degree may enter the program as a master's degree candidate and, during the completion of the master's-level course work, may apply for acceptance into the post-master's School Psychology Certification Program Students showing exceptional potential may be invited to apply directly to the doctoral program, receiving certification as school psychologists as they progress towards the doctorate. Individuals who already possess a master's degree from an accredited institution may apply directly into the post-master's portion of the program but may be required to make up certain master's degree courses. Students take 66-69 credits for the specialist certificate, while completion of the entire doctoral program involves 102-111 credits beyond the hachelor's degree, depending on the student's level at entry.

A student who is already certified as a school psychologist through another fully accredited institution may apply directly to the doctoral program. The sequence of courses required of these students is determined by a review of their past training and their performance on both a content and practicum competency evaluation. The core program for the doctoral sequence for students entering at this level is 42 credits beyond specialist certification.

Admission into the program at all levels is based upon evidence of previous scholarship and/or potential for academic success, personal and professional qualities deemed necessary to function as a school psychologist, and motivation for professional excellence and leadership in the field. Continuous enrollment of a minimum of 9 credit hours per semester or 6 credit hours per summer session is required unless waived by the student's advisor and the school psychology committee.

Both the specialist-level and doctoral programs are accredited by the National Association of School Psychologists and National Council for Accreditation of Teacher Education.

#### Master's of Education in Educational Psychology

General Requirements—All students must complete coursework in the following areas: Professional Development (9 credits), Humanistic Studies (3 credits), Behavioral Studies (3 credits), Subject Area (6 credits), Research (6 credits), and Electives (9 credits, non-thesis option). All electives must be approved by the student's departmental advisor and may be chosen to enhance the student's interest in school psychology, human development and learning, or educational evaluation and research.

#### Post-Master's Certification

The Certification in School Psychology (33 credits) is designed to provide the student with specific clinical skills necessary to function as a school psychologist. Courses focus on the multiple roles of the school psychologist, including counseling, assessment, intervention, consultation, biological bases of behavior, exceptionalities, law/ethics, and the use of psychological skills in multicultural educational settings. Course work will include: Assessment for Intervention I (EDSP 712); Assessment for Intervention II (EDSP 713); Instructional Consultation (EDSP 718); Neuropsychology of Children's Learning Disorders (EDSP 742); Assessment of Personality and Behavior Problems of Children (EDSP 763); Practicum II (EDSP 750); Advanced Social Psychology (PSYC 658); and an elective. In addition to course work, the certification program includes an internship (EDSP 751) that encompasses a minimum of 1,200 clock hours, at least half of which occur in a school setting.

Students must maintain a grade point average of at least 3.25 and a grade of B or better in all department courses.

#### Doctor of Education in School Psychology

The doctoral program is designed to enhance the generalist competencies of the school psychologist and to allow the student to gain advanced skills in research and a specialty in either neuropsychology and learning disorders or family-school relations. For all doctoral students, the majority of the advanced doctoral courses are completed in two to three summers following the completing of the certification in School Psychology. In addition to seminars in advanced issues in assessment and intervention (EDSP 764, EDSP 765), the core courses include two advanced research courses (EDSP 715, EDSP 716) and four courses emphasizing applied clinical skills in the above specialty areas. Doctoral students take a three-credit practicum, a threecredit, school-based internship (1,300 clock hours), a three-credit specialty internship (300 clock hours), and a nine-credit dissertation to complete the doctoral degree. Half of a student's total school psychology internship must be completed in a school setting.

#### Admission to the Master's Program

Individuals seeking initial admission to any departmental program must complete both a School of Graduate Studies and Research application and a departmental application. Once all application materials (including completed application forms, two letters of recommendation, transcripts, and GRE scores for the aptitude portion of the exam only) have been received, the school psychology program committee will review applications and select applicants for interviews. Following these interviews, the committee will forward to the School of Graduate Studies and

Research recommendations regarding admission into the program. The School of Graduate Studies and Research, in turn, will communicate an admission decision to the applicant.

Admission to the program is based upon an evaluation of undergraduate and graduate transcripts, recommendations, GRE scores, work history, professional goals, and personal characteristics as determined in the admission interview. No one criterion dominates in the admission decision, provided there is evidence of the basic ability to do graduate work.

#### Admission to Certification and Doctoral Programs

Students who are progressing successfully through the master's program may apply for the specialist (certification) program or directly to the doctoral program. Students who are accepted as doctoral students may enroll in selected doctoral-required courses as they progress through the certification program. It is expected that the majority of the doctoral requirements will be completed in the two summers following the specialist-level internship so as to maintain program continuity. A student who has a lapse in program enrollment without faculty approval may be required to reapply to the program.

Students, special admission and program planning procedures have been developed so that employed school psychologists, certified through a fully accredited university training program, may be admitted to the doctoral program. In addition to the completed application forms, undergraduate and graduate transcripts, two letters of recommendation (one of which must be from a direct supervisor), and GRE scores for the aptitude and advanced test in psychology, the student must present evidence of obtaining a passing grade on the School Psychology Praxis exam. Upon admission, these students must undergo a transcript review and candidacy exam to evaluate their past training and current competencies. Based on the transcript review, the candidacy exam, and observation of their clinical skills in EDSP 750 (Practicum I), a plan of study is developed. Additional courses beyond those required in the doctoral course sequence may be needed to fill gaps in the student's training or competence.

# Department of Foundations of Education

Courses in the Historical Foundations of Education are offered by this department

# Department of Professional Studies in Education

The Professional Studies in Education Department offers the following graduate degrees: M.Ed. in Education, M.Ed. in Early Childhood Education, M.Ed. in Literacy, a doctorate in Administration and Leadership Studies, and a doctorate in Curriculum and Instruction. A hrief description of each degree is presented below. Specific lists of courses and requirements can be obtained from the Professional Studies in Education Department in 303 Davis Hall.

#### Master's in Education

This thirty-six-credit, team-taught program is structured to address the educational needs of several types of graduate students who enter and proceed through the program as a cohort. The program's integrated curriculum is designed to prepare educators to be research oriented and to be more effective and innovative in classrooms, in schools, and in communities. The six Thematic Units of six credits each include Community and Culture, Instruction and the Learner, Teacher as Researcher, Curriculum and Instruction, Educational Change and Technology, and Teacher as Leader. The program requires Internet access, which is available at IUP at no charge to students.

#### Master of Education in Early Childhood Education

This three-year, part-time program is specifically designed for practicing teachers who are seeking an advanced degree and specialized certificate in the teaching of young children (pre-kindergarten through third grade). Students take one course each tall, one each spring, and two during the summer for a total of 12 credits per year. During years one and two, teachers who are already certified to teach in another educational field (e.g., Elementary Education, Special Education, Art, or Music Education) earn the 24 credits for an Instructional II Certificate in

the Commonwealth of Pennsylvania and add an early childhood endorsement (nursery school through third grade) to their credentials. During year three of the program, students earn the remaining 12 credits required for a 36-semester-hour, non-thesis Master's in Early Childhood Education. (Not available on the Indiana campus.)

#### Administration and Leadership Studies— D.Ed. Track

The doctoral program in Administration and Leadership Studies is designed to educate future school superintendents and college administrators. The sixty-credit graduate program will admit approximately twenty candidates who will remain together as a cohort group for three years. Classes are scheduled all day Friday and Saturday approximately once a month from 9 a.m. to 4 p.m.

Potential candidates must take part in a one-hour interview at IUP. The interview and writing examination are designed to identify candidates who will be admitted into the three-year program. All applicants should be current or former administrators and have at least two years of administrative experience

The program focuses on budgeting techniques, communication skills, team building, leadership theory, conflict resolution, implementing change, research, adult development, and case studies. The monthly seminars combine theory with actual projects that candidates are expected to implement in the workplace. The curriculum is designed to accommodate the schedules of working administrators.

#### **Doctorate in Curriculum and Instruction**

The Doctor of Education in Curriculum and Instruction is a graduate program intended for teacher scholars who have demonstrated distinguished achievement as practitioners or administrators in the field of education. The D.Ed. is a professional degree conferred upon candidates who have demonstrated the ability to function effectively in the role of teacher educator in college and university settings and who have a commitment to the professional development of preservice and in-service teachers. Successful completion of the doctorate in curriculum and instruction signifies that program graduates function effectively as teacher scholars who. I) understand and apply educational theory, 2) demonstrate competence in curriculum evaluation, 3) fulfill the role of teacher educator committed to working with diverse populations, and 4) conduct independent research that makes a significant contribution to the field of education

The program leading to a Doctor of Education in Curriculum and Instruction is an applied sequence of courses, experiences, and research for individuals currently serving as educators in basic education. The program intends to serve educators who are seeking to begin careers in higher education or to become curriculum experts and professional development specialists in public, private, and independent schools

The Doctoral Program in Curriculum and Instruction is designed to prepare teacher/scholars who work with preservice and inservice educators in university and school settings. In fulfilling their role as teacher educators, those who earn the D.Ed. in Curriculum and Instruction have mastered four areas: educational theory, teacher education, curriculum evaluation, and research methods.

The program intends to prepare doctoral graduates who will

- Fulfill the teacher educator's role in ways that reflect the highest standards for academic rigor, intellectual inquiry, and professional integrity
- Study curriculum as a discipline including the design, implementation, and evaluation of programs in education.
- Analyze critical issues in curriculum and instruction, both historical and contemporary, as they relate to a broad range of disciplinary specialties in the field
- Use technology for developing outstanding college level courses and professional development programs for preservice and in-service educators
- Demonstrate knowledge of adult development, characteristics of adult learners, and appropriate ways of supporting educators, professional growth

- Apply knowledge of learners and curriculum to offer exemplary college-level instruction and supervision to practitioners in the field of education
- Master the research skills of the teacher/scholar in education as demonstrated by professional presentations, scholarly writing, and the successful completion of independent dissertation research
- Contribute to the commonwealth and other educational settings by working effectively and ethically with diverse populations of educators, children, families, and communities

Students who have earned a valid instructional certificate from the Commonwealth of Pennsylvania may pursue the Supervisor of Curriculum and Instruction Certificate in conjunction with a 6-credit Supervised Doctoral Internship.

A total of 60 semester hour credits heyond the master's degree is required in the Doctoral Program in Curriculum and Instruction. The credits are allocated as follows:

L Core			33 cr
CURR 705	Curriculum Evaluation	3 ст

#### V. Professional Portfolio

The professional portfolio will be developed during the course of the doctoral program. See the Doctoral Program in Curriculum and Instruction Handbook for detailed guidelines.

# Department of Special Education and Clinical Services

The Department of Special Education and Clinical Services offers two graduate programs: Master of Education degree in Education of Exceptional Persons and the Master of Science degree in Speech-Language Pathology. These programs are in accord with the current national standards of the Council for Exceptional Children and the American Speech-Language-Hearing Association, respectively.

#### Master of Education

#### **Education of Exceptional Persons**

The M.Ed. program is structured to address the educational needs of five types of graduate students: (a) those who hold Pennsylvania Mentally and/or Physically Handicapped certification; (b) those who hold another teaching certificate who wish to obtain special education certification while working toward an M.Ed. degree in Education of Exceptional Persons; (c) those who hold another teaching certificate who wish to obtain special education certification without earning the M.Ed. degree; (d) those who wish to seek initial certification in special education through the Pennsylvania Department of Education Teacher Intern Certification Program; and (e) those who do not want to qualify for a teaching certificate but who wish to work professionally with persons with disabilities.

Students working toward a master's degree may select a thesis or a non-thesis option at an appropriate point in their program of studies. The department will exercise final judgment over the exact program of studies required for any student. All M Ed. candidates must successfully complete a comprehensive examination as the terminal experience in their course of studies

Applications are due by March 1 for consideration for Summer/Fall acceptance and by July 15 for Spring acceptance.

- \* These are minimum requirements. Additional course work may be required depending on present certification (e.g., applicants with secondary education certification will be required to demonstrate competence in the teaching of reading, language arts, and math to students with disabilities).
- The first three semester hours of FDLX 685 focus on mild-moderate disabilities, while the second three semester hours focus on severeprofound disabilities
- Additional course work and requirements exist for those seeking certification through the Pennsylvania Teacher Intern Certification Program. These requirements are determined at admission on a case by-case basis.

#### Speech-Language Pathology

50

Total required

The Speech-Language Pathology program culminates in a Master of Science degree. IUP is accredited by the Council on Academic Accreditation of the American Speech-Language-Hearing Association (ASHA). The program provides for the completion of the academic and practicum requirements for the Certificate of Clinical Competence from ASHA, for Pennsylvania Licensure in Speech Language Pathology, and for Level I Certification in Teaching the Speech and Language Impaired from the Pennsylvania Department of Education. The tripartite role is fulfilled by completion of all the course requirements for the B.S.Ed. and the M.S. degrees. Consequently, applicants who do not meet all of the undergraduate requirements will be asked to complete the necessary deficiencies before registering for graduate courses. Workshops are not to be considered applicable for degree requirements. The thesis option is available with approval of your advisur

#### Master of Science in Speech-Language Pathology

Candidates for the Master of Science degree must meet the academic and practicum requirements for the Certificate for Clinical Competence in Speech-Language Pathology awarded by the American Speech Language Hearing Association. A minimum of 48-51 hours is required for the degree.

#### Required Courses:

SPLP 600	Neurolinguistics	3 cr
SPLP 604	Diagnostic Methods	3 cr
SPLP 610	Articulation	3 ст.
SPLP 616	Stuttering	3 (1
SPLP 618	Voice	3 cr
SPLP 630	Language Disorders of Children	3 cr.
SPLP 632	Neurological Communication	
	Disorders	3 er
SPLP 635	Seminar in Communication (two take	n)6 cr
SPLP 640	Diagnostic Audiology	3 cr
SPLP 661	Advanced Clinical Practicum	2 et
SPLP 662	Diagnostic Clinic	1 + 1
SPLP 663	Hearing Testing Clinic	1 ∈1
SPLP 671	Advanced Clinical Practicum II	2 cr
Select two of	the following:	
SPLP 696	Internship in Hospitals	60
SPEP 697	Internship in Community Agencies	6 CT
SPLP 698	Internship in Schools	6 CF

Admission Policy: The Graduate Admission Committee will review all applicants for admission in terms of courses listed on the transcript(s) as well as grade point average. Applicants will be informed of any deficiencies when they receive the acceptance letter from the School of Graduate Studies and Research Undergraduate courses in the major with a letter grade below a "C" will not be accepted as a prerequisite to graduate study and will be treated as a course deficiency. The graduate coordinator will advise the person of the procedures to fulfill the deficiencies

Because the program has a limit on the number of applicants that it can accept, first priority for admission will be granted to applicants with at least a grade point average of 3.50 out of 4.00 overall in Speech-Pathology and Audiology, a GRE score of 950 or above, and strong letters of recommendation from at least two faculty members. Second priority will be given to applicants with a grade point average between 3.0 and 3.5.

Students may elect to submit evidence of passing scores on the Praxis I in lieu of GRE scores. In this case, GRE scores are not required for consideration for admission. All students planning to pursue Pennsylvania Teacher Certification will be required to complete the Praxis I test series *prior* to beginning the Master's Program in the fall semester.

Applicants for whom English is not their native language must achieve a score at the ninetieth percentile or higher on the oral and written subtests of the TOEFL. If applicants are not graduates of an undergraduate program in Speech-Language Pathology and Audiology, the restrictions relative to completing deficiencies will also apply. Furthermore, the applicant must provide the program's Graduate Admission Committee with an audiotape recording of twenty minutes of free conversation with a colleague and twenty minutes of reading from a professional text. The committee will indge the adequacy of the spoken language; the applicant may be required to successfully complete speech therapy before being allowed to register for clinical practicum experiences.

Observation hours and clinical practicum completed in another country will be accepted when they have been supervised by a speech-language pathologist or an audiologist who holds the appropriate certification from ASHA.

#### Retention in the Program

No person will be granted a degree who has more than one "C" grade in graduate courses in Speech-Language Pathology. Only one of these courses may be repeated in agreement with the School of Graduate Studies and Research procedures. Clinical courses must be completed with a grade of "B" or higher to meet the requirements for graduation. Furthermore, the practicum hours in clinical courses with a grade of "C" or lower will not apply to ASHA certification or state licensure requirements.

#### National Examination

Prior to receiving their degree, students must complete the National Examination in Speech-Language Pathology and Audiology and provide evidence of the attempt to the graduate coordinator. The examination should be taken during the last semester of enrollment.

# Department of Student Affairs in Higher Education

## Master of Arts in Student Affairs in Higher Education

The Department of Student Affairs in Higher Education (SAHE) houses one graduate program, offering the M.A. degree in Student Affairs in Higher Education.

The SAHE program is designed to prepare graduate students for employment in higher education in entry-level or midmanagement student affairs positions, dependent upon their previous experiences. Graduates will fill professional positions in two- and four-year colleges and universities in areas such as admissions, housing and residence life, student development programs, student activities, financial aid, career planning and development, and academic advising or other program areas.

Under the guidance of student affairs faculty and practitioners, requisite knowledge will be acquired through a balance of academic and practical experiences which stress critical thinking and which encourage the development of professional behavior. Students will develop a broad range of skills, in-depth knowledge, and the ability to apply concepts and skills as effective practitioners. The program is organized in cohort groupings of students enrolled in a curriculum offering foundational and theory courses in the first year and application courses in the second year.

Admission into the program can be from any undergraduate major, provided that students have demonstrated scholarship and the potential for success in advanced studies. A minimum of 42 hours (36 required course hours and 6 hours of electives or thesis) and the successful completion of a comprehensive exam are required to earn the degree. Students who complete a thesis are not required to take the comprehensive examination. This degree is typically earned over two years of full-time study in daytime classes.

5
_

In addition to graduate school admissions requirements, the SAHE program requires a 2.8 (3.0 is preferred) grade point average (GPA), an updated resume, a typed 200-word writing sample addressing the candidate's reasons for entering the field, and a personal interview. All graduate assistant candidates must come to campus for personal interviews. Admissions interviews can run concurrently with assistantship interviews

## 52 College of Fine Arts

The College of Fine Arts offers graduate degrees in Art and Music. The Department of Art offers Master of Arts and Master of Fine Arts degrees. The Department of Music offers a Master of Arts in Music (Music Education), Master of Arts in Music History-Literature, Master of Arts in Theory and Composition, and Master of Arts in Performance degree.

With one of the largest arts programs in the commonwealth, IUP's College of Fine Arts offers members of both the university and the extended community many opportunities to learn and grow. A 1.600-seat auditorium, two theaters, two art galleries, a university museum, and a recital hall augment dedicated facilities for each department. Typically, the College of Fine Arts sponsors more than two hundred arts events annually, including exhibitions of nationally recognized artists, faculty recitals and chamber music concerts, performances of Theater by the Grove, Classical Tracks, Cross Currents, Performance Plus, Music Theater, and other events in IUP's professional "Lively Arts" series. The Department of Music enjoys a partnership with the Pittsburgh Symphony Orchestra, providing on campus performances and master classes. The Department of Music is accredited by the National Association of Schools of Music. The Department of Art also has an active visiting artists program, and students benefit from the university's proximity to major arts centers of Pittsburgh, Philadelphia, Washington, D.C., and New York City.

### Department of Art

The Department of Art offers two graduate studio degrees in the Fine Arts:

Master of Arts (M.A.), a 30 credit initial degree Master of Fine Arts (M.E.A.), a 60 credit terminal degree

#### Master of Arts (M.A.)

The 30 credit M.A. conveys the precepts of contemporary line art aesthetics and professional practices directed toward the creation of works of art, the application of creative ideas and the transmission of knowledge about works of art and their

interrelationships. The M.A. is a practice-oriented degree leading to personal creative development and achievement.

#### The Master of Fine Arts (M.F.A.)

The 60-credit M.E.A. signals the highest level of professional competence in the Fine Arts. It requires the development of a verbally and visually articulate argument in a chosen medium, such as Painting. Drawing, Sculpture, Print Media, Metals, Woodworking, Ceramics, Fibers and trans-media collaborations. The Art student's research and development culminates in a written thesis and a mature and relevant body of artwork presented in a thesis exhibition. Art students who desire professional practice or university college teaching upon graduation should choose the M.E.A. program. Preparation for professional practice and teaching in higher education is exercised through rigorous diverse components of the program such as critiques; studies of contemporary culture in the contexts of art history, art theory and criticism; writing and exhibition.

The M.A. and the M.F.A. degree programs at IUP conform to the guidelines and standards of the National Association of Schools of Art and Design and the College Art Association.

#### **Admission Requirements**

Individuals seeking admission to graduate study within the Department of Art must meet the general admission standards and adhere to academic policies established by the School of Graduate Studies and Research at IUP. These specific policies are described in this catalog.

An applicant must either be a graduate of an accredited B.E.A., B.A., or equivalent degree program or be judged to possess the necessary prerequisite studio proficiency. Admission into the M.A. or M.E.A. program of the Department of Art is based on the nature, extent, and quality of preparation in studio, art history, criticism, and other academic subjects. It an applicant is deemed to be deficient in any of these particular areas, the graduate committee may require satisfactory completion of certain undergraduate courses.

#### Application for Admission

- Application Form and Fee
- 2. Official Transcripts—include all undergraduate/graduate course work
- Resume
- Artist/Goal Statement (one page) articulating the subject matter and artistic content of the applicant's work as well as professional goals.
- Three Letters of Recommendation—These letters should be written by professional artists or educators in the arts with whom the applicant has recently studied or worked and who can assess the applicant's studio and scholastic competencies.
- 6. Slide Portfolio—Twenty slides representing the applicant's professional artistic work. Each slide should be identified by its number, medium, size, and date of completion. Slides should be contained in a plastic slide sheet. A supplementary slide reference sheet should also be included, identifying each slide by its number, title of work, medium, size, and date of completion.

#### Application Deadlines

All of the application materials must be received by the School of Graduate Studies and Research before a review of materials can take place. There are only two reviews a year:

Review			Receipt date o	f materials
Spring	 	 		March 1
Summer	 	 		June 1

Please allow ample time for materials to arrive at IUP. If any are missing, the applicant will not be reviewed. Please note dates above are not postmarked dates. Students seeking assistantships must apply by the March 15 deadline.

IV. Thesis Requirements

ART 850

The residency requirement for the M.F.A. is the same as that for a student within a doctoral program at IUP. Please refer to that section of the catalog for details.

In addition to the information that appears in this catalog, applicants are advised to request a copy of the Program Overview and Admission Procedures document from the Department of Art that describes in slightly more detail the policies and procedures related to the Master of Arts and Master of Fine Arts degree programs.

### Department of Music

The graduate program in music provides the student with opportunities to improve skills as teacher, performer, or scholar beyond the bachelor's degree. Upon acceptance by the School of Graduate Studies and Research, each student consults the graduate coordinator in music, who assigns advisors, helps plan a course sequence, and oversees the formation of the thesis committee.

The Department of Music offers four graduate degrees: Master of Arts in Music (Music Education), Master of Arts in Music History-Literature, Master of Arts in Theory and Composition, and Master of Arts in Performance.

The Music Education degree offers students a range of experiences in music teaching and learning theory, research, and The Performance degree introduces students to the world of professional artistry. Students prepare a thesis which consists of a recital and program notes as partial fulfillment of the degree.

The Music History Literature degree builds a broad foundation in the history and literature of cultivated music from the early middle ages to the modern era. It can serve as a background for careers in music journalism, concert management, and associated fields. Students prepare a thesis that coordinates knowledge of geography, history, foreign language, and music theory with the study of major styles and masterworks.

The Music Composition and Theory degree will expose students to a broad spectrum of musical styles and compositional techniques, as well as experience in composing for solo instruments, chamber groups, and large ensembles. Students prepare a major composition as a thesis or undertake an extensive analysis.

In addition to meeting School of Graduate Studies and Research requirements, the applicant must meet Music Department admission requirements: a) undergraduate degree with major in music or its demonstrated equivalent; b) undergraduate degree in music education and/or teacher certification for the Music Education degree; c) completion of a satisfactory audition in the applicant's major instrument for the Performance or Music Education degree (specific audition requirements are available upon application); and d) entrance placement exams in theory, music history, and piano proficiency. Applicants requiesting admission to the Music Education degree are required to have a Provisional Pennsylvania Teachers Certificate or its equivalent Music Education applicants who do not already have such certification must complete a planned program leading to certification prior to applying for candidatcy at ICP

## College of Health and Human Services

The College of Health and Human Services offers Master of Arts degrees in Criminology and Industrial and Labor Relations, and Master of Science degrees in Food and Nutrition, Sport Science, Nursing, and Safety Sciences. A Graduate Certificate of Recognition program is offered in Safety Sciences. Three of the six programs hold national accreditation. A doctorate is awarded in Criminology

## Department of Criminology

The Department of Criminology offers programs of study leading to a Master of Arts and a Doctor of Philosophy degree in Criminology. The programs are designed to prepare graduate students for careers in academia as well as in upper-level administrative positions in various fields of justice. The programs allow the student to choose from a wide selection of courses within the Department of Criminology as well as elective courses in related departments.

The Master of Arts program is offered in two locations. The M.A. program on the main campus offers full- or part-time study. A part-time evening program is also offered in the greater Pittsburgh area. The doctoral program is offered on the main campus; full- or part-time study is permitted.

#### Master of Arts in Criminology

#### Department Admission Requirements

In addition to meeting the requirements for admission to the School of Graduate Studies and Research, a student intending to work toward a Master of Arts in Criminology will be required to have the following prerequisite academic and/or professional preparation:

- A Students should be able to demonstrate a sound understanding of criminological theory and the criminal justice system (generally satisfied by a bachelor's degree in criminology, criminal justice, or related field); or,
- B. Students should have knowledge gained through experience within the justice system or by specialized training or

completed graduate or undergraduate studies in a related field  $^{\circ}$ 

\*All applicants for the Master of Arts degree in Criminology must possess the essence of knowledge offered in the undergraduate (B.A.) program core courses. These courses are

CRIM 102 Survey of Criminology

CRIM 210 Criminal Law

CRIM 300 Theory of Complex Criminal Justice Organizations

CRIM 306 Criminological Research Methods

CRIM 400 Theoretical Criminology

CRIM 401 Contemporary Issues in Criminology

It, upon the consideration of the Department of Criminology Graduate Committee, an applicant is deemed to be deficient, the department, through the master's coordinator, will require appropriate undergraduate courses to remove these deficiencies. Students may begin master's studies in either semester or in the summer

#### Master of Arts in Criminology

Students must choose between a thesis or non-thesis curriculum

#### Doctor of Philosophy in Criminology

#### **Department Admission Requirements**

It is expected that students entering the Ph D program in Criminology will have completed a master's degree in either Criminology or a closely related discipline. However, in exceptional cases, a highly qualified applicant may enter the doctoral track with a baccalaureate degree. Such students would obtain the M.A. degree en route to the Ph D.

Applicants must meet all School of Graduate Studies and Research admission requirements. Additionally, the doctoral coordinator, after consulting with the department Ph.D. committee, will submit a recommendation regarding applicants to the School of Graduate Studies and Research. The following criteria are reviewed:

- 1. all official college transcripts
- 2. three letters of recommendation
- statement of goals
- example of written work (thesis, articles, reports, etc.)
- GRE scores (a combined score of at least 900 on the verhal and quantitative sections is expected. Some flexibility may be granted at the discretion of the screening committee.)
- skill requirement (foreign language, computer or statistical ability, or other skills approved by the Ph D committee or the department's graduate curriculum committee)
- personal interview (may be requested by department Ph.D committee or by applicant)

#### Curriculum

The Ph.D. program in Criminology requires a minimum of 54 semester hours of acceptable graduate credit. Each student must complete requirements for (a) course work; (b) area of specialization requirements; (c) qualifying examinations; (d) skill requirement; and (e) dissertation

#### A. Required Course Work

#### Core Courses (21 semester hours):

1	1 K 1 (21 K III) K I III) KI 1/1	
CRIM 710	Advanced Theoretical Criminology	3 (1
CRIM 717	Advanced Qualitative Methods	3 cr
CRIM 718	Quantitative Strategies for Analysis in	
	Criminology	3 cr
CRIM 720	Advanced Quantitative Methods	3 cr
CRIM 730	Ethical and Philosophical Issues in	
	Criminology	3 cr
CRIM 740	Advanced Criminal Justice Policy	3 cr
CRIM 750	Doctoral Colloquium in Criminology	3 cr
2. Advanced	Applied Research (9 semester hours):	
CRIM 801	Advanced Applied Research I	3 cr
CRIM 802	Advanced Applied Research II	3 cr
CRIM 803	Advanced Applied Research III	3 cr

- 3. Criminology Electives: six semester hours minimum
- Other Electives: six semester hours from Criminology or related disciplines
- B. Qualifying Examination: Upon completion of 18 semester hours, a student must take qualifying examinations in three core subject areas. After successful completion, a student may proceed toward fulfillment of remaining degree requirements

#### C. Comprehensive Area of Specialization Competence Review: Areas of Concentration —Each student must decide upon one subspecialty within Criminology. Upon consultation with the student, the student's advisory committee, and the doctoral coordinator, a proficiency review will be conducted.

**D. Skill requirement:** (0.6 semester hours). This requirement may be fulfilled by demonstrating knowledge in one of the following areas:

- foreign language
- computer
- advanced statistics
- · advanced research methods
- other appropriate areas as approved by the doctoral coordinator

Further details regarding any of these skill requirements can be obtained from the doctoral coordinator

**E. Dissertation:** In accordance with university guidelines, successful completion of a doctoral dissertation is required. (12 semester hours)

#### Residency

The following options are available to doctoral students for satisfying residency requirements:

- 1 completion of a minimum of nine graduate credits at IUP in each of at least two consecutive semesters
- completion of a minimum of nine graduate credits at IUP for at least one semester immediately preceding or following a summer of nine semester hours of study
- completion at IUP of at least nine graduate credits in each of two consecutive summers plus six graduate credits during the intervening academic year

#### **Part-Time Study**

This program may admit each year some students whose intention is to complete the program on a part-time basis. Course offerings can be expected to fluctuate, especially in the expansion of new course offerings. A complete and updated description of any changes can be obtained from the Department of Criminology

### Department of Food and Nutrition

The Master of Science degree program is designed to prepare individuals with baccalaureate education in food and nutrition by increasing the depth of their knowledge with respect to food and nutrition, developing research skills, and enhancing their performance skills by specialization in the area of applied human nutrition. Courses in intermediate nutrition (FDNT 458/558\* Advanced Human Nutrition) and biochemistry are required for entrance into the program. Prospective students apply for admission through the School of Graduate Studies and Research. Applicants are then referred to the Food and Nutrition. Department Graduate Studies Committee for review. All relevant official transcripts, Graduate Record Examination scores, and letters of recommendation must be on file with the School of

56

Graduate Studies and Research prior to any department decision. After acceptance, a faculty advisor will be assigned to each student.

\*If taken for graduate credit, Advanced Human Nutrition cannot count toward degree credits in the Food and Nutrition program but can be taken as an elective degree course outside of Food and Nutrition.

With the successful completion of 15 hours of graduate course work, including BIOL 602 or GSR 516 and GSR 615, students will qualify for degree candidacy.

An Accredited American Dietetic Association Dietetic Internship is available in conjunction with the master's program. Admission to this program requires a separate application. Information can be obtained by contacting the Food and Nutrition dietetic internship program director.

Students may choose a thirty-three-credit degree program to include a four-credit thesis (FDNT 850) or a thirty-five-credit program with a comprehensive exam.

# Department of Industrial and Labor Relations

The Master of Arts in Industrial and Labor Relations is a multidisciplinary graduate degree program designed to prepare professional practitioners in the field of industrial and labor relations in public and private management, unions, government agencies, and neutral and service organizations. The 42-semester-hour program consists of a required core of 27 semester hours and elective course offerings totaling 15 semester hours.

In consultation with the advisor, each student will individually build the elective sequence of the program of study by choosing 15 elective semester hours from among industrial and labor relations courses and courses approved by the advisor that are offered by other departments.

Students are strongly encouraged to elect an internship to integrate theory and practice in the field. Certain students with exceptional background in relevant work experience or previous course work may qualify for exemption from some courses. As part of their professional growth, students may also participate in the research and training activities of the Pennsylvania Center for the Study of Labor Relations.

The program leading to a Master of Science degree in nursing is fully accredited by the Commission on Collegiate Education. It is designed to prepare the graduate for an advanced practice nursing role as a nurse administrator or a nurse educator and serves as a foundation for doctoral study.

Upon completion of the degree the student is prepared to

- Provide leadership that influences and contributes to the advancement of the nursing profession.
- Synthesize advanced skills and scientific knowledge into advanced nursing practice roles.
- Utilize new knowledge to provide high quality health care, initiate change, and improve the practice of nursing.
- Evaluate the effectiveness of advanced nursing practice initiatives.

Course work builds on the knowledge and skills gained in a basic nursing education program. It provides the theoretical and practical knowledge required for advanced nursing practice in diverse settings within a rapidly changing health care system. Nurse administrators assume leadership roles in planning, organizing, and implementing care across the spectrum of health care settings. Nurse educators assume responsibility as nurse educators, patient educator, or nursing staff developers in a variety of academic and health care settings.

Students may choose the 36-credit Nursing Administration track or Nursing Education track.

#### Admission Requirements:

60

Applicants must have a bachelor's degree, have successfully completed of a basic nursing program accredited by the Commission on Collegiate Nursing Education or the National League for Nursing Accrediting Commission, and have current licensure as registered nurses in any state in the U.S. Pennsylvania licensure is required before students begin clinical courses Students should also have a minimum QPA of 3.0 (4.0 scale) if they graduated with the B.S.N. within five years of the application date. If the bachelor's degree is older than five years, the minimum QPA required is 2.6. Evidence of course work in statistics and research methodology and in design is also required Applicants also must meet the general requirements for admission to the School of Graduate Studies and Research. Additional admission requirements for registered nurses licensed outside the United States, its territories, or Canada are available from the Department of Nursing

Students in both tracks may choose electives from IUP courses that are appropriate for their needs and interests as they work toward meeting the program objectives. Advisors will approve elective choices. Three credits of NURS 850 Thesis may be substituted for electives. Students who choose the thesis option may graduate with more than the required 36 credits.

#### **Culminating Activity**

As a program requirement, all students will develop a comprehensive portfolio project according to guidelines provided by the faculty.

### Department of Safety Sciences

The Department of Safety Sciences offers a program of studies leading to a Master of Science degree in Safety Sciences. A thesis option is available. Students have the opportunity to choose from two specialty tracks—safety management and technical, including a wide selection of course offerings as electives. In addition, students may choose elective courses, with approval of advisor, in fields directly related to safety sciences. The program is designed for individuals with relevant experience in safety sciences and those with appropriate undergraduate preparation who are interested in pursuing careers in the profession.

#### Program Objectives:

After completing the M.S. program in Safety Sciences, the students will have

- Expanded their technical and managerial knowledge and skills of the safety, health, and environmental field.
- Acquired advanced research and communication skills.
- B Enhanced their leadership skills.

#### Admission Requirements:

Admission to the M.S. in Safety Sciences program requires the same admission procedures established for admission to the School of Graduate Studies and Research, that is, a baccalaureate degree with a minimum 2.6 CGPA.

In addition to meeting the requirements for admission to the School of Graduate Studies and Research, a student intending to work toward a Master of Science in Safety Sciences will be required to have the following prerequisite professional preparation:

Entry-level competency in Safety Management, Occupational Safety, Occupational Health, and Fire Protection through relevant education, documented work experience, certifications, or other means acceptable to the Safety Sciences Graduate Review

When the Safety Sciences Graduate Review Committee determines that a deficiency in work experience or relevant education exists, a student will be required to complete additional studies to eliminate the deficiency. More information on admissions requirements is available from the Safety Sciences Department.

#### Certificate of Recognition in Safety Sciences

The Department of Safety Sciences offers a program of studies leading to a Certificate of Recognition in Safety Sciences. The Certificate of Recognition in Safety Sciences is a twelve-credit program that introduces the students to the fundamentals of occupational safety and health. The fundamentals will stress the recognition, evaluation, and control of common workplace hazards. The Certificate of Recognition in Safety Sciences is designed for those individuals who already have a bachelor's degree and have safety and health program activities as peripheral responsibilities within an organization. It should also be noted that the Certificate of Recognition in Safety Sciences could also serve as a foundation for those individuals who would like to pursue a graduate program in safety but who do not have an undergraduate degree in safety. Professionals who would benefit from this certificate are human resource managers, occupational health and environmental health professionals, or others who have safety as a peripheral responsibility.

#### **Program Requirements**

All students will be required to successfully complete a total of twelve credits, of which six hours are core courses. The student must choose the remaining six hours in elective courses.

## 62 College of Humanities and Social Sciences

The College of Humanities and Social Sciences offers master's degrees in English (M.A./Generalist, M.A./Literature, M.A./Teaching English, and M.A./Teaching English to Speakers of Other Languages), Geography (M.A./Geography and M.S./Geography), History, Political Science (M.A./Public Affairs), and Sociology. Doctorates are awarded in English (Literature and Criticism and Composition and TESOL) and Sociology (Administration and Leadership Studies)

### Department of English

#### Master of Arts in English

The M.A. in English responds to the needs of four groups of students: those interested in gaining a generalist background in graduate English studies, students wanting to concentrate on literature, students seeking secondary English certification or desiring to enhance their existing skills in teaching English, and students who want to teach English to speakers of other languages. Each of the four options for the M.A. requires 36 credit hours, either of course work (twelve courses) or a combination of course work and an internship or thesis. Each option has its own set of requirements for distributing those 36 hours, and each has its own admissions committee. Students applying for admission must indicate which degree option they wish to pursue.

The generalist (M.A.—GEN) option is designed for students who wish to take course work in several areas of English to attain a balanced background in the discipline and gain preparation for more advanced doctoral work, for teaching at the community college level, or for a career in such professional fields as publishing or translation. The literature (M.A.—LIT) option is for active professionals who wish to further their expertise in literature and for students who wish to piepare for work on a Ph.D. in literature and criticism. The teaching English (M.A./TE) option is for in-service secondary English teachers who wish advanced in-depth study in the teaching of English and for students with the bachelor's degree in English (or its equivalent) who wish to pursue initial Secondary English certification. The M.A.—TESOL option prepares students in the theory and practice

of teaching English to speakers of other languages in a variety of settings within (English as a Second Language) and outside (English as a Foreign Language) the United States

IUP's M.A. in English has courses available in both summer sessions and during the academic year. As there is no specific residency requirement for the M.A. at IUP, students are not required to attend the program full time during the academic year; some of the work may be accomplished over the course of several summers—although certain courses required in several of the programs are offered only during the normal academic year. However, the final six credits must be taken at IUP. Students attending full time can complete the M.A. in English in as little as a single year or may spread their work out over two or three years. Thus, the M.A. in English at IUP offers the advantages of both professional focus and personal flexibility.

#### M.A. Program Descriptions

#### M.A./Generalist

The Master of Arts Generalist (M.A.—GEN) option is for students who wish course work in several areas of English. This track provides preparation for more advanced doctoral work, for teaching at the community-college level, or for careers in such professional fields as publishing or translation.

#### M.A./Teaching English

36 cr.

The Master of Arts/Teaching English (M.A./TE) is a 36-semesterhour degree program that involves the study of the research on teaching literature, composition, and language, through both academic course work and supervised field experiences. The M.A./TE program, which reflects recent studies of teacher development, is designed for in-service secondary English teachers who wish advanced, in-depth study in the teaching of English. Also, it is designed to meet the needs of persons with a bachelor's degree in English (or its equivalent) who wish to pursue initial English teaching certification. In addition to enrolling in the 36 semester hours of course work, students seeking initial certification must complete six semester hours of student teaching. Thus, the M.A./TE with certification will entail a total of 42 semester hours of course work and student teaching.

M.A./Teach	ing English Course Requirements		
A. Core Cour	rses:		15 cr.

Students cho	ose any three from the following courses	,	
C. TESOLE	lectives		9 cr.

#### **Doctor of Philosophy Programs**

There are two distinct doctoral programs in English, one in Literature and Criticism and one in Composition and TESOL. Both programs lead to a Doctor of Philosophy in English

#### I. Literature and Criticism

611

The Literature and Criticism Program's Doctor of Philosophy in English is designed for present or future teachers at the college or university level. It features both a regular academic year program and a very active summer program for established teachers who wish to complete their degrees in the summers only. The program develops students' abilities to examine literature critically, to teach literature effectively, and to make professional contributions in the field. Courses emphasize the role of theory in understanding literature, and students are asked to apply theory to their teaching and research in the concluding Advanced Seminars. The Traditional Literature courses reinforce the student's understanding of historical, cultural, and intellectual contexts. The Special Literatures section mirrors the acceptance of new works in the canon. The focus on scholarly skills in the seminars and the mentoring relationships with professors assure that students will acquire a professional competence in literature and critical theory.

The Literature Program has rolling admissions throughout the year. Please note that applications are not encouraged from students who are not already employed in teaching English or who do not have prior teaching experience. Because of the limited opportunity for gaining teaching experience on campus, student classroom teaching experience as part of the degree program cannot be guaranteed.

Early in the program, each doctoral student chooses or is assigned a faculty mentor to provide guidance and advice on becoming professionally active. The main components of the program are course work, a candidacy examination (taken approximately midway in the course work), proof of language proficiency, and the completion of a research skills requirement, comprehensive examinations, and the dissertation.

A minimum of 30 hours of course work (excluding the dissertation and, for certain students, the prerequisite ENGL 674 Bibliographical Methods in English) is required beyond the M.A.

Two core cours	ses		6 сг.
ENGL 751	The History and Theory of Criticism	3 cr.	
ENGL 752	Literary Theory for the Teacher and		
	Scholarly Writer	3 cr.

in literature			18 cr.
(At least two c	ourses must be in Traditional Literatures,	)	
ENGL 761	Topics in American Literature		
	Before 1870	3 cr.	
ENGL 762	Topics in American Literature		
	Since 1870	3 cr.	
ENGL 763	Topics in British Literature Before		
	1660	3 cr.	
ENGL 764	Topics in British Literature Since 1660	3 cr.	
ENGL 765	Topics in Literature as Genre	3 cr.	
ENGL 766	Topics in Comparative Literature	3 cr.	
(At least one co	ourse must be in Special Literatures)		
ENGL 771	Topics in Postmodern Literature	3 cr.	
ENGL 772	Topics in Women's Literature	3 ст.	
ENGL 773	Topics in American or British		
	Minority Literature	3 ст	
Two Advanced	d Seminars		6 cr.
ENGL 783	Seminar: Literary Theory Applied to		
	Major American Author or Theme	3 cr.	
ENGL 784	Seminar-Literary Theory Applied to		
	British Author or Theme	3 cr	
ENGL 785	Seminar. Comparative Literary Theory		
	Applied to Traditional and Special		
	Literature	3 cı.	
Total			30 cr.

The program director may permit students with particular programmatic needs to take up to six of the 30 hours in a closely related field such as rhetoric and linguistics, history, or philosophy.

After completing 12 to 18 hours of course work, the student must take a generalist literary essay examination for admission to candidacy and permission to take further elective courses and seminars. Candidacy depends upon satisfactory completion of this exam and the fulfillment of a 3.5 grade point average.

Following the completion of the 30 hours of course work, students take written comprehensive examinations in three areas (literary theory and practice as applied to a general list of authors and texts, a broadly defined area of literature, and a narrowly focused field of study), together with an oral defense of the written exams. In addition, the program requires reading ability in a foreign language and the completion of a research skills requirement (either proficiency in a second foreign language or an additional six hours of graduate course work in a field related to a student's research needs). The final program requirement is the successful defense of a dissertation, including registration for twelve dissertation credits. Further and more detailed information about the program is available in the Program Handbook, which may be obtained from the Office of the Director, Graduate Studies in Literature and Criticism, 111 Leonard Hall, 421 North Walk, IUP, Indiana, PA 15705. Phone: 724-357-2263; fax: 724-357-3056.

#### II. Composition and TESOL

The Composition and TESOL Program (formerly Rhetoric and Linguistics) began in 1975 and was revised in 1986 and again in 2000. Consistently, the program has been designed to meet the needs of English and TESOL (Teaching English to Speakers of

Other Languages) instructors at two-year and four-year colleges and universities. The program's core courses provide a foundation for students to build a specialized course of study in composition or TESOL or both. This foundation is flexible enough to meet students' individual needs and the ever-changing needs of the academic marketplace. Moreover, the core curriculum enables students to connect theory with authentic practice. The program is designed to increase the professional qualifications and teaching effectiveness of instructors now in teaching positions.

The Composition and TESOL Program recognizes the changing structure of education and the interdisciplinary nature of research into the nature and transmission of fluent literacy, allowing the mature graduate student to design an innovative schedule of courses to meet his or her special needs. It provides central courses in research methods, technology and literacy, and language theory and offers options for a 9-credit specialization in Composition or TESOL. Students have 15 elective hours in the program, with courses offered in rhetoric, reading theory, and literacy theory. In addition, students may take courses from other programs, or they may opt to take the second specialization in the CT Program.

The emphasis of the program is on the flexible, yet intensive, preparation of instructors of literacy. To achieve this flexibility, the program is designed to permit variation in the fields of concentration. Course and program alternatives may be adjusted to reflect the personal goals of students in consultation with the Composition and TESOL Committee, a committee of those faculty members approved to teach Composition and TESOL graduate courses (see list of faculty). Nonetheless, all students study a common body of knowledge in central courses and focus inquiry and research on the uses of interdisciplinary knowledge for the transmission of literacy in the teaching of English. A unique feature is that students can select an academic year or a summers-only program option.

Department of Geography and Regional Planning

IUP's Department of Geography and Regional Planning offers graduate programs leading to the degrees of Master of Science and Master of Arts in geography. The M.S. and M.A. programs are designed to prepare students for a variety of careers as geographers in business, government, research, environmental, and planning organizations or for entry to a doctoral program at another university. Emphasis is placed upon developing professional competence in the tools, substance, methodology, and geographic theories.

Graduates of the program are employed by the state and federal government, city, county and regional planning commissions, private consultant and engineering firms, business and industry, and colleges and universities. Knowledge of environmental processes, the organization and operation of the planning field, and geographic information systems are of value to the graduate in the job search.

Students who enter the program usually hold a bachelor's degree in geography or one of the social sciences. Persons with degrees in education, science, or business also may quality and often find a degree in geography of value. Applicants must take the Graduate Record Exam before they will be admitted to precandidacy status.

Master of Arts students may pursue geographic themes of study and research such as population, urban economic, or cultural/historical. Recent faculty research papers and publications have examined rural planning. Eastern Europe, economic development, geographic information systems, regional input-output analysis, population patterns, religious landscapes, microcomputers, and geographic education. Laculty members serve in various capacities in the Association of American. Geographers, Pennsylvania Planning Association, and several other professional organizations. The Spatial Sciences Research. Center, an entity that facilitates grant-tunded academic research and contract work, is located within the department.

The Master of Science program requires the student to complete a fifteen credit track in GIS Cartography, Regional Planning, or Environmental Planning, Each track includes two required courses and a list of options.

In either program, selected courses in related fields may be applied toward the degree. All students will be expected to demonstrate proficiency in cartography in their thesis or portfolio. Both a thesis or non-thesis option are available in either the M.S. or M.A. program. For students selecting the non-thesis option, a portfolio is a nongraded graduation requirement. A three-person

faculty committee will evaluate the portfolio, which will include at least three of the student's best pieces of work and written reflective analysis. The portfolio is submitted by the end of the first week of the semester the student is scheduled to graduate.

Both graduate degree programs require a minimum of 33 semester hours of credit (including the thesis credits) for the thesis option or 39 hours for the non-thesis option. Three core courses must be included: GEOG 610, GEOG 612, and GEOG 614. Students may arrange an internship as part of their degree electives up to six credits.

## Department of History

The Department of History offers the M.A. degree with either a thirty-credit (thesis) or a thirty-six-credit (non-thesis) option. Students must complete a research requirement and a subject matter requirement. A wide range of courses in American, European, and public history are available.

Traditionally, most historians have become teachers. But increasingly, historians are seeking employment in nonteaching fields, including careers in museum, archival, or library work or in tourism and travel. Historical societies provide editorial and administrative openings, and publishing companies hire historians for both sales and editorial services. The history graduate program is designed to provide students with training appropriate to a wide range of professional goals in the field of history.

A minimum of 30 semester hours is required or 36 semester hours for those electing not to write a thesis or electing to pursue the Public History track. Within these general requirements is a nine-semester-hour research requirement consisting of HIST 614 Research Methods (or a substitution approved by the department) and a combination of seminars and/or thesis hours. The remaining hours are selected from the subject matter courses. Six semester hours may, with approval, be from related disciplines.

Students pursuing the Public History track must complete 36 semester hours as outlined below:

I. Research	requirement		
HIST 614	Research Methods	3 ci	
HIST 850	Thesis	ti CI	
or			
Two semina	rs (one with a local history focus)		
II. HIST 605	Introduction to Public History	3 ст

 Under special circumstances, another appropriate course in a public history specialization may be substituted for HIST 606

### Department of Political Science

The Political Science Department offers the  $M.A.\,$  in Public Affairs degree, concentrating on Public Administration with several alternative field specializations.

67

#### Master of Arts in Public Affairs

The M.A. in Public Affairs program is designed for full- and parttime students who are seeking or are currently engaged in professional careers as administrators, project directors, staff analysts, and supervisors in government and human service agency delivery systems, trade unions, and interest groups; teachers of the social studies; and those interested in international development and comparative administration or in becoming foreign service professionals.

Admission Requirements: The requirements for admission are: (1) an undergraduate cumulative grade point average of 2.8 or better; (2) undergraduate course work in political science, economics, and public or international affairs or equivalent professional experiences (in some cases, this may require specific remedial course work that will not count toward degree requirements); (3) for international students, a TOEFL score of 550 or better; (4) for students with an undergraduate degree from an American college or university, a combined GRE score of 1050.

**Degree Requirements:** The M.A. in Public Affairs requires thirty-six or thirty-nine graduate credits, including a thesis or a practicum. Students develop a core competence in methodology and in public administration and also select one of six interdisciplinary field specializations.

Public Affa	irs 36-39 cr.

or PLSC 675	International Political Economy [2]	3 cr	
and PLSC 671	Seminar in Public Administration	3 cr	

68 3. Field Specializations 15 cr

Students must select one of the following with advice from a field specialization advisor. Criminal Justice Administration; Planning and Regional Development, Human Services Administration; Human Resources Management, Local Government Management, or International Development Administration.

#### 4. Directed Research Requirement

3 cr.

 Students must complete PLSC 690, Practicum, which includes a supervised field-based research project at a site appropriate to the student's specialization

or

- b Students may opt to write a thesis (PLSC 850). The thesis must conform to criteria published by the School of Graduate Studies and Research.
- [1] A student whose undergraduate transcript shows "B or better" performance in a Research Methods in Political Science course may petition the MAPA program for exemption from PLSC 500. The exemption will be determined by examination by qualified faculty in the Department of Political Science.
- [2] Students who elect to pursue the International Development Administration field specialization will enroll for either PLSC 670 Foreign Policy Studies or PLSC 672 Comparative Political Studies or PLSC 675 International Development Administration, instead of PLSC 668 Public Sector Financial Administration

### Department of Sociology

Advanced training in sociology should enable students to think insightfully and critically about society and human relationships and to serve more effectively in a variety of professions. The department's M.A. in Sociology prepares students for employment in human services, government agencies, corporations, higher education, and social research positions. Recent graduates are working as directors of human services agencies, alcohol treatment supervisors, domestic violence program staff members, medical social workers, mental health professionals, social policy researchers, and college professors. The M.A. in Sociology is designed to prepare students for such opportunities with two programs of study, the General Sociology Program and the Human Services Program.

In addition to School of Graduate Studies and Research admissions requirements, the applicants to the Sociology M.A.

program should have completed at least 12 hours of undergraduate social science courses with an average of "B" or better. Students not meeting this requirement may be admitted if they agree to take additional undergraduate or graduate sociology courses designated by the department.

#### Master of Arts in Sociology

Students select either a six-credit thesis option or a non-thesis option. Students selecting the thesis option must successfully complete a six-credit thesis (see requirements to) the thesis listed under the catalog description for SOC 850). Including the six-credit thesis, the thesis option requires a total of 36 credit hours for those in both the General Sociology and the Human Services Programs. The non-thesis option in both programs requires a total of 36 credit hours and successful completion of a comprehensive exam.

Additional courses are available from other departments on related topics such as counseling, individual assessment, women's studies, criminology, cross-cultural studies, public policy and finance, community and urban planning, statistical analysis, and program evaluation. Up to nine credit hours may be taken outside the department. No more than one-third of a student's total credit hours may be dual-level (500-level) courses. Students who enrolled for dual-level courses while undergraduates at IUP may not repeat the same courses for credit as graduate students.

#### General Sociology Program

The General Sociology Program is designed especially for those students preparing for research professions, doctoral studies, or teaching in the social sciences.

I. Require	d Core		9 cr.
SOC 664	Research Seminar in Sociology	3 cr	
SOC 665	Microcomputing Applications in

- F Social Change

A specialization enables the student to select a combination of three to five courses (including courses from various other departments) focusing on a particular area of interest. Complementary courses are offered in Women's Studies, Chnical Psychology, Counselor Education, Criminology, Public Administration, Adult and Community Education, Political Science, History, and other departments or programs.

#### **Human Services Program**

The Human Services Program is designed to prepare students to work in a variety of human service fields and to offer advanced training for those already employed in human service professions. The Human Services Program is designed for those interested in service delivery to special client groups like the aging, the abused, and the alcohol dependent, or for those interested in human service administration or evaluation.

Both thesis and non-thesis options in the Human Services Program require a total of 36 credit hours.

- Students may also design their own specialization, with the approval of the graduate coordinator
- 2 No more than 9 of these 15 semester hours of approved electives may be from outside the department

# Doctor of Philosophy in Administration and Leadership Studies

The Ph.D program in Administration and Leadership Studies is designed to educate administrators in social service, health care, government agencies, higher education, and other public and nonprofit organizations. This program has been offered by the Sociology Department since 1998 in collaboration with the Department of Political Science

Classes are designed to accommodate the schedules of working professionals and are offered throughout the year, including summers. The 60-credit program admits between fifteen and twenty students at a time. The program is offered in two locations, at the main campus in Indiana, Pennsylvania, and at the Dixon University Center of the State System of Higher Education in Harrisburg, Pennsylvania. New student cohorts are admitted every other year at each site, alternating between the Indiana and Harrisburg programs.

The program focuses on leadership approaches, research and evaluation methods, and policy and administrative applications. Focused electives may be selected from a variety of departments, including Sociology, Political Science, Geography, Industrial and Labor Relations, Criminology, Management, Adult and Community Education, and others. For detailed information about the program, you may contact the program coordinator at 724-357-2730 or ALS-PHD@up.edu. The program's website may be viewed at <a href="mailto:invavilupedu/als">invavilupedu/als</a>.

# College of Natural Sciences and Mathematics

The College of Natural Sciences and Mathematics at IUP offers graduate degrees in Science for Disaster Response (M.S.), Biology (M.S.), Chemistry (M.S. and M.A.), Mathematics (M.S. and M.Ed.), Physics (M.S. and M.A.), and Clinical Psychology (Psy.D.).

#### **Interdisciplinary Program**

The Master of Science in Science for Disaster Response (SDR) degree program is designed to provide military, federal, and civilian emergency first responders with intensive education in chemical, biological, radiological, and nuclear (CBRN) principles and in detecting, identifying, and safely handling CBRN agents or their precursors. This degree program responds to a national need for counterterrorism training and fulfills the national mandate to improve educational levels of emergency first responders. For emergency first responders, the degree program increases knowledge, skills, and abilities with respect to emergency response; provides an opportunity for earning university credits tied to past education and training; and improves the responders' employment and/or advancement prospects to work in a Chemical Surety or Biological Safety laboratory. The degree gives emergency first responders more credibility and reduces the risk to them by improving their abilities to respond to CBRN incidents

#### Requirements for Admission

Students admitted to this degree program must meet all IUP standards for graduate admission. Applicants must have local, state, or federal agency/organization recommendation prior to admission to this degree. Additionally, applicants must have prior DoD and/ or FEMA education and training in domestic preparedness (20 credit hours), CBRN response (40 credit hours), and emergency response (10 credit hours) or equivalent courses as approved by IUP. Applicants must have sufficient preparation in biology, chemistry, physics, and mathematics. Preparation in biology, one semester of human anatomy, one semester of human physiology, and one semester of methods in molecular biology and biotechnology. Preparation in chemistry should include two semesters of the basic concepts in chemistry and two semesters of organic chemistry. Preparation in physics should include two

semesters of the basic principles of physics, one semester of mechanics, and one semester of modern physics. Preparation in mathematics should include two semesters of calculus for chemistry and physics and one semester of probability and statistics. Applicants must take a placement exam that has been developed by the WMD faculty for Levels 1, 2, 3, and 4 of the SDR courses.

## Department of Biology

The Department of Biology offers a Master of Science degree that is intended both for the student who wishes to pursue further graduate work leading to the Ph.D. degree, as well as for the student who desires the M.S. degree as a means to seek a career as a biologist in a number of different professions. The M.S. degree in Biology has two alternatives, the thesis and non-thesis options. The thesis option is research oriented, with an emphasis on a comprehensive research project under the supervision of a thesis advisory committee. The non-thesis option also requires a research component that is under the direction of a faculty member. Both alternatives are intended to provide the student

with a well-rounded biology background, as well as furnish the research skills required for postgraduate positions.

## Requirements for Admission

To be admitted to the Department of Biology, the applicant must have completed the requirements for a hachelor's degree from an accredited college or university. These requirements should include a major in Biology (or related subject), one year of morganic chemistry, one semester of organic chemistry, and one semester of calculus or statistics. Applicants with undergraduate deficiencies may be required to register for prerequisite courses

The departmental requirements for candidacy for the M.S. degree

- Satisfactory completion of 15 semester hours of graduate work, with at least eight hours in core courses.
- The selection of a thesis advisor and a committee of at least two additional faculty members (in the case of the thesis student) or a research advisor (in the case of non-thesis student) to guide the candidate in completing the program.
- An official application to candidacy, including a research proposal approved by the advisor, must be submitted to the Biology Department Graduate Committee.

Candidates are expected to maintain an average not lower than 3.0. Continuance in the graduate program for those receiving two individual course grades below a "B" is contingent upon favorable review of the Graduate Committee.

#### Master of Science in Biology

Students working for this degree will complete 35 semester hours of work in accordance with the following divisions. Students may pursue either a thesis or a non-thesis option.

#### Core Courses

72

Thesis option-20 semester hours Non-thesis option-17 semester hours

#### A. Required Courses

Thesis optio	n	11 cr.
BIOL 602	Biometry	3 cr.
BIOL 611	Biology Seminar I	1 cr.
BIOL 612	Biology Seminar II	l cr
BIOL 850	Thesis	6 cr
Non-thesis o	ption	8 cr.
BIO1, 602	Biometry	3 cr
BIOI 611	Biology Seminar I	1 cr.
BIOL 612	Biology Seminar II	1 cr
BIOL 699	Independent Study	3 cr

#### B. Core Elective Requirement

For both options, the nine remaining hours of course credits are to be selected from biology electives and must include one cell/molecular course, one organismal course, and one ecology course.

#### 11 Flective Courses

Thesis option 15 semester hours Non-thesis option 18 semester hours

Courses to be selected with the approval of the advisor from the 500and 600-level biology elective courses or from related science and mathematics courses.

#### III. Competency Exam-

Every student must take a competency exam administered by the candidate's advisory committee. The purpose of this examination is to assure that all graduates have a broad-based knowledge of biology, as well as a mastery of their subject matter perfaining directly or indirectly to their research project

This examination must be scheduled after completion of 18 semester hours but before completion of 27 semester hours. It a student fails this exam, a second exam will be administered which, at the discretion of the committee, can be oral or written. This exam must be taken within a four-month period following the first exam. Failure of the second exam will result in dismissal from the program.

#### IV. Research Requirement for the M.S.

- A. Non-thesis option The candidate must conduct an original research project under the direction of a faculty advisor. A report in the format of a journal article must be submitted at the conclusion of the study. This requirement is programmed as BIOL 699, Independent Study
- B. Thesis option -The candidate must conduct original research under the direction of the thesis advisory committee and present a research thesis at the conclusion of the program. The candidate registers for BIOI, 850, Thesis, while engaged in research and preparation of the thesis. The candidate will present a public seminar, reporting results of the research, and an oral detense before the thesis committee.

In many courses in the Department of Biology, additional laboratory time may be required beyond the regularly scheduled periods.

## Department of Chemistry

The Chemistry Department offers two different degree programs on the master's level- the Master of Science and the Master of Arts degrees

The Master of Science degree is for the chemist who intends to pursue further graduate work leading to a Ph.D. or who intends to work as a professional chemist and desires to become more competent in chemistry. This degree is research oriented, and successful completion of an experimental thesis is required. Also, two consecutive semesters of residency are required

The Master of Arts degree is designed to meet the needs of the chemist who is currently a full-time employee of a chemical or academic institution and who wishes strengthening in those areas relevant to the professional position. The emphasis here is on course work. The student may also pursue this degree on a fulltime basis.

Four core courses, one in each of the areas of morganic, organic, analytical, and physical chemistry, are required in the M.S. and M.A. programs.\* Beyond this point, the programs separate, with the M.S. student taking more specialized work in chemistry along with an experimental research problem. The M.A. candidate will take more specialized work in chemistry and will be encouraged to take courses outside the sciences if they are relevant to the particular area of employment.

General admissions requirements: Students should have completed one year each of inorganic chemistry, analytical chemistry, organic chemistry, physical chemistry, general physics, and calculus. Students wishing to specialize in biochemistry

NUMBER OF STANDARD AND ALLE A MANUS PRINCE OF STANDARD AT A CATALOG

should also have had an undergraduate course in biochemistry. A student deficient in the above areas of study may also be admitted provided these deficiencies are made up concurrently with the student's graduate studies.

\*An exception to this is afforded the student wishing to specialize in biochemistry.

#### Master of Arts in Chemistry

I. Industrial/teaching experience: Before the degree of M.A. in chemistry can be granted, the applicant must have had at least three years of full-time employment in an approved area of chemistry. Only those years of employment after obtaining the bachelor's degree may be counted. This experience, in addition to the final six credits being taken at IUP, meets the university and departmental residency requirements.

II. Core Courses		14 cr.
CHEM 540	Physical Chemistry	3 cr.
CHEM 600	Semmar*	2 cr.
CHEM 610	Inorganic Chemistry	3 cr.
CHEM 620	Analytical Chemistry	3 cr
CHEM 630	Organic Chemistry	3 cr.

#### III. Course Electives (10 to 16 cr.)

Any graduate-level courses selected from the natural sciences and mathematics with the permission of the candidate's advisor. Special permission from the Chemistry Department's Graduate Committee will be required for courses outside the sciences.

IV. Thesis Requirements	(0 or 4 cr.)

The student has two options

- A. Thesis not required—A total of 30 semester hours in suitable courses is acceptable.
- B. Committee thesis (CHEM 850-4 cr.)—If the candidate is doing research as part of full-time employment, that research may be submitted as a thesis, provided approval is given in advance by the employer and the Chemistry Department's Graduate Committee. The candidate's employment supervisor may serve as an ex-officio member of the thesis committee.
- The M.A. candidate is not required to attend all daytime seminars but is required to present two seminars and is expected to attend the evening seminars.

#### Master of Science in Chemistry

- I. Residence Requirements The student shall be in residence a minimum of two consecutive semesters of full-time work Students working as graduate assistants and/or making up deficiencies can expect to be in residence for at least two years.
- II. For those specializing in analytical, inorganic, organic, or physical chemistry:

A. Required	Courses	15	CT.
CHEM 540	Physical Chemistry	3 cr.	
CHEM 610	Inorganic Chemistry	3 ст.	
CHEM 620	Analytical Chemistry	3 cr	
CHEM 630	Organic Chemistry	3 cr.	
An additiona	l three-semester-hour 600-level		
chemistry co	urse selected from analytical,		
inorganic, or	ganic, or physical chemistry	3 cr	

The student may, with the advice and approval of the advisor, select electives from chemistry, physics, biology, or mathematics. CHEM 500 Special Studies can provide a maximum of three semester hours toward the 30 semester hours necessary for the degree.

#### III. For those specializing in biochemistry:

A. Required	Courses	12 cr.
CHEM 646	Biochemistry	3 cr
CHEM 623	Physical and Chemical Methods	
	of Separation	3 cr
CHEM 630	Organic Chemistry	3 cr.
BIOL 662	Molecular Genetics of Eukaryotes	3 cr
B. Electives		a minimum of 9 cr.
at least one of	the following:	
BIOL 553	Physiology of Plants	3 cr.
BIOL 652	Microbial Physiology	3 cr.
BIOL 653	Animal Physiology	3 cr
BIOL 654	Endocrinology	3 cr
and any gradu	iate courses in the natural sciences a	nd mathematics

#### IV. Research and Thesis Requirements:

mutually agreed upon by the student and advisor

A.	The research work must lead to an acceptable thesis, approved by
	the student's advisor and the supervisory committee and
	defended in a final oral examination.

B.	CHEM 600 Seminar	2 cr.
C.	CHEM 690 Research	for at least 3 cr
D.	CHEM 850 Thesis	4 cr.

To be taken during the term in which student is writing the M.S. theus

# Department of Mathematics

The Mathematics Department offers three graduate degrees: the Master of Science in Applied Mathematics, the Master of Education in Mathematics, and the Master of Education in Elementary and Middle School Mathematics Education.

#### Master of Science in Applied Mathematics

The M.S. program in Applied Mathematics is designed to produce graduates who are marketable in industry, government, and education. It also provides a solid background for those planning to pursue a Ph.D. program. Faculty members offer courses in the areas of operations research, statistics, and traditional applied mathematics. The department houses state-of-the-art computer facilities with which faculty and students engage in activities such as simulation and statistical analysis. Most classes are offered at times convenient for nontraditional students who wish to advance their careers in applied mathematics or secondary education. Students have the option of writing a thesis or participating in an internship.

Program Requirements			
I. Core Cou	irses*		15 cr.
MATH 525	Applied Mathematical Analysis f	3 €1.	
MATH 545	Programming Models in Operations		
	Research	3 cr	
MATH 546	Probabilistic Models in Operations		
	Research	3 ст	
MATH 563	Mathematical Statistics 1	.3 cr	
MATH 564	Mathematical Statistics II	3 cr	

 Required unless comparable courses have been completed at the undergraduate level 73

H. Controlle	d Electives**		15 cr.
MATH 547	Simulation Models	3 cr	
MATH 551	Numerical Methods for		
	Supercomputers	3 ст	
MATH 571	Linear Algebra	3 cr.	
MATH 641	Differential Equations	3 ст.	
MATH 643	Graphs, Networks, and Combinatorics	3 ст	
MATH 645	Nonlinear Programming Models	3 cr.	
MATH 661	Advanced Sampling Theory	3 cr.	
MATH 663	Nonparametric Statistics	3 cr.	
MATH 665	Applied Regression Analysis	3 cr.	
MATH 684	Topics in Operations Research	3 cr.	
MATH 685	Topics in Statistical Methods	3 cr.	
MATH 688	Problems in Applied Mathematics	3 cr.	
	2		

<sup>\*\*</sup> At least 12 cr. must be at the 600 level.

#### III. Additional Electives\*\*\*

Other graduate-level mathematics courses may be selected with the approval of the student's advisor. Also, with the advisor's approval, up to six semester hours of graduate work may be taken in disciplines such as chemistry, computer science, economics, finance management information systems, and physics

\*\*\* The MS in Applied Mathematics requires a minimum of 27 cr. of course work in addition to the research requirement listed below.

IV. Research Requirements	3-6 ст.
Option I MATH 850 Thesis	3 cr.
or	
Option II MATH 698 Internship	6 cr.
Total	30-33 cr.

#### Master of Education in Mathematics

The Master of Education in Mathematics is ideal for secondary mathematics teachers. Its purpose is to provide an opportunity for students to increase their knowledge of mathematics and to become aware of research and innovations in mathematics education. Course requirements and electives come from several departments: Foundations of Education (FDED), Educational Psychology (EDSP), Counselor Education (COUN), Special Education (EDEX), and Mathematics (MATH, ELMA).

#### Program requirements

A minimum of 30 semester hours must be completed by each candidate for the Master of Education degree, according to the following:

l. Foundati	ons of Education Electives		3 cr
FDED 514	Comparative Foundations of Education	3 cr.	
FDED 611	Historical Foundations of Education	3 cr.	
FDED 612	Philosophical Foundations of Education	3 cr.	
FDED 613	Social Foundations of Education	3 ст.	
H. Educatio	nal Psychology Flectives		3 cr
EDSP 604	Advanced Educational Psychology	3 cr.	
EDSP 573	Psychology of Adolescent Education	3 cr.	
EDSP 576	Behavior Problems	3 cr	
EDSP 578	Learning	3 cr.	
COUN 629	Group Procedures	3 cr.	
COUN 639	Group Procedures	3 cr.	
EDEX 650	Exceptional Children and Youth	3 cr	
III. Research	Requirement		3 cr
GSR 615	Elements of Research	3 cr	

IV. Mathem.	ntics Education Electives		6 cr.
MATH 650	History of Mathematics	3 cr	
MATH 651	Seminar in Teaching Junior High		
	School Mathematics	3 cr.	
MATH 652	Seminar in Teaching Senior High		
	School Mathematics	3 (1	
MATH 654	Curriculum and Supervision in		
	Mathematics	3 (1	
ELMA 651	The Laboratory Approach to		
	Teaching Mathematics*	3 (1	
ELMA 652	Diagnosis and Remedial Teaching of		
	Mathematics*	3 cr.	
ELMA 653	Mathematics for the Gifted Student*	3 cr	
V. Mathema	ntics Content Electives		15 cr.
a. Required	unless comparable courses have been		
complete	d at the undergraduate level	0-6 cr.	
MATH 521	Advanced Calculus I	3 cr.	
MATH 576	Abstract Algebra I	3 cr	
<b>b.</b> Any grad	uate-level mathematics content		
		9-15 cr	

# With special permission from the advisor, these courses are acceptable for fulfillment of the Mathematics Education requirement

# Master of Education in Elementary and Middle School Mathematics Education

An integral part of the program will be to familiarize students with recent developments in curriculum, instruction, and implementation of contemporary mathematics programs in elementary and middle schools. Upon completion of the program, the student will be prepared to serve as a resource teacher, mathematics teacher in a departmentalized situation, coordinator, or in other leadership roles in an elementary or middle school mathematics program. For teachers in public schools, the program meets the credit requirements for Instructional Level II certification. It does not provide 7-12 certification for those who hold a K o Level I certificate.

Students have three options for the completion of the program leading to a Master of Education degree in Elementary and Middle School Mathematics Education.

**Option 1:** Primarily designed for those who wish to pursue a degree after the master's degree. The requirements are 27 hours of course work and a three-hour committee thesis.

**Option 2:** Primarily designed for those who will take a leadership role in the school. The requirements are 30 hours of course work and written comprehensive examination.

**Option 3:** Primarily designed for the classroom teacher who wishes to update skills. The requirements are 36 hours of course work with no thesis or comprehensive examination required.

Students must satisfy the following course requirements:

Required:		6 CI
ELMA 650	Curriculum and Instruction in	
	Flementary School Mathematics	3 (1
EDSP 604	Advanced Educational Psychology	3 ст
Elective:		3 сг

15 cr. minimum

Education and Clinical Services. Students should consult their advisor concerning prerequisites and appropriateness before scheduling these courses.

#### Vt. Comprehensive Exam

Option 2 only

# Department of Physics

The Department of Physics offers two graduate degrees at the master's level: the Master of Science and the Master of Arts in Physics. The Master of Science in Physics degree program is designed for students who plan to pursue further graduate work or to undertake research in an industrial position. The degree is research oriented, and a thesis is required. The Master of Arts in Physics program will generally be selected by students who wish to strengthen their physics background in preparation for more advanced graduate study or to fulfill teaching certification requirements. This program emphasizes course work, and a thesis is optional.

Because of the wide range of possible courses, students are required to have the consent of their graduate advisors before selecting a course. An advisor is assigned to students as soon as they are accepted into the degree program.

## Master of Arts in Physics

This program is the more flexible of the two graduate degree programs offered by the Department of Physics. Each student's program is designed to meet his or her individual needs and is developed with the student and advisor working together.

The educational goals of students in many categories can be met while they are working to attain degrees. Several examples of the category of student who may select this degree program are

- The student whose undergraduate training is in Physics Education or Physical Science Education or Science Education with a strong professional education component. This student may need more content than professional education. In this program, the student may, with the concurrence of his or her advisor, enroll in exactly that ratio of content courses to professional education courses that is necessary to attain his or her goals.
- 2. The student who holds a teaching certificate in a field other than physics but is a secondary school physics teacher. These students often require formal course work in a number of areas of physics in order to have physics added to their certificates. This is normally a requirement of their school district and/or the commonwealth. This program allows students to meet this requirement while working toward a degree.
- The student who wishes to enroll in a cooperative program, including those programs with internship components.
   Students may earn eight to 15 semester hours during a semester while interning under one of the special programs instituted by the university.

#### I. Subject Matter

Required course work in Physics is to be selected from the graduate physics courses with course numbers of 510 or greater. This selection must have the *prior* approval of the student's academic advisor, and a notation of such approval is to appear in the student's folder

#### II. Electives 11 to 18 cr.

The student may complete the requirements for an M.A. by selecting, with the approval of his or her advisor, from among the offerings of the School of Graduate Studies and Research. The number of credits selected for electives depends upon the option exercised under Research and Thesis.

#### III. Research and Thesis Option

Each Master of Arts student must complete degree requirements in one of the following two ways:

- A. Undertake an individual research problem and complete an acceptable thesis. For this option, the student must schedule PHYS 600 for two semester hours and PHYS 850 for at least two semester hours. If the student selects this option, he or she will have completed a minimum of 30 semester hours, including these two courses, for the degree.
- B. Decide, with the approval of his or her academic advisor, that a research problem is not to be undertaken. If this option is exercised, the student will not do a thesis but must complete a minimum of 33 semester hours of course work.

ELMA 850 is required for Option 1 only.

#### Master of Science in Physics

#### Admission Requirements

Applicants must have a B.S. or B.A. degree with a major in Physics and meet the requirements of the School of Graduate Studies and Research and the Department of Physics. Applicants having other degrees that provide sufficient preparation in physics and mathematics will also be considered for admission.

#### II. Subject Matter Concentration

A minimum of six courses to be selected with the approval of the advisor from the following: PHYS 536, PHYS 601-602, PHYS 634, PHYS 641, PHYS 651, PHYS 652, PHYS 661-662.

#### III. Research Requirement

Each Master of Science student is required to undertake an individual research problem and to complete an acceptable thesis under the supervision of one of the faculty members eligible to teach graduate courses. The student is expected to choose a research advisor by the beginning of the second semester in attendance and to submit a written thesis proposal to his or her Thesis Committee for approval by the end of the second semester The Thesis Committee will be selected by the student in conjunction with his or her research advisor. The student must schedule PHYS 600 for two semester hours and PHYS 850 for at least two semester hours.

### IV. Comprehensive Examination

The student must pass a comprehensive examination.

#### V. Free Electives

The student may complete the 30-hour requirement by choosing from among the offerings of the School of Graduate Studies and Research, with the advice and approval of the student's graduate advisor

# Department of Psychology

The Psychology Department offers a Doctor of Psychology degree in Clinical Psychology (Psy.D.) that places emphasis upon professional applications of psychology based on a solid grounding in the scientific knowledge base of psychology. The program is designed to meet the academic requirements of licensure and provide the background to immediately assume responsibilities in appropriate professional settings.

The department also offers a program of respecialization in clinical psychology for persons holding a doctoral degree in a nonclinical area of psychology. Psychologists wishing to enter the respecialization program must plan to acquire a broad base of knowledge, skills, and attitudes through an individualized plan of study including course work and practica. This program usually requires two years of campus course work and practica, followed by a year long internship

#### Doctorate in Clinical Psychology

#### Admission to the Psy.D.

The following criteria are used in the evaluation of application Advanced, and subject sections of the GRF (average of 500 on all experience in practicum or employment, (e) the applicant's

statement of goals; (f) letters of recommendation; and (g) results of a personal interview.

Breadth of undergraduate training is preferable to narrow specialization. Weaknesses in one area may be offset by strengths in another area, although the Admissions Committee gives preference to applicants with some demonstrated strengths in all areas. Students may be required to make up deficiencies

The deadline for receipt of all application materials is January 10. The Admissions Committee will then select a pool of qualified applicants who will be invited to the campus for personal interviews. Announcements of final admissions decisions will be made around April 1

#### Philosophy

The Psy.D program follows a practitioner or applied model of training of clinical psychologists. Emphasis is placed on professional applications of psychology to a wide variety of human problems. Students receive extensive supervision in the development of skills in interpersonal relations, psychological assessment, psychotherapy, community outreach, and program evaluation and a solid grounding in the scientific knowledge base of psychology

#### Curriculum

The Psy.D. program is typically completed in four calendar years of full-time study plus an additional year of full-time internship. The curriculum requires a minimum of 102-104 semester hours of acceptable graduate credit. Each student must complete requirements for (a) core course work; (b) special proficiency/elective course work requirements; (c) practicum, internship, and professional issues; (d) doctoral project; (e) comprehensive academic and professional examinations; and (f) master's and doctoral candidacy. In addition, a course in History and Systems in Psychology is required for graduation.

#### A. Core Course Work

57 cr.

3 cr

3 cr

3 cr.

The core courses are required of all students. These courses cover several areas of psychology and provide the scientific basis for professional practice.

#### 1. Methods of Behavior Change:

5. Physiological Bases of Behavior:

6. Cognitive Bases of Behavior:

Drugs and Behavior

Models of Learning

Clinical Neuropsychology

PSYC 630	Methods of Intervention I	3 cr
PSYC 631	Methods of Intervention II	3 cr
PSYC 633	Clinical Group Techniques	3 cr.
PSYC 634	Family Therapy	3 cr.
2. Method	s of Assessment and Evaluation:	
PSYC 641	Psychological Assessment 1	3 cr.
PSYC 642	Psychological Assessment II	3 cr.
PSYC 743	Psychological Assessment III	3 cr.
3. Research	h and Methodology:	
PSYC 601	Research Methods in Psychology I	3 ст
PSYC 603	Evaluation Research	3 cr
PSYC 704	Clinical Research Methods	3 cr

	in Psychology	3 cr.
PSYC 658	Advanced Social Psychology	3 cr

## History of Psychology:

PSYC 610	Historical	Trends in	Psychology	3 cr.

## B. Elective Course Work/Special Proficiency:

three courses

Students select three advanced courses in consultation with an advisor. Special elective packages include Child/Family and Behavioral Medicine

#### C. Practicum Internehin and Professional Issues

C. Practicum	, Internship, and Professional Issues:		27 cr.
PSYC 770	Professional Issues	3 cr.	
PSYC 798	Advanced Psychological Practicum	21 cr.	
PSYC 799	Internship	3 cr.	

Students will typically register for practicum experience throughout their program with sampling from diverse settings. During the final year, a full-time professional internship emphasizing depth and longterm involvement is required.

#### D. Doctoral Project: PSYC 950 Doctoral Project (Dissertation) 901

#### E. Comprehensive Academic and Professional Examinations: Each year, an evaluation of clinical and professional competence will be made. This evaluation data will be shared with the student as feedback, and a joint effort will be made to remediate any deficiencies.

Students must also pass a preliminary examination and a research proficiency evaluation covering basic knowledge appropriate for a professional psychologist. This examination will cover material related to all of the core course work areas

The Clinical Proficiency Evaluation is completed during the final year on campus. Students present assessment and therapy work samples to a committee of faculty members.

Satisfactory performance on both the preliminary examination and the professional evaluations must be achieved before candidacy for the doctorate will be recommended. Serious deficiencies may result in recommendations for remedial work, reexamination, delay of candidacy, or termination from the program

#### E. Master's and Doctoral Candidacy

Students will routinely obtain the master's degree on route to the doctorate. Requirements for candidacy for the M.A. degree include. the successful completion of 24 credits of approved graduate course work with a grade point average of 3.0 and the recommendation of the Clinical Training Committee based on satisfactory academic and professional evaluations. The fifty-four credits for the M.A. must include nine hours of practicum and 45 hours of the core course work of the Psy D. degree

The candidacy for the PsyD will be awarded following the completion of all M.A. requirements plus a minimum of an additional nine. credits, successful performance on the preliminary examination and research proficiency evaluation, and satisfactory annual academic and professional evaluations. A grade point average of 3.0 is required for candidacy

#### G. Transfer of Graduate Credit

Applicants who have completed course work at other institutions may request transfer of credit. A maximum of 36 semester hours of credit. may be approved. A portion, but not all, of the practicum requirements may be transferred for equivalent supervised experience.

#### H. Part-time Study and Residency

Students must complete two consecutive semesters or one summer plus the preceding or following semester of full-time study to meet residency requirements. At other times, students may complete parttime studies. All students complete a Plan of Study, which will include a detailed semester-by-semester outline of proposed course work and completion dates for exams, doctoral project, and internship. An average of 15 semester hours must be completed each year, and all requirements must be completed within seven years

#### Other Policies

The Psychology Department has established guidelines for the registration and completion of the doctoral project, academic good standing, full-time student status, an appeals process, and other academic matters. These guidelines are explained in the Psychology Graduate Student Handbook.

# 78 The School of Graduate Studies and Research

#### Professional Growth

The Professional Growth program leading to an M.A., M.S., or M.Ed. is a highly restricted and specially structured course of studies determined by the student and his/her advisory committee. The program may not duplicate or even resemble an existing graduate degree program at IUP. For each degree area, the total credit-hour requirement is the same: 30 credit hours. Students electing to pursue a M.Ed. degree in Professional Growth should receive additional advice from the College of Education and Educational Technology. The requirements for all M.Ed.

degrees have a certain core that must be fulfilled. A four-semester-hour committee thesis is required, as well as GSR 615. Flements of Research. An administrative member from the School of Graduate Studies and Research is a mandatory thesis committee member, in addition to at least two members of the faculty from related academic disciplines. Applicants to this program must have an approved program of study prior to admission. For further information, write to the Advisor, Professional Growth Degree Program, The School of Graduate Studies and Research, 210. South Tenth Street, IUP, Indiana, PA. 15705.

# Course Descriptions

## ACCT: Accounting

Department of Accounting

Eberly College of Business and Information Technology

#### ACCT 500 Fundamentals of Financial Accounting

1.5 cr.

This course is designed for EMBA students without prior accounting background to prepare them for the MIBA course in Managerial Accounting. The objective of the course is to familiarize the student with the basic concepts, standards, and methods of financial accounting and the interpretation of accounting information for financial decision-making in organizations. EMBA students with prior academic course is in accounting can apply for a waiver from this course.

#### ACCT 501 Advanced Accounting

3 ст.

Study of business combinations and consolidations as well as accounting problems of specialized nature such as goods on consignment, installment sales, receivership accounts, agency and branch accounting. **Prerequisite:** ACCT 302 or equivalent (9 cr. of Accounting)

#### ACCT 502 Foundations of Financial Accounting

3 cr.

A basic course for graduate students encompassing the concepts of accounting fundamentals, external reporting and the interpretation of accounting principles, and external reporting and the interpretation of accounting information for financial decision making in domestic and international corporations.

#### ACCT 512 Advanced Cost Accounting

3 cr.

Theory, preparation, and use of budgets, analysis of cost variances, direct costing, and extensive analysis of various cost control and profit planning programs. **Prerequisite**: ACCI 311

#### ACCT 531 Auditing

cr.

A study of auditing theory and practical application of auditing standards and procedures to the verification of accounts and financial statements, working papers, and audit reports. **Prerequisite:** ACCT 302

#### ACCT 581 Special Topics in Accounting

3 cr.

ACCUSAL Special ropics in Accounting
Covers advanced or exploratory topics within the discipline Specific content
developed by instructor Content will vary depending on specific topics. May be
repeated by specific approval. Prerequisite: Permission of the instructor and
Eherly College of Business and Information Technology graduate coordinator.

#### ACCT 607 Management Accounting

3 cr.

Designed for management personnel who are not accountants but who need to understand the accounting process and the use of accounting information by management in making decisions and in performance evaluation. Prerequisite: ACCT 202. Not open for credit for students with constructive credit for ACCT 311.

#### ACCT 608 Seminar in Accounting Issues

3 cr.

Designed to offer students the opportunity to explore the conceptual framework for accounting and reporting and to study, research, and dehate

various controversial issues of current interest to the accounting profession as well as any other accounting area of mutual interest to them and their instructor. The theme of the seminar will be different every time it is offered. Prerequisite: ACCT 302 or instructor's permission.

#### ACCT 610 Accounting Systems

3 cr.

Accounting principles applied to constructing accounting systems. Special attention is given to problems of management as they relate to accounting systems by developing a system to give management the information desired for effective operation of business. Prerequisite: ACCT 301.

#### ACCT 612 Advanced Tax Accounting

3 ст.

Develops further knowledge of federal income tax laws as they apply to corporations, estates, and trusts. Federal estate tax and gift tax are also explored. **Prerequisite:** ACCT 421

#### ACCT 613 Financial Statement Analysis

3 cr.

Detailed analysis and interpretation of financial statements using the various purposes and coverage of the accounting principles underlying the data to be analyzed Prerequisite: ACCT 202

#### ACCT 681 Special Topics in Accounting

3 cr.

Covers advanced or exploratory topics within the discipline. Specific content developed by instructor. Content will vary depending upon the interests of instructor and students with instructor choosing specific topics. May be repeated by specific approval. Prerequisite: Permission of the instructor and the Eberly College of Business and Information Technology graduate coordinator.

#### ACCT 699 Independent Study in Accounting

1-3 cr

Individual research and analysis of contemporary problems and issues in a concentrated area of study under the guidance of a senior faculty member Prerequisite: Consent of instructor, departmental chairperson, and dean, Eberly College of Business and Information Technology.

#### ACCT 850 Thesis

4-6 cr

For students writing the thesis, ACCT 850 should be scheduled for the semester in which they plan to complete their work. The thesis is a committee thesis (4-6 cr.) for which the student's advisor, two additional faculty members, the Eberly College of Business and Information Technology graduate coordinator, and/or the representative of the dean, Eberly College of Business and Information Technology, may constitute the committee

#### ACE: Adult and Community Education

Department of Adult and Community Education College of Education and Educational Technology

#### ACF 590 Improving Professional Practice in Instructional Settings: 1/3 cr. and

ACF 591 Improving Professional Practice in Instructional Settings: 1.3 cr. Reviews current research in instructional practices, motivational techniques, and professional issues. The course may focus on any of these aspects of teaching, learning, or professional practice. In addition, the course may be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. This course is offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### ACF 620. Introduction to Adult and Community Education. A survey course which examines the fields of adult and community education philosophically and historically and in terms of current programs and processes. The course includes the study of adult and community education principles and concepts as well as available literature and resources.

ACE 621 The Adult Learner This course focuses on the adult as learner, including physiological, psychological, and sociological characteristics and their effect on learning

## ACE 622. Program and Process Development in Adult and Community Education A knowledge and skill building course designed for present and future adult

and community education practitioners. This how to course examines concepts and practices relevant to the development of educational programs in traditional and nontraditional educational settings

#### ACE 623. Organization and Administration in Adult and Community Education

This course introduces the student to basic theories of leadership management and organizational structure. It includes study and application of the tasks, tools, strategies, and leadership roles of adult and community education administrators Prerequisite: Permission

## ACE 625 Facilitating Adult Learning

This course examines teaching and learning theories as they relate to adults the teaching learning process in a variety of educational settings, instructional methods, techniques and devices which are effective with adults, and instructional designs and evaluative methods effective in the feaching-learning process Prerequisite: Permission

ACE 650 Current Topics in Adult and Community Education Explores current issues, trends, and topics in depth in a workshop format Topics will be selected by the faculty and announced in advance of the seniester in which the course is to be offered. Topics may include issues in continuing higher education, volunteerism, adult career development, managing nonprofit organizations, group processes in adult education, and current issues in research. Prerequisite: Permission of the instructor.

ACL 699. Independent Study in Adult and Community Education 1-3 cr. Independent study of a topic pertinent to an individual's program of study Permission of advisor and department chairperson required

#### ACE 735 Seminar in Adult and Community Education. 3 cr Inis course involves an intensive study of special topics in adult and community education with a research emphasis. Research content varies according to student interest. Prerequisite: Permission.

ACE 740 Internship in Adult and Community Education This is an individually designed field project in which students work with a site project advisor and a university advisor. The six credit internship is a single project designed in two phases, each earning three credits. Prerequisite:

ACT 745 Practical Research in Adult and Community Education Practical research in adult and community education is designed to have students conduct and report a formal research study in their field of interest Students formulate a research problem and design a plan of inquiry that will provide an answer(s) to their stated research problem. Students must be able to interpret their research findings and communicate them both orally and in writing at a professional level. Prerequisite: Permission.

#### ACT 750. Seminar: Technology and Adult Learning.

This course, by providing an advanced forum in which to research, discuss, and document current and emerging topics, issues, and applications in technology and adult learning (with special emphasis on distance learning), serves to synthesize these two fields of inquiry and offers students the opportunity to conceptualize and develop models and strategies for the integrated application of theory and practice learned in earlier courses. Literature reviews, topic analyses, and case studies are used to enhance awareness of critical issues and potential application in real-life settings. Prerequisites: At least twelve completed credits, six each in ACE and COMM courses, and advisor approval

#### ACL 850 Thesis

3 cr. Students selecting the thesis option will complete a thesis project with a committee consisting of at least three faculty members

#### ALS: Administration and Leadership

Department of Professional Studies in Education College of Education and Educational Technology

# ALS 590 Improving Professional Practice in Instructional Settings: 1-3 cr.

ALS 591 Improving Professional Practice in Instructional Settings: 1-3 cr. Reviews current research in instructional practices, motivational techniques, and professional issues. The course may focus on any of these aspects of teaching, learning, or professional practice. In addition, the course may be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. This course is offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### ALS 701 Leadership Theories

Focuses on several leadership theories related to administering social agencies, schools, business, and industry

#### ALS 702 Leadership: A Case Study Approach

Acquaints students with the theory and application of the case study approach as related to theories of leadership. Designed to provide practice for future administrators in the following areas: group decision making: leadership. planning and organizing, sensitivity, judgment, and communication skills Prerequisites: For approved Administration and Leadership Studies candidates, in addition, ALS 601 or permission of the instructor

#### ALS 703 Leadership: Applied Practice

projects. Prerequisite: By permission.

3 cr. Students must develop and implement a field project that incorporates leadership and policy theories learned in previous courses. Prerequisites: For approved Administration and Leadership Studies candidates, in addition, ALS 601 and ALS 702 or permission of the instructor

ALS 782 Research Instrument Design for Leadership Studies Designed to prepare doctoral students in leadership studies to critique and develop research instruments for use in dissertation research. Emphasize identifying the key issues associated with instrument design in leadership studies, critiquing the published instruments, writing instrument items, and conducting instrument reliability and validity analysis. Students learn to evaluate and develop instruments through hands-on activities and individual

## ALS 783 Analysis of Qualitative Data in Leadership Studies

Designed to prepare doctoral students in leadership studies to conduct qualitative data analysis in dissertation research. Emphasizes identification of key issues associated with qualitative research, critique of the published. qualitative research, transcription of qualitative data, interpretation and presentation of patterns, and use of computers to perform data analysis. Students learn to analyze, present, and write qualitative research reports. Prerequisite: By permission

ALS 798. Internship in Administration and Leadership Studies A planned, held-based work experience proposed by the advanced graduate. student to enhance professional competence, subject to approval by student's advisor and program director. Prerequisite: For approved Administration and Leadership Studies candidates or permission of the instructor

#### ALS 950 Dissertation

9 cr

3 ct.

#### ANTH: Anthropology

Department of Anthropology

College of Humanities and Social Sciences

#### ANTH 514 Native Americans

Survey of culture history and culture area characteristics of the Indians of North America. Detailed study of representative groups related to historical, functional, and ecological concepts

#### ANTH 520 Archaeological Field School

6 ct.

Introduction to archaeological survey, field excavation, and laboratory processing. Field school students participate in one or more of the ongoing research projects of the IUP Archaeology Program

#### ANTH 556 Ethnographic Research Methods

3 cr.

Examination of methods and practice of qualitative and quantitative research Course emphasizes techniques for conducting ethnographic research, participant observation, ethical issues in social research, and the development of professionalism

#### ANTH 581 Special Topics

3 cr.

#### ANTH 694 Anthropology Seminar

Considers conceptual problems and definitions in anthropology. Formulations of a variety of research problems central in anthropology emphasized

ANTH 699 Independent Study

#### APMU: Applied Music

Department of Music

College of Fine Arts

Applied Music (APMU 601-771) The following courses will be taught in form of private lessons geared to individual student and aiming at maximum progress of each student, depending on background of the student and time available. The student should for any series of lessons use the first number in programming for the first time, the second number for the second time, etc.

APMU 601, 651, 701, 751	Private Piano
APMU 602, 652, 702, 752	Private Organ
APMU 603, 653, 703, 753	Private Harpsichor
APMU 605, 655, 705, 755	Private Voice
APMU 606, 656, 705, 756	Private Violin
APMU 607, 657, 70°, 757	Private Viola
APMU 608, 658, 708, 758	Private Cello
APMU 609, 659, 709, 759	Private Bass Viol
APMU 610, 660, 710, 760	Private Flute
APMU 612, 662, 712, 762	Private Oboe
APMU 613, 663, 713, 763	Private Bassoon
APMU 614, 664, 714, 764	Private Saxophone
APMU 615, 665, 715, 765	Private Trumpet
APMU 616, 666, 716, 766	Private French Hor
APMU 617, 667, 717, 767	Private Trombone
APMU 618, 668, 718, 768	Private Euphonium
APMU 619, 669, 719, 769	Private Tuba
APMU 620, 670, 720, 770	Private Percussion
APMU 621, 671, 721, 771	Private Guitar

## ARED: Art Education

Department of Art

College of Fine Arts

#### ARFD 610. Art and the Exceptional Child.

Designed to consider characteristics and needs of the mentally retarded and the intellectually gifted child with particular emphasis on art aspects of the child's

## ARED 611 Art Curriculum Development in Art Education

A seminar and study of curriculums at all levels. Particular attention given to individual needs of class participants in development of curriculums pertinent to their own teaching situations. For those students who have not yet taught, theoretical and practical problems will be examined.

#### ARFD 612 Supervision and Administration in Art Education 3 cr.

Responsibilities, functions, and duties of art supervisors and administrators

#### ARED 613 Research in Art Education

3 cr

Required of all Art Education majors. Reviews past and present research focusing upon the methodologies pertinent to the field. Prerequisite for this course, GSR 615, is to be scheduled within the first four to eight semester hours. ARED 613 must be taken as soon thereafter as possible but within the first twelve semester hours.

#### ARED 611 History and Philosophy of Art Education

Considers art education in Europe, the United States, and Canada. Designed to give the student background

### ARHI: Art History

Department of Art

College of Fine Arts

#### ARHI 507 Medieval Art

3 er.

Art and architecture of Europe during Middle Ages, beginning with the study of Early Christian and Byzantine Art and concluding with art of the Romanesque and Gothic periods. Prerequisite: Art History majors or by special arrangement

#### ARHI 508 Italian Renaissance Art

81

Art History majors, by special arrangement. Covers span of Italian art from 1400s through 1850 and Mannerist movement. Special attention paid to great masters of the period.

#### ARHI 509 Baroque and Rococo Art

General survey of art from 1575 to 1775. Will include architecture, sculpture, painting, and other acts

#### ARHI 682 Graduate Seminar in Art History

3 cr.

Considers current topics and various periods of art addressed in recent literature. These may deal with new discoveries of newly published works, methodological approaches, ideological issues, and controversies in the field. The concentration will vary and will concentrate on one area for the entire semester, i.e., Asian Art of Medieval Art. Students will be required to research an issue and present their results in written form, as well as in an informal class lecture Prerequisites: Graduate Standing and/or advanced art history major (undergraduate by permission of instructor).

## ARHI 683 Graduate Seminar in Theory and Criticism

Introduces students to some of the most important theories shaping the world of visual art today. The course will not only contextualize these theories historically and culturally but also offer various opportunities of applying them

#### ART: Art

Department of Art

College of Fine Arts

#### ART 557 Graduate Studio in Print Media

3-18 cr.

Exploration of print media from a conceptual and technical perspective, including traditional and nontraditional approaches. The student may concentrate on intensive exploration of one medium in depth or explore a number of media for breadth of experience. This course is designed for both beginning and advanced students. Prerequisite: graduate art student standing

#### ART 559 Graduate Studio in Fihers

Fundamentals of fiber construction and processes. Emphasis on experimental approaches to fiber design and construction. Designed to meet the needs of beginning as well as advanced students

#### ART 560 Graduate Studio in Jewelry and Metal Work

3-18 cr.

Advanced study dealing with specialized problems in design and execution of metal work and jewelry. A thesis may be developed depending on research in one of the areas relating to this field. history, materials, tools, processes, or teaching techniques of the craft.

#### ART 572 Graduate Studio in Ceramics

All aspects of hand forming, decorating, glazing, and firing will be dealt with This may include body and glaze formulation and reduction, oxidation, salt, wood, and raku firing, as well as thrown, coiled, or slab construction or combinations thereof. Includes historic and contemporary ceramics and philosophies of the craft. Prerequisite: At least one you of undergraduate ceramics

#### ART 573 Graduate Studio in Sculpture BIOL 563 Limnology

An advanced course in which students are expected to work on challenging problems in sculpture. A student may explore one or several sculpture or modeling media

## AR1 574 Graduate Studio in Oil Painting

Traditional and contemporary methods and techniques in the area of plastic painting media. Composition in relation to modern painters' problems Opportunity is presented for exploration and specialization in depth as well as breadth

#### ART 575 Graduate Studio in Drawing 3-18 cr

Drawing as a language and continued development of skill in communication and expression in all kinds of materials and media. Drawing as an intimate work of the artist will be expressed.

#### 3-18 cr. ART 576. Graduate Studio in Woodworking.

Specialized study and experiences in the design and execution of problems relating to wood as a crafts material. Opportunity is presented to more intensively explore materials and processes of this craft employing both hand and power tools

#### ART 581 Special Topics 3 cr.

## ART 615 Art Seminar

Opportunities for students to conduct in depth explorations of contemporary trends issues in Studio Art and to develop proficiency in the area of art criticism. Course content and methods will include writing, verbalization. group discussion, attendance at regional exhibitions, and development of thesis exhibition proposals. For M.A. candidates only

#### ART 680 Graduate Studio Critique

A multidisciplinary course for studio majors seeking the M.A. and M.F.A. degrees. Selected studio faculty and all graduate students will meet weekly to critique work and projects in progress. Enables students with techniques for leading and participating in the group critique process as a vehicle for growth and understanding Prerequisite: Graduate student standing

ART 681 Special Topics	3 ст.
ART 698 Internship	3 cr.
ART 699 Independent Study	3 cr
ART 850 Thesis	3 ст.

Studio courses may be taken for a total of 18 semester hours in one studio. No more than six semester hours in one studio may be taken during one semester

#### BIOL: Biology

Department of Billogy

College of Natural Sciences and Mathematic.

#### BIO1 520 Biology of Higher Invertebrates

A phylogenetic overview of the higher invertebrates, Annelida through lower Chordata: A systematic approach on functional morphology and microstructure, behavior, and physiology under an evolutionary umbrella Laboratory sessions ofter additional research opportunities. Prerequisite:

## BIOL 525 Herpetology

A comprehensive survey of the classes of Amphibia and Reptilia, including their distribution, and natural history. Special emphasis is placed on the

#### BIO1 550 Pymatining: Tield Studies

Directly the cammer session carrious field courses are offered through the Permat ming Udsor itory of Ecology. The offerings will vary depending on the summer. Some of the possible offerings include Experimental Design, Fish. Loology Behavioral Loology Aquatic Botany, and Loological Genetics Information regarding specific offerings is available from the Biology.

#### BIOL 553 Plant Physiology

Physiological processes on urrang in plants are considered in relation to growth,

An investigation into the physical, chemical, and biological aspects of inland waters and their interrelationships. Saturday or Sunday labs may be required Prerequisite: Ecology

#### BIOL 561 Immunology

Study of anatomy and function of immune system, physical and chemical properties of antigens and antibodies, nature of antigen antibody interactions, humoral and cell-mediated immune responses, and immunopathology Prerequisites: Biochemistry and Microbiology

3 cr.

3 cr

#### BIOL 566 Principles of Virology

Topics include structure, classification, assay, and transmission of animal, bacterial, and plant viruses, methods used in the study of viruses, viral replication, gene expression, and gene regulation, host viral interactions and sub viral pathogens.

#### BIOL 571 Dendrology of the Lastern U.S.

A field course that examines the taxonomy, morphology, and ecology of the free species in the eastern portion of North America. The forests of Pennsylvania will be emphasized in the course.

#### BIOL 575 Mammalogy

General discussion of mammals, emphasizing systematics, distribution, and structure function modifications related to their evolution. A paper is required

#### BIOL 576 Parasitology

The parasitic protozoa, flatworms and roundworms. Major emphasis is on species infesting man and includes their structure, physiology, ecology, life cycles, and pathogenicity. Arthropods involved in parasite transmission included. Prerequisites: One year Biology, Vertebrate and Invertebrate Zoology

#### BIOL 602 Biometry

The choice and application of standard, ethicient, practical, and appropriate statistical techniques for data analyses in common biological situations Computer instruction emphasizes the practical application of statistical techniques using statistical packages on microcomputers and the IUP maintrame computer. Lecture and computer instruction will be combined in tour class hours per week

#### BIOI 603 Advanced Techniques in Biology

Introduction to advanced techniques and procedures used in biological research Topics vary Prerequisite: Permission

#### BIOL 611 Biology Seminar L

Develops essential skills for the professional biologist, including public presentation of biological information and the ability to critique biological data and ideas

#### BIOL 612 Biology Seminar H

Develops essential skills for the professional biologist, including writing of research proposals and presentation of seminars. Prerequisite: BIOL 611

#### BIOI 622 Advanced Ornithology

A detailed study of bird populations, behavior, and movement, including the annual cycle Prerequisite: Ability to identify local birds visually and by their

#### BIOL 623 Animal Morphogenesis

factors that influence and control the differentiation of organs, tissues, and cells. I imphasis placed on experimental procedures and methods Prerequisites: Embryology of Comparative Anatomy, Organic Chemistry, and Ciemetros

#### BIOL 621 Advanced Entomology

Insect morphology, including external and internal organization of different species of insects. Comparisons between species included. An independent research study and seminar presentation required.

#### BIOL 631 Plant I cology

Nature and distribution of vegetation in relation to environmental factors. Field investigations of local plant communities constitute bulk of lab work Prerequisites: Field Botany, Plant Lixonomy, or general knowledge of local

#### BIOL 641 Population and Community Ecology

The ecology of animal and plant populations, including the study of life tables and demography, population growth and regulation, and the evolution of life history traits. Community ecology considers the interactions among

#### BIOL 645 Behavioral Ecology

3 cr.

A consideration of the behavioral activities of animals in their natural habitats Evolutionary and ecological implications of behavior will be stressed. Topics include natural history strategies, resource partitioning, reproduction strategies, sexual selection, cooperation, conflict, and social organization

#### BIOL 650 Plant Systematics

3 ст.

Introduces students to history, theory, literature, sources, and interpretation of plant systematic data and to methods of plant collection and identification

#### BIOL 651 Physiological Ecology of Animals

A consideration of physiological responses of animals to environmental variables with emphasis on the evolutionary aspects of the response. The physiology of invertebrates and vertebrates in aquatic and terrestrial environments will be considered. Prerequisite: A course in physiology or permission of the instructor.

#### BIOL 653 Animal Physiology

Digestion and molecular transport of nutrients, gaseous exchanges, excretion, muscular activity and control, and endocrine and neural elements. Prerequisite: Animal Biology

#### BIOL 662 Mulecular Genetics of Eukaryotes

Study of organization and chemical structure of genes in relation to molecular function and evolution. Emphasis will be placed on the genetic systems of eukaryotes and their viruses Prerequisites: Genetics, Organic Chemistry, and Biochemistry or permission of the instructor

#### BIOL 681 Special Topics

1-3 cr.

Advanced topics in biology Prerequisite: Permission of instructor

#### BIOL 699 Independent Studies

Individual or small group instruction, by tutorial and intensive literature survey, in a particular area not covered by a student's course work or thesis research By arrangement with instructor and approval of graduate director. Maximum of six hours to be used toward the degree.

#### BIOL 850 Thesis

2-6 cr.

NOTE: Summer courses offered at the Pymatuning Laboratory of Ecology may be taken for biology elective credit

## BLAW: Business Law

Department of Finance and Legal Studies

Eberly College of Business and Information Technology

BLAW 581 Special Topics in Business Law Covers advanced or exploratory topics within the discipline. Specific content

developed by instructor. Content will vary, depending upon the interests of instructor and students, with instructor choosing specific topics. May be repeated by specific approval. Prerequisite: Permission of the instructor and the Eberly College of Business and Information Technology graduate coordinator

#### BLAW 633 Case Problems in Business Law

Deals with solution of case problems as applied to various topics in the field of business law Prerequisite: BLAW 235 or equivalent

#### BTED: Business Technology Education

Department of Technology Support and Training Eberly College of Business and Information Technology

BTED 600 Curriculum Development and Vocational Education Emphasis is on processes for making curriculum decisions and guiding others in developing and updating curriculum for vocational education. Current occupational standards and societal needs, as well as state and federal regulations governing vocational education, are used as a hasis for curriculum

#### BTED 601 Curriculum and Instructional Leadership in Vocational Education

Curriculum management skills are developed and utilized to plan and organize vocational curriculum. Focus is on practical curriculum decisions when they involve guiding other staff in curriculum development for vocational education BTED 602 Conference Leadership and Communication Methods in Vocational Education

3 cr.

3 cr.

Basic concepts in supervision of vocational programs are reviewed. Human relations, communications, processes, decision making, helping conferences, and leadership strategies are emphasized. Students demonstrate ability to perform supervisory skills in an individualized manner in an actual vocational school situation supplemented by seminars

BTED 603 Management of Instruction for Vocational Education

Classroom instructional tasks performed by the vocational educator are studied, including procedures, materials, and learning and instructional styles Emphasis is on leadership strategies and processes to guide and assist other vocational instructors. Skills are developed in an individualized, self-paced manner in an actual vocational school situation supplemented by seminars

BTED 604 Curriculum Supervision in Vocational Education

Emphasizes skills needed to provide leadership in supervision of faculty and staff. In consultation with his or her advisor, each student will identify those areas that need enhancement in vocational settings. Skills are developed in an individualized, self-paced manner in an actual vocational school situation supplemented by seminars.

#### BTED 605 Policy Administration

3 cr.

Develops skills to communicate vocational school policies and activities effectively with staff, students, and community. Includes study of student recruitment for vocational programs and maintenance/expansion/utilization of school facilities. In consultation with his or her advisor, each student will identify those areas that need further refinement. The student will develop and perform each requisite skill in an individualized, self-paced manner in an actual vocational school situation supplemented by seminars

BTED 676 Special Studies in Business and Distributive Education 1-6 cr. Special topics in business and distributive education. Topics will be announced well in advance of registration

#### **BTED 681 Special Topics**

3 cr.

BTED 693 Seminar in Teaching Business Subjects

Includes instruction in the methods of teaching and evaluating both the technology-oriented and cognitive-related courses in business education Emphasis is placed on planning instruction, developing methods and strategies for making effective classroom presentations, delivering instruction, and managing the classroom. Opportunities will be provided to undertake the responsibilities assigned to the business classroom teacher, assume the teaching role competencies, and research current trends in the field

#### BTED 694 Clinical Studies in Business Education

3 cr.

Examines the historical and philosophical perspectives of business and technology education. Includes observations of classes at the secondary, community college, and industry training levels. Interviews of staff in educational settings will be included to provide in-depth information on trends in business and technology education.

#### BTED 695 Professional Seminar

Provides experience in teaching at the secondary level in a business education program and coordination and visitation by a university faculty member with supervision by a cooperating teacher. Efforts are made to provide opportunities to work with students who have special needs and/or who come from diverse cultural backgrounds. Students enrolling in BTED 695 must meet all requirements for admission to Teacher Certification

BTED 699 Independent Study in Business Education

1-3 cr.

Individual research and analysis of contemporary problems and issues in a concentrated area of study under the guidance of a senior faculty member Prerequisite: Consent of instructor, departmental chairperson, and Eberly College of Business and Information Technology dean

## BTST: Business Technology Support and Training

Department of Technology Support and Training Eberly College of Business and Information Technology

#### BTST 614 Instructional Computing Basics

Introduces students to the practical use of the computer as a tool for enhancing effectiveness and efficiency in teaching/learning and training and development Learners explore the use of the computer in school and non-school teaching or training and development settings, conduct critical evaluation of computerbased instructional/training materials, and develop strategies for integrating computing into the total teaching/training and development environment.

#### COURSE DESCRIPTIONS

Current research in the area of instructional computing and its practical implications for teaching and training and development are also discussed

#### BTST 631 Interactive Multimedia

Provides an introduction to designing and producing computer-generated multimedia presentations and courseware for industry and education Prerequisite: BTFD 614 or permission of the instructor

## BTST 642 Training and Development in

Business Workforce Development

Office systems occupations are analyzed and teaching strategies are developed for training in high technology settings. Development of unit plans, lesson plans, and classroom management strategies is included on topics such as computer literacy, desktop publishing, and telecommunications

#### BTST 650 Issues and Trends in Business/Workforce Development

Utilizing state of the art technology, explores current issues and trends in business and technology education. Topics include the integration of technology in the classroom and trends in educational initiatives. Participants have an opportunity to use the Internet as a research tool, a high techworkstation, and the latest presentation software

#### BTST 656 Applied Research in Business Workforce Development

An examination of methods and techniques of research in office systems and husiness education. Students select a research topic and conduct an actual study on an individualized basis or as part of a small group. A formal research report is an end product of the course. Prerequisite: GSR 615.

#### BTST 670 Administrative Communications

An examination of the concepts and techniques for developing and improving administrative communications through high technology. Emphasis is on the current needs and changing technology in software, hardware, and telecommunications

#### BTST 680 Technical Update

Designed to provide students with up to date experiences in areas of rapidly changing technology. Offerings focus on topics of particular interest to business teachers in high technology settings.

#### BTST 681 Special Topics

i cr.

#### CDFR: Child Development and Family Relations

Department of Human Development

and Environmental Studies

College of Health and Human Services

#### CDFR 517 Infant Development

Study of characteristic developmental changes of human infinits from birth to approximately thirty six months.

#### CDFR 526 Techniques of Parent Education

Focuses on scope and aims of parent education movement. Methods of helping tamilies become more effective in their parent child relationships are examined

#### CDFR 527 Administration of Child Development Centers

Development of competencies needed to administer child care programs Focuses on program philosophy, curriculum materials, parent and community involvement, staff selection and training, admissions and grouping, proposal writing, budgeting and finance, government regulations, reporting, and

#### CHEM: Chemistry

Department of Chemistria

College of Natural Science, and Mathematical

#### CHEM 500. Special Studies.

Intensive survey of Interatine in a particular area as well as individual instruction on recent advances in chemical instrumentation, methods of research, and specialized subject areas. To be arranged with instructor

#### CHEM 521. Advanced Instrumental Methods of Analysis.

Modern instrumental analysis, including electrical, spectrophotometric x-rays. gas chromatography, and other methods. (Open to M.S. and M.A. candidates by permission only (four hour lecture laboratory

#### CHEM 531 Organic Molecular Structure Determination

Cust student experience in a tenratic identification of a mous classes of

organic compounds by both chemical and playsical methods. Four-hour lecture laboratory

#### CHLM 535 Current Topics in Organic Chemistry

3 cr.

With selections to meet the needs of the students, possible topics may include reaction mechanisms, molecular spectroscopy, stereochemistry, natural products, heterocyclics, polymer chemistry, and organic synthesis

#### CHEM 540. Physical Chemistry (core course).

An introduction to spectroscopy and molecular structure. Lecture 3 hours

#### CHEM 581 Special Topics

3 cr

#### CHEM 600 Seminar

1 cr. A study of modern chemical research and research techniques. Scientific

communication, including the role of the science laboratory in research. The student will present one oral report. Lecture - one hour-

#### CHI M 610 Inorganic Chemistry (core course)

Theoretical morganic chemistry and, in particular, structure, periodicity, coordination chemistry, bonding, and chemistry of nonaqueous solvents Lecture three hours

#### CHLM 620. Analytical Chemistry (core course).

Theoretical principles of analytical chemistry. Lecture—three hours

#### CHEM 623 Physical and Chemical Methods of Separation Application of chromatographic methods to the quantitative separation and

analysis of chemical systems. Topics will include gas, column, paper and ion exchange chromatographic methods, and other methods of separation as time permits Lecture 2 hours, laboratory-1 hours

#### CHEM 630. Organic Chemistry (core course).

3 cr

Principles of physical chemistry will be applied to the study of organic reaction mechanisms. Lecture three hours

#### CHEM 633 Chemical Literature

Periodicals, encyclopedias. handbooks, abstracting journals, and other sources dealing with various divisions of chemistry will be studied. Students are required to conduct a literature search on a selected topic. Lecture - three

#### CHEM 646 Biochemistry

Topics covering and emphasizing most recent developments in the areas of biochemistry, such as amino acids, carbohydrates, lipids, nucleic acids, proteins enzymes, metabolism, and metabolic control. Lecture - three hours

#### CHEM 681 Special Topics

3 cr 1-6 cr.

#### CHEM 690 Research

Laboratory and literature investigation of students thesis problem done under the direction of a faculty member. Within the first 15 hours of course work, the

student must schedule at least one credit of research for which the student performs the literature review and writes a research proposal

#### CHEM 699 Independent Study

Available to students who seek to deepen their knowledge in some specific aspect of chemistry. The student must discuss the nature of the independent study with a faculty member having expertise in the area prior to registration Special attention to development of new ideas and new ways of presenting scientific principles

## CHEM 850 Thesis

For students writing the thesis. Should be scheduled tor the semester in which the student plans to complete work. A commutee thesis (tour semester hours), for which the student's advisor, two additional faculty members, and the dean of the College of Natural Sciences and Mathematics constitute the committee

#### COMM: Communications Media

Department of Communications Media

College of Education and Educational Technology

#### COMM 503 Scriptwriting

Provides an introduction to scriptwriting for films and filmstrips. Various styles and techniques of writing will be analyzed, and each student is expected to experiment with the techniques presented. Emphasis on writing and in-class enticism of student script.

#### COMM 508 Media Field Studies

A hands-on course designed to help students learn about the production process involving on-location production. The course will have three distinct phases. Students begin with research and pre-production tasks on campus. travel to an off-campus site to collect additional information and images, and use those images to complete a production. Students are responsible for travel expenses Prerequisite: Permission from the instructor

#### COMM 549 Basic Audio Recording

2-6 cr.

Supervised professional work experience in communications media. Location, duties, length of internship, and hours are individually tailored to student career goals. Sites represent wide application of process and technology of communications in business, education, allied health, or other agencies

courses. Offering depends upon instructor and student interest. Prerequisite:

Theory and practices of recording sound and developing an understanding of language of sound recording and the ability to make sound recordings Exposure to recording for various media, including radio, music, motion pictures, television, multi-image, and slide and tape production. Students gain hands-on experience through labs and projects to be completed outside class.

#### COMM 551 Basic TV Production and Direction

COMM 699 Independent Study

Permission of the instructor

COMM 698 Internship

The student may elect, with approval of advisor, to do several different independent study projects. University facilities and equipment are provided, but student must supply materials and pay for processing and production costs. Prerequisites: Successful completion of the basic course in the medium selected, the professor's approval

#### Intensive lab course circuit facilities designed to develop skills in program production and direction. Theory and practice of production are examined with each student expected to produce a television program during the course

## COSC: Computer Science

Department of Computer Science College of Natural Sciences and Mathematics

#### COMM 552 Electronic Field Production

For advanced graduate students with prior training and experience in television Advanced television production techniques, set design, lighting, special effects, and advanced editing techniques. Prerequisite: COMM 551

#### COSC 581 Special Topics in Computer Science

3 cr.

Seminal in advanced topics from computer science, content will vary depending on the interests of the instructor and students (consult department for currently planned topics). May be repeated for additional credit Prerequisite: Permission of instructor

#### COMM 571 Beginning Photography

Emphasis on using still picture camera and the darkroom for instructional purposes, the making of black-and-white negatives. 35mm slides, copy work, developing black-and-white, contact printing, and enlarging. Each student must have manual focusing and manual exposure setting capability. No previous photographic experience is necessary

#### COUN: Counselor Education

Department of Counseling

College of Education and Educational Technology

#### COMM 581 Special Topics

COUN 590 Improving Professional Practice in Instructional Settings:

1-3 cr

Advanced topics, offered on an experimental basis, within the discipline of communications but not dealt with in other courses. Prerequisite: Permission

#### and COUN 591 Improving Professional Practice in

#### COMM 590 Improving Professional Practice in Instructional Settings: and COMM 591 Improving Professional Practice in

1-3 cr.

1-3 cr.

Instructional Settings:

1-3 cr.

Instructional Settings: Reviews current research in instructional practices, motivational techniques. and professional issues. The course may focus on any of these aspects of teaching, learning, or professional practice. In addition, the course may be presented with a kindergarten through grade twelve, elementary, middle school. secondary, or adult orientation. This course is offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

Reviews current research in instructional practices, motivational techniques, and professional issues. The course may focus on any of these aspects of teaching, learning, or professional practice. In addition, the course may be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. This course is offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

### COMM 600 Instructional Design and Development

COUN 610 Introduction to Community Counseling Provides an introduction to the work of the community counselor in a variety

interviewing, and consulting procedures are developed

Examines the systems approach for the design, development, and evaluation of instructional material (print, video, multimedia, etc.). Students learn about the history of instructional technology and its current applications. Each student produces a self-instructional prototype which requires the student to systematically and creatively apply the concepts and rules learned in the class

COUN 615 Counseling Across the Life Span Principles and methods involved in understanding individuals and their developing self-concepts. Examines counseling methods that respond to developmental challenges

#### COMM 601 Media Production

3 cr.

Students learn how to systematically plan, produce, use, and evaluate media Each student produces different types of messages (motivational, informational, and instructional) using a variety of media

#### COUN 617 Basic Counseling Skills Practice in developing effective basic counseling skills, including active

of roles in many different settings

3 сг. listening, attending, building rapport, and demonstrating empathy. Observing,

COUN 618 Diversity Issues in Counseling An overview of diversity issues in the field of counseling. Students increase their awareness of cultural issues, identity, and personal values, acquire

#### COMM 614 Instructional Computing Basics

Introduces students to the practical use of the computer as a tool for enhancing effectiveness and efficiency in teaching/learning and training and development Learners explore the use of the computer in school and non-school teaching or training and development settings, conduct critical evaluation of computerbased instructional/training materials, and develop strategies for integrating computing into the total teaching, training and development environment

knowledge of diverse groups, and learn culturally appropriate counseling skills Prerequisites: COUN 617 and COUN 610/621 COUN 621 Introduction to Guidance Services

Overview of genesis and development of guidance in American education. including philosophical concepts, psychological theories, cultural and social

#### COMM 631 Interactive Multimedia

influences, and current practices COUN 624 Educational Appraisal

Provides an introduction to designing and producing computer-generated multimedia presentations and courseware for industry and education Prerequisite: COMM 614 or permission of the instructor

Current research in the area of instructional computing and its practical

implications for teaching and training and development is also discussed

Basic statistical and measurement concepts utilized in testing and test interpretations, emphasizing data concerning purposes and types of tests, test administration, scoring, validity and reliability, and principles of test selection for school settings. Prerequisite: Students enrolled in M.A. program are

restricted from taking this course

INDIANA UNIVERSITY OF PENNSYLVANIA 2005 2006 GRADUATE CATALOG

#### COUN 626 Career Education

Study of how schools facilitate the career development of students using a comprehensive career guidance program. Considers developmentally relevant career strategies such as curriculum, group and individual interventions, decision making skills, and the processing and use of information. Emphasizes how students acquire self- and vocational knowledge, skills, and abilities which lead to effective career decisions. Prerequisites: COUN 617, COUN 624

#### COUN 627 Child Counseling Theory

Theories, objectives, principles, and practices of counseling and consulting are covered. Emphasis is placed on techniques and practices related to children Prerequisites: COUN 617, COUN 610 621

#### COUN 628. Management of the Guidance Services.

Helps the school counselor acquire necessary competencies to manage guidance services. Emphasis placed upon planning, organizing, actuating, and controlling functions of management as applied to the guidance services Prerequisites: COUN 621, COUN 624

#### COUN 629 Group Procedures (Child)

Emphasis is placed upon understanding and developing group techniques related to the development and growth of children. Group counseling with children is covered. Prerequisites: COUN 617, COUN 627

#### COUN 634 Mental Health Appraisal

Provides an overview in fundamental knowledge of assessment principles. application, and instruments to assist the community counseling student in becoming psychometrically literate. Statistical concepts, standard scores, rehability, validity, and types of techniques and assessments commonly used in mental health settings are covered. Prerequisite: Students enrolled in M Ed program are restricted from taking this course

#### COUN 636 Career Counseling and Development (Community)

Emphasizes how individuals acquire self- and vocational knowledge, skills, and abilities, which lead to effective career decisions. Considers adult vocational development, decision-making skills, and the processing and use of information in the community setting. Prerequisites: COUN 617, COUN 634

#### COUN 637 Counseling Theory

Theories, objectives, principles, and practices of counseling with adolescents and adults are covered. Theory specific counseling skills are presented and practiced to prepare the student for practicum. Prerequisites: COUN 617, COUN 610 621

### COUN 639 Group Counseling

Emphasis will be placed upon the nature of groups, techniques involved in the development of group dynamics, formation and operation of groups, organization and structure of groups, and the influence of the group Prerequisites: COUN 617, COUN 637

#### COUN 646 Interpersonal Sensitivity

Participants will explore their interpersonal interaction style in groups and individually. Human potential of the students will be developed as they enter into authentic, honest, and trusting relationships within the context of a small group experience, encouraging an examination and understanding of oneself and one's impact on others.

## COUN 657 Individual Counseling Practicum (Adolescent/Adult)

Supervised counseling experience under practicum conditions. Emphasis will be placed on implementing relationship-building skills while developing advanced methods of facilitating the counseling process. Prerequisites: COUN 63"

#### COUN 659 Group Counseling Skills (Adolescent Adult)

Provides a supervised clinical experience to develop and practice group counseling facilitation skills appropriate to the various stages of a counseling group Prerequisite: COUN 639

#### COUN 667 Individual Counseling Practicum (Child)

Provides a child counseling experience in applying appropriate interventions and consultation practices designed to facilitate the personal, social, and academic growth of children. Prerequisites: COUN 627

#### COUN 669. Group Counseling Practicum (Child).

An experientially based course in which counselors in training learn how to manage group counseling experiences involving children (ages 5 to 12). This supervised clinical experience draws upon the knowledge, theories, and skills presented in COUN 629, Group Procedures. Prerequisite: COUN 629.

#### COUN 670 Human Sexuality Issues for Counselors

Provides an overview of human sexuality issues for counselors and examines the role of sexuality in human adjustment, dynamics of individual societal sexuality issues, and counseling approaches. Prerequisite: COUN 615.

#### COUN 671 Introduction to Diagnostic Issues For Counselors

Provides an introduction for counseling students to the various mental disorders with a focus on the history of the major classification system, definitions of various disorders, and the corresponding diagnostic criteria Furthermore, current research on treatment approaches for counseling professionals is examined. Finally, this course is designed to help students view the mental health needs and challenges of clients from a lifespan and multicultural perspective. This course is introductory and is designed for individuals who have little no experience in diagnostic issues and little some experience in counseling. Prerequisite: COUN 634.

#### COUN 672 Introduction to Family Issues in Counseling

Provides an introductory overview of the major issues, theories, research, and intervention implications for the preparation of counselors to work with tamilies

Prerequisite: COUN 61" and COUN 627 of COUN 637

#### COUN 673 Wellness Based Counseling

Definitions and models of wellness are presented. A theoretical model of human change processes is examined. Using a specific model of wellness in combination with the model of change, students explore human change and wellness from personal and interpersonal perspectives. Current methods and research on habit change, incorporating concepts of commitment, adherence, and maintenance of change are considered.

#### COUN 681 Special Topics

3 cr.

#### COUN 699 Independent Study

Topic pertinent to the individual's program of study. By permission of department charrperson and advisor only

#### COUN 720 Ethical and Legal Issues in School Counseling

Designed to examine the professional, ethical, and legal issues that impact the practice of the professional counselor working in a school setting. Considerable emphasis is placed upon the understanding and application of ethical standards and legal statutes, which affect school counselors when making critical decisions about clients. Prerequisites: COUN 621, COUN 627-637. Students enrolled in M.A. program are restricted from taking this course

#### COUN 730 Fibrical and Legal Issues in Community Counseling Emphasis is on professional, ethical, and legal issues that impact the practice of

the professional counselor working in the community setting. Examines the function and application of ethical standards and legal statutes that affect community counselors. Prerequisites: COUN 610, COUN 627-637. Students enrolled in MTEd program are restricted from taking this course

#### COUN 755 Tield Experience

Provides a supervised field placement for students in the Counseling, programs The plan and scope of the field experience will be determined by the student and supervising faculty on an individual basis. May be repeated for a maximum of six credits. Prerequisite: Core and population-specific courses

#### COUN 798 Internship in Counselor Education

The internship provides an opportunity to apply didactic experiences in an actual work setting. Sites must be approved by the department.

#### COUN 850 Thesis

#### CRIM: Criminology

Department of Criminology College of Health and Human Services

#### CRIM 600 Criminological Theory

An examination of criminological theories with emphasis on origins and applications of relevant theoretical approaches to crime and criminally deviant behavior. Required of all master's students.

#### CRIM 601 Prosenuiai

3 cr. Survey of current research, critical issues in the administration of justice, and criminological theory. Designed to acquaint the student with recent developments in the discipline of criminology. Required of all master's students

3 cr.

3 ст.

#### CRIM 605 Research Methods

Methods and techniques of research in criminology. An in-depth examination of the role of research in the analysis, interpretation, and clarification of problems in criminology and the administration of justice. The development of a research proposal thesis prospectus will be the end product of the course Required of all master's students.

#### CRIM 610 Legal Issues in Criminology

An intensive examination of selected ethical and philosophical issues currently facing the field of criminology. Issues for analysis will be drawn from (but not limited to) such categories as the function of law, integrating theory and practice; ethical issues surrounding research strategies; punishment forms, social control strategies, and crime and justice in the future

A study of the impact of government crime policies on individuals and groups

An examination of criminal justice policy formulation and analyses of specific

CRIM 730 Ethical and Philosophical Issues in Criminology

CRIM 740 Advanced Criminal Justice Policy

CRIM 745 Comparative Justice Systems

policies relevant to crime and the administration of justice

3 cr.

An in-depth study of contemporary legal issues faced by criminal justice professionals. Emphasis is placed on criminal constitution problems as well as the judicial review of administrative decisions made by criminal justice organizations Required of all master's students

## CRIM 630 Seminar in Administration and

Management in Criminal Justice 3 ст. The study of bureaucracy and complex organization with emphasis on the concepts and practices of the organization and management of agencies in the

An examination of criminological field research in diverse cultural settings around the world. Special focus given to problem formulation, theory construction, and general research design in comparative justice systems

CRIM 631 System Dynamics in the Administration of Justice 3 cr. A study of dynamic systems and analytical techniques relevant for understanding new perspectives of the administration of justice. Required of all master's students.

3 cr. CRIM 748 Criminal Violence: Theory, Research, and Issues An overview of general theories of violence and their applications to criminal violence. A variety of research and policy/programmatic issues will be explored, with attention given to issues relating to predicting dangerousness

#### CRIM 665 Criminal Justice Planning and Evaluation

administration of justice. Required of all master's students

CRIM 749 Victimology: Theory, Research, and Policy Issues

The study of planning and evaluation in criminology and the administration of justice and of the literature and practices, including problems and issues and tasks confronting planners and evaluators

Examines theoretical perspectives and research methods as they impact on the research questions and findings in the field of victimology. Class, race, age, and gender are applied to analyze issues regarding the role of the victim, kinds of victimization, fear of crime, victimization of offenders and victims by the criminal justice system, and victim's compensation and human rights

stages of data collection Permission required

Instructional Settings

Instroctional Settings

CRIM 720 Advanced Quantitative Methods An in-depth analysis of the logic and uses of advanced criminological research models. Emphasis will be given to the use of quantitative research techniques and perspectives as they relate to formal theory construction

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. In addition, the course may be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### CURR 705 Curriculum Evaluation

Provides students with a framework for the systematic analysis of curriculum from the context of social, historical, and philosophical foundations and theory

# CURR 710: Advanced Topics in Human Development and Learning — 3 cr. Students analyze, evaluate, and synthesize theories of human development and learning. Emphasis is on learning and development throughout the lite span Prerequisite: Permission

#### CURR 715 Writing for Professional Publication

Designed to enhance the scholarly and publishable writing skills of dictoral students in education. Students produce and submit a proposal for a presentation at a professional conference. Students also develop a full manuscript to be submitted to a scholarly journal and a book prospectus. Skills in responding to editorial feedback, peer review, and public presentation of scholarly work are developed. Prerequisites: CURR 705 and CURR 710.

#### CURR 720 Doctoral Seminar in Research Methods

Provides students with the opportunity to acquire, retine, and apply the knowledge and skills to evaluate and design educationally relevant research Emphasis is on quantitative and qualitative research approaches within educational settings. Prerequisites: CURR 705 and CURR 710

#### CURR 725 Critical Analysis of Issues in Education

Examines current issues and innovations which are influencing reform in basic and postsecondary education. Relationships between research, policymaking, and implementation are emphasized. **Prerequisites**: CURR 705 and CURR 710

#### CURR 730 Analysis of Effective Instruction

Explores reflective practice as it relates to the design, implementation, and evaluation of instruction at all educational levels, with particular emphasis on preparation for teaching and supervising in teacher education. Topics include contemporary models of supervision and research on teaching and learning. Prerequisite: CURR 720

#### CURR 735 Education for Cultural Pluralism

Combines theory and practice related to culture and perceived social and philosophical ideology of pluralism as significant forces in education. Critical analysis of research, theory and practice, and curriculum design in multicultural environments. Focus is on the exploration of a variety of perspectives related to race, gender, culture, disability, and socioeconomic status. Prerequisite: C URR 725.

#### CURR 740 Technology in the Curriculum

Focuses on the dynamics of technology and how it permeates all educational processes. The course is designed for those working in curriculum development at the district level or teaching in higher education. Through critical inquiry and reflection of relevant research, students explore the theoretical and the practical issues of technology in the curriculum as they apply to education in the twenty first century. **Prerequisite:** CURR 720

#### CURR 745 Literacy: Theory, Research, and Practice

Examines critical issues and cognitive processes in language learning. Topics include changing definitions for literacy, cultural aspects of literacy, methods of tostering literacy development, and alternative assessment practices. Research and theory on strategies used to support a developmental view of literacy are critically evaluated. Prerequisites: CTRF 120

#### CURR 750 Issues and Processes in Curricular Change

Designed to provide students opportunities to analyze and evaluate critically curricular development processes and to examine those elements as they affect school curricula. **Prerequisite:** CURR 120

#### CURR 755. Doctoral Seminar in Curriculum and Instruction

Students engage in collegial discourse about scholarly works that they have produced and retine those works based on responses from instructors and peers. Reviewed material will become part of the professional portfolio.

Prerequisite: CURE725

#### CURR 781 Special Topics

1-3 cr.

#### CURR 798 Supervised Doctoral Internship 6 cr.

Applied field experience chosen by doctoral students with the approval of the dissertation advisory committee. Prerequisite: Permission only

#### CURR 950 Dissertation 1-1

Students preparing a doctoral dissertation for credit must register for this course. Number of credits assigned and the extent of time for which research activity is scheduled depend on nature and scope of student's research problem and his her general doctoral program.

#### ECED: Early Childhood Education

Department of Professional Studies in Education College of Education and Educational Technology

#### ECED 590 Improving Professional Practice in Instructional Settings

and

3 cr.

1-3 cr.

#### FCED 591 Improving Professional Practice in Instructional Settings

1-3 cr.

Reviews current research in instructional practices, motivational techniques, and professional issues. Max focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree. Prerequisite: Appropriate teaching certificate or other professional credental or preparation.

#### ECED 660. Child Study and Assessment

3 cr.

Designed to introduce students to issues and strategies affecting the evaluation of the three to eight year old child's physical, social, eniotional, cognitive, and aesthetic development. Naturalistic observation, rating scales, tests, and portfolio assessment of childrens work will be examined.

# I CED 661. History and Philosophy of Early Childhood Education. 3 cr. Introduces students to the historical and philosophical foundations of the field of early childhood education. Major historical events, social trends, and philosophical perspectives from around the globe that have shaped the education of the very young will be addressed. Students will examine contemporary circumstances in early childhood education in terms of the time honored traditions and important insights from leaders in the profession.

#### ECED 664 Early Childhood Curriculum

planned, applied, and evaluated by students

Examines the developmental continuity of educational programs for the young child, ages three through eight. Materials, strategies, concepts, and learning experiences that are suited to each child's developmental level will be selected,

#### FCFD 665. Issues and Trends in Early Childhood Education

Designed to provide early childhood educators with a child advocacy perspective on contemporary social forces, pridessional issues and public policy trends affecting young children. Students develop skills in identifying key issues using problem solving strategies, communicating ideas, and functioning as change agents within educational institutions. Interpersonal skills and collaborative relationships with colleagues, administrators, politicians, parents, and community agencies are emphasized.

#### ECED 766 Early Childhood Program Evaluation

2.0

Emphasizes the study and evaluation of programs designed for preschool through the primary grades. Students assess early childhood curricula, review relevant research, and use evaluation frameworks to assess program quality. Cross cultural comparisons of early childhood curricula in the United States and programs from other cultures and nations are studied. Prerequisites: ECED 661, ECED bo4, or permission of instructor.

#### ECON: Economics

Department of Economics

College of Humanities and Social Sciences

#### FCON 501 Foundations of Modern Economics

prist

Survey of micro and macroeconomics designed for the student who is not already well grounded in the field

#### FCON 545 International Trade

.3 cr.

Study of the microeconomic segment of international specialization and exchange, including theories of international trade and their application to commercial policies, historical survey and examination of current problems of international trade, and the institutional setting of international trade.

Prerequisites: 1 CON 121 and FCON 122 or permission of the instructor.

#### ECON 546. International Payments

.3 cr.

Study of the macroeconomic segment of international specialization and exchange, including analysis of balance of payments, exchange rates, and the mechanism of international economic and monetary adjustments, international macroeconomic policy, historical survey and examination of cutrent international financial problems, and the institutional setting of international payments. Prerequisites: ECON 121 and ECON 122 or permission of the instituctor.

Develops analytical tools from microeconomic theory that can be practically applied to improve managers' decision-making abilities. Special emphasis is placed on optimizing pricing, production, and performance evaluation decisions using available analytical and quantitative tools, including economic theory, regression, and visualization techniques

#### ECON 634 Managerial Economics

Applications of economic theory to organizational decision-making Managerial practice is analyzed using techniques of maximization. minimization, and optimization. Organizational objectives are evaluated using techniques of statistical estimation of revenues, costs, and outputs Prerequisite: ECON 121, ECON 122, MATH 121 or the equivalent, or permission of instructor

#### ECON 699 Independent Study

1-6 ст.

Directed readings, written assignments, and research on a specific topic determined by the student and the instructor. Prerequisite: ECON 501, credits of "C" or better in six semester hours of Principles of Economics, or

#### EDAD: Education Administration

Department of Professional Studies in Education College of Education and Educational Technology

#### EDAD 590 Improving Professional Practice in Instructional Settings

1-3 cr.

#### EDAD 591 Improving Professional Practice in Instructional Settings

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### EDAD 656 School Administration

Designed as a basic course in school administration, this course serves as an introduction to the principles and practices of school administration for students who aspire to a supervisory or administrative position in public schools. Human aspects of educational administration are emphasized

#### EDAD 660 School Finance

3 cr. Budgeting procedures in school finances, facilities, and management are presented. School budgeting, accounting, bonding, and various monetary applications are presented as well as the various procedures for acquiring funds Prerequisite: For approved Administration and Leadership Studies candidates or permission of the instructor

#### EDEX: Education of Exceptional Persons

Department of Special Education and Clinical Services College of Education and Educational Technology

#### EDEX 515 Preschool Education for Children with Disabilities

Provides information on assessment, intervention strategies, curriculum, and prescriptive planning for preschool children with disabilities. Serves as a course for departmental majors who are specifically interested in early childhood education, as an elective for other interested students in related fields, and as a priority course for Early Childhood Education majors. Prerequisites: Certification or EDEX 650 or EDEX 111 or EDEX 300

#### EDEX 516 Education of Persons with Emotional or Behavioral Disorders

Focuses on major theoretical positions regarding etiology of emotional and behavioral disorders, definition and identification of the population, and educational approaches. Reviews research in the field, including current issues, trends, practices, and services. Prerequisites: Certification or EDEX 650 or EDEX 111 or EDEX 300. Designed to meet teacher certification requirements

#### EDEX 517 Education of Persons with Mental Retardation or Developmental Disabilities

Provides guidelines and methods for working with the extremely disabled in educational settings. Emphasizes methods of providing stimulation of basic skill development in areas of motor, perceptual, cognitive, language, and social skills Prerequisites: Certification or EDEX 650 or EDEX 111 or EDEX 300 Designed to meet teacher certification requirements

#### EDEX 518 Education of Persons with Physical or Multiple Disabilities

Focuses on major theoretical positions regarding etiology of a wide and diverse range of physical/multiple disabilities, the definition and identification of the population, and educational approaches. Reviews research in the field, including current issues, trends, practices, and services. Prerequisites: Certification or EDEX 650 or EDEX 111 or EDEX 300. Designed to meet teacher certification requirements.

#### EDEX 519 Education of Persons with Brain Injuries or Learning Disabilities

Focuses on major theoretical positions regarding etiology of neurological and learning disabilities, definition and identification of the population, and educational approaches. Reviews research in the field, including current issues, trends, practices, and services. Prerequisites: Certification or EDEX 650 or EDEX 111 or EDEX 300. Designed to meet teacher certification requirements

#### EDEX 560 Family Perspectives on Disability

Intended for any major who will work with families and youth with disabilities By understanding families as competent and resourceful systems, students examine critically ways to collaborate effectively with family members. This course focuses on legal and philosophical bases for supporting families in making important decisions affecting the education and care of their children Prerequisite: PSYC 101

#### EDEX 581 Special Topics

1-3 cr

Instructional Settings and

#### EDEX 591 Improving Professional Practice in Instructional Settings

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade. twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### EDFX 599 Independent Study in Special Education

1-3 cr.

Individual students develop research studies in consultation with a faculty member. Departmental consent required

#### EDEX 650 Exceptional Children and Youth

Surveys characteristics, definition/identification, and service delivery models for children and youth with disabilities or who are gifted/talented. Considers state and federal policies governing special education program service delivery, as well as the legal rights of individuals with disabilities

#### EDEX 651 Vocational Preparation and Transition for Youth with Disabilities

3 сг.

Develops competencies in the skills necessary to help students with disabilities make a successful transition from school to eventual employment

#### EDEX 652 Assessment of Persons with Disabilities

Provides students with an understanding of the diagnostic tools and techniques used to evaluate students with disabilities. Examines formal and informal assessment measures used in the diagnosis and remediation of educational problems. Emphasizes those skills expected of a special education teacher as a member of a multi/interdisciplinary team.

#### FDEX 653 Research Seminar in Special Education

Provides enrollees with opportunities to focus on current research in special education. Focus of research may change each term in accordance with preferences of instructor and students. Emphasizes critical analysis of research. classroom applications of that research, and implications for future research

#### EDEX 651 Advanced Instructional Design in Special Education

Emphasizes effective instructional approaches appropriate for the education of students with mild to protound disabilities. Considers educational priorities and effective teaching practices in developing and evaluating individualized, integrated interventions

#### FDEX 655 Professional Collaboration and Team **Building for Special Educators**

Focuses on strategies for collaborating with families, regular and special educators, paraprofessionals, and other service providers in the school and

#### EDEX 685 Practicum and Internship

Offers advanced students guided practicum experiences in selected schools, residential institutions, clinics, or agencies. Internships or supervised student teaching planned individually. Students analyze, evaluate, and report on their

## EDHL: Education of Persons with Hearing Loss

Department of Special Education and Clinical Services College of Education and Educational Technology

#### EDHL 590 Improving Professional Practice in Instructional Settings and

1-3 cr.

EDHL 591 Improving Professional Practice in Instructional Settings

1-3 cr

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

## EDIR: Instructional Programs and Resources in Education

Department of Instructional Programs and Resources in

College of Education and Educational Technology

#### EDIR 590 Improving Professional Practice in Instructional Settings

EDIR 591 Improving Professional Practice in Instructional Settings

and

and

1-3 cr.

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May he presented with a kindergarten through grade twelve, elementary, middle school, secondary or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

## EDSP: Educational and School Psychology

Department of Educational and School Psychology College of Education and Educational Technology

#### EDSP 577 Assessment of Student Learning

Acquaints students with major methods and techniques of evaluation used to assess and report growth, development, and academic achievement of learners in elementary and secondary schools, including interpretation of standardized test information

#### EDSP 590 Improving Professional Practice in Instructional Settings

1-3 cr.

#### EDSP 591 Improving Professional Practice in Instructional Settings

1-3 cc.

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### EDSP 604 Advanced Educational Psychology

An upward extension of educational psychology with a systematic review of current research and learning theory with emphasis on classroom applications, including studies of the organization, administration, and operation of schools.

#### EDSP 616 Applied Educational Research Methods

Develops skills needed to engage in applied educational research using standard experimental research and evaluation designs, typical measurement approaches, and parametric statistical procedures. A practical problem presentation mode enhances an integrated holistic approach to design,

sampling, measurement, statistics, hypothesis testing, and interpretation of results. A microcomputer statistical package is used to assist in the analysis of

#### EDSP 649 Practicum I

3 cr.

Provides school psychology students with an opportunity to complete a series of structured observations and interviews in school and community settings pertinent to their understanding of the organization of these settings and the functioning of the variety of professionals working in these settings. Acquaints students with diverse types of children and refines their understanding of critical issues confronting education. Prerequisite: For approved school psychology candidates or permission of instructor

#### EDSP 653 Crisis Intervention and Psychological Counseling of Exceptional Children

Provides educational psychology students with theoretical background and entiv-level skills for counseling children (k-12) who have special needs and assists their families with adjustment and coping skills. In addition to basic counseling techniques, students are exposed to best practices in counseling multicultural populations and those with disabilities and in crisis intervention. Emphasis is on short term, goal-oriented interventions. The role of the psychologist in the development and practice of the school crisis intervention. team is also addressed, as well as cooperative functioning with other service professionals in the schools

#### EDSP 675 Learning and Instruction

3 cr.

Provides an in-depth examination of developmental, cognitive, and interactionist learning theories as they apply to classroom instruction. Emphasis is on direct application of theory to the improvement of classroom instruction and the relationship of learning and motivation.

## EDSP 677 Advanced Psychology of Adolescent Education

Presents an in-depth discussion of developmental issues that impact adolescents in instructional environments. In particular, physical, societal, and educational influences as they affect high-risk behaviors in this age group are examined. Students are expected to research and present successful intervention programs for adolescents

#### 1,DSP 679 Advanced Studies in Behavioral Problems

Explores behavior problems encountered in classroom situations and gives cause, characteristics, and some preventative and remedial techniques including those appropriate for managing students with learning and behavioral exceptionalities

#### EDSP 681 Special Topics in Educational Psychology

3 cr.

Designed for those students who wish to do independent research in special areas Prerequisite: Departmental chairperson permission

#### EDSP 711 Introduction to School Psychology

The professional responsibilities of the school psychologist are explored in relation to ethical and legal aspects, state and federal litigation and legislation, dynamics and organization of regular and special education, issues in multicultural and exceptional child education, and provision of assessment, placement, and intervention services in the public schools. Prerequisite: Permission of the instructor

#### EDSP 712 Assessment for Intervention 1

Provides school psychology students with the knowledge and skills needed to administer, score and interpret selected individually administered tests of intelligence and achievement. Trains students to conduct curriculum-based measurement procedures, to communicate assessment results, and to use assessment results for intervention planning. Prerequisite: For approved school psychology candidates or permission of instructor

#### EDSP 713 Assessment for Intervention H

Provides the student with skills necessary to administer and interpret informal, developmental, perceptual-motor, adaptive, achievement, and other allied measures used in a psychoeducational assessment. Moreover, students should become aware of issues associated with individualizing assessment hased upon variables such as ethnicity, SES, gender, medical conditions, and linguistic and cultural differences. Prerequisites: For approved school psychology candidates or permission of instructor

#### LDSP 715 Doctoral Seminar in Applied Educational Research

Develops skills needed to engage in applied educational research using clinical and practical research/evaluation designs, measurement approaches, and nonparametric statistical procedures. A practical problem presentation mode enhances a consolidation of design, sampling, measurement, nonparametric statistics, hypothesis testing, and interpretation of results. Microcomputer statistical package use assists in the analysis of data. Prerequisite: EDSP 616.

#### EDSP 716 Doctoral Seminar in Advanced Educational Research

Provides an overview of complex educational research and evaluation designs, measurement approaches, statistical procedures, hypothesis testing, and interpretation of results. Topics include the philosophy and ethics of research, mixed hierarchical design, profile analysis, factorial validity estimation, factor analysis, multivariate analysis of variance, discriminant function analysis, path analysis, meta-analysis, power, robustness, and randomization tests. Statistical packages will be used to assist data manipulation and analysis. Prerequisite: EDSP 715

#### EDSP 718 Instructional Consultation

Reviews the basic principles of the consultative process as applied to working with teachers and school-based problem solving teams to help students with academic problems. Students will be expected to demonstrate skill in consultative interviewing regarding academic problems, problem identification, data gathering relevant to both curriculum and the classroom environment, and intervention design, execution, and evaluation in pre-kindergarten through high school settings. Prerequisites: For approved school psychology candidates: must have taken or take concurrent with EDSP 712 and EDSP 713, permission of instructor

#### EDSP 742 Neuropsychology of Children's Learning Disorders

A neuropsychological approach to the identification of children with learning disorders is discussed. Such factors as etiology, epidemiology, subtyping, diagnoses, and remediation are considered. Students learn the theoretical framework necessary to understand the factors underlying learning disorders in children. Prerequisite: EDSP 712 or permission.

#### EDSP 750 Practicum II

Involves a series of opportunities for students to practice clinical and supervisory skills in a highly structured university clinic setting. Based on their level of training and experience, students are required to demonstrate distinct skills related to. (1) organization and dynamics of the educational process, (2) assessment for intervention, (3) direct and indirect intervention methods, and (4) supervision of the clinical practice of other school psychologists Certification and Track A doctoral students will enroll twice for 6 semester hours, while experienced Track B doctoral students have a 3-semester-hour requirement. Prerequisite: For approved school psychologist certification and doctoral degree candidates only.

#### EDSP 751 Internship

Involves a series of supervised field experiences in public school, clinic, and hospital settings. Students apply their understanding and skills in the general practices of school psychology or in the area of specialization developed in their doctoral course sequence. The school internship, required of all certification and doctoral students, is a ten-month placement, at least half of which must be in a public school setting. An additional 300 clock hours are required for doctoral degree candidates in a setting appropriate for their area of specialization. Prerequisite: For approved school psychology candidates, completion of most course work, practica, and comprehensive examinations, permission of instructor.

#### EDSP 753 Child Neuropsychology

Examines brain-behavior relationships and neurodevelopmental functioning in children. Discusses the neuropsychological principles necessary to assess the educational, cognitive, and behavioral functioning of children in relation to the development of remedial programs. Prerequisite: EDSP 712 or permission of the instructor

#### EDSP 763 Assessment of Personality and Behavior Problems of Children

An introduction to various personality and behavior assessment techniques currently used Prerequisite: For approved school psychologist candidates or permission of the instructor

#### EDSP 764 Seminar in School Psychology I

An examination of practices, trends, and issues in a specialized area of diagnosis. Areas to be examined are based on the predetermined interests of the students and the expertise of the available faculty. Prerequisite: Permission of instructor.

#### EDSP 765 Seminar in School Psychology II

An examination of practices, trends, and issues in a specialized area of treatment or remediation. The areas to be examined correspond to those covered in EDSP 764. The focus of the seminar is to develop the student's understanding and skills in implementing appropriate treatment and remedial strategies in home, school, and clinic settings. Prerequisite: Permission of the instructor

#### EDSP 766 Educational and Psychopharmacological Issues Associated with Child Neuropsychology

The purpose of this course is twofold. First, to familiarize the student with the general principles of clinical psychopharmacology and how the effects of medication may change or hinder the child's academic performance and social behaviors. Second, to familiarize the student with the theoretical and practical issues associated with neuropsychological assessment of school-aged children. Both the above areas delineate the factors associates with a child's ability to benefit from an education Prerequisite: For approved school psychology candidates, permission of instructor

#### EDSP 777 Seminar in Family-School Relations

3 cr. Focuses on selected aspects of a wide range of issues related to the contemporary American family as they affect the behavior of children and their functioning within the public schools. Parent consultation and training strategies are emphasized. Prerequisite: Permission of the instructor

#### EDSP 778 Family Services for School-Related

Problems of Children with Special Needs

A supervised experience in brief family interventions for school-related problems. Students, provide direct services in a clinic setting to families of children in special education and those in general education with specific problems related to learning Prerequisites: EDSP 777 and PSYC 634

#### EDSP 850 Thesis

9 cr.

91

3 cr

## EDSP 950 Dissertation EDUC: Education

Department of Professional Studies in Education College of Education and Educational Technology

#### EDUC 590 Improving Professional Practice in Instructional Settings

and

#### EDUC 591 Improving Professional Practice in Instructional Settings

1-3 ст.

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### EDUC 595 International Study Tour in Education

Provides an analysis of educational programs and methodology in selected countries. Introduces students to series of diverse educational experiences Special attention to teaching techniques, innovative curriculum, and school organizational patterns. Teaching takes place on site in selected countries

#### EDUC 600 Basic Foundations of Reading Education

Emphases on nature of reading process, nature of learner, advancement of pupil's reading skills, how pupils learn to read, and what teachers can do when pupils fail to learn to read

#### EDUC 631 Curriculum Development

Students learn curriculum development by differentiating among educational goals, objectives, and learning activities. Sources of curriculum goals and objectives, such as needs assessment, philosophical models, and psychological models are studied. The design and selection of learning activities, as well as designs for evaluating the effectiveness of curriculum, are considered

#### FDUC 650 School and Community

Development and maintenance of a purposeful program of communication between the school and the community through study of selection. organization, and functions of citizen advisory committees and cooperative use of various community services.

#### EDUC 651 Recent Issues and Innovations in Education

Newer trends in classroom procedure, equipment, and materials, as well as problems involved in improvement of instruction. Whenever possible, sessions are held to demonstrate and use recently developed materials. Individual research and field trips involve many of the new programs in elementary education

#### EDUC 652 School Evaluation

3 er.

Current models for both formative and summative evaluations are presented with emphasis on their application to school programs and other educational

3 cr.

3 cr.

#### LDUC 658 School Law and Negotiations

An understanding of legal principles as they pertain to functions of personnel in public school systems and to persons engaged in education. Study of statutory enactments, review of court actions through case studies, and analysis of collective negotiation law

#### ELED: Elementary Education

Department of Professional Studies in Education College of Education and Educational Technology

#### ELED 590 Improving Professional Practice in Instructional Settings

1-3 cr.

#### FLFD 591 Improving Professional Practice in Instructional Settings

1-3 cr.

Reviews current research in instructional practices, motivational techniques. and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### FLED 641 Recent Trends in Social Studies

Specific problems with curriculum, teaching, and learning experiences and evaluation are stressed. Each student will research a special problem or area of

#### FLED 642 Mathematics in Elementary School

Experiences with manipulative materials, games and puzzles, activity centers, and lab approach to mathematics. Inexpensive mathematics lab equipment will be constructed. Sources of literature and materials are presented and used Opportunities are given to write activity and problem cards and to plan mathematics activity centers. Psychological foundations and mathematics structure are used as reference for suggested activities and curriculum studies

#### ELED 643 Resource Materials in Flementary Science

Introduces underlying philosophy and use of materials of several of the current national curriculum programs in elementary science. Emphasizes the following programs (1) Science: A Process Approach (SAPA), (2) Elementary Science Study (ESS), (3) Science Curriculum Improvement Study (SCIS), and (4) Conceptually Oriented Program in Elementary Science (COPES), including microteaching techniques and development and preparation of individualized self-instruction modules. Students are required to work with various program. materials

ELED 655 Developmental Influences on Children's Learning

Examines the physical, cognitive, social, and emotional development of children and the impact of development on learning processes. Students will discuss, analyze, and apply developmental theory and research to address issues confronting contemporary early childhood and elementary practitioners. Final projects will emphasize collaboration with professionals in other fields who work with children, families, and educators. Prerequisites: Permission of

#### 111 D 681 Special Topics in Education

Designed for the students who wish to do independent research in special

ELED 698 Supervised Internship -

A carefully planned, field based, internal work experience proposed by the advanced graduate student to extend professional competence, subject to approval by advisory committee. Registration by permission only.

#### FLED 699. Independent Study in Flementary Education 1-3 cc

Students select one or more topics which are of critical importance in elementary education and meet staff members for independent reading, study, analysis, and evaluation. Registration only by permission of Graduate Committee.

#### 111 D 781 Special Topics

#### H11D 798. Supervised Doctoral Internship.

Applied field experience chosen by doctoral students with the approval of the dissertation advisory committee. Prerequisite: Permission only

111D 850 Thesis

For the student writing the thesis. Should be scheduled for the semester in which the student plans to complete his her work. All thesis writing involves a committee composed of the student's advisor and two additional faculty

#### LIED 950 Dissertation

1-12 cr.

Students preparing a doctoral dissertation for credit must register for this course. Number of credits assigned and the extent of time for which research activity is scheduled depend on nature and scope of student's research problem. and his her general doctoral program.

NOTE. Credits for both thesis and dissertation, if not completed during the semester scheduled, are recorded as a grade of "R," research in progress. They remain so until the project is approved. They do not automatically revert to the grade "F" in a specific length of time. Also, thesis and dissertation credits can he programmed above the regular load.

## ELMA: Elementary and Middle School Mathematics

Department of Mathematics

College of Natural Sciences and Mathematics

FLMA 517. Introduction to Prohability and Statistics

Introduces students to elementary concepts of probability which will enable them to analyze data, make predictions, and determine what concepts may be used with children. Prerequisite: MATH 152 or equivalent.

#### 11 MA 520 Pre-Calculus Mathematics I

Examines the function concept as applied to elementary real number functions and graphing techniques for these functions. Topics include real number functions such as absolute value, step, linear quadratic and other polynomial functions, trigonometric and other periodic functions, exponential logarithmic functions, and all other inverse functions. Students will examine curricular materials that develop function concepts in grades K.S. Prerequisite: MALH 152 or equivalent

#### FLMA 556 Principles of Geometry L

Students become acquainted with an informal, intuitive approach to geometry Activities and materials for teaching geometrical concepts to children are an integral part of the course. Prerequisite: MATH 152 or equivalent

#### ELMA 557 Introduction to Number Theory

Introduction to topics in elementary number theory, including basic operations and properties of integers, divisibility properties of integers, modular arithmetic and congruences, diophantine equations; interesting relationships among numbers, applications of number theory in elementary school mathematics Prerequisite: MATH 152 or equivalent

#### ELMA 558 Introduction to Logic and Logical Games

Introduction to some basic ideas, terminology, and notation of logic. Topics considered symbolic logic, with special emphasis on algebra of propositions, applications of Boolean algebra, such as algebra of sets and switching circuits, introduction to quantification theory and its value in determining validity of mathematical arguments, interence schemes, and logical puzzles, and consideration of other topics in logic suitable for a K-8 mathematics curriculum. Prerequisite: MATH 152 or equivalent.

#### FLMA 559 Computer-Related Topics in the Flementary and Middle School

Provides teachers with the concepts and techniques necessary to teach computer related topics to children in the elementary and middle schools Prerequisite: MATH 152 or equivalent.

#### LLMA 571 Basic Concepts of Algebra.

Concepts of basic algebraic structure such as group, ring, integral domain, field, and vector space are studied within the context of the mathematical maturity of the student. Other topics include relations and functions, systems of equations, and mequalities. Consideration given to development of these concepts in the mathematics curriculum. Prerequisite: MATH 152 or equivalent

#### FLMA 581 Special Topics

Special topics which go beyond the scope of regular offered courses. Offered on basis of student interest and available staff. The student may take more than one Special Topics offering with the written approval of the advisor-Prerequisite: MAIH 152 or equivalent.

#### ELMA 650 Curriculum and Instruction in Hementary School Mathematics

The design of this course is to familiarize the elementary middle school teacher

3 ст

with the philosophical and psychological issues that guide the development of mathematics curricula. Topics include a history of the development of mathematics curriculum, innovative curricula that have had impact on teaching and learning, ways of implementing a contemporary program, and criteria for textbook selection. Prerequisite: Methods course in teaching mathematics or consent of instructor

ELMA 652 Diagnosis and Remedial Teaching of Mathematics Examines why some children have difficulty in learning mathematical concepts and presents tools and techniques for diagnosing and remediating common difficulties in elementary and middle school mathematics. Valuable for those teaching in elementary, middle school, or remedial programs. Prerequisite: Methods course in teaching mathematics or consent of instructor

#### ELMA 653 Mathematics for the Gifted Student

Examines different approaches for mathematically gifted students. Students become familiar with resources and elementary programs designed for use in either regular classrooms or special classes for the gifted. Prerequisite: Methods course in teaching mathematics or consent of instructor

#### ELMA 654 Teaching Problem Solving in the Elementary and Middle School

Intended to teach teachers how to become better problem solvers, teaches problem-solving techniques appropriate for grades K-8. Prerequisite: Methods course in teaching mathematics or consent of instructor

#### ELMA 655 Mathematics for Early Childhood

Studies child-centered, activity-oriented mathematics programs for early childhood education. Focuses on implementing research to help children. develop understanding and insight into basic concepts of mathematics through the use of manipulative materials. Topics include prenumber activities, number activities, numeration, operations on whole numbers, estimation, rational numbers, geometry, measurement, probability, statistics, and problem solving Prerequisite: MATH 152 or equivalent

#### ELMA 681 Special Topics

Special topics which go beyond the scope of regular offered courses. Offered on basis of student interest and available staff. The student may take more than one Special Topics offering with the written approval of the advisor Prerequisite: Methods course in teaching mathematics or consent of

#### ELMA 698 Supervised Internship

A professional work experience in a cooperating school district under the supervision of designated public school personnel, subject to review and evaluation by a university faculty member. Registration by permission only

#### ELMA 699 Elementary Math-Independent Study

Under the guidance of a faculty member, a student may study some area of mathematics or mathematics education not covered in the regular courses

ELMA 850 Thesis 3 cr.

## ENGL: English

Department of English

College of Humanities and Social Sciences

#### ENGL 518 Literature for Adolescents

Offers prospective secondary English teachers a survey of the literature adolescents choose to read, enjoy, and find relevant to their lives. Includes literature that offers psychological and sociological perspectives on adolescents

#### ENGL 526 ESL Methods and Materials

An introduction to English as a Second Language theory and practice. Aims (1) general understanding of current theory and methods of teaching ESL, (2) ability to select appropriate, and adapt existing, materials for elementary and high school ESL students. Recommended for all English teachers who expect to have ESL students in their classes.

#### ENGL 581 Special Topics in Language and Literature

Allows students to pursue subjects such as textual criticism, prosody, and computers and literature not covered in existing courses.

#### ENGL 625 Introduction to TESOL 3 cr.

Introduces key concepts in teaching English as a second or foreign language Offers a broad introduction to the knowledge and skills needed to become a professional teacher of ESL or EFL and prepares students for the remainder of the MATESOL program. Students are expected to improve their language

ability as well as their research and presentation skills in this course. Required for MATESOL students in their first semester.

#### ENGL 630 Research on the Teaching of Literacy and Literature

Examines theory and research in literary, reading and responding to literature and other forms of writing, and the teaching of young adult and other relevant works of literature. Includes application of theory and research to classroom. practices

#### ENGL 632 I inguistics and the English Teacher

Examines four key topics, foundations of linguistic thought, applications of linguistics to the teaching of English, classroom discourse patterns, and language pedagogy

#### ENGL 641 Topics in ESL Pedagogy

Explores a single topic in depth. Topics, announced in advance, include such areas as ESL Testing, Teaching Listening Comprehension for ESL Students, Teaching English for Specific Purposes, and Teaching Writing for ESL Students

#### ENGL 643 TESL/TEFL Methodology

Surveys current theory and practice in teaching English to non-native speakers and includes traditional and innovative approaches, design, and procedures for teaching all language skills at various educational levels.

#### ENGL 644 ESL Material and Media

3 cr.

projects

Introduces the basic principles of ESL course design and the evaluation, adaptation, and design of ESL classroom materials and media. Students gain an understanding of the structure and uses of ESL materials, as well as a hands-onexperience in syllabus design and the evaluation, adaptation, and creation of ESL materials for specific purposes. Students work on an ESL/EFL media and materials project and put on a Materials and Media Fair where they show their

#### ENGL 674 Bibliographical Methods in English

Practical training in special methods and materials of research in English

#### ENGL 675 Literature and the International Student

Develops the reading, writing, listening, and speaking skills needed for success by the international student in the graduate study of literature in the American university. Examines the principles of literary analysis, research, and documentation in the United States and orients the student to the American library system and the American college classroom.

#### ENGL 676 Critical Approaches to Literature

Focuses on theoretical and applied approaches to literary criticism. Introduces such approaches as they have been historically developed and are currently practiced and considers how familiarity with a variety of critical methods enhances the appreciation and teaching of literature

#### ENGL 681 Special Topics

Courses relating to specialized interests in literature, thetoric, or linguistics which fulfill special needs or interests. May become permanent course offerings

#### ENGL 688 Practicum in TESOL

Intended to provide a balance between observation and practical teaching experience. Students plan, teach, and reflect on lessons. Emphasis is placed on application of theory and pedagogical knowledge gained from course work, as well as on developing skills to reflect on teaching and its consequences for learners. Class size is limited to fifteen students. Although not a prerequisite. this course can be used as a way to prepare for a teaching internship

#### ENGL 689 Orientation and Field Experience in the Community College

Examines the community college from historical and philosophical perspectives. Includes observations of classes and interviews with staff at community colleges. Specifically for students preparing for careers in the community college. Prerequisite: Permission of director of Graduate Studies in Rhetoric and Linguistics

#### ENGL 690 Writing as a Way of Learning

Examines the theoretical relationship between thought and writing, with specific attention to ways this relationship underlies learning in all disciplines The course, which functions as part of the Southcentral Pennsylvania Writing Project, involves reading, writing, and demonstration of pedagogical methods

#### ENGL 692 American English Grammar

The study of phonology, morphology, syntax, and semantics of present-day American English, using various approaches to the analysis of grammar and

#### COURSE DESCRIPTIONS

#### ENGE 693 Seminar in Teaching English in the Secondary School

Explores recent developments in teaching of language, compositions, and literature

#### ENGL 694 Observation in Teaching English

Surveys instruments to observe classroom teaching behavior and provides practice in the use of observation instruments. Surveys research on classroom teaching and design. Emphasizes awareness of teaching behaviors and their consequences in English classrooms for native and non-native speakers of English

#### ENGL-696 Internship in ESL/EFL

Consists of one semester of supervised teaching, tutorial activities, and materials preparation for non-native or limited English-speaking students. The purpose of the practicum is to demonstrate the candidate's preparation for teaching English as a second or foreign language. Prerequisite: Permission of the director of Graduate Studies in Rhetoric and Linguistics

#### ENGL 698 Internship

Practical experience in the student's area of interest, working under professional supervision on the job. Special permission only, dependent upon needs of student's program as well as personal and academic qualifications.

#### ENGL 699 Independent Study

I-3 cr. Study in depth of topics not available through regular course work. Student works with supervising professor on carefully planned, student initiated project Prior approval necessary

#### ENGL 700 Introduction to Research

Introduces students to various types of research in Composition and TESOL for examining the transmission of literacy

#### ENGL 703 Language and Cognition

Examines areas where language, thought, and cognitive process interact Studies the essential nature of meaning and mental concepts, the corecharacteristics of language, and the complex relations between the two

#### ENGL 705 Language and Social Context

Introduces the study of language as a social phenomenon, including such topics as language varieties, stereotypes, and social identity, language planning and language policy, standard and nonstandard usage, censorship, discourse analysis, language attitudes, language, culture, and thought, communicative competence, small group communication, and classroom interactions

#### ENGL 708 Technology and Literacy

Presents an overview of the interrelationship between literacy and technology Demonstrates approaches to teaching English using computer technology

#### ENGL 715 Qualitative Research Methods in

Rhetoric and Linguistics Involves both reading about and training in qualitative research methods such

as participant observation, interviewing, coding, and analysis. Also covers dissemination of research findings. Prerequisites: ENGL 700 and ENGL 730

#### ENGL 723 Second Language Teaching

Considers trends, issues, and research in second language teaching and assessment, as well as considers ways teachers can explore teaching beliefs and practices Prerequisite: ENGL 640

#### ENGL 724 Second Language Acquisition

Introduces current research in second language acquisition, especially of English - Focuses on prominent research trends in the study of the language learner, the process of acquisition, and the interaction of learner, language, and

#### ENGL 725 Second Language Literacy

Studies theory, research, and pedagogy associated with the development of literacy in two languages, either simultaneously or successively. Focuses on how individuals and groups become literate in English as an additional or second language. Includes explorations of political, cultural, social, contextual, as well as cognitive, textual, and educational issues that arise in acquiring and using a second literacy. Open to M.A. TESOL and Ph D. students in Composition and TESOL

#### ENGL 730 Teaching Writing

Studies characteristics of the writing process and of the basic writer, methods for the evaluation of writing, and approaches to the teaching of writing

#### ENGL 731 Rhetorical Traditions

Studies how rhetorical traditions influence the teaching of composition Examines how cultural factors such as history, politics, ideology, gender, race, and ethnicity affect the composing process. Encourages students to think of composition as an open, multicultural event of imagination and social innovation

#### ENGL 732 Advanced Seminar in Composition Theory

Explores a single topic in depth. Topics, announced in advance, include such areas as approaches to the teaching of style, writing across the curriculum, the evaluation of composition instruction, the development of the writing process in children, computers in composition, writing in the professions, and discourse analysis. May be taken more than once. Prerequisites: ENGL 730 and ENGL 731

#### ENGL 733 Theories of Composition

Reviews the major theories of composition, especially those of the modern and postmodern eras. Examines how cultural factors such as education, history, politics, ideology, gender, race, and ethnicity affect the theorizing about composition. Encourages students to construct their own theories of composition by entering into a collaborative cultural and intellectual process

#### ENGL 742 Cross-Cultural Communication

Investigates cultural behaviors, assumptions, values, and conflicts surrounding communication across cultures in the context of teaching English as a second or foreign language at all levels.

ENGL 744 Reading Theory and the College English Teacher 3 cr. Examines the psycholinguistic and ethnographic research on the fluent reading

process of native and non-native college readers, as it pertains to the teaching of reading and writing for academic purposes

3 cr.

#### ENGL 745 Theories of Literacy

3 cr.

Examines the status of current and past theories of literacy, including, the nature of literacy itself, the ways literacy is shared and used by individuals, families, and cultures, and the political, social, and personal ramifications of literacy.

#### ENGL 746 Advanced Seminar in Literacy

Explores a single topic in depth in the fields of Composition and TESOL Topics are announced in advance and have recently included writing centers, computers in composition, alternative research methods, discourse analysis. and writing program administration. May be taken more than once Prerequisites: Any one of ENGL 723, 724, 725, 730, 731, 733

#### ENGL 748 Advanced Topics in Linguistics

Focuses on a single topic in depth. Topics will be announced in advance and will include language history and change, writing systems, models of language, linguistic stylistics, narrative analysis, cross-linguistic patterns in syntax language structure and use, and more Prerequisites: FNGL 703 or ENGL 705

#### ENGL 751. The History and Thenry of Criticism

Studies the founding texts of the Western tradition in ancient Greece beginning with Plato, Aristotle, and the sophists and places them in the historical context of significant cultural turns in literary, rhetorical, and cultural theory leading up to the present. As preparation for EN 752, this course examines key moments in the history of Western metaphysics in relation to contemporary concerns for theory, pedagogy, multiculturalism, and the changes in higher education, especially as they affect English studies

ENGL 752 Literary Theory for the Teacher and Scholarly Writer

Focuses on contemporary literary and cultural theory, especially as it affects the teaching, scholarship, and curricular design of English studies, which has undergone significant changes in recent decades. Examines contemporary theoretical approaches such as New Criticism, post-structuralism, deconstruction, reader response, Marxism, New Historicism, cultural studies, feminism, postcolonialism, gay and lesbian theory, and others, with a special emphasis on practice, how theory affects the classroom, the curriculum, and the writing of professional presentations and publications

#### ENGL 760 Teaching College Literature

Examines current research on teaching college literature and involves ongoing observation and practice of teaching strategies. Special attention is given to the impact of critical theory and such issues as canon, race, class, and gender in specific classroom settings.

#### ENGL 761 Topics in American Literature Before 1870

Studies major figures, movements, or topics in American literature from the Colonial Period through 1870. The content of the course will be determined by the individual instructor and announced in advance.

#### ENGL 762 Topics in American Esterature Since 1870

Studies major topics, authors, and movements in American literature from 1870 to the present. Specific course content is chosen by the instructor and announced in advance

#### ENGL 763 Topics in British Literature Before 1660

Studies major figures, movements, or topics within the period. The specific content of the course is determined by the instructor and announced in advance

#### ENGL 764 Topics in British Literature Since 1660

Studies major figures, movements, and topics in British literature within the period 1660 to the present. Content of the course will be determined by the instructor and announced in advance

#### ENGL 765 Topics in Literature as Genre

Examines one literary genre (such as novel, drama, or film), its development, and its current practice and theories. The course also surveys the major recent critical approaches to the genre-

#### ENGL 766 Topics in Comparative Literature

3 cr. Introduces the theory and methods of comparative literary analysis. Topics include the relationships between literatures of different countries, between literary genres, and between literature and other related fields. The specific course content is chosen by the instructor and announced in advance.

#### ENGL 771 Topics in Postmodern Literature

Investigates the postmodern reaction to the modern literary tradition and the experimentation it engendered. Focuses on how postmodern critics and writers have responded to modernist manifestations of character, narrative, and theme and explores the critical, pedagogical, and philosophical implications and assumptions of postmodern literature, assessing its role in contemporary culture and thought

#### ENGL 772 Topics in Women's Literature

3 cr. Reexamines nineteenth-century works by women in light of feminist perspectives. Studies twentieth-century works within and outside feminine and feminist traditions. Also considers works by black, Chicano, Native American, and Asian-American women.

#### ENGL 773 Topics in American or British Minority Literature

Examines the literature of one or more American or British minorities (for example, Native Americans, immigrants, blacks, Chicanos). The focus and subject matter of the course will be chosen by the faculty member and announced in advance

#### ENGL 781 Special Topics

3 cr. Courses relating to specialized interests in TESOL, literature, rhetoric, criticism, or linguistics which fulfill special needs or interests. May become permanent course offerings

#### ENGL 783 Seminar: Literary Theory Applied to Major American Author or Theme

Advanced, independent work in a seminar format. Emphasizes the production of a research paper of publishable quality. Specific content for the course--a major author or specific theme in American literature-will be chosen by the instructor

## ENGI. 784 Seminar: Literary Theory Applied to

Major British Author or Theme

Draws on knowledge and critical skills from core courses and traditional and special literature courses for advanced, independent work. Focus is on a single major author or well-defined theme in British literature chosen by the instructor. Each student conducts practice teaching and produces a research essay suitable for submission for publication or presentation at a conference

#### ENGL 785 Seminar: Cumparative Literary Theory Applied to Traditional and Special Literatures

Explores and applies literary theory, criticism, and the theories and methods of comparative literature to traditional and special literatures. Students may expect to investigate. from various critical perspectives, conflicting social and literary values. The specific course content is chosen by the instructor and announced in advance

#### ENGL 797 Independent Seminar

Selected readings and/or research in a specialized area of composition, criticism, and/or critical theory, literature, TESOL, linguistics, creative writing, cultural studies, literary translation, or literacy not normally covered by the curriculum in either track of the Ph D in English. In consultation with a designated faculty member in the semester prior to registration, a student

submits a complete syllabus for study and assessment in one of the areas listed above. The syllabus must be approved first by the faculty memher and then by the director of the appropriate graduate program. Course is delivered to individuals or small groups, either in residence or electronically, as determined by the instructor/program. May be repeated once with new content

Prerequisite: Permission of relevant program director(s) and instructor

#### ENGL 799 Independent Study

An in-depth investigation of topic or area related to the student's doctoral program but not available through regular course work. Independent study is initiated by the student and supervised by a faculty member in the area of study. Prior approval by the director of the student's doctoral program is

NOTE. Special Topics in Language and Literature and Major Writers, as well as seminars, may be scheduled more than once, because subject matter will change with each offering of the course. More complete course descriptions are available from the department

#### FDED: Foundations of Education

Department of Foundations of Education College of Education and Educational Technology

## FDED 514 Comparative Foundations of Education

3 cr.

Educational theories and practices in different nations will be studied Educational purposes, curriculum, methods, administration, school systems, teacher education, and other educational features in America will be analyzed. evaluated, and compared

#### FDED 515 Curriculum Development

3 cr.

Analysis of philosophical, sociological, and psychological basis for creation of curriculum patterns, K-12 Includes utilization of technological devices, critical examination of basic concepts underlying determination of objectives, selection and organization of subject matter, and learning experiences in general Current curriculum research is analyzed, as well as existing instructional materials and programs

## FDED 581 Special Topics

3 ст.

#### FDED 590 Improving Professional Practice in Instructional Settings and

1-3 cr.

#### FDED 591 Improving Professional Practice in Instructional Settings

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### FDED 595 International Education Studies Program

A travel-seminar conducted in a foreign country and designed to afford educators and students of education the opportunity to investigate teachinglearning process in cultural settings other than their own. Particular attention to such current educational issues as theories of curriculum development, methodology, teacher education, and changing value systems.

#### FDED 611 Historical Foundations of Education

Study of historical development of American education. European influences on philosophies and practices of American schools will serve as a background Emphasis on development of education in America as influenced by various individuals and schools of thought. Historical trends will be related to current problems and practices in education

#### FDED 612 Philosophical Foundations of Education

Analysis and evaluation of basic philosophies and their impact upon education. Nature, value, means, and ends of education and some other fundamental phases of schooling will be thoroughly examined. Stress on essentials enhancing an individual working philosophy of education and on basic ideas heightening a sound philosophy for American schools

EDLD 616 Professional Negotiations in Education

Social and cultural forces which influence education. Particular stress on

current problems as they relate to entire educational systems and to curricular

Study of dimensions of professional negotiations process in educational sector

Biochemical role of vitamins and minerals in macronutrient metabolism. Focus

on biochemical and physiologic functions and current research implications

Institutional tools will be case studies, lecture-discussion, and reading assignments. Guidelines of public policy affecting public employer employer

FDFD 613. Social Foundations of Education.

problems and practices in today's schools

relations will also be evaluated and analyzed.

FDNT: Food and Nutrition

FDED 699. Independent Study

#### Examines nutritional management of the hospitalized patient with emphasis on Department of Food and Nutrition the role of the dietitian. Research for a paper and oral critiques of current College of Health and Human Services LDN1 799 Independent Study in Food and Nutrition 1.3 cr. FDNT-510-Food, Nutrition, and Aging Prerequisites: Completion of two courses in the department requirement How food relates to health maintenance and special dietary problems during Advanced study and or selected research problems from the field of food and the middle and later years. Nonmajors only nutrition. May be taken for a maximum of three credits. EDN1-514-Lood Composition and Biochemistry 1DN1-850 Thesis 1-1 cr. Covers basic chemistry and biochemistry of essential components of food originating from plant and animal sources. Prerequisite: CHEM 353. FIN: Finance FDNT 537 Nutritional Aspects of Food Technology Department of Finance and Legal Studies Studies current known effects of food processing techniques on the nutritional Eberly College of Business and Information Technology value and safety of food. Prerequisites: EDNT-212 and BIOI-241 FDNT 558 Advanced Human Nutrition TIN 500. Foundations of Finance. Designed for EMBA students without prior Finance background to prepare In-depth study of the nutrients and their functions within the cell. Incorporation of the principles of physiology and biochemistry in the study of them for M.B.A. Linancial Management course. Provides students with the nutrition. Emphasis on current research. Prerequisites: FDNT 212, CHEM. concepts that constitute the base for finance theory and the foundations for the 355, and BIOL 151 techniques used in making financial decisions. FDN1-561 Microwave Cooking Technology FIN 510. Emancial Institutions and Markets. Examines the electronic technology, selection, care, and use of the microwave Review of entire structure of financial institutions, money and capital markets oven. Basic physical and chemical concepts related to microwave cooking are tof which the business enterprise is both a supply and demand factor) and the included. Individual research problem required. Two lectures: two lab hours structure and dynamics of interest-rate movements. Prerequisites: ECON per week Prerequisite: CHFM 101 325, EIN 324, or permission of Liberly College of Business and Information Technology graduate coordinator. FDNT 562 Advanced Experimental Foods An experimental approach to the many factors influencing the chemical and FIN 520. Investment Analysis physical properties of food. Use of scientific method in developing an Integrates the work of various courses in the finance areas and familiarizes the individual project combining an evaluation of current literature and appropriate student with the tools and techniques of research in the different areas of sensors and analytical methodology. Prerequisites: FDNT 362 and CHEM. investments. Prerequisites: ACC I 301, FIN 310, FIN 324, or permission of Liberly College of Business and Information Technology graduate coordinator FDN1-564-Food and Nutrition Research Methods FIN 524 International Financial Management Introduction to research methodology in food and nutrition. Includes theory Provides an insight into the unique issues and problems that the manager of the and techniques of physical, chemical, and instrumental analysis. Applications multinational enterprise will face, such as working capital management, capital of these methods to food and animal models with statistical analysis of data. budgeting process, financing and investing abroad, capital and money markets, Prerequisites EDN I-362, EDNT-158, CHEM 351, and MATH-217 foreign exchange markets, and risk management. Prerequisite: FIN 310 or eguivalent. FDN1-612 Administration of Food Service Systems Addresses food service as a system of interrelated parts and of controlling HN 581 Special Topics in Finance management resources. Analyzes of different types of food service delivery Covers advanced or exploratory topics within the discipline. Specific content systems and covers legal responsibilities of a food service administrator developed by instructor. Content will vary depending upon the interests of Prerequisites: FDN1 358 FDN1 259 FDN1 3B. FDN1 356, or three years instructor and students with instructor choosing specific topics. May be repeated by specific approval. Prerequisite: Permission of instructor and work experience in a food service management position. Fherly College of Business and Information Technology graduate coordinator FDNT 641. Lating Behaviors and Food Habits 3 cr. FIN 630 Financial Management investigation and analysis of historical, political, religious, ethnic. An extension of basic managerial finance, dealing with theory and practice of environmental, and social influences which affect food consumption patterns Prerequisites: PSYC 101 and SOC 151. analyzing companies, financial platining, capital budgeting, management of working capital, and obtaining funds for the corporation. Prerequisite: HN FDN1-642 Contemporary Issues in Food and Nutrition Current information in foods and nutrition is investigated, analyzed, and evaluated for practical implementation. FIN 632. Seminar in Finance. Covers topics in all areas of finance by using recent articles, cases, discussions, FDN1-645 Proteins, Carbohydrates, and Lats. speakers, and a finance simulation game. Designed to bring together all aspects Nutritional considerations of protein carbohydrate, and fat metabolism of finance. Prerequisite: EIN 630. Physiological and biochemical functions of these nutrients will be discussed FIN 635. Principles of Investments in Securities. Introduces many forms of existing investment policies. Attention is given to EDNT 616. Vitamins and Minerals.

1-6 cr.

1DNI 698 Internship

Department charperson.

EDN1.713 Chinical Dietetics

FDN F711. Nutrition in the Life Cycle.

**IDNT713** Seminar in Food and Nutrition

Supervised work experience for food and nutrition majors. Permission

Studies bodily functions at different stages of development under differing

environmental conditions and at various levels of biological organization

Preparation and presentation of written scientific reports and or current departmental research. Course to be taken twice. Prerequisites: GSR 615,

operation of stock markets, concepts and terminology of investing, mutual-

funds and their function, investment clubs, and problems involved in making investments through brokers, bankers, and stock promoters. Prerequisite:

GSR 516, and two courses from the department requirement

1-6 cr.

3 cr.

#### FIN 681 Special Topics in Finance

Covers advanced or exploratory topics within the discipline. Specific content developed by instructor. Content will vary, depending upon the interests of instructor and students, with instructor choosing specific topics. May be repeated by specific approval Prerequisite: Permission of the instructor and the Eberly College of Business and Information Technology graduate

#### FIN 699 Independent Study in Finance

1-3 cr.

Individual research and analysis of contemporary problems and issues in a concentrated area of study under the guidance of a senior faculty member Prerequisite: Consent of instructor, departmental charperson, and Eberly College of Business and Information Technology dean

FIN 850 Thesis 4-6 cr.

For students writing a thesis, FIN 850 should be scheduled for the semester in which the student plans to complete his/her work. The thesis is a committee thesis (4-6 cr), for which the student's advisor, two additional faculty members, the Eberly College of Business and Information Technology graduate coordinator, and/or the representative of the dean of the Eberly College of Business and Information Technology may constitute the committee

## GEOG: Geography

Department of Geography and Regional Planning College of Humanities and Social Sciences

#### GEOG 511 History of Geography

History of the discipline, great ideas, leading professionals, and unresolved issues are studied.

#### GEOG 513 Cartography

Develops ability to map and diagram human and environmental phenomena Special maps, charts, and diagrams will be considered as required by students Recommended for all master's candidates

#### GEOG 514 Map and Photograph Interpretation

Develops skill in extracting information and synthesizing data from maps and aerial photographs as applied to geologic, land use, planning, and terrain analysis problems

#### GEOG 515 Remote Sensing

Methods of remote sensing such as thermal sensing, multi-spectral scanning, satellite imagery, side-looking airborne radar imagery, and additive color analysis and their applications, particularly as applied to geographic and planning problems, are studied

#### GEOG 516 Introduction to Geographic Information Systems

Automated methods for creating, maintaining, and analyzing spatial data are presented. Topics include 1) specialized GIS hardware and software, 2) vector vs. raster vs. object-oriented spatial data structures, 3) creation and manipulation of geographic data files, 4) database design and management concepts, 5) spatial analysis, and 6) cartographic design. Prerequisite: GEOG 513 or equivalent or permission of instructor

#### GEOG 517 Technical Issues in GIS

A project-based class where students learn the skills to develop and maintain a Geographic Information System. Students will construct functional systems Designing GIS systems to use specification data collection, data input, project management, and system documentation are covered Prerequisite: GEOG

#### GEOG 531 Population Geography

Spatial variations in numbers, characteristics and dynamics of human population, models, and theoretical constructs relevant to demographic structures and processes are studied

#### GEOG 532 Urban Geography

3 cr.

Analysis of city types, patterns, and functions as influenced by geographic conditions and other factors. City planning techniques and field study are

#### GEOG 533 Geography of Transportation and Trade

Transportation systems and their use accessibility, circulation, time and distance concepts, and trade patterns. Empirical and theoretical approaches are examined

#### GEOG 534 Political Geography

Geographic factors and conditions are analyzed as they relate to character and function of states. Political institutions in light of geographic conditions

#### GEOG 536 Social Geography

Spatial dimensions of the American society are the focus of this course. The distribution of various social groups and their impact on the landscape are

#### GEOG 541 Climatology

3 cr.

Examines the elements of weather and climate on Earth. The location and causes of global climatic regions are examined in relation to moving pressure and wind systems. The course also considers the climatic history of the planet and recent human modifications of the atmospheric environment

#### GEOG 542 Physiography

Focuses on landform types and their spatial distribution. Emphasis is placed on the tectonic forces that build landforms and the weathering and erosional processes that erode and shape surface features. The relationship between human activities and landforms is also considered

#### GEOG 543 Geography of Fresh Water Resources

3 cr.

Learn about surface and groundwater as a resource with unique properties Fresh water is defined physically by storage in the hydrologic cycle and the values assigned by different cultures. Problems featured relate to consumptive and withdrawal water uses, the problems of water supply and scarcity, water law and its inconsistencies, flooding and floodplains management, sources of contamination and pollution, wetlands, and case studies of selected river basins

#### GEOG 550 Introduction to Planning

Introduction to the profession and activity of contemporary American urban and regional planning. Course emphasis is placed on land use control, design, growth management, and development regulation. The legal and institutional bases of planning practice are covered as well.

#### GEOG 552 Planning Methods

Research, analytical design, and plan-making techniques in urban and regional planning. Examines basic items necessary to prepare urban and regional comprehensive plans

#### GEOG 554 Planning Design

Presents concepts of city, subdivision, and transportation design in relation to topography, natural resources, and other physical elements. Prerequisite: GEOG 550

#### GEOG 558 Land Use Law

3 cr.

Introduces students to principles of land use law. The course focus is on federal constitutional principles and key Supreme Court cases, especially as they relate to actions of local units of government and municipal planning practice. Deals with the present state of land use law and with current trends and issues Prerequisite: GEOG 550 or GFOG 564

#### GEOG 564 Land Use Policy

Introduces students to and provides an overview of land use issues at the regional, state, and federal levels. Emphasizes evolution of contemporary policy strategies, constitutional issues, and regional controversies involved in the regulation of metropolitan growth, central city decline, and management of public lands

## GEOG 568 Planning Theory

Examines process of city planning during ancient, medieval, Renaissance, and modern periods. A review of early planning in America, as well as present city. planning, is included Prerequisite: GEOG 550

#### GEOG 571 Aerospace Workshop

3 (1

Develops an appreciation and provides information related to aerospace activities and contributions, offers background for teaching aerospace courses, discusses aviation/space careers, and presents the basic principles of flying (usually including some flight instruction). Offered summer only

#### GEOG 581 Special Topics

Topical courses offered on an experimental basis. Check department schedule for these offerings

## GEOG 610 Research in Geography and Regional Planning

Elements and techniques of scientific research, as applied to geographic and planning problems, are studied. A research proposal is developed

## GEOG 612 Quantitative Techniques in Geography

and Regional Planning

Descriptive and inferential statistical techniques applied to spatial distribution. and spatial association of physical and cultural phenomena and testing of spatial theoretical constructs

#### GFOG 614. Thought and Philosophy in Geography and Regional Planning

Examines the status of current and past thought and philosophy in geography and regional planning, using the literature in planning, geography, and the philosophy of science. Topics examined are regional development, local planning, environmentalism and physical geography, and cultural geography. Prerequisite: GFOG 610.

#### GFOG 617 Field Techniques in Geography and Planning

Field tools and techniques are evaluated and used in the study of a specific area Interpretation of spatial patterns of phenomena is emphasized.

#### GFOG 618-GIS Applications Development

Takes students with GIS analysis skills to the next level, developer of software to automate methods and processes learned in prerequisite courses. Students will learn to write object oriented software tools for spatial data transaction processing and analysis. Prerequisite: GFOG 516

#### GEOG 620. Spatial Structure of the Leonomy

The spatial organization of economic systems is studied. Processes that give tise to these systems and their spatial interdependencies are explored. Topical and regional examples of spatial structure are used as case studies.

#### GEOG 623 Regional Development

Theory and policy implications of the spatial aspects of development in various regions of underdevelopment

#### GEOG 625. Environmental Planning

Provides students with information about natural resources, their characteristics, and various techniques that can be implemented to their preservation, conservation, and management. In particular, emphasis will be placed on human environment interaction and how aspects of the environment can and should be accounted for in planning processes at various spatial scales and levels of analysis. Course material will be presented through lectures, as well as guest speakers, field trips, and student presentations.

#### GEOG 630 Cultural Geography

Literature and methods of cultural geography. Topics include population, settlements, human ecology, culture areas, and related leatures.

#### GEOG 633. Settlement Geography

Settlement patterns and processes, origins, diffusion, classification, pioneer, settlement planning, and agricultural colonization

#### GEOG 650 Regional Geography

Various regions of the world may be dealt with, such as Latin America. Africa, or South Asia, when there is sufficient student demand. Physical, environmental, cultural, and population patterns are considered.

#### GLOG 665. Plan Implementation

Considers zoning, improvement programs, housing codes, building codes, methodology and application of administrative procedures, lederal and local urban renewal programs, site selection, and program administration Prerequisite: GFOG 550

#### GEOG 670 Professional Problems in Geographic Education

Classroom problems and discussion centered about new viewpoints in geography. Individual reports, group discussion, and research included.

#### GLOG 680 Seminar 3-

Seminars on various topics will be offered occasionally. Topics such as new trends in planning, cartographic theory, or spatial aspects of service industries are the tocus of research projects.

#### GFOG 681 Special Topics

Topical courses offered on an experimental basis. Check department schedule for these offerings

#### GFOG 698 Internship 3-12 c

Professional learning experience with emphasis on practical applications of academic background. Prerequisites: Twelve academic credits and a 3.00 cumulative GPA.

#### GLOG 699 Independent Study 1

Independent research and study under faculty direction. Interested students should apply to director of graduate studies.

#### Charten III

Registration for thesis most be approved by the department's graduate coordinator and chargerson, shead of time

#### GEOS: Geoscience

3 cr.

3 cr.

3 cr.

Department of Geoscience

College of Natural Sciences and Mathematics

#### GFOS 511 Sedimentary Petrology

Determination and interpretation of grain size parameters, an introduction to clays and clay mineralogy, hand lens and petrographic microscope study of matrice phosphorites, carbonates, siliceous sediments, heavy minerals, and sandstones with emphasis on interpreting ancient depositional environments. Prerequisite: GFOS 321

#### GFOS 512 Stratigraphy

Study of layered rocks with emphasis on the guiding principles of stratigraphy, the evaluation of unconformities, the principles and problems of correlation, and selected stratigraphy problems. **Prerequisite:** GLOS 411

#### GLOS 522. Igneous and Metamorphic Petrology.

Study of rock phyla and their chemical and spatial relationships in the earth Special attention to the genesis, mineral composition, and classification of rock types. I cology of igneous, sedimentary, and metamorphic rocks is studied in detail. Prerequisite: GEOS 321

#### GFOS 526 Structural Field Geology

includes techniques of geologic field work, such as measuring sections, use of aerial photographs, and a field project involving compilation of a geologic map cross sections, and geologic report. Prerequisite: GFOS 3.25

#### GFOS 527 Geomorphology

Landforms and the processes and principles that govern both their origin and then subsequent development. **Prerequisite:** GFOS 325

#### GEOS 530 Paleontology

A morphological study of major invertebrate life forms of geologic past and their distribution in space and time. **Prerequisite:** GLOS 131 or BIOL 120

3 cr.

#### GEOS 536. Geology of the Northern Rockies

A field study of the major geologic features and relationships involved in the development of the northern Rocky Mountains. National Park and Monument areas of South Dakota, Wyoming, and Montana are included among the areas investigated. Prerequisite: Permission of the instructor.

#### GEOS 511. The Solar System

Characteristics and behavior of planets and their satellites, asteroids, meteors, comets, and other phenomena of the solar system. One of the maior topics will investigate and criticize several of the theories of origin. Will require some treatment of celestial mechanics.

#### GFOS 542. The Sidereal Universe

Characteristics and classification of the stars, their assemblage groups and galaxies, and their evolution. Techniques of gathering data are examined to gain an understanding of the role of the telescope, spectroscope, and photometer in astronomical research. Lab exercises and night observations are part of the course. Credit will be given only to those for whom the course represents an area of study for which credit has not previously been recorded. Prerequisites: MATH 121 and PHYS 111.

#### GFO5.513 Carbonate Geology of Florida

Iwo weeks of field study in the Florida Keys. Will be conducted from base camp in Florida Keys and consist of both land and water works as the different carbonate environments in the Keys, Florida Bay, and the Atlantic rect tract are studied.

#### GLOS 550. Operation of the Planetarium.

Designed to acquaint student with the operation and use of the Spitz Planetarium. A satisfactors instructional program or show for a public group will demonstrate accomplishment of course objectives. **Prerequisite**: GFOS 110 or GFOS 341 or GFOS 342.

#### GLOS 561 Physical Oceanography

Introduction to physical, chemical, geological, and biological nature of ocean, topography, submarine geology, and bottom deposits. Prerequisites: PHYS 111 and MATH 121

#### GLOS 562. Marine Geology and Plate Tectonics.

A continuation of physical oceanography. Emphasis upon marine geology, coastal geomorphology, and structure and sedimentary environments of the continental shell, slope, and ocean basin. Prerequisites: PHYS 111, PHYS 112, and Geology courses.

#### GEOS 571 Meteorology I

Basic and advanced consideration of physical processes to the atmosphere Lectures, readings, term paper, lab. Prerequisite: One year of Physical Science or Physics GEOS 581

#### GEOS 681 Special Topics

As student demand and circumstances may dictate, special graduate courses may be offered by any member of the Geoscience graduate faculty

#### GEOS 699 Independent Study

Independent research under faculty direction.

1-3 ст.

3-6 cr.

#### GSR: Graduate General Service

The School of Graduate Studies and Research

#### GSR 516 Statistical Methods I

3 cr.

Measurement and statistical techniques as used in administration and educational research. Basic descriptive statistics, including measures of central tendency, variability, and correlation are developed. Rehability and validity of test scores with emphasis on use of statistical techniques are studied, along with their interpretation

#### GSR 517 Statistical Methods II

Using computer programs, a wide array of statistical procedures for research workers are explored. Basic concepts of statistical inference and prediction are reviewed, including regression analysis and prediction, hypothesis testing, analysis of variance and covariance, and partial and multiple correlation Emphasis is placed on use of computers and interpretation of computer printouts along with understanding techniques employed. No computer knowledge is necessary. Prerequisite: GSR 516 or equivalent

#### GSR 615 Elements of Research

3 cr.

Selection of a research problem, data collection, types of research, research reports, and use of the library and computer in connection with research problems are studied. Elements of statistics are introduced. This course provides background for preparation of the thesis and enables the student to become an intelligent consumer of products of academic research.

#### GSR 681 Special Topics

1-3 cr.

Group study of course material not offered in other graduate courses. Prerequisite: May not be scheduled without prior written approval of the dean of the School of Graduate Studies and Research

#### GSR 699 Independent Study

1-3 ст.

Individualized in-depth study of an approved topic directed by a participating faculty member and approved administratively. Prerequisite: May not be scheduled without prior written approval of the dean of the School of Graduate Studies and Research.

## HIST: History

#### Department of History

College of Humanities and Social Sciences

#### HIST 501 History of Ancient Greece

Analyzes major political, social, economic, and cultural developments in ancient Greek civilization from the Bronze Age to the death of Alexander

#### HIST 502. History of Ancient Rome

3 cr

Traces Roman history from early Republic to fall of Empire. A study of a civilization from its inception to its collapse.

#### HIST 503 Medieval Europe I, 400-1000

History of early Medieval Europe, from decline of Rome to beginnings of High Middle Ages, emphasis on political, social, economic, religious, and intellectual developments

#### HIST 504 Medieval Europe II, 1000-1350

History of late Medieval Europe, from High Middle Ages to Renaissance period, emphasis on political, social, economic, religious, and intellectual developments.

#### HIST 505 Renaissance and Reformation

History of Europe from ca. 1250, rise of commercial city, kings, and pressures on the Christian Church to 1600. Some consideration of technology and voyages

#### HIST 506 Early Modern Europe

Greatness of France under Louis XIV, Sweden, Thirty Years' War, emergence of modern society, French Revolution

#### HIST 507 History of Europe, 1815-1914

Study of Europe in nineteenth century, with emphasis on the emergence of major thought patterns, Romanticism, Socialism, and Positivism

#### HIST 508 Twentieth-Century Europe

3 cr.

Political, economic, and diplomatic trends of Europe since 1900, with major emphasis on causes and results of war and search for security

#### HIST 511 Rise and Fall of Hitler's Empire

In-depth study of Hitler and the Nazi Oider offers an analysis of nineteenthcentury origins of Nazi ideology and intensively analyzes domestic and foreign policy (1920-1945), including Holocaust, Resistance, and the postwar Nuremberg Trials

#### HIST 520. History of England to 1688.

Survey of growth of English nation, with emphasis on political, social, and economic developments leading to seventeenth century conflict between Crown and Parliament

#### HIST 521 History of England, 1688-Present

Survey of growth of England as a democratic constitutional inonarchy Attention directed to colonial America and English-U.S. relations, as well as to imperial expansion and England's role in the twentieth-century world. Cultural history is included.

#### HIST 522 French Revolution and Napoleon

3 cr.

Development of the Grand Monarchy, brief sketch of Old Regime, concentration on the Revolution and Empire, with emphasis on politics, diplomacy, and economics. Readings and brief papers

#### HIST 526 History of Russia

General survey of Russian history, culture, and institutions. Special consideration given to study of historical forces formative of revolution in 1917.

#### HIST 527 History of Soviet Russia

General survey of contemporary Soviet history, culture, and institutions Special emphasis given to study of communist theory and its place in current Russian historiography

## HIST 530 History of Islamic Civilization

An approach to learning about non-Western culture, Mohammed, Arabs, Muslims as creators to a great civilization from the rise of Islam to 1800, emphasis on cultural institutions and their interrelationships within the Middle

HIST 531 Modern Middle East Survey of changes that have taken place in the Middle East and in Islam since

eighteenth century and of contemporary problems in that region

#### HIST 540 Colonial America

3 cr.

Survey of original thirteen states from their inception within the British Empire to 1763, the eve of independence. Attention given to their political development, economic position within the empire, relations with Indians, and evolution of their social, educational, and religious lives

#### HIST 541. The American Revolution

Study of United States history from beginnings of revolutionary crisis in 1763 through adoption of the Constitution and the administration of John Adams Special emphasis is given to the causes and civil war aspects of the revolution. and the constitutional-political development of the new nation

## HIST 542. The Early Republic

3 cr.

Survey of United States history from 1783 to 1850, with special attention to constitutional, political, and social trends

#### HIST 543 Civil War and Reconstruction

Study of failure of American democracy to cope with issues of mid-nineteenth century, followed by political, economic, military, and social developments during war and reconciliation of North and South

HIST 550 History of Latin America: Colonial Period, 1150-1820 Study of life of people. Indian cultures, conquest by Spaniards and Portuguese, government during Colonial Period, and Wars of Independence

#### COURSE DESCRIPTIONS

HIST 551 History of Latin America: National Period, 1820-Present 3 cr. Study of history of nations which have emerged since independence, emphasis on economic, political, cultural, and social developments of these nations, as well as relations of these nations to others in the hemisphere

#### HIST 560. History of Pennsylvania

Emphasizes the cultural, economic, political, and social development of our state in various periods from colonial to today. Special attention given to diversity of Pennsylvania's people and their institutions and problems

#### HIST 563 Thought and Culture in Early America

HIST 699 Independent Study

what papers or reports will be required

Student selects topic for individual study with an instructor

museum work. Advising professor meets with intern regularly and determines

HMSV: Human Services

HIST 850 Thesis

Department of Sociology

Selected topics in early American intellectual and cultural growth, with emphasis on Puritanism, Enlightenment, Cultural Nationalism, and Romantic

College of Humanities and Social Sciences

HIST 564 Thought and Culture in Modern America

HMSV 601 Analysis of Social Data

Selected treatment of historical development of modern American, movements in social and political thought, religion, philosophy, tine arts, and literature

Covers fundamental concepts in social research and the role of statistics in describing distributions of characteristics in a population and analyzing quantitative relations between variables, basic univariate descriptive and inferential statistics, bivariate correlation, regression, and discrete measures of association, analysis of variance and the foundations of multiple regression The course emphasizes both statistical problem solving using human services examples and the use of SPSS and/or other relevant software to describe and analyze data.

HIST 565. History of Black America Since Emancipation Description and analysis of role of blacks in history of the United States since the Civil War, emphasis on key leaders, major organizations, leading movements, and crucial ideologies of blacks in modern America

HMSV 701 Teadership Theories

3 cr.

3.6 cr.

3 cr.

HIST 567 Native American History

100

3 cr.

Focuses on several leadership theories related to administering social agencies, schools, business, and industry

An unfamiliar perspective on a familiar tale. Presents the "new Indian History -North America from Native American materials and points of view Identification, analysis, and synthesis of Indian realities and options over time are at the heart of this course

HIST 569 Women in America 3 cr.

Surveys of religious, legal, political, social, and popular culture perspectives of womanhood in America from colonial times to present

HMSV 702 Leadership: A Case Study Approach Acquaints students with the theory and application of the case study approach

as related to theories of leadership. Designed to provide practice for future administrators in the following areas: group decision making, leadership. planning and organizing, sensitivity, judgment, and communication skills

HIST 572 History of the Early American Working Class Description and analysis of nature and significance of the U.S. working class in Prerequisites: For approved Administration and Leadership Studies candidates, in addition, HMSV 701 or permission of the instructor

eighteenth and nineteenth centuries. Work settings and communities of workers are examined as well as unions such as the National Labor Union and Knights of Labor

Description and analysis of the nature and significance of the US-working class

Students must develop and implement a field project that incorporates leadership and policy theories learned in previous courses. Prerequisites: For approved Administration and Leadership Studies candidates, in addition, HMSV 701 and HMSV 702 or permission of the instructor

in the twentieth century. Work settings and strikes are examined and analyzed. as well as unions such as the United Mine Workers and United Auto Workers. and leaders including Samuel Gompers, John L. Lewis, and George Meany

HIST 573 History of the Modern American Working Class

HMSV 798 Field Experience in Administration and Leadership Studies

HPED: Health and Physical Education

HMSV 703 Leadership: Applied Practice

Each semester, courses are offered in interest areas which are not part of the

Provides the student with an opportunity to solve a practical problem associated with the leadership and administration of an organization. During the third summer of the doctoral program, each student will be required to undertake a policy problem analysis process that integrates prior substantive and analytically oriented course work. Each student will present and discuss his her work before a faculty review committee. Students with full-time

regular course offerings

employment responsibilities will be permitted to focus on a problem related to their own organization, if it is compatible with the student's area of concentration or interest. Alternatively, if the student wants to explore another area or organization, he she may do so. This course may only be taken after a minimum of 36 hours of course work for the Administration and Leadership. Studies program (Human Services Track) is completed

HIST 591 Film as History This course deals with the cinema as social, cultural, and intellectual history from its origins to the present day

HMSV 950 Dissertation

HIST 600 Readings in History Directed readings of historical materials, tocused on a general topic

HIST 601 History Seminar 3-6 cr.

3-6 cr.

Area research, culminating in a formal paper

HIST 581 Special Topics in History

HPED 510 Exercise Prescription

Department of Health and Physical Education College of Health and Human Services

HIST 605 Introduction to Public History Introduces wide range of activities in which public historians engage. Explores

theoretical and practical issues associated with historic preservation, historical editing, oral history, the management of archival and manuscript collections, and a variety of other public history activities. Also considers broader conceptual issues associated with the concept of public history

Teaches individuals to write exercise prescriptions based upon a subject's tolerance for physical activity. Special emphasis will be given to risk factors, techniques of evaluation, drugs, injuries, environmental factors, and motivation with respect to their role in physical activity assessment. In-depth experiences working with qualified medical personnel will be provided. Prerequisite: HPFD 343

HIST 606 Topics in Public History Focuses on one specific field of public lustory activity (field varies from

HPLD 512. Physical Activity and Stress Management.

Investigation of library systems, reference works, bibliographies, how to compile a bibliography, organizing research, use of statistics, style systems in

semester to semester). Extensive reading in the literature of that field and

completion of an appropriate project or paper. Prerequisite: HIST 605.

Acquisition of necessary understandings of anxiety and stress with respect to the nature, the place they hold in our society, and the intervention strategies related to physical activity. A paper relating the utilization of these techniques is required.

HIST 698 History Internship

1HST-614 Research Methods

HPFD 513. Physical Activity and Aging.

Presents the major aspects of physical activity, its importance to the older adult,

With departmental approval, students are attached to local or national government or private agencies doing directive, bibliography, archival, or HPED 550. Curriculum and Programming in Sexuality Education 3 cm.
Designed to provide and share information that will be helpful to current and
future school personnel in developing sexuality education programs in their
schools and local communities.

# HPED 600 History of Philosophy of Sport 3 cr. A functional approach to an understanding of sport and human movement during the course of civilization with emphasis on formation of a constructive

A functional approach to an understanding of sport and numan movement during the course of civilization with emphasis on formation of a constructive philosophical approach to present-day problems

# HPED 601 Sport and Society 3 cr. Designed to acquaint the student with the reciprocal relationships between sport and physical activity as it affects human development in the societies and cultures out of which sport emerges

HPED 602 Sport Psychology 3 cr. Study of the psychological effects and implications of participation in sport and physical activity. Emphasis on personality and motivational dynamics as they relate to sport involvement in human behavior.

# HPED 603 Physiological Basis of Sport 3 cr. An examination of the physiological factors that influence performance in sport with emphasis on the analysis of various training techniques

HPED 620 Exercise Prescription for Chronic Diseases 3 cr. Examines the medical and therapeutic considerations for exercise prescriptions as defined by the American College of Sports Medicine, for individuals with chronic medical disorders. Competencies needed to function as clinical exercise specialist will be emphasized Prerequisite: Permission

# HPED 632 Assessment of Human Physiological Functions 3 cr. Study of various physical fitness components and their contribution to a person's well-being and how to measure and evaluate physical fitness

HPED 634 Current Literature in Sport
Review of current literature in physical education and sport Requires the

submission of an article for publication

# HPED 635 Sport Management Theory and practice of human management with applications to sport, formal structure of organizations, goal setting, organizational personality, group

processes, and leadership styles.

HPED 637 Sport Facilities Management

3 cr.
An administrative and management course designed to prepare sport managers

multifaceted sport competitive, recreational, instructional, therapeutic, and multifaceted sport complexes. Course work includes planning, design, construction, budgeting, programming, staffing, equipping, administration, maintenance, safety, and rehabilitation. Three lecture hours

HPED 641 Organization and Administration of Aquatic Programs 3 cr. Examines the organizational procedures, administrative techniques, and practices employed in aquatics with special emphasis on adapted, competitive, instructional, recreational, social, and water safety programs

# HPED 642 Design and Operation of Aquatic Facilities 3 cr. Elements and principles of planning, design, and operation of swimming pools, waterfront facilities, and related equipment necessary for the aquatic administrator

HPED 650 Wellness: A Classroom Approach
Designed to provide classroom teachers and educational specialists with knowledge, skills, and management capabilities to plan, implement, and evaluate personal, classroom, and school health promotion and wellness programs. The intent of this course is to educate teachers to promote health and wellness needs of children and youth

HPED 672 Epidemiology of Physical Activity 3 cultroduces the student to the principles of epidemiology and the specific relationship between physical activity and chronic disease. Exercise-based public health initiatives and health promotion programming are emphasized.

#### HPED 680 Seminar

3 cr.

Specific subjects will be considered through readings, reports, discussions, and guest presenters. A paper will be required. A specific title will be listed in the schedule of classes. May be repeated.

#### HPED 681 Special Topics

3 cr.

#### HPED 698 Internship

3-6 cr.

Prospectus must be presented by student. Objective is to provide an in-depth experience in an area of interest to the student under the guidance of a faculty member and a cooperating supervisor. Prerequisite: Faculty approval.

#### HPED 699 Independent Study

1-3 cr.

Students may study intensively a subject of their interest under the guidance of a faculty member with the appropriate expertise. Prospectus must be presented by the student. Prerequisite: Approval of faculty member, department chairperson, college dean, and associate provost.

#### HPED 850 Thesis 3-6 cr.

## IFMG: Information Management

Department of Management Information Systems and Decision Sciences

Eberly College of Business and Information Technology

#### IFMG 550 Datahase Theory and Application

3 ст.

101

The analysis of data structures and database management systems and their implementation in COBOL Prerequisite: COSC 220 or IFMG 255, and IFMG 350

#### IFMG 551 Systems Analysis

3 cr.

Develops understanding of concepts and techniques, involving conventional and structured approaches to analyzing problems of business information systems and systems definition feasibility, as well as quantitative and evaluative techniques of business information systems analysis. **Prerequisite:** IFMG 255 or COSC 220

#### IFMG 570 Systems Design

3 cr.

Students learn tools and techniques for design of a business system. Along with classroom discussions of principles and techniques for analyzing, designing, and constructing the system, students formulate system teams to analyze the problems of an existing business information system, to design an improved system, and to control implementation of new system. Prerequisites: 1FMG 451/551, 1FMG 450/550

#### IFMG 580 Distributed Business Information Systems

2 ...

Study of the techniques involved in planning, design, and implementation of distributed processing systems. Distributed marketing, financial, and corporate accounting systems are included. Prerequisite: IEMG 451/551 or by instructor's permission.

IFMG 581 Special Topics in Management Information Systems

Covers advanced or exploratory topics within the discipline Specific content developed by instructor. Content will vary, depending upon the interests of instructor and student, with instructor choosing specific topics. May be repeated by specific approval. Prerequisite: Permission of instructor and Eberly College of Business and Information Technology graduate coordinator.

#### IFMG 640 Management Information Systems

3 cr.

Introduces MIS concepts and theories to the graduate student. Deals with information processing and communication as they relate to the development and design of effective business applications. Computer system hardware, software, and database management concepts are discussed in terms of the integration of specific business subsystems into a comprehensible organizational management information system. Managerial involvement in the planning, utilization, and control of information systems is emphasized.

Prerequisite: IFMG 300

#### IFMG 641 Business Data Processing I

3 ст.

Covers the concepts of developing graphical user interfaces (GUIs) for Windows applications. Features the Visual Basic language for the development of applications involving the access and display of data. Not open for students with credit for IFMG 451/551.

#### IFMG 642 Business Data Processing II

3 cr

Develops the principles of the COBOL. Concepts relating to structured programming, object-orientated programming, file organization, and report generation are stressed. Prerequisite: IFMG 641 or equivalent. Not open for students with credit for IFMG 470/570.

#### COURSE DESCRIPTIONS

#### IEMG 681 Special Topics in Management Information Systems Covers advanced or exploratory topics within the discipline. Specific content developed by instructor. Content will vary, depending upon the interests of instructor and students with instructor choosing specific topics. May be repeated by specific approval. Prerequisite: Permission of the instructor and the Eberly College of Business and Information Technology graduate coordinator

#### IFMG 699. Independent Study in Management Information Systems

1-3 cr.

3 cr.

Individual research and analysis of contemporary problems and issues in a concentrated area of study under the guidance of a senior faculty member Prerequisite: Consent of instructor, departmental chairperson, and Eberly College of Business and Information Technology dean

#### ILR: Industrial and Labor Relations

Department of Industrial and Labor Relations College of Health and Human Services

#### ILR 526. Case Studies in Labor-Management Relations 3 cr. Study of labor-management relationships in a variety of organizational settings through utilization of the case study technique

ILR 581 Special Topics in Industrial and Labor Relations According to student demand, special graduate course on selected topics

#### ILR 610 Employee Rights Under Law 3 cr. A review of the legislated rights and benefits of employees in terms of their

impact on labor and management in the collective bargaining process

#### ILR 611 Development and Theories of the Labor Movement 3 cr. Institutional and theoretical overview of the development of the American labor movement with special emphasis on major labor movement theorists (Alternative HIST 566)

#### ILR 612 Labor Relations Practice and Administration

3 cr.

Practice and administration of labor relations focusing on the operation and internal relationships of the individuals involved and upon the application of labor relations skills

ILR 613 Fundamentals of American Industrial and Labor Relations 3 cr. Introduction to terms, theories, and practice of industrial and labor relations in the United States

#### ILR 615 Dispute Settlement

Review of the theories underlying and legislation supporting labor arbitration, emphasizing development of advocacy skills through simulations of actual disputes Prerequisite: IIR 613

#### ILR 618 Seminar: Current Issues in Industrial and Labor Relations Detailed examination of current professional issues in the field

ILR 619 Research Methods in Industrial and Labor Relations 3 cr. Nature of and major outlets for contemporary research in labor relations, as well as the historical development of research in the field. Flements of statistics and quantitative interpretations are introduced

#### HR 620 Internship 3 cr

Field experience in industrial and labor relations. An internship log and term paper are required.

#### H R 621 Labor Relations in the Public Sector

Developments in federal, state, and local labor relations, including Presidential orders and tederal agencies, survey of the states, Pennsylvania Acts 111 and 195, effects of public sector fact finding, and arbitration

#### H R 622 Discrimination in Employment

Investigation of employment discrimination in the United States with special attention to the roles of government, industry, and labor and the impact of federal intervention since 1960.

#### II R 623 Structure and Government of Unions 3 cr.

The union examined as an institution, with focus on its organizational structure, administration, relationships with the employer, its members, and its state and national affiliates. Particular unions will be chosen for case study

#### ILR 621 Comparative Labor Relations

International dimensions of labor relations are explored by examining the labormanagement relations in a foreign country or region. Prerequisite: ILR 613

#### H R 625 Processes of Collective Bargaining

Survey of current laws, principles, and procedures in use in modern collective

bargaining and evolving trends

II R 631 Human Resources Management in the Public Sector 3 cr. Human resource management systems with a special examination of public

#### II R 632 Compensation Administration

Study of the field of compensation management and benefits administration in the public and private sectors. Special emphasis on the input of collective bargaining in the development and administration of compensation and benefit systems and the necessary skills to function as a professional in the field

#### ILR 640 Negotiations

sector organizations.

3 ст.

A course on negotiations theory and practice which applies negotiations strategies from a variety of fields in hands on simulations of collective bargaining in labor relations. Prerequisite: IER 613.

### HR 641 Contract Administration

Analysis of the practices and responsibilities of labor and management in the mutual performance of a collective bargaining agreement with primary attention given to the process of grievance resolution. Prerequisite: 11 R 613

#### ILR 642 Concerted Activity

Examines the various strategies and factics available to the parties in confrontational situations. Emphasizes the statutory limitations set forth in the Labor Management Relations Act relating to topics such as picketing, consumer appeals, and boycotts

#### ILR 650. Alternative Work Styles

Review of efforts to increase worker participation in certain levels of managerial decision making in private and public production or service enterprise, through shares in ownership, seats on hoards, quality circles, and other participative structures. Results are considered from the point of view of productivity. worker satisfaction, and social utility. Prerequisite: 11.R 613

#### ILR 651 Conflict Resolution

An applied course focusing on the resolution of conflict between groups by a third party. Specifically examined are the techniques of negotiation, mediation, and conciliation. Simulation and role play are utilized as well as readings in theory and case study

#### H R 681 Special Topics in Industrial and Labor Relations

According to student demand, special graduate courses on selected topics

#### HR 698 Internship

Field experience in industrial and labor relations. An internship log and term paper are required.

#### H.R 699 Independent Study

Students select one or more topics of critical importance in industrial and labor relations and meet with faculty member for independent reading, analysis, and evaluation. Prerequisites: Approval of department chairperson, college dean, and provost

For students writing the thesis, ILR 850 should be scheduled for the semester in which they plan to complete their work. The thesis is a committee thesis (1 to 6 semester hours)

#### LIBR: Library

The University Libraries

Academic Affairs Division

#### LIBR 600 Bibliography of Music

Introduces graduate students to various types of music, music literature, and bibliographical tools which exist and which may be used in research in music As a project, students prepare an extensive annotated bibliography of a music subject within their special interest

### LTCY: Literacy

Department of Professional Studies in Education College of Education and Educational Technology

#### LTCY 590 Improving Professional Practice in Instructional Settings and

1-3 cr.

## LTCY 591 Improving Professional Practice in

Instructional Settings

1-3 cr.

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### LTCY 600 Foundations of Literacy Instruction

Introduces literacy instruction which recognizes social, cultural, historical, and political perspectives. Emphasizes nature of reading and writing processes, the characteristics and developmental processes of the learner, and instructional strategies that enhance literacy in the classroom.

#### LTCY 601 Assessment and Acceleration

3 cr.

Examines traditional and current teaching strategies, formal and informal assessment, theory and research of literacy difficulties. Emphasizes intervention. A knowledge of basic computer technology is required. Electronic technology, including databases, spreadsheets, and the Internet will be incorporated

#### LTCY 602 Reading and Writing in the Content Areas

Emphasizes strategies, techniques, and materials related to literacy and study skills in the content areas at elementary and secondary levels. A variety of materials, including electronic technology, will be incorporated

#### LTCY 605 Organization and Administration of Reading/Writing Programs

Acquaints students with issues in analyzing and improving curriculum, evaluating approaches to instruction, providing guidelines for selection of textbooks, materials, and technology, exploring challenges of family and community involvement, implementing changes, and conducting staff development. Emphasizes the role of reading specialist, resource specialist, supervisors, and classroom teachers

## LTCY 607 Instruction and Learning With Literature

Acquaints students with examining literature, developing instructional materials using the literature, and analyzing literature in its many forms, including electronic technology. Diversity in literature and diversity in student needs will be emphasized. Students utilize electronic technology to access children's literature from national and international libraries

#### LTCY 644 Issues and Trends in the Language Arts

Emphasizes effective communications through the study of current trends, resources, and the contributions of research in the various areas of language arts. Places special emphasis on an integrated model for organizing the language arts

#### LTCY 648 Creativity and the Elementary School Child

Includes a study of creative thinking and ways to develop creativity in children, including strategies and techniques to use in the classroom. Ways of measuring creativity and analyzing the role of the teacher are included. Students are encouraged to develop their own creativity.

#### LTCY 670 Practicum and Seminar for Reading Specialists 1

Assignment to the Literacy Center includes developing and implementing a program of assessment and acceleration for individual clients or small groups Experiences with observational techniques, recordkeeping, interviewing, family conferencing, and report writing are included. An electronic portfolio is maintained Supervision by Reading Specialist Program faculty members on site and through videoconterencing

#### LTCY 671 Practicum and Seminar for Reading Specialists II

Assignment to an approved school site includes developing and implementing a program of assessment and acceleration for individual clients or small groups Experiences with observational techniques, recordkeeping, interviewing, family conferencing, and report writing are included. An electronic portfolio is maintained. Supervision by Reading Specialist Program faculty members on site or through videoconferencing.

#### LTCY 697 Seminar in Special Problems in Reading

Special topics on literacy as examined through a systematic analysis of theory as it relates to practice. Students are required to study a topic of choice in

#### LTCY 698 Analysis of Research in Literacy

Examines quantitative and qualitative research in reading, writing, and other literacy and language issues. Designed to ensure that students are able to read, interpret, and evaluate statistical and ethnographic research in literacy. The use of the Internet for access to research is required

#### LTCY 699 Independent Study in Reading Education

1-3 cr.

The student, with the cooperation of the reading faculty member with whom he/she expects to work and his/her reading faculty advisor, engages in a study individually or with a small group on some program or field not clearly defined in existing courses. Prerequisite: Permission of the coordinator

#### LFCY 850 Thesis

1-6 cr.

#### MATH: Mathematics

Department of Mathematics

College of Natural Sciences and Mathematics

MATH 518 Sampling Survey Theory and Its Applications

3 cr.

103

Directed to the student who is or will be doing quantitative research, commissioning large-scale surveys, and evaluating the results. Sampling techniques and statistical principles underlying their use will be introduced Consideration will be given to the practical problems associated with implementation. Prerequisite: (for non-Math majors) MATH 214, MATH 216, MATH 217, or GSR 516

#### MATH 521-522 Advanced Calculus I, H.

3 cr.

A rigorous investigation of continuity, differentiation, and integration on real pdimensional space. The Riemann-Stieltjes integral, infinite series, and infinite series of functions are also studied. Prerequisite: Permission of the advisor

#### MATH 523 Complex Variables I

Introduces fundamental concepts of complex analysis and includes the following topics: complex numbers, functions, sequences, analytic functions, elementary functions, complex integration, power series, Laurent series, singular points, calculus of residues, infinite product and partial fraction expansion, conformal mapping, and analytic continuation. Prerequisite: Permission of the advisor

#### MATH 525 Applied Mathematical Analysis I

Provides the necessary background for an understanding of mathematical programming, proofs of convergence of algorithms, convexity, and factorable functions. Develops necessary concepts in matrix theory which are required to develop efficient algorithms to solve linear and nonlinear programming models Prerequisite: Calculus sequence, introductory linear algebra, or permission of the instructor

#### MATH 527 Topology

3 cr.

Basic topological concepts, including some topological invariant relationships between topology and other disciplines of mathematics, are discussed Prerequisites: Differential and Integral Calculus

#### MATH 545 Programming Models in Operations Research

3 ст.

Development of deterministic mathematical models for managerial and social sciences with relevant computational techniques. Three hours' lecture per week Prerequisites: Two semesters of calculus.

#### MATH 546 Probabilistic Models in Operations Research

Development of probabilistic mathematical models for managerial and social sciences with relevant computational techniques. Three hours' lecture per week Prerequisites: Two semesters of calculus, MATH 563 or equivalent

#### MATH 547 Simulation Models

Considers the types of models basic to any simulation and methods for building and using such models. Includes discrete and continuous system simulations, their applications, and an introduction to SLAM II (Simulation Language for Alternative Modeling) Prerequisites: Completion of the calculus sequence, background in statistics and probability, and familiarity with concepts of programming (knowledge of a particular programming language not required)

#### MATH 551 Numerical Methods for Supercomputers

Supercomputers make use of special computer architectures—vector and parallel processors—in order to achieve the fastest processing speed currently available. Students will be introduced to these features and will learn how

#### MATH 553 Theory of Numbers

3 cr.

Hementary properties of divisibility, congruences. Chinese remainder theories, primitive roots and indices, quadratic reciprocity, diophantine equations, and number theoretic functions. Prerequisites: Differential and Integral Calculus

#### MATH 563 Mathematical Statistics I

Probability theory necessary for an understanding of mathematical statistics is developed, applications of the theory are given, with emphasis on binomial, Poisson, and normal distributions. Sampling distributions and the central limit theorem are developed. Prerequisites: Differential and Integral Calculus

#### MATH 564 Mathematical Statistics II

Multivariate distributions, properties of the moment generating function, change of variable technique. Chi-square distribution, estimation, confidence intervals, testing hypotheses, contingency tables, goodness of fit. Many practical applications. Use of calculating machines and computers where appropriate Prerequisite: MAIH 563

#### MATH 565 Topics in Statistics

instructor

Correlation and regression from applied and theoretical points of view. hivariate normal distribution, small sample theory. Student's t and F. distributions, analysis of variance, nonparametric methods. Many practical applications. Calculating machines and computers used as appropriate Prerequisite: MATH 564

#### MATH 571 Linear Algebra

3 cr.

Theory of vector spaces and linear transformations, applications to linear equations, determinants, and characteristic roots are studied

#### MATH 576-577. Abstract Algebra I, II.

Basic algebraic structures such as groups, rings, integral domains, and fields Designed to develop ability to construct formal proofs and work within an abstract axiomatic system. Polynomial rings, factorization, and field extension leading up to Galois theory.

#### MATH 581-583 Topics Seminars in Mathematics

Special topics going beyond the scope of regularly offered courses. Offered per student interest available staff. Students may take more than one topic seminar with approval of advisor. Prerequisite: Consent of instructor

MATH 600. Methods of Research in Mathematics Review of literature and recent research in mathematics. Emphasis on use of periodicals, other library resources. Each student completes an independent

study of an approved topic, including a written report

Examines statistical procedures valid under unrestrictive assumptions, scales of measurement, efficiency comparisons, signed rank procedures, two sample rank tests, zero ties, order statistics, k-sample procedures, nonparametric measure of correlation. Prerequisite: MATH 564 or consent of the instructor

#### MATH 610 Real-Data Approach to Teaching Mathematics Presents the content knowledge as well as effective teaching strategies to

incorporate real date in the teaching of grades K-12 mathematics curriculum Students will learn to integrate real date into the teaching of numerical concepts, pre-algebra, algebra, probability, statistics, geometry, and advanced mathematics. The intended audience is K-12 teachers who wish to learn content and teaching methods to integrate real data into the teaching of mathematics Prerequisite: Permission of the Instructor

in this course. The student is introduced to least squares, a matrix approach to linear regression, an examination of residuals, dummy variables, the polynomial model, best regression equations, multiple regression and mathematical modelbuilding, and multiple regression applied to analysis of variance and covariance Computer programs for multivariate analysis will be used. Prerequisites: Introductory Linear Algebra and MATH 564 or consent of the instructor

Regression analysis and its interfaces with multivariate methods are presented

#### MATH 631 Foundations of Mathematics Designed to acquaint students with logical techniques used in proof and set

3 ( )

theory. Topics include symbolic logic, rules of inference, validity of arguments, algebra of sets, cardinal numbers, the well-ordering property, and the Axiom of

## MATH 681-683. Special Topics in Mathematics

MATH 641 Differential Equations

Special topics in graduate mathematics beyond the scope of regularly offered graduate classes. Offered as student interest and available staff permit. With approval of the advisor more than one special topics class may be taken

Special solvable nonlinear equations with solutions based on operator techniques, l'aplace transform, or infinite series. Applications to physical problems. Three hours, lecture per week. Prerequisite: Differential and

#### MATH 681 Topics in Operations Research Special topics in operations research beyond the scope of regularly offered

Prerequisite: Consent of the instructor

graduate courses. Offered as student interest and available staff permit

MATH 643. Graphs, Networks, and Combinatorics. Studies arrangements and counting through the use of classical and analytical techniques. Properties of arrangement and measure of graphs are also examined. Emphasis is on computation and application. Prerequisites: Calculus sequence

#### MATH 685 Topics in Statistical Methods

This variable content course is designed for the student who has knowledge of basic statistical principles including analysis of variance and covariance,

MATH 645 Nonlinear Programming Models

Examines algorithms for solving nonlinear programming (optimization) models. Also concerned with the theory of nonlinear optimization and with characteristics of optimal points. Optimization models of real world problems which can be solved by nonlinear programming methodology are also presented. Prerequisites: MATH 525 and MATH 545 or equivalent courses.

#### MATH 650 History of Mathematics

People and ideas that have shaped the course of events in mathematics. Major attention given to developing activities for secondary school mathematics classroom which incorporate the historical viewpoint.

MATH 651 Seminar in Teaching Junior High School Mathematics Explores problems of teaching mathematics at junior high level. Emphasis on a discovery, lab-oriented approach to teaching. Prerequisite: Permission of

## MATH 652 Seminar in Teaching Senior High School Mathematics National and international forces shaping today's mathematics programs,

curriculum development and research, art of generating interest, formation of concepts, proof, problem solving, generalization, and evaluation. Special attention to teaching topics from algebra and calculus and modern approaches to teaching geometry and trigonometry. Prerequisite: Permission of

## MATH 654 Curriculum and Supervision in Mathematics

Basic principles underlying effective mathematics curriculum from both a theoretical and experimental viewpoint. Investigates supervisor's role as source of stimulation, leadership, and expertise in teaching mathematics

#### MATH 655 Projective Geometry

3 cr.

Introduces Klein's formulation of geometry of the invariant theory of a given set under a given group of transformations and develops projective spaces of one and two dimensions and conics and quadratic forms. Prerequisites: Undergraduate courses in linear algebra and geometry

#### MATH 656. Affine Geometry

Examines affine and metric geometries based on axiom system stated in terms of linear algebra, which leads to important theorems of classical geometry Prerequisites: Undergraduate courses in linear algebra and geometry

#### MATH 661 Advanced Sampling Theory

Sampling techniques and the statistical principles underlying their use are introduced along with some of the more difficult nonsampling problems that arise in the design and implementation of large-scale sample surveys. Topics include simple random sampling, stratified random sampling, systematic sampling, cluster sampling, ratio estimation, use of supplementary information, sampling from wildlife populations, and sample size determination. Computer software will be used to facilitate arithmetic calculations. Prerequisite: MATH 564 or consent of the instructor.

#### MATH 663 Nonparametric Statistics

#### MATH 665 Applied Regression Analysis

Prerequisite: Consent of the instructor

the interests of the instructor and students. Prerequisites: MATH 661, MATH 663, and MATH 665.

#### MATH 688 Problems in Applied Mathematics

The purpose of this course is to involve the students in the solution of the mathematical problems which arise in real-world applications or to present topics which apply mathematics to real-world situations. Prerequisites: MATH 525, MATH 564, MATH 545, MATH 546, and permission of the instructor

regression, and nonparametric statistics. Advanced, innovative, or exploratory

topics in applied statistics will be introduced. Content will vary according to

#### MATH 698 Internship

Positions with participating companies or agencies provide students with experience in mathematics-related work under the supervision of agencies and faculty

#### MATH 699 Independent Study in Mathematics

Under the guidance of faculty member, a student may study some area of mathematics not included in the regular courses

#### MATH 850 Thesis

3 cr.

1-6 cr.

#### MEDU: Master's in Education

Department of Professional Studies in Education College of Education and Educational Technology

## MEDU 590 Improving Professional Practice in

Instructional Settings and

I-3 cr.

#### MEDU 591 Improving Professional Practice in Instructional Settings

1-3 ст.

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree. Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### MEDU 661 Community and Culture

This team-taught Thematic Unit provides graduate students with a strong theoretical and practical knowledge base of community and the culture in which the school resides. The Thematic Unit also emphasizes indirect educational variables such as community, culture, and language diversity that directly affect all public school learners. Upon the completion of this Thematic Unit, students will possess higher levels of self-efficacy and will be empowered to engage with the school, the community, and the culture in an educational and social context Prerequisite: Formal program acceptance

#### MEDU 662 Instruction and the Learner

This team-taught Thematic Unit prepares graduate students with a strong theoretical and practical knowledge base of instruction and the learner. Cognitive, humanist, and behavioral views of instruction are analyzed and identified with their corresponding classroom practices. In addition, various aspects of the learner are examined developmentally and within the instructional context. Students use a model of reflective thinking and teaching to apply their knowledge of instructional technology to facilitate classroom learning. They will also learn to apply constructivist perspectives on instruction to personal classroom practice. Prerequisites: MEDU 661

#### MEDU 663 Teacher as Researcher

6 cr.

This Thematic Unit provides teachers with the ability to use various research methods that will help them obtain practical knowledge that can be incorporated into their daily classroom practices. These research skills are intended to a) improve teachers' awareness of and relationships to their students' lives, and b) stimulate the formation of relevant and sound teaching strategies that incorporate their findings into the classroom in ways that recognize, validate, and build upon their students' prior socialization, knowledge, and "meaning-making" strategies. This Thematic Unit will familiarize students with the conceptual frameworks, methods, and research traditions from both quantitative and qualitative perspectives. Prerequisites: MEDU 661, MEDU 662.

#### MEDU 664 Educational Change and Technology

This team-taught Thematic Unit prepares graduate students with a strong theoretical and practical knowledge base focusing on a number of educational changes occurring in schools today. Topics include (but are not limited to) the possibilities and challenges of technology and the Information Highway, school organization, program design, instructional strategies, assessment practices, and the roles and relationships of educators, families, and community Prerequisites: MEDU 661, MEDU 662, MEDU 663

#### MEDU 665 Curriculum and Instruction

This team-taught Thematic Unit prepares graduate students with a strong theoretical and practical knowledge of a variety of instructional design and delivery strategies. Through critical inquiry, students explore the organizational, academic, political, and social issues of curriculum and instruction. This Thematic Unit fosters and supports the concept of the teacher reflective practitioner. Students are encouraged to link theory and practice through the relationship of projects and actual day-to-day classroom practice. The many facets of instructional design and delivery also invite and support development of students' research assignments. Prerequisites: MEDU 661, MEDU 662, MEDU 663, MEDU 664

#### MEDU 666 Feacher as Leader

6 cr.

What are the attributes of a teacher leader? What impact does adult development have on classroom teaching strategies? These two questions provide the overall focus for the Teacher as Leader Thematic Unit, which presents a variety of teacher leadership models as well as the theories related specifically to teachers and adult development. Students plan and implement specific projects in their own schools that relate to these two variables. In addition, students are required to research and write papers and to develop simulations to enhance their understanding of these theories and models Prerequisites: MEDU 661, MEDU 662, MEDU 663, MEDU 664, MEDU 665

## MGMT: Management

Department of Management

Eberly College of Business and Information Technology

#### MGMT 613 Organizational Analysis

105

An integrative course oriented toward an empirical analysis of the phenomena and theories of large, complex, formal organizations. Intergroup phenomena are also treated as they pertain to the larger organization. Special study is made of the organization as an economic, decision-making, bureaucratic, and political system. The analysis and design of organizations are viewed from a number of perspectives, including classical theory and case analysis, to illustrate and extend the major topics of the course. Prerequisite: MGMT

#### MGMT 623 Seminar in Personnel

Designed to offer the M.B.A. student the opportunity to research, study, and discuss various theories, principles, concepts, and issues of current interest to business and personnel managers. The case method will be emphasized, and the focus or theme of the seminar may be different each time it is offered Prerequisite: MGMT 613

#### MGMT 631 Management Development and Training

A survey of the major aspects, trends, and methodologies in management development and training as these specializations are being practiced in enterprises in the advanced Western nations Prerequisite: MGMT 613.

MGMT 635 Seminar in Management and Organizational Leadership 3 cr. Studies of theory and research in the leadership of groups and organizations with application to the management fields of business, industry, and labor. The debate, research, and study of controversial leadership issues of current interest to management and preparation of a research paper by the student in his/her occupational interest area are required. Prerequisite: MGMT 613.

#### MGMT 637 Operations Management

Acquaints the student with a broad range of strategic, tactical, design, and operating (day-to-day) decisions within the operations function in both serviceproviding and goods-producing businesses. Emphasis will be on the new paradigm of operations management with tocus on current technologies, concepts, philosophies, and managerial practices. Students will obtain a comprehensive insight on a wide variety of topics, including management of quality, productivity, technology, and inventory, product and process design, facility location and layout, project management, service, and manufacturing management

#### MGMT 642 Organizational Behavior

Study of human motivations and their constructive application to all aspects of business. Psychological basis of human relations will be developed as it applies in the business world. Major topics include employer-employee relations, labor relations, stockholder relations, customer relations, community relations, and public relations Prerequisite: MGMT 613

#### MGMT 650 International Business

Provides the student with the knowledge needed for operating effectively in a global economy. Examines the operations of firms functioning in the global. market place. Focuses on how these companies function in a globally integrated economy through sophisticated networks of alliances, mergers and acquisitions, and integrated systems of knowledge and product flows. The course highlights the necessity for companies to balance the need for global integration while responding to national cultural variations.

#### MGMT 651 International Management

MK1G 611 Marketing Communications

Prerequisite: MKTG 320.

MK1G 603 Marketing Management

Study of theories and problems of management in multinational corporations. (MNCs). Examines the macro- and structural-level issues of MNCs. Focuses on planning, organization structure, managerial decision making, human resource management in global structures, and differences between MNCs and domestic organizations

Basic principles of marketing communications, such as sales promotion and advertising, together with a consideration of the major problems encountered in the management of those activities. Emphasizes the determination of basic promotional strategy, selection of advertising media, determination of advertising appropriations, and advertising research. Prerequisite: MKTG

development, implementation, and control of a marketing program

#### MGMT 652 Comparative Management

MK FG 650. International Business.

Study of management theory and practice in different cultures. Analyzes international similarities and dissimilarities in management functions. processes, structures, and factors. Relates these topics to sociocultural, economic, political, and physical dimensions of the environment. A variety of comparative management systems, models, and theories are addressed, and research findings are examined. Prerequisite: MGMT 613.

Provides the student with the knowledge needed for operating effectively in a global economy. Examines the operations of firms functioning in the global market place. Focuses on how these companies function in a globally integrated economy through sophisticated networks of alliances, mergers and acquisitions, and integrated systems of knowledge and product flows. The course highlights the necessity for companies to balance the need for global integration while responding to national cultural variations

MGMT 654 Managing Global Competition

MKTG 681 Special Topics in Marketing

Changes in technology and world trade contribute to unstable managing environments. Course focuses on strategies to enhance the firm's ability to compete on a global basis. Fundamental business issues such as managing for the future, innovation, strategic alliances, success factors in the international environment, and long-range concerns of top management will be discussed

3 cr.

Covers advanced or exploratory topics within the discipline. Specific content developed by instructor. Content will vary, depending upon the interests of instructor and students, with the instructor choosing specific topics. May be repeated by specific approval. Prerequisite: Permission of the instructor and of the Eberly College of Business and Information Technology graduate coordinator

MGMT 681 Special Topics in Management

Prerequisite: MGMT 613

MKTG 699 Independent Study in Marketing

With the approval of the department, students will select one or more topics of critical importance in the field and will meet with faculty for independent reading, analysis, and evaluation. Prerequisite: Approvals of department charperson and Fherly College of Business and Information Technology graduate coordinator

Covers advanced or exploratory topics within the discipline. Specific content developed by instructor. Content will vary, depending upon the interests of instructor and students, with instructor choosing specific topics. May be repeated by specific approval. Prerequisite: Permission of the instructor and of the Eberly College of Business and Information. Fechnology graduate coordinator

MKTG 850. Thesis

4-6 cr.

1-3 cr.

MGMT 695 Business Policy Provides the graduate student an opportunity to utilize, integrate, and apply the theories, concepts, principles, and tools acquired during his her business education (accounting, finance, marketing, management, management information systems, statistics, etc.) to real-world business problems and situations. Utilizes lectures, case studies, library research, field research, simulations, role playing, group decision making, and other strategic planning

For students writing the thesis. MKTG 850 should be scheduled for the semester in which they plan to complete their work. The thesis is a committee thesis (4.6 cr.) for which the student's advisor, two additional faculty members. the Eberly College of Business and Information Technology graduate coordinator, and or the representative of the dean of the Eberly College of Business and Information Technology may constitute the committee

MGMT 699. Independent Study in Management

exercises. Prerequisite: 15 hours of graduate business courses.

MRSC: Marine Science

Department of Biology College of Natural Sciences and Mathematics

With the approval of the department, students will select one or more topics of critical importance in the field and will meet with faculty for independent reading, analysis, and evaluation. Prerequisite: Approval of department chairperson and Eberly College of Business and Information Technology graduate coordinator

MRSC 500. Problems in Marine Science.

Independent study for the advanced student in marine sciences. Topics are

selected from areas offered by the Marine Consortium, and studies are directed by the instructor in that area. Prerequisite: Consent of instructor

MGMT 850 Thesis

1-3 cr.

For students writing the thesis, MGMT 850 should be scheduled for the semester in which they plan to complete their work. The thesis is a committee thesis (4-6 cr.), for which the student's advisor, two additional faculty members, the Eberly College of Business and Information Technology graduate coordinator, and or the representative of the dean of the Eberly College of Business and Information Technology may constitute the committee

## MUHI: Music History

Department of Music College of Fine Arts

MUHI 503. Music of the Baroque Fra-A survey of music from about 1600 to 1750.

MKTG: Marketing

MUHI 501. Music of the Classical I ra A survey of music from about 1725 to about 1827

3 ст.

Eberly College of Business and Information Technology

A survey of music from about 1800 to 1910.

MUHI 505. Music of the Romantic Fra

MK1G 521 Marketing Research

Department of Marketing

3 cr.

MUHI 507 Music of the Twentieth Century A survey of the principal stylistic trends in music from 1900 to the present

Research procedures and techniques applicable to problem solving in the marketing field. Critical analysis of research techniques with considerable emphasis placed on the use of information gathered. Prerequisite: MKTG

MUHI 508. Music of the Sixteenth Century A survey of music from about 1500 to 1600.

MKTG 530. International Marketing

International marketing is analyzed with consideration given to the significance of government regulation, organization structures of export and import enterprises, and credit policies. Prerequisite: MK1G 320.

An analytical and quantitative approach to decision making, and the planning,

1.5 cr.

# MUSC: Music

Department of Music College of Fine Arts

MUSC 501 Advanced Choral Conducting 2 cr. Material will include large choral works with and without accompaniment

Student will be expected to develop skills in reading score

MUSC 502 Advanced Instrumental Conducting 2 cr.
An intensive study of large instrumental works—Skill development of each individual will be stressed.

MUSC 509 Piano Pedagogy 3 cr. Survey of current and significant past developments in teaching of piano, both privately and in small and large classes. The various piano methods are analyzed, compared, criticized, and adapted to each individual's use

MUSC 510 Seminar in Music 3 cr. Subject matter will change each semester. Students will make presentations and write an extensive research paper. Seminar may be repeated (with departmental approval), provided subject matter is not. An in-depth study can be made of narrowly defined areas, such as life and/or works of a specific composer or group of composers.

3 cr.

Composition of music in various song forms through the rondos and the larger sonata allegro form. Careful analysis of similar forms of major composers. Instruction will be highly individualized and will depend considerably on personal interest of the student.

MUSC 512 Advanced Orchestration 3 cr. Consideration to problems of scoring for full symphony orchestra, string orchestra, and chamber orchestra. Students will produce a full score and orchestra parts so that orchestra may be tested by actual playing by the University Symphony.

MUSC 516. Analytical Techniques
Study of representative compositions of various periods, with emphasis on formal harmonic and stylistic analysis.—Student will develop basic analytical techniques necessary for analysis of music of any period.

MUSC 537 Techniques of the Marching Band 2 cr. Theory and practical application of fundamentals of precision drill This course also deals with building "half-time shows" and with materials and instrumentation of the marching band

MUSC 540-550 Summer Music Workshop 1-3 cr.
Concentration in special interest areas Content varies

MUSC 575 Music Ensemble 1 cr.

MUSC 600 Bibliography of Music
Introduces graduate students to various types of music, music literature, abibliographical tools which exist and which may be used in research in music. As a project, students will prepare an extensive annotated bibliography of a

music subject within their special interest

MUSC 618. Comprehensive Musicianship

Combines undergraduate concepts and skills in music theory, literature, and performance at an advanced level using an integrated approach. Prepares

student to function in a variety of musical roles

MUSC 619 Methods for Comprehensive Musicianship 3 cr Includes learning strategies, experiences, and activities appropriate for introducing comprehensive musicianship at elementary and secondary school levels

MUSC 620 Foundations of Music Education 3 cr. Study of historical, philosophical, and social foundation of music education, including educational thought and implications for school music programs

MUSC 623 Composition II 3 cr.

MUSC 623 Composition III 3 cr.

MUSC 631 Administrative Problems in Music Education Review of conventional administrative organization of music education in public schools. Role of music director, music specialist, consultant, and music resources teacher will be carefully defined. Consideration of problems of

scheduling in public school. Current issues concerned with music education and public education in general will be considered, including curriculum development.

MUSC 632 Research Techniques in Music

Study of techniques appropriate for music and music education, including selection of research problem, collection of data, types of research, survey of current research studies in music, and use of library in connection with research problems. Elements of statistics are introduced as needed to interpret research reports. As part of requirements, student will prepare a written plan for research project or thesis.

MUSC 635 Psychology of Music Education

2 cr.

An analysis of the latest evidence produced by the field of psychology in music as applied in actual classroom situations

MUSC 636 Advanced Technology of Music Education 2 of Examination and application of modern communications media and their ride in music education. Development of an experimental sound lab and use of electronic devices, synthesizers, and computers. Application of systems approach and programmed learning to music education.

MUSC 699 Independent Study in Music 1-6 cm

MUSC 850 Thesis 4 cr.

# NURS: Nursing

Department of Nursing and Allied Health Professions College of Health and Human Services

NURS 555 Introduction to Nursing Informatics
Introduces and provides overview in the application of the disciplines of nursing science, computer science, and information science in collecting, processing, and managing information to promote decision making in nursing

NURS 581 Special Topics 3 cr. Topical courses offered on an experimental basis.

NURS 610 Health Promotion and Social Issues 3 cr.

Enhances the ability of the student to develop an understanding and appreciation of human diversity and social issues in health and illness. Focuses on the analysis of the cultural and social issues affecting health including ethnicity, race, gender, age, and geographic locations. Students compare health care norms and practices and develop solutions to health care problems.

NURS 614 Health Care Organizations and Policy
Provides an overview of the health care delivery system—Students analyze federal and state regulatory processes/policies as they affect health services

federal and state regulatory processes policies as they affect health services. The history, current status, and future directions of health policies are explored within their social, ethical, economic, and political contexts. The influence of nursing on policy development is evaluated.

NURS 619 Leadership Strategies in Nursing
Provides an overview of the characteristics and quality of leadership in
professional nurses. Focuses on analyzing and synthesizing leadership and
management concepts, modules, and theories. Effective leadership strategies
for the nurse administrator and practitioners will be explored.

NURS 620 Theoretical Foundation for Nursing
Focuses on the critique, evaluation, and utilization of nursing and related
theories for nursing practice. Students will be expected to analyze the
appropriateness of theories for utilization in practice and research.

NURS 622 The Practice of Nursing Research 1
Prepares the graduate nursing student to examine the conceptual, theoretical, and ethical contexts of nursing research. Concepts of statistical theory, measurement strategies, and data collection issues are presented, as they are applicable to clinical nursing research. Students also investigate funding procedures for small clinical studes. Corequisite: NURS 620

NURS 623. The Practice of Nursing Research II.

Prepares the graduate nursing student to become proficient in the application of research to nursing practice, including evaluation of research studies, problem identification within clinical practice settings, development of practice protocols, and measurement of patient outcomes. Research findings will be studied as the basis for clinical and organizational decision making.

Prerequisite: NURS 622 or equivalent.

#### NURS 628 Advanced Professional Role Development

Analysis of the current and changing roles of advanced nursing in the current sociopolitical environment. Provides opportunities for reflection upon personal career development. Emphasis is placed on the development of a variety of professional communication and presentation skills needed for the advanced nursing role. Students prepare an article appropriate for a professional journal and deliver a professional presentation. Skills in resume vitae writing and grant writing are also included. Opportunities are provided for development of skills that enhance the advanced nurse's ability to work collaboratively with others.

#### NURS 681 Special Topics

Topical courses offered on an experimental basis

#### NURS 699 Independent Study

Under the guidance of a faculty member with necessary expertise, the student may study in depth some aspect of nursing or health care not included in

#### NURS 722 Measurement and Evaluation in Nursing Education 3 ст.

Presents various methods of evaluating program, classroom, and clinical performance in nursing. Students are assisted in developing classioom and clinical examinations for nursing. Principles of test construction and methods for developing various test items as a means of measuring critical thinking in nursing students are also addressed. Social, ethical, and legal issues of evaluation are included.

#### NURS 723 Program Development in Nursing Education

Focuses on the process of program development for nursing education in a variety of levels and settings based upon program assessment strategies. The major issues of program development, revision, and evaluation that challenge nurse educators are also addressed. The role of accreditation agencies in program development and evaluation is also studied. Students are given opportunities to plan a curricular program that addresses future education needs of the nursing profession.

#### NURS 725 Teaching Strategies for Nursing Curricula

Explores and analyzes theories of learning, instructional modalities, teaching strategies, and evaluation methods pertaining to nursing education in the classroom and clinical practice settings

# NURS 729 Nursing Administration

Concepts and theories related to the management process are used to examine the roles and responsibilities of the nurse manager in health care organizations The influences of environment and technology as well as issues and trends that impact on nursing management are explored. Prerequisites: NURS 614. NURS 619, and NURS 622

# NUR\$ 730 Einancial Management in Health Care

Provides an overview of the financial decision-making processes used by health care managers in a rapidly changing financial environment. Emphasis will be on assessing and developing financial plans and making financial decisions in a variety of health care settings. Prerequisite: NURS 619

## NURS 731 Nursing Administration Practicum I

The nurse administrator's role and responsibility in health care organization are examined in the class and the clinical setting. Current issues and problems dealing with marketing, recruitment, retention, and quality of care are addressed. Influence of professional and technological factors on the functions of health care and the role of the nurse administrator are explored. This course provides the student with the opportunity to synthesize advanced practical knowledge in nursing administration and develop in administrative project under the guidance of an administrator mentor at an appropriate clinical site Prerequisites: NURS 623, NURS 729, NURS 730.

#### NURS 732 Nursing Administration Practicum II.

Provides the student with an opportunity to work with a nursing administrator m an appropriate health care agency to apply theoretical concepts to the practice of nursing administration. Students explore the roles and responsibilities of the nurse administrator. Topics include human resource management, staff development, strategic planning, quality improvement, and outcomes measurement and evaluation. Students implement and evaluate the outcomes of an administration project. This course consists of a biweekly, twohour seminar and a weekly practicum of six hours in a clinical setting Prerequisites: Completion of all core and nursing administration courses or permission from the instructor

#### NURS 743 Nursing Education Practicum:

Provides opportunities for students to synthesize and integrate educational theories, research, and curriculum planning and evaluation into the role of nurse educator. Students work with a nurse educator in an area of interest

thospital, staff development, schools of nursing). As the capstone course of the nursing education track, students develop an appropriate project in the setting Responsibilities of the nurse educator as a teacher, mentor, role model, advisor, and scholar are addressed. This course consists of a weekly one-hour seminar. and a weekly practicum of six hours.

#### NURS 850 Thesis

3-6 cr.

Thesis should be scheduled for the semester in which the student plans to complete degree requirements. A committee of faculty members will provide thesis supervision.

# PHIL: Philosophy

Department of Philosophy and Religious Studies College of Humanities and Social Sciences

#### PHIL 505 Justice and Human Rights

An analysis of a concept which is the focus of much moral, political, and legal dispute. Philosophical sources are supplemented by recent social science. research concerning the comparative abilities of human and nonhuman animals and by environmental studies which prompt consideration of the possible rights of future generations

#### PHIL 560 Philosophy of Language

An investigation in the philosophy of language and related issues in linguistics (including anthropological linguistics, sociolinguistics, and psycholinguistics) Sample topics include the influence of language on perception, rationalistic 'empiricist perspectives on language acquisition, language and political control, reference, meaning, and truth

#### PHIL 581 Special Topics

PHII. 599 Independent Study

1 6 cr.

# PHYS: Physics

Department of Physics

College of Natural Sciences and Mathematics

#### PHYS 50". Introduction to Mathematical Physics I.

Designed to provide background needed for most 500-level courses. Student will acquire skills in problem solving in areas of mechanics and wave motion utilizing calculus and vectors. Prerequisite: Permission of advisor

#### PHYS 508 Introduction to Mathematical Physics II

A continuation of PHYS 507. Develops skills in problem solving in areas of electricity and magnetism utilizing vectors and calculus. Prerequisite: Permission of advisor

#### PHYS 510 Introduction to Theoretical Physics

Application of mathematical methods to physical theory in area of mechanics, electricity, and magnetism, including partial differentials, vector calculus, and non-Cartesian coordinate systems. Prerequisite: Permission of advisor

#### PHYS 511 Secondary School Physics Laboratory Practice

Designed not only to give the student training in use of PSSC and Harvard Project Physics laboratory materials but also to increase his her ability to make the lab a more effective teaching tool

PHYS 512 Curriculum Development in Secondary School Physics Includes an intensive study of developments, such as PSSC and HPP Philosophy, methodology, and cognitive theory behind each curriculum will be considered. The lab equipment, experiments, and visual aids for each will be studied in their proper setting

#### PHYS 520 Advanced Laboratory Practice

Experimental physics. Experiments are made available to supplement student's previous training. Data interpretation and experimental techniques are emphasized. Topics can include but are not limited to various methods of measurement and analysis of radioactivity, interferometry, spectrometry, microwave optics, NMR, mechanical vibrating systems, and thermal properties

#### PHYS 531 Modern Physics

An introduction to particle and wave properties of matter, atomic structure, quantum mechanics, and the quantum mechanical model of the atom

#### PHYS 533 Thermal and Statistical Physics

A unified approach to the study of thermodynamics through use of statistical methods. Temperature, entropy, chemical potential, and free energy are

#### PHYS 535 Electronics

4 cr.

DC and AC circuits, diode circuits, and transistor circuits, such as the common emitter and emitter follower amplifiers, are extensively covered. Negative feedback, operational amplifiers, oscillators, and digital logic are introduced These topics are discussed in lecture and investigated by the student in the lab

#### PHYS 536 Advanced Electronics

hour lab Prerequisite: PHYS 535

Serves as a preparation in mathematical physics for graduate student. Included

will be vector analysis, curvilinear coordinate systems, infinite series, complex variables and the calculus of residues, and ordinary and partical differential Field effect transistors, noise problems, grounding and shielding, applications of equations Prerequisite: Permission of department digital logic, digital-to-analog-to-digital conversion techniques, transmission lines, and microprocessor applications. Two one-hour lectures and one three-PHYS 602 Theoretical Physics II

2 cr.

2 cr.

3 cr.

2 cr.

# PHYS 541 Analytical Mechanics 1

Kinematics, particle dynamics, gravitation, free and forced harmonic motion Treatment of these topics utilizes vector calculus and differential and integral calculus.

A continuation of PHYS 601, covering Tensor analysis, matrices, group theory, Sturm-Liouville theory, special functions, Fourier series, integral transforms, Green's functions, and integral equations. Prerequisite: PHYS 601

Offers the student practical training in special methods and materials of

research in physics. Emphasis on types of research and use of physics and

physics-related journals and library facilities. Prerequisite: Permission of

#### PHYS 542 Analytical Mechanics II

PHYS 611 Computational Physics

PHYS 601 Theoretical Physics I

PHYS 600 Methods of Research in Physics

Central-force motion, high-energy collisions

This course is an introduction to developments in computational physics. The emphasis will be on physical concepts and applications rather than mathematical proofs, derivations, and code developments. In particular, the course will show how computers can be used to learn about physics concepts and how they can be used as tools in solving physics problems. A familiarity with the concept of programming is assumed. Prerequisites: PHYS 473/561, or equivalent, or permission of the instructor

PHYS 634 Statistical Mechanics

PHYS 545 Optics Main concepts of modern optics utilized in areas of geometrical, wave, and technology, complex optical systems, interlerometry, and spectroscopy

A quantum approach to statistical mechanics. Fermi, Bose, ideal gas, and imperfect gas systems are investigated. Special topics in kinetic theory of gases, transport phenomena, magnetic systems, and liquid helium. Corequisite: PHYS 561 or its equivalent

PHYS 551 Electricity and Magnetism I Coulomb's law, electrostatic potential, Gauss's law, and dielectrics will be presented using vector calculus in a modern field formalism. Prerequisite:

quantum optics. Includes presentation of illustrative examples in areas of laser

PHYS 641 Advanced Mechanics L

PHYS 552 Electricity and Magnetism II

PHYS 510

instructor

special necessity

PHYS 590 Solid State Physics

Includes the following topics. Lagrange's equations, Hamilton's Principle. Twobody central force, Euler's Theorem, small oscillations, Hamilton's equations,

canonical transformations. Prerequisite: PHYS 542 or its equivalent

Biot and Savart's law, induced emf, vector potential, displacement current, special relativity, and electromagnetic radiation will be presented using techniques introduced in PHYS 551 Prerequisite: PHYS 551

PHYS 642 Advanced Mechanics II

3 ct.

3 cr.

PHYS 555 Computer Interfacing

Rigid body mechanics, including angular momentum. Euler's equations. precessions, special relativity, covariant four-dimensional formulation. Hamilton-Jacoby Theory, introduction to classical field theory. Prerequisite: PHYS 641 or equivalent

Designed to teach the fundamentals of interfacing the personal computer with its physical surroundings. Students will learn to collect data and to control experiments. In addition, they will learn to use digital-to-analog and analog-todigital conversion techniques, as well as how to use virtual instruments Students will also learn to use LabVIEW (or a similar software package) to design icon-based interfacing tools and to investigate the conditioning of analog and digital information. The students will complete a special project determined by the instructor and the student. Prerequisites: Experience in writing computer programs in the C language.

PHYS 651 Advanced Electromagnetic Theory I

PHYS 561 Quantum Mechanics 1

Solution of boundary value problems using Green's functions and separation of variables techniques. Cartesian and spherical coordinate systems, multipole expansions, macroscopic electrostatistics and magnetostatistics, Maxwell's equations, and plane electromagnetic waves. Prerequisite: PHYS 552 or equivalent

Introduction to theory of linear vector spaces, linear operators, eigenvalues, eigenvectors, and eigenfunction and their application to the harmonic oscillator, hydrogen atom, electron in a magnetic field, scattering, and perturbations Prerequisites: PHYS 541 and PHYS 531 or equivalent

PHYS 652 Advanced Electromagnetic Theory II Solution of electrostatic problems using cylindrical coordinates. Green's

and diffraction. Prerequisite: PHYS 651.

PHYS 657 Solid State Theory

PHYS 565 Introduction to Nuclear Physics 3 cr. Survey of introductory nuclear physics including nuclear size, mass, types of decay, models, forces, elementary particles, reaction theory

Quantum approach to solid state. Topics include second quantization of fermion and boson systems, electron theory of metals, electron-phonon interactions, and superconductivity. Selected subjects in thermal transport, magnetic phenomena. Corequisite: PHYS 561 or its equivalent

function for time-dependent wave equation, conservation laws, wave guides and resonant cavities, Special Theory of Relativity, simple radiating systems,

PHYS 658 Physics and Applications of Industrial Materials

PHYS 575 Physics of Semiconductor Devices 1 Develops the basic foundation for a student of the theory of semiconductors Elementary quantum concepts, the band theory of solids, electrical properties of solids, effective mass theory, and principles of semiconductor devices are discussed Prerequisites: PHYS 533, PHYS 535, PHYS 545, or permission of

3 cr.

3 cr.

Introduces the essential physics and current industrial applications of technologically important materials by way of both lecture and lab components Materials of interest will span semiconductors, ceramics, polymers, and composites that find application in microelectronics, magnetic recording, flat panel displays, medical application, and micro machines

PHYS 576 Physics of Semiconductor Devices II Discusses the physics and operation of a number of discrete devices. These

PHYS 661 Opantum Mechanics II

Fundamental concepts of quantum mechanics, theory of representations, and linear vector spaces. Approximation methods for stationary problems with applications to central potentials and for time-dependent problems with

include bipolar transistors, MOSFETS, IFETS, various diode technologies. photovoltaic and photoconductive devices, solid state lasers, and light-emitting diodes Prerequisites: PHYS 575 or permission of instructor

quasiparticles such as phonons, magnons, and excitons. Fermi gas of electrons,

energy bands, semiconductor crystals, and photoconductivity. Prerequisites:

PHYS 662 Quantum Mechanics III

application to scattering and transition theory

PHYS 531 and 542

Reciprocal lattice, crystal structure, the quantization of fields to produce

Classical and quantum fields; interactions between Fermi and Bose fields, relativistic quantum mechanics, and Dirac theory. Introduction to propagators and Feynman diagrams with application to quantum electrodynamics and many-particle systems.

PHYS 599 Special Studies A special topic may be offered at the discretion of the department to fulfill a

INDIANA UNIVERSITY OF PENNSYLVANIA 2005-2006 GRADUATE CATALOG

#### COURSE DESCRIPTIONS

#### PHYS 690 Research Problems in Physics

1-6 cr.

Introduction to advanced research problems through individual assignment Prerequisite: Permission of department

PHYS 699 Independent Study

PLSC 561 Modern Political Thought

justice are treated in detail.

Individualized in depth study of an area of physics in the student's interest Work is supervised by a physics faculty member but does not necessarily involve regular lecture or laboratory hours. The topic must be approved by the supervising faculty member and by the administration prior to the semester in

which the course is to be taken.

1-6 cr.

# PLSC: Political Science

PHYS 850 Thesis

Department of Political Science College of Humanities and Social Sciences

PLSC 500 Research Methods in Political Science

Provides students with a working knowledge of the statistical techniques commonly applied to the study of political phenomena and an understanding of the basic assumptions, limitations, and theoretical foundations of these various techniques. Focuses on measurement principles, research design and data collection, univariate distributions, sampling, and bivariate analysis

PLSC 520. International Law

Study of the development, nature, and function of international law, including recent trends

PLSC 521 International Organizations

3 cr.

Inquiry into purposes, structures, and actions of contemporary international political organizations, such as United Nations, regional, and functional organizations

PLSC 550 The Presidency

3 cr.

Examines the office of President with attention to Constitutional foundations, evolution, structure, powers, and functions. Comparisons are made hetween Presidential and parliamentary systems and between offices of President and governor

PLSC 551 The Legislative Process

3 cr

Legislative process in the U.S. with emphasis on Congress. Focus on organization and function of legislative bodies, with American legislative institutions compared with those of other nations

PLSC 553 American Political Parties

Role of people, parties, and pressure groups in politics of American democracy Attention to sectional and historic roots of national politics, voting behavior, pressure group analysis, and campaign activities

PLSC 554 Metropolitan Problems

3 cr.

Analyzes multiplicity of problems facing our metropolitan areas, such as urban renewal, shrinking tax base, federal aid to cities, subsidized mass transit, municipal authorities, and political consolidation.

PLSC 555 Intergovernmental Relations

3 cr.

Explores the characteristics of federal system of government with emphasis on theories, origins, institutions, and problems in intergovernmental relations in the U.S., federal systems in other nations, and trends

PLSC 556 Mass Media in American Politics

Variant theories of the symbiotic relationship between American politics and the press are examined in the light of American colonial national experiences The special Constitutional rights given to media are explored, with particular attention to radio and television.

PLSC 558 Judicial Process

Explores nature and limits of judicial power, courts as policymaking bodies, selection of judges, decision process, external forces impinging on the courts, and role of Supreme Court in its relationship with Congress, the Presidency.

PLSC 559 Constitutional Law and Civil Liberties

Study of civil liberties and civil rights issues through leading Supreme Court decisions. Topics include First Amendment rights, procedural due process, and the Bill of Rights and equal protection problems.

PLSC 560 Classical Political Thought

MIT ANA T. LERS BY THE PENNSY VAN A 2005 GRADUATE CATALOG

Evolution of Western political tradition of Constitutionalism from Plato and Aristotle to Locke and Montesquieu, religious and rational foundations.

Development of Western political thought since the mid-sixteenth century. classic liberalism, conservative thought, modern irrational ideologies such as fascism and national socialism; socialist thought, contemporary collectivist bberahsm

medieval theories of authority and representation, early modern theories of

state and sovereignty. Concepts of law, natural rights, liberty, equality, and

PLSC 562 American Political Thought

Develops an understanding of American political thinkers from the Puritans through the current Afro-American writers. Political phenomena are examined relating to past writings, and interences are made for future political behavior

PLSC 570 Introduction to Public Administration

3 cr.

Examines the environment of public administration, organizational structure, executive functions, the politics and tools of administration, personnel processes, financial administration, and the problems of democratic control of

PLSC 575 Public Sector Leadership and Accountability

Examines the characteristics of leadership and ethical principles which facilitate effective decision making and responsible behavior by elected and appointed officials at all levels of government. Current issues and circumstances will be emphasized during class discussions

PLSC 580 Soviet Politics

3 ст.

Essential features of Communist party and government of USSR, including geographical and historical background and ideological and theoretical foundations

PLSC 581 Special Topics

1 3 cr.

In-depth study of a specific problem or topic not regularly treated in courses May be repeated

PLSC 582-587 Political Studies

3 cr.

Comparative study of government and politics of a selected region

PLSC 582 Africa

PLSC 583 Asia

PLSC 584 Middle East

PLSC 585 Central and Eastern Europe

PLSC 587 Latin America

PLSC 588 Political-Military Strategy

Deals with national security problems, including decision-making and budgeting levels of strategy, the utility of force, and the impact of the military on American society

PLSC 589 Developing Nations

Deals with the political characteristics of emerging nations, the impact of economic and social change upon political structure, evolving patterns of political development, and techniques of nation-building

PLSC 631 Human Resource Management in Public Sector

In-depth study of human resources management systems with special focus on public sector organizations. Emphasizes the development of an understanding of traditional functional systems as well as skills necessary to manage such systems successfully

PLSC 666 Public Policy Analysis

Examines public policy using analytical tools and policy models. Considered within this tramework are values and resources, the cultural political environment, the policymaking process, and evaluation methods and their application to major policy areas.

PLSC 668 Public Sector Financial Administration

Concerned with the administration of fiscal and monetary processes of government on all three levels. Included are topics related to revenue and expenditure, how the former are calculated and provided for, and how the latter are prioritized and allocated via the budgetary process, control systems which are concerned with recordkeeping and the monitoring of the flow of revenues

PLSC 670 Foreign Policy Studies Considers selected problems in international attairs. Emphasis on those

problems and conflicts which have evolved in the postwar era, particularly as they relate to position of the United States in world affairs. Specific problems are approached both in terms of countries involved and the existing balance in world economic, ideological, and power structure

#### PLSC 671 Seminar in Public Administration

Intensive study of role of agencies and their administrators in determining and developing public policy. Public administration in practice is emphasized by utilizing case studies

#### PLSC 672 Comparative Political Studies

Theory, structure, and function of state, county, and municipal governments are analyzed from a cooperative point of view. Special emphasis on comparing and contrasting ideas and institutions with those of the US

## PLSC 674 Analytical Techniques

3 cr. Exposes the student to approaches, methods, tools, focus, and boundary lines of political science study. As a research methods course in graduate political science, it should be scheduled early in the program

#### PLSC 675 International Political Economy

Examines the interaction between governments and markets on economic issues. This examination will occur comparatively both within countries and between nations. Acquaints students with the theoretical issues, trends, and findings of some of the major studies on and subfields within international political economy. Assumes a basic familiarity with foreign policy, comparative politics, and economics. Focus is on both international political economy as a subject and a field of study

# PLSC 678 The Ethical Dimensions of Leadership

Focuses on the ethical dimensions of leadership and strategies to integrate ethical considerations into organizational administrative, decision-making, and policy processes. To facilitate discussion and the application of ethics to professional practice, a series of speakers examines the relationship between ethics and leadership within varying contexts. Case studies, videos, and exercises link theory and practice. Students are expected to complete all assigned readings prior to each class to facilitate their active participation in all discussions. A literature review project provides students with the opportunity to pursue individualized interests related to leadership and ethics. Students not currently enrolled in the Administration and Leadership Studies Program must have the instructor's permission to register for this course. Prerequisites: Doctoral Students - HMSV 701 Leadership Theories, Graduate Students PLSC 666 Public Policy or SOC 610 Human Services Administration

#### PLSC 681 Special Topics

In-depth study of a specific problem or topic not regularly treated in courses May be repeated

#### PLSC 690 Professional Practicum

Designed for graduate students who elect either an internship or field-based research project to fulfill the directed research requirement of Master of Arts in Public Affairs degree. Students are expected to enroll in the practicum during the summer following the completion of two semesters of course work. The practicum lasts twelve weeks from mid-May through mid-August. An important part of the practicum is four seminars that meet on four Saturdays for four hours in mid-May, mid-June, mid-July, and mid-August. The seminars focus on the development of a field-based or internship-based project design and the linkage of administrative and/or organizational theory with the practical experience acquired during the internship or field-based research activity.

# PLSC 698 Political Science Internship

Practical experience in government and politics. Students are individually assigned to a cooperating local or state government agency, political party, or interest group or to a federal or international agency when arrangements can be made. Students report periodically to professor in charge and undertake reading assignments and write such reports and papers as the professor may require Prerequisite: Must have approval of instructor and department chairnerson

## PLSC 699 Independent Study

1-3 cr

1-3 cr.

Readings and written assignments on a specific topic determined by student and instructor in charge. May be repeated

#### 3 cr PLSC 850 Thesis

# PSYC: Psychology

Department of Psychology

College of Natural Sciences and Mathematics

#### PSYC 554 Developmental Psychology

A comprehensive study of human growth and development from conception to death. Major research findings and developmental theories will be considered.

#### PSYC 557 Abnormal Psychology

3 cr.

Theories of pathological behavior with reference to clinical and experimental

#### PSYC 569 Industrial/Organizational Psychology

Study of psychological principles in an organizational setting of behavior, application of psychological principles to individual behavior and experience in organizations

#### PSYC 574 Adult Development and Aging

A review of theories and research which apply to young, middle, and later adulthood, with particular emphasis on old age

#### PSYC 578 Psychology of Death and Dying

Emphasizes the theories and research which delineate the psychological factors affecting the dying person as well as those people close to someone who is dying. Psychological, social, and cognitive factors affecting one's attitude toward death and approaches to coping with dying and death are studied Prerequisite: Permission

#### PSYC 581 Special Topics

Designed to examine a special topic in depth. Students prepare presentations representing selected research areas. Prerequisite: Permission

# PSYC 601 Research Methods in Psychology I

The design, statistical analysis, and report of laboratory experiments will be studied Prerequisite: Permission

#### PSYC 603 Evaluation Research

Introduction to the methodological issues involved in validly assessing the effectiveness of intervention programs relevant to psychology (e.g., human service programs), including a consideration of how the results of evaluation research can be used to improve such programs. Students will participate in either actual or simulated evaluation research projects. Prerequisite: Permission, PSYC 601 or equivalent

#### PSYC 610 Historical Trends in Psychology

Comprehensive overview of historical antecedents of contemporary psychology Prerequisite: Permission

#### PSYC 630 Methods of Intervention I

Methods of studying and improving competency in interpersonal skills as a necessary ingredient of most models of therapy, such as psychoanalysis, clientcentered, and behavior modification. Emphasis is placed on theory, research, and personal competence in communication. Prerequisite: Permission

#### PSYC 631 Methods of Intervention II

3 cr

Emphasis is placed upon the systematic study and application of social influence techniques to the modification of clinical problems. A broad spectrum of cognitive, physiological, and behavior change procedures are studied and evaluated with regard to their cost and effectiveness. A general problem-solving model for decision making, case evaluation, and accountability is advanced. Prerequisites: PSYC 630 and permission

#### PSYC 6.32 Models of Learning

Several learning paradigms are described. Emphasis is on the theoretical assumptions underlying the models and their strengths and weaknesses Applications of the models to changing maladaptive behavior are discussed Prerequisite: Permission

#### PSYC 633 Clinical Group Techniques

Provides instruction and experience in a variety of group techniques. Includes lectures, demonstrations, and participation in group exercises useful in the clinical psychology profession. Prerequisite: Permission.

#### PSYC 634 Family Therapy

3 cr.

Introduction to family and marital therapy. Both systems theory approaches and behavioral approaches will be considered. Process and outcome research will be reviewed. Prerequisite: Permission.

#### COURSE DESCRIPTIONS

#### PSYC 6.35 Advanced Psychopathology

An in-depth study of the description causes, and freatment of behaviors considered abnormal by our society. Integrates and extends previous materials in abnormal behavior, assessment, therapy, research methodology, and professional practice. Prerequisites. Previous undergraduate course in Abnormal Psychology and permission

#### PSYC 636 Personality Theory and Systems of Psychotherapy

Prerequisites: PSYC 630 or equivalent, simultaneous enrollment in PSYC 631.

Several major personality theories are reviewed in a comparative manner with emphasis placed upon issues such as the assumptions about the basic nature of man, personality development, normal and pathological development, and

and instructor permission. PSYC 681 Special Topics

PSYC 670 Therapeutic Techniques Lab

Designed to examine a special topic in depth. Students prepare presentations

philosophy of treatment for each theory. Prerequisite: Permission.

representing selected research areas. Prerequisite: Permission

change, and behavior change for use in individual psychotherapy

1-6 cr. PSYC 699 Independent Study in Psychology Individual students develop and conduct research studies in consultation with a taculty member. Prerequisite: Permission.

Presents didactic and experiential training in tactics of achieving insight

emotional awareness, emotional escalation or reduction, cognitive-perceptual

PSYC 637 Issues in Developmental Psychology

3 cr.

PSYC 704 Clinical Research Methods Introduction to data analysis techniques and methodological problems commonly encountered in clinical research. Methods appropriate for single subjects as well as groups are explored. Prerequisites: PSYC 601 and PSYC

The processes and structures of life span development are studied. Cognitive, emotional, social, and physical development will be explored, emphasizing the interactive effects of the person's environment, developmental level, and psychological state. Prerequisite: Permission.

PSYC 706 Teaching of Psychology

3 cr.

PSYC 638 Racial, Cultural, and Gender Issues in Psychology The operation of cultural, racial, and gender issues in the theory, research, and practice of psychology is examined. The ways in which a psychologist's own culture, race, and gender may influence professional practice are explored

Basic dimensions of the teaching process are discussed, including course planning and structure, developing and presenting lectures, using alternative pedagogical techniques, evaluating student performance, addressing issues of diversity in the classroom, etc. Skill-practice in these areas is emphasized Prerequisite: Instructor permission

PSYC 641 Psychological Assessment I

Beginning course in theoretical issues and development of skills in assessing psychological functioning and in report writing. Beginning emphasis on intellectual assessment, followed by the development of an increasing variety of assessment tools. Prerequisite: Permission.

PSYC 642 Psychological Assessment II 3 ст.

Continuation of PSYC 641 with increased emphasis on development of skills in areas of objective and projective tests, behavioral observations, self-report measures, and other assessment techniques. Prerequisites: PSYC 641 and permission

PSYC 743 Psychological Assessment III

Continuation of PSYC 642 with emphasis on nontraditional assessment methods such as family observations, mental status ratings, and social skills assessment. Topics in clinical judgment and inference and a combination of assessment data and report writing are covered. Prerequisite: PSYC 642 or permission

PSYC 646 Drugs and Behavior

Introduction to various aspects of drugs and behavior. Includes exploration of factors influencing drug effects, problems in drug research, therapeutic use of drugs, legal use and abuse of drugs, and social aspects of drug experience Prerequisite: Permission

PSYC 760 Advanced Psychotherapy with Children

3 cr.

Theories and treatment interventions used in therapy with children are explored. Opportunities to practice basic psychotherapeutic skills in interviewing, treatment planning, and intervention provided under intensive supervision Prerequisite: PSYC 660 or permission

PSYC 647 Clinical Neuropsychology

The study of the relationship between human brain dysfunction and abnormal behavior. Includes assessment techniques used to diagnose brain damage Prerequisite: Permission

PSYC 761 Psychology and Medicine II

maintenance, and recovery from disease are studied. Approaches to studying relationships between stress, coping, and disease are emphasized Prerequisite: PSYC 601 PSYC 763 Advanced Family Therapy 3 cr.

The roles of psychological and environmental variables in the development,

PSYC 650 Community Psychology

An introduction to community psychology as an ecological approach to the understanding and changing of behavior. Emphasizes prevention rather than treatment of disorders and a concern with the development of programs to deal with a wide variety of human problems.

on techniques which alter the environmental context in which behavior occurs

Concerns current family therapy theories and methods with an emphasis on brief, problem focused models of assessment and interaction. Integrative approaches and family systems consultation also will be considered Prerequisite: PSYC 634 or its equivalent

PSYC 651 Planned Social Change Comparative evaluation of strategies for changing human behavior. Eniphasis

PSYC 764 Hypnotic Methods in Psychotherapy In-depth study of theory, research, and the clinical practice of hypnosis Prerequisites: PSYC 630, PSYC 635, or then equivalents, and instructor

PSYC 652 Environmental Psychology

PSYC 658 Advanced Social Psychology

permission

The relationship between human behavior and its environmental context Emphasis on the role of physicid and social environments in creating and perpetuating social problems.

Advanced survey of the relationship between the social environment and human behavior. Topics include social influence, attitude formation and change attribution and social cognition, interpersonal attraction, aggression, altruism, small group interaction, and environmental psychology. Prerequisite:

An examination of professional problems in the field of clinical psychology Includes topics such as training philosophies, licensure, legal issues such as involuntary commitment and expert witness, ethical standards, and professional organizations Prerequisite: Permission

Examines a special topic in depth. Students prepare presentations representing

PSYC 660 Child Clinical Psychology

PSYC 791 Lanuly and Couples Clinic

PSYC 770 Professional Issues

PSYC 781 Special Topics

Approaches unique to child psychopathology, assessment, and intervention are explored. Ages from birth to adolescence are covered. Prerequisite: Permission

Students will be assigned clients in the Family Clinic. A team training model is used with close supervision by the instructor. Available for variable credit and

1-6 cr.

repeated enrollment. Prerequisites: PSYC 634 or its equivalent, successful supervised clinical experience, and instructor permission

PSYC 661 Psychology and Medicine L

PSYC 792 Stress and Habit Disorders Clinic

selected research areas. Prerequisite: Permission

A seminar clinic in the assessment and treatment of stress and habit disorders Clients are assigned to students from the Stress and Habit Disorders Clinic Available for variable credit and for repeated enrollment. Prerequisites: PSYC 631, PSYC 635 or their equivalents, and instructor permission

The area of health psychology and its role in behavioral medicine are introduced. Psychophysiology, which provides much of the foundation for

health psychology, is studied through readings, lectures, and hands-on experiences with psychophysiological recording equipment. Prerequisite:

#### PSYC 793 Assessment Clinic

1-6 cr.

Students will be assigned clients from the Assessment Clinic Emphasis is placed on skill development in interviewing, administration and scoring of psychological assessment instruments, writing of reports, consultation with referral sources, and supervision. A team training model is used with close supervision by the instructor. Available for variable credit and for repeated enrollment. Prerequisites: PSYC 641, PSYC 642 or their equivalents, and instructor permission.

#### PSYC 798 Advanced Psychological Practicum

-21 cr

Provides supervised experience in applied settings. Variable credit depending on setting. **Prerequisite:** Permission.

#### PSYC 799 Internship

3 cr.

An in-depth supervised experience designed to assure a professional level of competence in several skill areas and to assist in developing an identity as a health care professional. May be taken full-time for twelve months or half-time for twenty-four months. **Prerequisite:** Permission

#### PSYC 850 Thesis

1-6 cr.

A supervised research project approved by a committee of faculty members. A thesis proposal must be approved by the end of the third full semester of graduate work, and the finished thesis must be defended within the following year. Students enroll for three semester hours for two semesters

#### PSYC 950 Doctoral Project (Dissertation)

0.00

A culminating scholarly activity requiring the mastery of an area of professional interest. Requires a review of relevant literature and the collection and analysis of data. An oral presentation of the proposal and an oral defense of the finished product are required.

# QBUS: Quantitative Business

Department of Management Information Systems and Decision Sciences

Eberly College of Business and Information Technology

#### QBUS 500 Foundations of Business Statistics

A conceptual course designed to familiarize students with the basic techniques for obtaining, organizing, summarizing, analyzing, presenting, interpreting, and acting upon numerical activities. Topics include descriptive statistics, random variables, probability distributions, statistical sampling and survey methods, testing of hypotheses, analysis of variance, regression analysis, and time series Major attention is given to identifying and describing the process involved in carrying out a statistical analysis and how statistical methods may be used within the managerial and business decision process.

# QBUS 601 Data Analysis and Decision Making

cr.

Familiarizes students with statistical techniques for making comparisons and predictions about a population based on sample date. Maior attention is given to identifying and describing the process involved in carrying out a statistical analysis and how a variety of desktop tools and statistical packages may be used within the managerial and business decision process. Topics include analysis of variance, regression (linear and multiple), time series, statistical process control, decision analysis, linear programming, and simulation.

#### QBUS 602 Seminar in Management Science

3 € г.

Builds upon the basic concepts, developed in QBUS 601, dealing with the theory and application of mathematical models in an organizational environment. Intended for the student who will actually be working with such models in his/her future occupation. Includes more advanced methods of linear programming, nonlinear programming, dynamic programming, and simulation. Prerequisite: QBUS 601.

# QBUS 604 Seminar in Methodology of Business Research

3 cr.

Helps students acquire a basic understanding of the research process and a knowledge of the research methods needed in the design and execution of a competent applied behavioral research. Emphasizes measurement and scaling, survey research, and data analysis Prerequisite: QBUS 601

# RHAB: Rehabilitation

Department of Special Education and Clinical Services College of Education and Educational Technology

#### RHAB 590 Improving Professional Practice in Instructional Settings and

1-3 cr.

# RHAB 591 Improving Professional Practice in

Instructional Settings

1-3 cr.

Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergalten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree. Prerequisite: Appropriate teaching certificate or other professional credential or preparation.

# SAFE: Safety Sciences

Department of Safety Sciences

College of Health and Human Services

#### SAFE 520 Law and Ethics in the Safety Profession

3 CT.

Exammes ethical and legal issues faced by practicing safety professionals. Students identify and evaluate these issues in terms of their own value system, as well as legal and prudent practice within the safety, health, and environmental profession. Case studies and anecdotal presentations are used to examine common issues and to prepare the students for their potential roles as expert witnesses in various forms of litigation. Specific reference is made to participation of the safety professional in workers' compensation cases, Occupational Safety and Health Review Commission hearings, class action suits, and trials by jury. Prerequisites: Permission of the instructor.

#### SAFE 541 Accident Investigation

3 cr.

113

Focuses on the various aspects of accident investigation such as recent theories associated with accident causes, investigative techniques, data acquisition, structure of investigative reports, management responsibilities, and remedial actions. Emphasizes determining sequence of events to develop management actions which will prevent recurrence of accidents. Prerequisite: Permission of instructor

#### SAFE 542 Current Issues in Safety

3 ст.

Examines the emerging issues currently faced by the safety, health, and environmental (SH&E) practitioner that extend beyond the conventional areas of academic preparation. In addition to exploring certification, ethics, compliance issues, quality management, worldwide concerns, and other common issues, each student will research and present information on a specific item of current relevance in the safety profession. Prerequisites: SAFE 211 and SAFE 301 or permission of the instructor.

#### SAFE 543 Construction Safety

2 cr

In-depth coverage of hazard recognition, evaluation, and control principles used for the variety of phases of construction. Information regarding the development of a construction safety program along with extensive coverage of federal standards related to the construction industry is also provided.

Prerequisite: SAFE 211 or permission of the instructor.

#### SAFE 561 Air Pollution

3 cr.

Focuses on the various major aspects of the air pollution problem. These include sources of pollution, evaluation and engineering control of pollutants, government regulations, atmospheric chemistry and dispersion, and human and nonhuman effects. Emphasizes information that is practical for the safety sciences and industrial health professionals. **Prerequisites:** CHEM 101 and 102 or equivalent and SAFE 301 or equivalent courses or permission of the instructor.

# SAFE 562 Radiological Health

3 c

Studies of problems associated with ionizing radiation in the human environment. Emphasizes biological effects, radiation measurement, dose computational techniques, exposure control, and local and federal regulations. The study and use of various radiological instruments are included.

Prerequisite: PHYS 112 and SAFE 301, or permission of instructor.

## SAFE 565 Right-to-Know Legislation

3 (1

Covers both the federal and selected state right-to-know laws and related legislation. The scope, application, and enforcement of the various laws, including specific legal and moral obligations, are discussed. Strategies are explored and developed to identify the means by which employers can gain compliance with regulatory requirements. **Prerequisites:** SAFE 301 and SAFE 311 or permission of the instructor

#### SAFE 581 Special Topics

3 cr.

A dual-level elective offering in which the specific topic may vary from one term to the next. **Prerequisite:** Permission of the instructor

#### SAFE 602. Research Methods in Safety Management.

Prepares individuals for the conduct of research in safety and its numerous subspecialties. Research paradigms, experimental design, data sources and collection, and statistical methods are covered in detail. The emphasis throughout is on quantitative approaches likely to produce valid new knowledge in the discipline of safety management. Prerequisites: MATH 217 or permission of the instructor.

#### SAFE 603. Human Relations in Safety Management.

Integrates various behavioral science theories into the practice of safety management. Areas covered are motivation, communications, managerial interactions, and controlling worker behavior as it relates to accident causation Prerequisites: PSYC-101 and MGMT-642 or permission of instructor

#### SATE 604 Industrial Toxicology

Principles and techniques for evaluating toxicological properties of chemical substances are studied with particular emphasis on extrapolation of information to determine permissible exposure limits in the workplace. Acquaints students with requirements for operating an animal toxicology facility as well as means of obtaining relevant human experience data. Prerequisites: CHEM 101, CHEM 102, MATH 217 or permission of instructor.

# SALL 605 Application of Safety Engineering Principles

Prepares the student with a fundamental understanding of those hazards which can contribute to accidental many and damage. These hazards are studied in an engineering context, their physical and chemical characteristics are studied in depth in order to make the appropriate hazard control measures better understood. Prerequisites: SAFE 211 and PSYC 112 or permission of the instructor.

#### SAFE 606 Hazardous Materials Management

Examines the technical and management aspects of handling hazardous materials, including hazardous waste. Definitions and the procedures for determining hazard properties are reviewed. The student is introduced to the various regulations that pertain to hazardous materials. Responsibilities for creating receiving, storing, handling using, shipping and ultimately disposing of hazardous materials are discussed in detail. Examination of current trends and tuture directions is included. Prerequisites: SAFE 311, CHEM 101, and CHEM 102 or permission of the instructor.

#### SAFE 610 Safety, Health, and Environmental Administration 3 c

Examines administrative concepts and principles regarding organizing and managing the functional areas of safety, health, and the environment within an organization. Students are introduced to management practices unique to SH&E programs as well as concepts related to organizational culture, labor relations, professional ethics, workers compensation, and medical management

#### SAFF 620 Safety Data Management

Covered are design of loss modent source documents and code dictionaries, procedures to collect accident cost and cause data, accident cause analysis, and data for management accountability and decision making. Prerequisites, SALE 412 or permission of instructor.

## SAH 621 Programming Safe Behavior

Students learn to apply behavior principles to motivate sate behavior (SB) in the workplace. Included are Programming Sate Behavior, SB program funding proposals, employee performance analysis, sate behavior definitions, workplace motivations and incentives, and SB program design, implementation, and exalitation. Prerequisites: Permission of the instructor.

#### SAFE 623. Advanced Safety Administration.

Analyzes the programming denotine for its procedures, organizations, policies and departmental competencies as they relate to safety. Whis to audit and improve management's safety effectiveness are covered. Prerequisites: SAFF-BLF or permission of instructor.

#### SAHE 624 Solving Safety Problems

Students are presented with common scenarios that safety professionals fact while frying to advise management on ways to present accidents. Students use problem solving skills and safety knowledge to deal offer treely with and resolve dety management problems such as being issigned a safety responsibility that safetily another managers responsibility and having objections rused about ones proposed project plan. Prerequisites. SALE 603 or permission of the structor.

# SAFE 625 Risk Strategies for the SH&T Professional

foordes the student with a thorough understanding of the fundamentals of risk of oragement, including leading edge risk identification, control, linance, and transfer recommendations. Addresses workers, compensation, product risk in magement, constitution in sharing montals, living, appropriams.

atastrophic risk management, quantitative methods, risk finance, and risk management technology

#### SAFE 612 Advanced Mine Salety Engineering

Provides an understanding of advanced subjects concerned with mine health and safety. Details the cost-benefit analysis of each phase of the mineral industry and the design features of various mining operations of the United States. Prerequisites: SAFE 232 and SAFE 401 or permission of instructor

#### SAFE 614. Preventing Unsafe Acts

3 ст.

Accident cause analysis narrowed to behavior analysis to determine motivation problems and behavior skill deficiencies with appropriate intervention techniques are covered. Costs benefit analysis of accident costs versus training program benefits and OSHA training requirements are presented. Proposals for funding of training programs as well as writing behavioral objectives are covered. Course descriptions and course, unit, and lesson outlines as well as lesson plan development are presented. Lesson plan presentations and evaluation techniques are included.

#### SAFF 645. Principles of Occupational Safety.

ler

Provides the student with fundamental knowledge of the technical and managerial aspects of the safety and health function within an organization. The effects of loss incidents, accident causation, safety and health legislation, and safety program development are among the managerial aspects covered. The technical aspects of the course focus on the recognition, evaluation, and control of common safety, Irie, and repetitive motion hazards in the workplace. Does not count toward degree requirements for the M.S. Degree in Safety Sciences.

#### SAFE 647 Applied Ergonomics

3 ст.

Ergonomic principles used in the identification, analysis, and implementation of intervention strategies to address hazards in the workplace are presented. Focus is on the application of strategies to identify and correct ergonomic problems in the workplace using evaluation equipment and video case studies of actual workplace situations. **Prerequisites:** BIOL 155 or permission of the instructor

# SALL 660 Applied Industrial Hygiene

3 cr.

Examines the current expectations and responsibilities of professionals engaged in the practice of industrial bygene. Students become familiar with 1) the current approaches to anticipating and identifying potential health hazards in the workplace and or environment, 2) methods and techniques for determining quantitatively the amount of environmental stresses present, and 3) proper strategies and methods for implementing effective controls. Prerequisites:
BIOT 155, SALE 301, SAEE 303 and SAEE 302 or permission of the instructor

#### SAFE 663. Industrial Hygiene Laboratory Methods

Laboratory methods germane to industrial hygiene sampling and analytical methods are studied in depth. Introduces a variety of laboratory procedures as well as biological monitoring. Sampling and analytical statistics are also emphasized. Prerequisites: SAFF 302 and SAFF 303 or permission of instructor.

#### SAEL 664 Industrial Noise Control.

3 Cr.

Provides an understanding of the physics of sound, functioning of the human hearing mechanism, instrumentation for measuring sound levels, and application of control strategies. I highbasis is placed on engineering controls, although administrative controls and use of personal protective equipment are discussed as well. Components of an overall continuing, effective hearing conservation program are reviewed in detail.

# SALE 66" Principles of Occupational Health

3 cr.

Provides comprehensive coverage of the industrial hygienists responsibility for recognition, evaluation, and control of environmental stressors arising in or from the workplace. Students learn how to recognize and evaluate exposures to chemical, physical, and biological hazards. Emphasis is also placed on the identification of appropriate control strategies, including program development and evaluation. This course will not count toward meeting the degree requirements for the M.S. Degree in Safety sciences.

## SATE 672 Process Safety in the Chemical Industries

3 (t.

Designed to cover all important aspects of lot an overation, is it is practiced in the chemical process industries. Seeks to preparte the safety professional so that he sale may be able to work more effectively with chemists and chemical engineers in joint hazard identification, evaluation, and control projects.

Prerequistic: SAFT 311 or equivalent or permission of instructor.

## SAH 673 Disaster Preparedness

3 CE

Principles and techniques for preparing for various types of disasters. Students are acquiunted with requirements necessary to develop workable plans for natural and industrial types of disasters. Loss prevention measures are

#### SAFE 674 Fire Safety in Building Design

Examines fundamental principles for the safe design of buildings from a fire

hazard standpoint. Emphasis is given to an understanding of building codes. fire properties of building materials, building design criteria to limit the spread of fire and smoke, control of ignition sources, storage of combustibles and flammables, life safety, and active fire protection systems - Prerequisite: SAFE 311 or permission of instructor.

#### SAFE 681 Special Topics

A graduate-student-only elective offering in which the specific topics may vary

from one term to the next. Prerequisite: Permission of instructor

#### SAFE 699 Independent Study

Study in depth of a topic not available through other course work. Student works with supervising faculty member on carefully planned, student-initiated project. Prior approval is necessary Prerequisite: Permission of instructor

#### SAFE 850 Thesis

The thesis will require a committee review with one faculty member serving as the student's advisor. The committee will also include two additional faculty members and a representative of the dean of the College of Health and Human Services. Prerequisite: Permission of instructor

# SAHE: Student Affairs in Higher Education

Department of Student Affairs in Higher Education College of Education and Educational Technology

# SAHE 590 Improving Professional Practice in

Instructional Settings and

#### SAHE 591 Improving Professional Practice in Instructional Settings

1-3 cr.

Reviews current research in instructional practices, motivational techniques. and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade twelve, elementary, middle school, secondary, or adult orientation. Offered only for continuous professional development and may not be applied toward a graduate degree Prerequisite: Appropriate teaching certificate or other professional credential or preparation

#### SAHE 621 History of Higher Education in the United States

Growth and trends in higher education with emphasis on the twentieth century In addition to the traditional modes of postsecondary education, continuing education programs, community colleges, and adult education will also be examined. A secondary focus will be the evolving role of student affairs

#### 3 cr. SAHE 624 Student Affairs Functions in Higher Education

Overview of student affairs work in higher education, highlighting functional areas of student affairs, organization, philosophy, and the role of the services applied to the institution and the profession.

#### SAHE 625 Theories of Personality and Human Development

Designed to expose students to a variety of theoretical models underlying human behavior and development. Through presentations, demonstrations, small group discussions, experiential activities, readings, and position papers, students evaluate the practical applications of contemporary personality and human development theories

#### SAHE 631 Student Development in Higher Education

Provides an overview of student development theories and the student development model. Includes the application of assessment, goal setting, intervention strategies, environmental management, and evaluation in higher education settings. Explores issues such as changing sex roles, sexual identity, life planning, and needs of special student groups

# SAHE 631 Assessment and Evaluation in Student Affairs

An overview of the fundamental principles of tests, assessment, and evaluation as they pertain to student affairs. Statistical measurement concepts, methodological principles in survey research, instrumentation for developmental and environmental assessment in student affairs, outcomes assessment, and program evaluation issues will be explored. Prerequisites: SAHE 621, SAHÊ 624, and SAHE 625

#### SAHE 638 Topical Areas in Student Affairs

Provides the graduate student an opportunity to examine four areas of content related to the study of student affairs (technology, academic governance, law,

and the community college) in higher education that have an impact on the student affairs profession and the work of practitioners

#### SAHE 640: Cultural Pluralism in Higher Education

An overview of the issue of cultural pluralism in higher education. Encourages the development of culturally effective student affairs practitioners who will promote cross-cultural understanding among college students. Examines the projected demographic realities for the groups traditionally termed "minority" and explores notions of culture, oppression, marginalization, racial identity, and multicultural organizations. Exposure to these issues will occur in both the theoretical and personal realms with student introspection and participation intended as key features of the course

#### SAHE 646. Interpersonal Sensitivity

3 cr.

Participants explore their interpersonal interaction style in groups and individually. Human potential of the students is developed as they enter into authentic, honest, and trusting relationships within the context of a small-group experience, encouraging an examination and understanding of oneself and one's impact on others.

# SAHE 681 Special Topics

#### SAHF 731 Practicum in Student Affairs

Affords the student an opportunity to gain practical experience in dealing with theories of his/her specialties. Includes one or two semesters in one of the student affairs offices at IUP or another institution under the leadership of a departmental director or coordinator.

#### SAHE 733 Management of Organizational Behavior in Higher Education

Teaches managerial concepts and skills for managing student personnel programs or services. Concepts covered include the Process School of Management, Situational Leadership, Ethics, and Management Theory models

#### SAHE 735 Individual and Group Interventions

Practical experience in skilled helping techniques, including practice in one-onone interaction, skill in designing and implementing developmental group intervention (workshops), and skill in developing mentoring relationships Students apply theoretical learning into practical application. Prerequisites: SAHE 621, SAHE 624, SAHE 625, and SAHE 631

#### SAHE 737. The American College Student

Examines the culture of undergraduate students in American higher education to prepare professionals for the clients they will serve. Focuses on the changing student clientele and its subgroups and cultures. Undergraduate characteristics, attitudes and values, and broad issues regarding their participation in the educational experience are explored

#### SAHE 740 Contemporary Issues in Higher Education

Introduces students to a variety of current issues in higher education that have a diamatic impact for students, the student affairs profession, and the work of student affairs administrators. Strategies to address major issues are discussed

## SAHE 850 Thesis

3 or 6 cr.

# SDR: Interdisciplinary Program

College of Natural Science and Mathematics

#### SDR 600-1 ffects of Biological Materials Use

5 cr.

This is the biology course associated with Level 4. Advanced Characterization of Unknown Substances, a module of chemistry, biology, and radiology nuclear physics courses developed for first responders in the Weapons of Mass Destruction (WMD) community. Investigation and analysis of current status of bioteriorism as it relates to different microbes and potential bioteriorism agents. Integrates advanced safety techniques in handling inicrobes with basic principles and facts of microbiology, microscopy, and microbe identification using molecular, biological, and immunological techniques. Features in-depth discussion of principles and applications of polymerase chain reactions Hands on training is complemented by formal lectures. Prerequisites: BIOL 111, 112 and 250, CHEM 232 and BIOC 301-311 (biochemistry lecture and lab) or equivalent or instructor permission, and local, state, or federal agency/organization authorization

#### SDR 601 Advanced Characterization Theory and Practical Applications

Using GC MS, FT-IR, and Organic Chemistry

This is the chemistry course associated with Level 4. Advanced

Characterization of Unknown Substame, a module of chemistry, biology, and

INDIANA UNIVERSITY OF PENNSYLVAN A 2005-2006 GRADUATE CATALOG

SDR 602. Short and Long Term Effects of Radiological Materials Use. 2 cr. This is the radiology nuclear physics course associated with Level 4. Advanced Characterization of Unknown Substances, a module of chemistry, biology, and radiology nuclear physics courses developed for first responders in the Weapons of Mass Destruction (WMD) community. Designed for experienced first responders with significant prior knowledge in general physics concepts, this course is an advanced level course in radiation detection and radiology. It provides effective training on radioactive materials, radiation detection, identification of isotopes, quantifying materials (activities of the sources) dispersed in an area, and radiation dosimetry to estimate exposure and radiological consequences. This advanced-level course requires the understanding and application of the theoretical concepts using the scientific methods, analysis, synthesis, and complex problem solving skills in radiation and radiological physics. Prerequisites: PHYS 111, 112, 121 and 122 or equivalent or permission of instructor, and local, state, or tederal

SDR 603 Advanced Field Experience in Disaster Response 6 cr. Designed to provide students with an opportunity to apply classroom learning to response to real and mock incidents that involve chemical, biological, radiological, and nuclear (CBRN) weapons. The students are required to analyze, interpret, and draw conclusions based on the data collected and to make the appropriate response call. Prerequisites: SDR 600, 601, and 602 and local, state, or federal agency organization authorization.

Disaster Response 5 cr.
Introduction to advanced techniques and procedures used in biological research as they relate to assessing detrimental bioagents and intectious diseases. Examines advances in existing sensing technologies while introducing the latest innovations in bio-detection technologies. Prerequisites: SDR 600.

601 and 602, and local, state, or federal agency-organization authorization

# SOC: Sociology

agency organization authorization

Department of Sociology
College of Humanities and Social Sciences

SDR 610 Advanced Techniques in Biotechnology for

SOC 527 Spouse Abuse

Considers the range of theoretical explanations for the pervasive violence between husband and wife, cohabitating partners, or dating couples. Research on spouse abuse and its implications for treatment programs, criminal justice.

on spouse and a simplications for treatment programs, crimina insuce intervention, and social policy are discussed

SOC 528. Child Abuse

3 c

The prevalence, ethology, and sucial implications of physical, sexual, and emotional abuse and child neglect are examined. Intervention strategies for individual perpetrator and victim and for the family unit and prevention strategies for the community are also presented and critiqued.

SOC 542 Social and Cultural Aspects of Health and Medicine
Review of fields of medical sociology and anthropology, tocuses on such topics
as social background of illness, tolk medicine, cultural differences in
perceptions of health, and social organization of health facilities.

SOC 552 Disability and Society. 3 cr. Analyzes disability from a sociological perspective. Includes a consideration of historical and current views of disability and a review of related concepts from the fields of medical sociology and the sociology of deviance. Also includes an analysis of the effects of disabilities on individuals and families through the life course and a consideration of related ethical, economic, political, and social policy issues. The emphasis is on disability as a social construction.

5OC 581 Special Topics in Sociology 3 6 cd Seminar focuses on specialized areas in the discipline not covered by regular courses. Students do extensive reading in the area. Courses may be repeated under different subtitles.

## SOC 610. Sociology of Human Services

Introduction to the theoretical and applied roles of human services in our society. Organizational theories, delivery systems models, and implementation issues are discussed.

#### SOC 611 Human Services Administration

Examines the management of human service agencies, including personnel supervision, financial planning, public relations, and social policy issues. Evaluation design, program monitoring, and social impact measurement are also discussed.

#### SOC 612. Methods for Human Service Practitioners.

Enables students to apply sociological methods such as observation, interviewing, and questionnaire development to direct service situations. Students work with service users in area agencies to help them identity their resources, concerns, and priorities and to develop family service plans.

#### SOC 621 Sociology of Health Care

I xamines the contrasting perspectives in the field of medical sociology, the structure of health care institutions, and the operation of health care providers. The social, environmental, and occupational factors in health and disease are considered as well.

#### SOC 630. Seminar in Alcohol and Drug Abose.

The social and personal problems associated with alcohol and drug abuse are considered. Attention is given to the etiology, social factors, and economics of abuse, as well as to prevention and intervention issues.

#### SOC 632 Addiction and the Family

Assesses the impact of alcohol or drug addition on individuals and their tamilies. Research on addiction patterns, codependency, and family treatment is discussed. Special attention is given to gender and racial differences in addiction and their impact on the family.

#### SOC 636 Sociology of the Family

Involves the sociological analysis of the family from a variety of theoretical viewpoints such as functionalism, conflict theory, exchange theory, symbolic interactionism, systems theory, and developmental theory. Special emphasis is placed on the contemporary American family. However, cross-cultural and historical comparisons are made, with the focal theme being the "decline of the family". Specific topics covered include, gender, the family in historical context, power relationships and family toles, parent-child interaction, marital satisfaction, marital disruption, and the interrelationships between race ethnicity, social class, work roles, the family, and family policy.

Prerequisite: Graduate only

# SOC 638 Seminar on At Risk Children

Examines the impact of societal structures on children in the United States today. Emphasizes the adverse impact of poverty and related conditions, such as poor health care, neglect, homelessness, parental drug abuse, and neighborhood violence. Economic, political, and cultural factors that produce these conditions are reviewed and compared with those in other countries with better child outcomes. This review and comparison lead to a consideration of implications for social policy change.

#### SOC 642 Industrial Sociology

Examines structure and exercise of corporate power. Attention is given to relationships between industry, government, and communities and the transformation of the workplace in the twentieth century.

#### SOC 650. Gender and Society

Considers the position of women and men in society. Examines current perspectives and research on the nature of gender differences and causes of gender inequality. Explores how gender is structured and maintained in both public and personal lives, in such arenas as family, education, and work and in gendered interactions of friendship and love, sexuality, and violence.

# SOC 654 Social Inequality

Examines central theoretical perspectives on social inequality. Considers such topics as the nature of social classes and inequality, characteristics of working class, poor, and super-rich, gender and racial inequality, and how social policies affect inequality in the United States.

## SOC 656 Social Change

Explores nature and consequences of social change, alternative theoretical perspectives on social change, and how social change might be implemented. Also discusses lessons to be learned from various planned change efforts.

# SOC 657. Aging and Society

Focuses on the social problems encountered by aging individuals in various

NO ANALY, IFROIT STAPPHINGS , AN ALOTE INFO GRADIATE CATALOG

116

societies. The impact of sociological factors, such as social class, ethnicity, and technological change, on the lives of the elderly are studied. The institutional structures and services designed to cope with changing demographics are also discussed.

#### SOC 662 The Sociology of Deviance

3 cr.

Relationship between individual deviance and social and cultural factors is examined. How different groups set limits for acceptable behavior is analyzed in comparative and historical context

of theory and research. Special attention given to development of thesis

#### SOC 664 Research Seminar in Sociology

professional credential or preparation

SPLP 600 Neurolinguistics

An overview of basic anatomy of those portions of the central nervous system that control linguistic functions, hypotheses accounting for evolution of the linguistic system, and the neurological control of human communication Prepares the student for advanced study of speech and language development and neurogenic communication disorders of children and adults. Prerequisite: Graduate status in Speech-Language Pathology or permission of the instructor

twelve, elementary, middle school, secondary, or adult orientation. Offered only

for continuous professional development and may not be applied toward a

graduate degree Prerequisite: Appropriate teaching certificate or other

Examination of diverse research designs in the social sciences. Focuses on

proposal. Required for M.A. in Sociology

understanding and critique of designs in the social sciences and on integration

SPLP 604 Diagnostic Methods 3 cr. Evaluation of tests and techniques of diagnosis of speech and language disorders, interpretation of results and planning appropriate, subsequent case management. Interviewing techniques appropriate to case history taking

SOC 665 Microcomputing Applications in Sociology Analysis of data for social research, human service agencies, or policy

Writing of diagnostic and case-history reports. SPLP 610 Articulation

organizations. Students develop database management systems which can be applied to social research, human service agencies, or policy organizations, as well as spreadsheets for program budgeting, evaluations, and forecasting Required for M.A. in Sociology. Prerequisite: COSC 101 or equivalent

Linguistic approach to articulatory process and analysis of misarticulation as symptoms of language dysfunction, variables related to articulatory mastery, programmed, traditional, and sensory-motor methods of modifying articulatory behavior

SOC 667 Contemporary Sociological Theory

SPLP 616 Stattering 3 cr. Nature and causes of stuttering. Emphasis on diagnosis and management Counseling and learning theory application as two main approaches to treatment. Consideration of the person as a stutterer. Review of pertinent and

Scientific principles of voice production and modification with emphasis on physiology, pathologies, or malfunctioning which produce voice defects, relationship between disorders of voice and personality; diagnostic and

therapeutic considerations for both organic and psychogenic disorders,

Examination of major systems of sociological theory and major theoretical controversies vying for attention in contemporary sociology. Emphasis given to theories in macrosociology, especially functionalism, neo-Marxian conflict theory, and societal evolutionism. Required for M.A. in Sociology

> recent research topics SPLP 618 Voice

counseling

SOC 681 Special Topics in Sociology

SOC 698 Internship

Seminar focuses on specialized areas in the discipline not covered by regular courses. Students will do extensive reading in the area. Courses may be repeated under different subtitles.

3-6 cr.

Supervised experience in public or private organizations that extends and complements classioom instruction. Students gain practical experience and apply their skills to human service agencies, policy organizations, or research settings. Prerequisite: Permission

SPLP 630 Language Disorders of Children

including the laryngectomized

Anatomical, physiological, psychological, neurological, and environmental factors related to language delay or disordered language acquisition. An inventory of language skills and means of fostering their development or compensating for inadequacies, a holistic versus specific approach to programs of remediation Prerequisite: SPLP 600.

and management of persons with aphasia, agnosias, apraxias, and dysarthrias

will be emphasized, as well as the role of the family in rehabilitation and family

Consideration of language, speech, and related problems resulting from neurological insult. Neurological dysfunctioning will be highlighted. Diagnosis

SOC 699 Independent Study in Sociology

3-6 cr.

Students wishing to specialize beyond course work are encouraged to work on a one-to-one basis with faculty members in independent study. Students may elect up to a total of six semester hours of independent study

SOC 701 Social Policy Issues in Organizations

Analyzes impact and implementation of selected social policies (e.g., affirmative action, sexual harassment, substance abuse policy) in human organizations Assesses efforts to enhance and respond effectively to ethnic, racial, social class, and gender diversity in organizations

SOC 764 Seminar in Applied Human Services Research

Emphasizes analytical tools and methodologies relevant to students in human services administration and serves as the foundation for the completion of the students' field experience and dissertation research requirements. Projects are assigned to facilitate an in-depth understanding and working knowledge of social science research processes, methodologies, and analytical tools, with emphasis on those especially applicable to program evaluation and needs assessment. In addition, by the end of the course, each student should have identified a dissertation topic and developed a preliminary dissertation research design. Prerequisites: SOC 664 and GSR 681 Statistics for Human Services

For the student writing the thesis. A thesis proposal must be submitted to the department's graduate coordinator and approved by the Sociology Graduate

Committee prior to registering for thesis credits. A completed thesis involves a

SPLP 635 Seminar in Communication

SPLP 632 Neurological Communication Disorders

Intensive study of one or more areas of speech science, speech and language pathology, or audiology. Topics vary to meet the student's needs and interests Course may be repeated for credit with a change in area considered Prerequisites: Speech-Language Pathology major, admission to degree candidacy, and advisor approval

SOC 850 Thesis

SPLP 640 Diagnostic Audiology Identification and description of types of hearing impairment by standard audiometric procedures including pure tone, speech, and site of lesion batteries. Testing of special populations as well as evaluation for fitting of amplification.

student's thesis advisor and two additional faculty members

SPLP 661 Advanced Chincal Practicum I Supervised practicum experience in the University Speech and Hearing Clinic

with individuals exhibiting speech, language, and/or hearing dysfunction Planning and administration of programs of therapy plus interviewing, diagnosing, counseling, and report writing.

SPLP: Speech-Language Pathology

SPLP 662 Diagnostic Clinic Supervised practicum experience in performing in-depth diagnostic evaluations

1 cr.

Department of Special Education and Clinical Services College of Education and Educational Technology

supervised research project approved by a committee composed of the

with individuals exhibiting any type of speech, hearing, or language dysfunction. Experience in taking case histories, conferring with patients, and report writing

SPLP 590 Improving Professional Practice in Instructional Settings 1-3 cr.

SPLP 663 Hearing Testing Chnic Supervised practicum experience in performing diagnostic audiological tests.

SPLP 591 Improving Professional Practice in Instructional Settings 1-3 cr. Reviews current research in instructional practices, motivational techniques, and professional issues. May focus on any of these aspects of teaching, learning, or professional practice. May be presented with a kindergarten through grade

INDIANA UNIVERSITY OF PENNSYLVANIA 2005-2006 GRADUATE CATALOG

#### SPLP 671 Advanced Clinical Practicum II

Similar to SPLP 661, students assume more responsibility, and experience may take place at approved off campus sites. Prerequisite: SPLP 661

#### SPLP 681 Special Topics

#### SPLP 696. Internship in Hospitals

Supervised clinical experience in off-campus hospital settings with individuals exhibiting speech, language, and/or hearing dysfunction. Planning and implementing programs of therapy plus interviewing, diagnosing, counseling, and report writing. Prerequisites: Methodology and on campus practicum. courses, permission of graduate coordinator.

# SPLP 697 Internship in Community Agencies

Supervised clinical experience in off campus community agency settings with individuals exhibiting speech, language, and or hearing dystunction. Planning and implementing programs of therapy plus interviewing, diagnosing, counseling, and report writing. Prerequisites: Methodologs and on-campus

practicum courses, permission of graduate coordinator

# SPLP 698. Internship in Schools

6 cr.

Supervised clinical experience in school settings with individuals exhibiting speech, language, and or hearing dysfunction. Planning and implementing programs of therapy plus interviewing, diagnosing, counseling, and report writing Prerequisites: Graduate methodology, on-campus practicum courses, permission of graduate coordinator, and undergraduate Professional Education Sequence

#### SPLP 850 Thesis

3 cr.

## THTR: Theater

Department of Theater and Dance College of Fine Arts

# THTR 586 Practicum in Production

1-6 cr.

An opportunity with academic credit for students to make significant contributions to campus productions augmenting theater course work in the areas of assistant directing or directing, stage management, technical direction, sound design, lighting, costuming, scene design, properties and set decoration, scene building, and painting and make up design. May be repeated for a maximum of six credits. Prerequisite: Permission.

# THTR 693 Internship

Supervised working experience in the context of a professional theater environment in a company employing professional actors, directors, and or designers Prerequisite: Permission

#### VOED: Vocational Education

Center for Vocational-Technical Personnel Preparation School of Continuing Education

VOED 600 Curriculum Development and Vocational Education 3 cr.

Emphasis is on processes for making curriculum decisions and guiding others in developing and updating curriculum for vocational education. Current occupational standards and societal needs, as well as state and federal regulations governing vocational education, are used as a basis for curriculum decisions

#### VOFD 601 Curriculum and Instructional Leadership in Vocational Education

3 cr.

Curriculum management skills are developed and utilized to plan and organize vocational curriculum. Focus is on practical curriculum decisions when they involve guiding other staff in curriculum development for vocational education

#### VOLD 602 Conference Leadership and Communication Methods in Vocational Education

Basic concepts in supervision of vocational programs are reviewed. Human relations, communications, processes, decision making, helping conferences, and leadership strategies are emphasized. Students demonstrate ability to perform supervisory skills in an individualized manner in an actual vocational school situation supplemented by seminars.

VOED 603 Management of Instruction for Vocational Education

Classroom instructional tasks performed by the vocational educator are studied, including procedures, materials, and learning and instructional styles Emphasis is on leadership strategies and processes to guide and assist other vocational instructors. Skills are developed in an individualized, self-paced manner in an actual vocational school situation supplemented by seminars

VOED 604 Curriculum Supervision in Vocational Education

Emphasizes skills needed to provide leadership in supervision of faculty and staft. In consultation with his or her advisor, each student identifies areas that need enhancement in vocational settings. Skills are developed in an individualized, self-paced manner in an actual vocational school situation supplemented by seminars

# VOED 605 Policy Administration

3 cr.

Develops skills to communicate vocational school policies and activities effectively with staff, students, and community. Includes study of student recrustment for vocational programs and maintenance expansion utilization of school facilities. In consultation with his or her advisor, each student will identify those areas that need further refinement. The student will develop and perform each requisite skill in an individualized, self-paced manner in an actual vocational school situation supplemented by seminars
